

WAC 296-806-46502 Provide auxiliary safety aids on press brakes.

Important:

This rule applies if the safeguarding method prevents the operator from holding the work piece during the closing of the stroke.

You must provide one of the following auxiliary safety aids that will allow operators to remove their hands from the work during the closing of the stroke:

- (1) Work supporting devices.
- (2) Magnetic material-position gages.
