

**WAC 296-96-24103 Requirements for existing inclined elevators.**

Inclined private residence elevators shall comply with the rules adopted by the department that were in effect at the time the elevator was permitted, regardless of whether the rule(s) has been repealed, unless any new rule specifically states that it applies to all conveyances, regardless of when the conveyance was permitted. Copies of previous rules adopted by the department are available upon request.

If the department determines that an inclined private residence elevator was installed without a permit and/or without an inspection, the conveyance will be required to comply with the current rules adopted by the department unless documentation can be provided to determine the date the conveyance was installed (e.g., sales receipts, building permits, or other appropriate documentation).
