

**WAC 246-918-260 Physician assistant-surgical assistant (PASA)—Use and supervision.** The following section applies to the physician assistant-surgical assistant (PASA) who is not eligible to take the NCCPA certification exam.

(1) Responsibility of PASA. The PASA is responsible for performing only those tasks authorized by their participating physician(s) and within the scope of PASA practice described in WAC 246-918-250. The PASA is responsible for ensuring their compliance with the rules regulating PASA practice and failure to comply may constitute grounds for disciplinary action.

(2) Limitations, geographic. No PASA may be used in a place geographically separated from the institution in which the PASA and their participating physician are authorized to practice.

(3) Responsibility of supervising physician(s). Each PASA shall perform those tasks they are authorized to perform only under the supervision and control of the supervising physician(s). Such supervision and control may not be construed to necessarily require the personal presence of their participating physician at the place where the services are rendered. It is the responsibility of their participating physician(s) to ensure that:

(a) The operating surgeon in each case directly supervises and reviews the work of the PASA. Such supervision and review shall include remaining in the surgical suite until the surgical procedure is complete;

(b) The PASA shall wear identification as a "physician assistant-surgical assistant" or "PASA." In all written documents and other communication modalities pertaining to their professional activities as a PASA, the PASA shall clearly denominate their profession as a "physician assistant-surgical assistant" or "PASA";

(c) The PASA is not presented in any manner which would tend to mislead the public as to their title.
