Insurance Commissioner

NEW SECTION

WAC 284-170-250 Geographic rating area factor development. (1) For nongrandfathered individual or small group health plans offered, issued or renewed on or after January 1, 2014, if an issuer elects to adjust its premium rates based on geographic area, the issuer must use the geographic rating areas designated in WAC 284-170-252.

(2) The premium ratio for the highest cost geographic rating area, when compared to the lowest cost geographic rating area, must not be more than 1.15.

(a) King County is the index geographic rating area for purposes of calculating the premium ratio. The geographic rating area factor for the index area must be set at 1.00.

(b) A health-status related factor may not be used to establish a rating factor for a geographic rating area. Health factor means any of the following:

- (i) Health status of enrollees or the population in an area;
- (ii) Medical condition of enrollees or the population in an area, including both physical and mental illnesses;

- (iii) Claims experience;
- (iv) Health services utilization in the area;
- (v) Medical history of enrollees or the population in an area;
- (vi) Genetic information of enrollees or the population in an area;
- (vii) Disability status of enrollees or the population in an area;
- (viii) Other evidence of insurability applicable to the area.

(3) Assignment of a factor to a geographic rating area must be actuarially sound and based on provider reimbursement differences. An issuer must fully document the basis for the assigned rating factors in the actuarial memo submitted with a rate filing.

(4) The geographic rating area factors must be applied uniformly to individuals or small groups applying for or receiving coverage from the issuer.

(5) For out-of-state enrollees covered under a health benefit plan issued to a Washington resident, an issuer must apply the geographic rating area factor based on the primary subscriber's Washington residence. For out-of-state enrollees who are covered under a health benefit plan issued through an employer whose primary place of business is Washington, an issuer must apply the geographic rating area factor based on the employer's primary place of business.

(6) This section does not apply to stand alone dental plans offered on the Washington health benefit exchange.

NEW SECTION

WAC 284-170-252 Geographic rating area designation. (1) The following geographic rating areas are designated for Washington state for nongrandfathered individual and small group plans:

Area 1: Index geographic rating area: King County.

Area 2: Clallam, Cowlitz, Grays Harbor, Island, Jefferson, Mason, Lewis, Kitsap, Pacific, Pierce, San Juan, Skagit, Snohomish, Thurston, Wahkiakum, and Whatcom counties.

Area 3: Clark, Klickitat, and Skamania counties.

Area 4: Ferry, Lincoln, Pend Oreille, Spokane, and Stevens counties.

Area 5: Adams, Asotin, Benton, Chelan, Columbia, Douglas, Franklin, Garfield, Grant, Kittitas, Okanogan, Walla Walla, Whitman, and Yakima counties.

(2) The commissioner will review the geographic rating area designation in this section not more frequently than every three years, beginning January 31, 2016. The commissioner will publish changes in the geographic rating area designation within sixty days of the review date.

Mike Kreidler
Insurance Commissioner

AMENDATORY SECTION (Amending Matter No. R 2000-08, filed 1/9/01, effective 2/9/01)

WAC 284-04-610 Violation. A violation of this ((regulation)) chapter shall be deemed to be an unfair method of competition or an unfair or deceptive act and practice in this state.

NEW SECTION

WAC 284-04-625 Security breach notification requirements. (1) The commissioner defines failure to provide notice of security breaches in compliance with this section as an unfair practice for the following reasons:

(a) Many licensees fail or periodically fail to protect personal information and protected health information as defined in subsection (2)(a) and (b) of this section, resulting in security breaches affecting their customers or consumers.

(b) When a customer or consumer whose personal or protected health information has been breached seeks assistance from the commissioner, information about security

breaches and what actions a licensee is taking to protect customers or consumers must be available to the commissioner.

(2) All licensees must notify the insurance commissioner about the number of customers or consumers potentially affected and what actions are being taken in writing within two business days after determining notification must be sent to consumers or customers in compliance with RCW 19.255.-010 and 45 C.F.R. 164 pertaining to:

(a) A breach of personal information as defined in RCW 19.255.010 (4) and (5) that seems reasonably likely to subject customers to a risk of criminal activity; or

(b) A breach of unsecured protected health information as defined in 45 C.F.R. 164.402 which compromises the security or privacy of the protected information for licensees subject to 45 C.F.R. 164.

(3) For breaches of protected health information, licensees subject to 45 C.F.R. 164 must comply with the regulations (45 C.F.R. 164.400 through 164.410) adopted by the U.S. Department of Health and Human Services (HHS) governing these requirements including:

(a) Notification requirements for a security breach as defined by 45 C.F.R. 164.402, meaning an acquisition, access, use, or disclosure of protected health information in a manner not permitted by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule which compromises the security or privacy of the protected health information.

(b) Notifying individuals, and other entities described in 45 C.F.R. 164.404 through 164.410.

(c) Notifying affected entities without unreasonable delay and in no case later than sixty calendar days following the discovery of the breach.

(d) Notifying documents that contain:

(i) A brief description of what happened, including the date of the breach and the date of discovery of the breach, if known;

(ii) A description of the types of unsecured protected health information involved in the breach;

(iii) Any steps individuals should take to protect themselves from potential harm resulting from the breach;

(iv) A brief description of what the covered entity is doing to investigate the breach, to mitigate harm to individuals and to protect against any further breaches; and

(v) Contact information for individuals to ask questions or learn additional information.

PERMANENT RULES

PUBLIC DISCLOSURE COMMISSION

[Filed May 2, 2013, 1:18 p.m., effective June 2, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The public disclosure commission enforces RCW 42.17A.245, which requires candidates and political committees to file campaign contribution and expenditure reports electronically upon expending \$5,000 in the preceding year or expecting to expend \$5,000 in the current year. WAC 390-19-030 presumes that a candidate "expects to expend" \$5,000 or more when the candidate is seeking the

same office last sought, the election is in the current calendar year, and the candidate's expenditures in the previous election for the same office were \$5,000 or more. WAC 390-19-030 is being amended to require a returning candidate who spent \$5,000 or more on the last campaign for the same office to file contribution and expenditure reports electronically from the beginning of the campaign rather [than] wait until the calendar year in which the election will be held or until the current campaign has spent \$5,000.

Citation of Existing Rules Affected by this Order: Amending WAC 390-19-030.

Statutory Authority for Adoption: RCW 42.17A.110 and 42.17A.245.

Adopted under notice filed as WSR 13-07-012 on March 8, 2013.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 0, Amended 2, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 2, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: April 25, 2013.

AMENDATORY SECTION (Amending WSR 12-01-047, filed 12/14/11, effective 1/14/12)

WAC 390-19-030 Electronic filing—Reporting threshold. (1) The "electronic reporting threshold" that requires electronic filing of all contribution and expenditure reports is met when a candidate or political committee has expended \$5,000 or more in the preceding calendar year or expects to expend \$5,000 or more in the current calendar year.

(2) It is presumed that a filer "expects to expend" \$5,000 or more when any one of the following first occurs:

(a) A filer spends at least \$5,000;

(b) A filer is a candidate for the same office last sought (~~the filer's election is in the current calendar year,~~) and his or her campaign expenditures in the previous election for the same office were \$5,000 or more;

(c) A filer's expenditures meet or exceed \$1,250 on or before March 31 of the current calendar year;

(d) A filer's expenditures meet or exceed \$2,500 on or before June 30 of the current calendar year;

(e) A filer's expenditures meet or exceed \$3,750 on or before September 30 of the current calendar year; or

(f) A filer otherwise projects that \$5,000 or more will be spent during the current calendar year.

(3) The following expenditures or transactions are excluded from the electronic reporting threshold calculation:

(a) Expenditures made to pay outstanding debts carried forward from a previous election;

(b) Surplus funds disposed of in accordance with RCW 42.17A.430; and

(c) The value of in-kind contributions pledged or received within eight days of a special or general election.

(4) Candidate committees or political committees supporting or opposing ballot propositions that meet, exceed or expect to meet or exceed the electronic reporting threshold shall report electronically for the duration of the campaign.

PERMANENT RULES

PUBLIC DISCLOSURE COMMISSION

[Filed May 2, 2013, 1:19 p.m., effective June 2, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: Amend WAC 390-12-170 to eliminate the office of secretary from the public disclosure commission's (PDC) organizational structure.

Amend WAC 390-24-160 to (1) change the date by which the PDC annually receives names of professional staff from the governor, senate, and house of representatives for the purpose of enforcing RCW 42.17A.700 and (2) describe the procedures the commission will follow to make the information available to the public.

Citation of Existing Rules Affected by this Order: Amending WAC 390-12-170 and 390-24-160.

Statutory Authority for Adoption: RCW 42.17A.110.

Adopted under notice filed as WSR 13-07-011 on March 8, 2013.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 0, Amended 1, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 1, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: April 25, 2013.

AMENDATORY SECTION (Amending WSR 93-19-034, filed 9/7/93, effective 10/8/93)

WAC 390-12-170 Public disclosure commission—Organization and structure—Officers—Terms. The officers of the public disclosure commission for administrative purposes shall be chair((;)) and vice-chair ((and secretary)). Their terms shall be one year or until a successor is elected.

AMENDATORY SECTION (Amending WSR 12-03-002, filed 1/4/12, effective 2/4/12)

WAC 390-24-160 Definition—Professional staff member. (1) A professional staff member of the office of the governor and of the legislature includes all individuals retained on a full or part-time basis whose primary responsibilities require the exercise of judgment and discretion in policy related matters, including, but not limited to, such individuals who are involved in the development of legislation. A professional staff member does not include individuals retained primarily for clerical, ministerial, or internal accounting and bookkeeping purposes.

(2) ~~((To insure that the provisions of Referendum 36 and this rule are properly and fairly administered and to provide guidance to affected individuals, the commission, through its chair and executive director, shall confer annually in December with the governor, the secretary of the senate and the clerk of the house regarding the specific professional staff members believed to fall within the criteria set forth in subsection (1) of this section. The executive director shall submit a report of those conferences to the commission at its December meeting for approval, disapproval or modification, or other determination. Each determination shall be based on an annual review of the positions and personnel to be retained by the affected governmental bodies during the ensuing year and shall constitute the commission's administrative interpretation of the term "professional staff member" in RCW 42.17A.705 (2) and (3) and its application to such positions and personnel.))~~ The commission needs a complete and accurate list of professional staff members of the governor, the senate, and the house of representatives, in order to properly and fairly administer the personal financial affairs disclosure requirements applicable to executive state officers as defined in RCW 42.17A.705. Each December, the executive director shall ask the governor, the secretary of the senate, and the clerk of the house to provide the commission by January 15th, the names and positions of the professional staff members meeting the criteria set forth in subsection (1) of this section, who are expected to be retained during the ensuing year, and to provide periodic updates throughout the year as necessary to reflect changes in professional staff. The executive director will present to the commission the lists of professional staff members received from the governor, senate, and house of representatives and post the lists on the commission's web site.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 3, Repealed 0.

Date Adopted: May 7, 2013.

Joel Sacks
Director

AMENDATORY SECTION (Amending WSR 12-11-107, filed 5/22/12, effective 7/1/12)

WAC 296-20-135 Conversion factors. (1) Conversion factors are used to calculate payment levels for services reimbursed under the Washington resource based relative value scale (RBRVS), and for anesthesia services payable with base and time units.

(2) **Washington RBRVS** services have a conversion factor of \$55.34. The fee schedules list the reimbursement levels for these services.

(3) **Anesthesia services** that are paid with base and time units have a conversion factor of \$((3-22)) 3.25 per minute, which is equivalent to \$((48-30)) 48.75 per 15 minutes. The base units and payment policies can be found in the fee schedules.

AMENDATORY SECTION (Amending WSR 12-11-107, filed 5/22/12, effective 7/1/12)

WAC 296-23-220 Physical therapy rules. Practitioners should refer to WAC 296-20-010 through 296-20-125 for general information and rules pertaining to the care of workers.

Refer to WAC 296-20-132 and 296-20-135 regarding the use of conversion factors.

All supplies and materials must be billed using HCPCS Level II codes. Refer to chapter 296-21 WAC for additional information. HCPCS codes are listed in the fee schedules.

Refer to chapter 296-20 WAC (WAC 296-20-125) and to the department's billing instructions for additional information.

Physical therapy treatment will be reimbursed only when ordered by the worker's attending doctor and rendered by a licensed physical therapist or a physical therapist assistant serving under the direction of a licensed physical therapist. In addition, physician assistants may order physical therapy under these rules for the attending doctor. Doctors rendering physical therapy should refer to WAC 296-21-290.

The department or self-insurer will review the quality and medical necessity of physical therapy services provided to workers. Practitioners should refer to WAC 296-20-01002 for the department's rules regarding medical necessity and to WAC 296-20-024 for the department's rules regarding utilization review and quality assurance.

The department or self-insurer will pay for a maximum of one physical therapy visit per day. When multiple treatments (different billing codes) are performed on one day, the department or self-insurer will pay either the sum of the individual fee maximums, the provider's usual and customary charge, or ~~\$(+19.0+)~~ 119.96 whichever is less. These limits will not apply to physical therapy that is rendered as part of a physical capacities evaluation, work hardening program, or pain management program, provided a qualified representative of the department or self-insurer has authorized the service.

The department will publish specific billing instructions, utilization review guidelines, and reporting requirements for physical therapists who render care to workers.

Use of diapulse or similar machines on workers is not authorized. See WAC 296-20-03002 for further information.

A physical therapy progress report must be submitted to the attending doctor and the department or the self-insurer following twelve treatment visits or one month, whichever occurs first. Physical therapy treatment beyond initial twelve treatments will be authorized only upon substantiation of improvement in the worker's condition. An outline of the proposed treatment program, the expected restoration goals, and the expected length of treatment will be required.

Physical therapy services rendered in the home and/or places other than the practitioner's usual and customary office, clinic, or business facilities will be allowed only upon prior authorization by the department or self-insurer.

No inpatient physical therapy treatment will be allowed when such treatment constitutes the only or major treatment received by the worker. See WAC 296-20-030 for further information.

The department may discount maximum fees for treatment performed on a group basis in cases where the treatment provided consists of a nonindividualized course of therapy (e.g., pool therapy; group aerobics; and back classes).

Biofeedback treatment may be rendered on doctor's orders only. The extent of biofeedback treatment is limited to those procedures allowed within the scope of practice of a licensed physical therapist. See chapter 296-21 WAC for rules pertaining to conditions authorized and report requirements.

Billing codes and reimbursement levels are listed in the fee schedules.

AMENDATORY SECTION (Amending WSR 12-11-107, filed 5/22/12, effective 7/1/12)

WAC 296-23-230 Occupational therapy rules. Practitioners should refer to WAC 296-20-010 through 296-20-125 for general information and rules pertaining to the care of workers.

Refer to WAC 296-20-132 and 296-20-135 for information regarding the conversion factors.

All supplies and materials must be billed using HCPCS Level II codes, refer to the department's billing instructions for additional information.

Occupational therapy treatment will be reimbursed only when ordered by the worker's attending doctor and rendered by a licensed occupational therapist or an occupational therapist assistant serving under the direction of a licensed occupational therapist. In addition, physician assistants may order occupational therapy under these rules for the attending doctor. Vocational counselors assigned to injured workers by the department or self-insurer may request an occupational therapy evaluation. However, occupational therapy treatment must be ordered by the worker's attending doctor or by the physician assistant.

An occupational therapy progress report must be submitted to the attending doctor and the department or self-insurer following twelve treatment visits or one month, whichever occurs first. Occupational therapy treatment beyond the initial twelve treatments will be authorized only upon substantiation of improvement in the worker's condition. An outline of the proposed treatment program, the expected restoration goals, and the expected length of treatment will be required.

The department or self-insurer will review the quality and medical necessity of occupational therapy services. Practitioners should refer to WAC 296-20-01002 for the department's definition of medically necessary and to WAC 296-20-024 for the department's rules regarding utilization review and quality assurance.

The department will pay for a maximum of one occupational therapy visit per day. When multiple treatments (different billing codes) are performed on one day, the department or self-insurer will pay either the sum of the individual fee maximums, the provider's usual and customary charge, or ~~\$(+19.0+)~~ 119.96 whichever is less. These limits will not apply to occupational therapy which is rendered as part of a physical capacities evaluation, work hardening program, or pain management program, provided a qualified representa-

tive of the department or self-insurer has authorized the service.

The department will publish specific billing instructions, utilization review guidelines, and reporting requirements for occupational therapists who render care to workers.

Occupational therapy services rendered in the worker's home and/or places other than the practitioner's usual and customary office, clinic, or business facility will be allowed only upon prior authorization by the department or self-insurer.

No inpatient occupational therapy treatment will be allowed when such treatment constitutes the only or major treatment received by the worker. See WAC 296-20-030 for further information.

The department may discount maximum fees for treatment performed on a group basis in cases where the treatment provided consists of a nonindividualized course of therapy (e.g., pool therapy; group aerobics; and back classes).

Billing codes, reimbursement levels, and supporting policies for occupational therapy services are listed in the fee schedules.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-010 Definitions, abbreviations, and acronyms. The definitions, abbreviations, and acronyms in this section and in WAC 246-220-010 apply throughout this chapter unless the context clearly indicates otherwise.

(1) **"Address of use"** means the building or buildings that are identified on the license and where radioactive material may be received, prepared, used, or stored.

((+)) (2) **"Area of use"** means a portion of an address of use that has been set aside for the purpose of receiving, preparing, using, or storing radioactive material.

((=)) (3) **"Attestation"** means written certification under oath.

(4) **"Authorized medical physicist"** means an individual who:

(a) Meets the requirements in WAC 246-240-072 and 246-240-081; or

(b) Is identified as an authorized medical physicist or teletherapy physicist on:

(i) A specific medical use license issued by the department, ~~((the U.S. Nuclear Regulatory Commission))~~ NRC or an agreement state;

(ii) A medical use permit issued by a ~~((U.S.))~~ NRC master material licensee;

(iii) A permit issued by a ~~((U.S.))~~ NRC or agreement state broad scope medical use licensee; or

(iv) A permit issued by a ~~((U.S.))~~ NRC master material license broad scope medical use permittee.

((=)) (5) **"Authorized nuclear pharmacist"** means a pharmacist who:

(a) Meets the requirements in WAC 246-240-075 and 246-240-081; or

(b) Is identified as an authorized nuclear pharmacist on:

(i) A specific license issued by the department, ~~((the U.S.))~~ NRC or an agreement state, that authorizes medical use or the practice of nuclear pharmacy;

(ii) A permit issued by a ~~((U.S.))~~ NRC master material licensee that authorizes medical use or the practice of nuclear pharmacy;

(iii) A permit issued by a ~~((U.S.))~~ NRC or agreement state broad scope medical use licensee that authorizes medical use or the practice of nuclear pharmacy; or

(iv) A permit issued by a ~~((U.S.))~~ NRC master material license broad scope medical use permittee that authorizes medical use or the practice of nuclear pharmacy; or

(c) Is identified as an authorized nuclear pharmacist by a commercial nuclear pharmacy that has been authorized to identify authorized nuclear pharmacists; or

(d) Is designated as an authorized nuclear pharmacist in accordance with WAC 246-235-100(2).

((+)) (6) **"Authorized user"** means a physician, dentist, or podiatrist who:

(a) Meets the requirements in WAC 246-240-081 and 246-240-154, 246-240-163, 246-240-210, 246-240-213, 246-240-216, 246-240-278, 246-240-301, or 246-240-399; or

(b) Is identified as an authorized user on:

(i) A department, ~~((U.S.))~~ NRC, or agreement state license that authorizes the medical use of radioactive material; or

(ii) A permit issued by a ~~((U.S.))~~ NRC master material licensee that is authorized to permit the medical use of radioactive material; or

(iii) A permit issued by a department, ~~((U.S.))~~ NRC, or agreement state specific licensee of broad scope that is authorized to permit the medical use of radioactive material; or

(iv) A permit issued by a ~~((U.S.))~~ NRC master material license broad scope permittee that is authorized to permit the medical use of radioactive material.

~~((5))~~ (7) **"Brachytherapy"** means a method of radiation therapy in which sources are used to deliver a radiation dose at a distance of up to a few centimeters by surface, intracavitary, intraluminal, or interstitial application.

~~((6))~~ (8) **"Brachytherapy source"** means a radioactive source or a manufacturer-assembled source train or a combination of these sources that is designed to deliver a therapeutic dose within a distance of a few centimeters.

~~((7))~~ (9) **"Client's address"** means the area of use or a temporary job site for the purpose of providing mobile medical service in accordance with WAC 246-240-125.

~~((8))~~ (10) **"Cyclotron"** means a particle accelerator in which the charged particles travel in an outward spiral or circular path. A cyclotron accelerates charged particles at energies usually in excess of 10 mega-electron volts and is commonly used for production of short half-life radionuclides for medical use.

~~((9))~~ (11) **"Dedicated check source"** means a radioactive source that is used to assure the constant operation of a radiation detection or measurement device over several months or years.

~~((10))~~ (12) **"Dentist"** means an individual licensed by a state or territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico to practice dentistry.

~~((11))~~ (13) **"FDA"** means the U.S. Food and Drug Administration.

~~((12))~~ (14) **"High dose-rate remote afterloader(~~(-as used in this chapter,))~~"** means a brachytherapy device that remotely delivers a dose rate in excess of 12 gray (1200 rads) per hour at the point or surface where the dose is prescribed.

~~((13))~~ (15) **"Low dose-rate remote afterloader(~~(-as used in this chapter,))~~"** means a brachytherapy device that remotely delivers a dose rate of less than or equal to 2 gray (200 rads) per hour at the point or surface where the dose is prescribed.

~~((14))~~ (16) **"Management"** means the chief executive officer or other individual having the authority to manage, direct, or administer the licensee's activities, or that person's delegate or delegates.

~~((15))~~ (17) **"Manual brachytherapy(~~(-as used in this chapter,))~~"** means a type of brachytherapy in which the brachytherapy sources (e.g., seeds, ribbons) are manually placed topically on or inserted either into the body cavities

that are in close proximity to a treatment site or directly into the tissue volume.

~~((15))~~ (18) **"Medical event"** means an event that meets the criteria in WAC 246-240-651.

~~((16))~~ (19) **"Medical institution"** means an organization in which more than one medical discipline is practiced.

~~((17))~~ (20) **"Medical use"** means the intentional internal or external administration of radioactive material or the radiation from radioactive material to patients or human research subjects under the supervision of an authorized user.

~~((18))~~ (21) **"Medium dose-rate remote afterloader(~~(-as used in this chapter,))~~"** means a brachytherapy device that remotely delivers a dose rate of greater than 2 gray (200 rads), but less than or equal to 12 grays (1200 rads) per hour at the point or surface where the dose is prescribed.

~~((19))~~ (22) **"Mobile medical service"** means the transportation of radioactive material to and its medical use at the client's address.

~~((20))~~ (23) **"Output"** means the exposure rate, dose rate, or a quantity related in a known manner to these rates from a brachytherapy source or a teletherapy, remote afterloader, or gamma stereotactic radiosurgery unit for a specified set of exposure conditions.

~~((21))~~ (24) **"Patient intervention"** means actions by the patient or human research subject, whether intentional or unintentional, such as dislodging or removing treatment devices or prematurely terminating the administration.

~~((22))~~ (25) **"Podiatrist"** means an individual licensed by a state or territory of the United States, the District of Columbia, or the Commonwealth of Puerto Rico to practice podiatry.

~~((23))~~ (26) **"Positron emission tomography (~~(PET))~~ radionuclide production facility"** means a facility operating an accelerator for the purpose of producing (~~(PET))~~ positron emission tomography radionuclides.

~~((24))~~ (27) **"Preceptor"** means an individual who provides, directs, or verifies training and experience required for an individual to become an authorized user, an authorized medical physicist, an authorized nuclear pharmacist, or ~~((8))~~ an authorized radiation safety officer.

~~((25))~~ (28) **"Prescribed dosage"** means the specified activity or range of activity of unsealed radioactive material as documented:

(a) In a written directive; or

(b) In accordance with the directions of the authorized user for procedures performed under WAC 246-240-151 and 246-240-157.

~~((26))~~ (29) **"Prescribed dose"** means:

(a) For gamma stereotactic radiosurgery, the total dose as documented in the written directive;

(b) For teletherapy, the total dose and dose per fraction as documented in the written directive;

(c) For manual brachytherapy, either the total source strength and exposure time or the total dose, as documented in the written directive; or

(d) For remote brachytherapy afterloaders, the total dose and dose per fraction as documented in the written directive.

~~((27))~~ (30) **"Pulsed dose-rate remote afterloader(~~(-as used in this chapter,))~~"** means a special type of remote afterloading brachytherapy device that uses a single source

capable of delivering dose rates in the "high dose-rate" range, but:

(a) Is approximately one-tenth of the activity of typical high dose-rate remote afterloader sources; and

(b) Is used to simulate the radiobiology of a low dose-rate treatment by inserting the source for a given fraction of each hour.

~~((28)) **"Radiation safety officer"** means an individual who:~~

~~(a) Meets the requirements in WAC 246-240-069 and 246-240-081; or~~

~~(b) Is identified as a radiation safety officer on a specific medical use license issued by the department prior to October 5, 2005, the U.S. NRC or an agreement state; or~~

~~(c) A medical use permit issued by a commission master material licensee.~~

~~((29))~~ (31) **"Sealed source and device registry"** means the national registry that contains all the registration certificates, generated by ~~((both the U.S.))~~ NRC and the agreement states, that summarize the radiation safety information for the sealed sources and devices and describe the licensing and use conditions approved for the product.

~~((30))~~ (32) **"Stereotactic radiosurgery"** means the use of external radiation in conjunction with a stereotactic guidance device to very precisely deliver a therapeutic dose to a tissue volume.

~~((31))~~ (33) **"Structured educational program"** means an educational program designed to impart particular knowledge and practical education through interrelated studies and supervised training.

~~((32))~~ (34) **"Teletherapy"**~~(, as used in this chapter,))~~ means a method of radiation therapy in which collimated gamma rays are delivered at a distance from the patient or human research subject.

~~((33))~~ (35) **"Temporary job site"** means a location where mobile medical services are conducted at other than those fixed location(s) of use authorized ~~((on))~~ by the license.

~~((34))~~ (36) **"Therapeutic dosage"** means a dosage of unsealed radioactive material that is intended to deliver a radiation dose to a patient or human research subject for palliative or curative treatment.

~~((35))~~ (37) **"Therapeutic dose"** means a radiation dose delivered from a source containing radioactive material to a patient or human research subject for palliative or curative treatment.

~~((36))~~ (38) **"Treatment site"** means the anatomical description of the tissue intended to receive a radiation dose, as described in a written directive.

~~((37))~~ (39) **"Type of use"** means use of radioactive material under WAC 246-240-151, 246-240-157, 246-240-201, 246-240-251, 246-240-301, 246-240-351, or 246-240-501.

~~((38))~~ (40) **"Unit dosage"** means a dosage prepared for medical use for administration as a single dosage to a patient or human research subject without any further manipulation of the dosage after it is initially prepared.

~~((39))~~ (41) **"Written directive"** means an authorized user's written order for the administration of radioactive material or radiation from radioactive material to a specific

patient or human research subject, as specified in WAC 246-240-060.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-016 License required. (1) A person may manufacture, produce, acquire, receive, possess, prepare, use, or transfer radioactive material for medical use only in accordance with a specific license issued by the department, ~~((the U.S.))~~ NRC or an agreement state, or as allowed in subsection (2)(a) or (b) of this section.

(2) A specific license is not needed for an individual who:

(a) Receives, possesses, uses, or transfers radioactive material in accordance with these rules under the supervision of an authorized user under ~~((in))~~ WAC 246-240-057, unless prohibited by license condition; or

(b) Prepares unsealed radioactive material for medical use in accordance with these rules under the supervision of an authorized nuclear pharmacist or authorized user under WAC 246-240-057, unless prohibited by license condition.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-022 License amendments. A licensee shall apply for and must receive a license amendment before the licensee:

(1) Receives, prepares, or uses radioactive material for a type of use that is permitted under this chapter, but that is not authorized on the licensee's current license issued under this chapter;

(2) Permits anyone to work as an authorized user, authorized nuclear pharmacist, or authorized medical physicist under the license, except:

(a) For an authorized user, an individual who meets the requirements in WAC 246-240-154, 246-240-163, 246-240-210, 246-240-213, 246-240-216, 246-240-278, or 246-240-399;

(b) For an authorized nuclear pharmacist, an individual who meets the requirements in WAC 246-240-075 and 246-240-081;

(c) For an authorized medical physicist, an individual who meets the requirements in WAC 246-240-072 and 246-240-081; or

(d) An individual who is identified as an authorized user, an authorized nuclear pharmacist, or authorized medical physicist:

(i) On an agreement state or ~~((U.S.))~~ NRC license or other equivalent license recognized by the department that authorizes the use of radioactive material in medical use or in the practice of nuclear pharmacy; or

(ii) On a permit issued by ~~((a commission))~~ NRC or an agreement state specific license of broad scope ~~((that))~~ which is ~~((authorized))~~ licensed to ~~((permit))~~ authorize the use of ~~((by product))~~ radioactive material in medical use or in the practice of nuclear pharmacy;

(iii) On a permit issued by ~~((a commission))~~ NRC master material licensee that is ~~((authorized))~~ licensed to ~~((permit))~~

authorize the use of ~~((by-product))~~ radioactive material in medical use or in the practice of nuclear pharmacy; or

(iv) By a commercial nuclear pharmacy that has been ~~((authorized))~~ licensed to ~~((identify-authorized))~~ authorize nuclear pharmacists.

(3) Changes radiation safety officers, except as provided in WAC 246-240-051;

(4) Receives radioactive material in excess of the amount or in a different form, or receives a different radionuclide than is authorized on the license;

(5) Adds to or changes the areas of use identified in the application or on the license, except for areas of use where radioactive material is used only in accordance with either WAC 246-240-151 or 246-240-157;

(6) Changes the address(es) of use identified in the application or on the license; and

(7) Revises procedures required by WAC 246-240-360, 246-240-378, 246-240-381, and 246-240-384, as applicable, where the revision reduces radiation safety.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-051 Authority and responsibilities for the radiation protection program. (1) In addition to the radiation protection program requirements of WAC 246-221-005, a licensee's management shall approve in writing:

(a) Requests for a license application, renewal, or amendment before submittal to the department;

(b) Any individual before allowing that individual to work as an authorized user, authorized nuclear pharmacist, or authorized medical physicist; and

(c) Radiation protection program changes that do not require a license amendment and are permitted under WAC 246-240-054;

(2) A licensee's management shall appoint a radiation safety officer, who agrees, in writing, to be responsible for implementing the radiation protection program. The licensee, through the radiation safety officer, shall ensure that radiation safety activities are being performed in accordance with licensee-approved procedures and regulatory requirements.

(3) For up to sixty days each year, a licensee may permit an authorized user or an individual qualified to be a radiation safety officer, under WAC 246-240-069 and 246-240-081, to function as a temporary radiation safety officer and to perform the functions of a radiation safety officer, under subsection (7) of this section, if the licensee takes the actions required in subsections (2), (5), (7), and (8) of this section and notifies the department in accordance with WAC 246-240-025.

(4) A licensee may simultaneously appoint more than one temporary radiation safety officer under subsection (3) of this section, if needed to ensure that the licensee has a temporary radiation safety officer that satisfies the requirements to be a radiation safety officer for each of the different types of uses of radioactive material permitted by the license.

(5) A licensee shall establish the authority, duties, and responsibilities of the radiation safety officer in writing.

(6) Licensees that are authorized for two or more different types of use of radioactive material under WAC 246-240-

201, 246-240-251, ~~((and/))~~ or 246-240-351, shall establish a radiation safety committee to oversee all uses of radioactive material permitted by the license. The committee must include an authorized user of each type of use permitted by the license, the radiation safety officer, a representative of the nursing service, and a representative of management who is neither an authorized user nor a radiation safety officer. The committee may include other members the licensee considers appropriate.

(7) A licensee shall provide the radiation safety officer sufficient authority, organizational freedom, time, resources, and management prerogative, to:

(a) Identify radiation safety problems;

(b) Initiate, recommend, or provide corrective actions;

(c) Stop unsafe operations; and

(d) Verify implementation of corrective actions.

(8) A licensee shall retain a record of actions taken under subsections (1), (2), and (5) of this section in accordance with WAC 246-240-551.

AMENDATORY SECTION (Amending WSR 07-14-131, filed 7/3/07, effective 8/3/07)

WAC 246-240-066 Suppliers for sealed sources or devices for medical use. For medical use, a licensee may only use:

(1) Sealed sources or devices manufactured, labeled, packaged, and distributed in accordance with a license issued under WAC 246-235-102.

(2) Sealed sources or devices noncommercially transferred from ~~((a-U.S.))~~ NRC or an agreement state medical use licensee; or

(3) Teletherapy sources manufactured and distributed in accordance with a license issued under chapter 246-232 WAC.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-069 Training for radiation safety officer. Except as provided in WAC 246-240-078, the licensee shall require an individual fulfilling the responsibilities of the radiation safety officer under WAC 246-240-051 to be an individual who:

(1) Is certified by a specialty board whose certification process has been recognized by the department, ~~((the U.S.))~~ NRC, or an agreement state, and who meets the requirements of subsections (4) and (5) of this section. (Specialty boards whose certification process has been recognized by the department, ~~((the U.S. Nuclear Regulatory Commission))~~ NRC, or an agreement state will be posted on ~~((the))~~ NRC's web page, at ~~((http://www.nrc.gov-))~~ http://www.nrc.gov/materials/miau/med-use/toolkit/spec-board-cert.html.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Hold a bachelor's or graduate degree from an accredited college or university in physical science or engineering or biological science with a minimum of twenty college credits in physical science;

(b) Have five or more years of professional experience in health physics (graduate training may be substituted for no

more than two years of the required experience) including at least three years in applied health physics; and

(c) Pass an examination administered by diplomates of the specialty board, which evaluates knowledge and competence in radiation physics and instrumentation, radiation protection, mathematics pertaining to the use and measurement of radioactivity, radiation biology, and radiation dosimetry; or

(i) Hold a master's or doctor's degree in physics, medical physics, other physical science, engineering, or applied mathematics from an accredited college or university;

(ii) Have two years of full-time practical training ~~((and/))~~ or supervised experience in medical physics:

(A) Under the supervision of a medical physicist who is certified in medical physics by a specialty board recognized by ~~((the commission))~~ NRC or an agreement state; or

(B) In clinical nuclear medicine facilities providing diagnostic ~~((and/))~~ or therapeutic services under the direction of physicians who meet the requirements for authorized users in WAC 246-240-078, 246-240-163 or 246-240-210; and

(iii) Pass an examination, administered by diplomates of the specialty board, that assesses knowledge and competence in clinical diagnostic radiological or nuclear medicine physics and in radiation safety; or

(d) Obtain written ~~((certification under oath))~~ attestation signed by a preceptor radiation safety officer that the individual has achieved a level of radiation safety knowledge sufficient to function independently as a radiation safety officer for a medical use licensee; or

(2)(a) Has completed a structured educational program consisting of both:

(i) Two hundred hours of classroom and laboratory training in the following areas:

(A) Radiation physics and instrumentation;

(B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity;

(D) Radiation biology; and

(E) Radiation dosimetry; and

(ii) One year of full-time radiation safety experience under the supervision of the individual identified as the radiation safety officer on a department or agreement state license or license issued by ~~((the U.S.))~~ NRC that authorizes similar type(s) of use(s) of radioactive material involving the following:

(A) Shipping, receiving, and performing related radiation surveys;

(B) Using and performing checks for proper operation of instruments used to determine the activity of dosages, survey meters, and instruments used to measure radionuclides;

(C) Securing and controlling radioactive material;

(D) Using administrative controls to avoid mistakes in the administration of radioactive material;

(E) Using procedures to prevent or minimize radioactive contamination and using proper decontamination procedures;

(F) Using emergency procedures to control radioactive material; and

(G) Disposing of radioactive material; or

(b) Is a medical physicist who has been certified by a specialty board whose certification process has been recog-

nized by the department, ~~((the U.S.))~~ NRC, or an agreement state under WAC 246-240-072 and has experience in radiation safety for similar types of use of radioactive material for which the licensee is seeking the approval of the individual as radiation safety officer and who meets the requirements in subsections (4) and (5) of this section; or

(3) Is an authorized user, authorized medical physicist, or authorized nuclear pharmacist identified on the licensee's license or a medical physicist who has been certified by a specialty board whose certification process has been recognized by the department, ~~((the U.S. Nuclear Regulatory Commission))~~ NRC or an agreement state under WAC 246-240-072 and has experience with the radiation safety aspects of similar types of use of radioactive material for which the individual has radiation safety officer responsibilities; and

(4) Has obtained written ~~((certification under oath))~~ attestation, signed by a preceptor radiation safety officer, that the individual has satisfactorily completed the requirements in subsection (5) of this section, and in subsection (1)(a) and (b), or (c)(i) and (ii) of this section, or subsection (2)(a) or (b) of this section, or subsection (3) of this section and has achieved a level of radiation safety knowledge sufficient to function independently as a radiation safety officer for a medical use licensee; and

(5) Has training in the radiation safety, regulatory issues, and emergency procedures for the types of use for which a licensee seeks approval. This training requirement may be satisfied by completing training that is supervised by an authorized medical physicist, authorized user, authorized nuclear pharmacist, or radiation safety officer, as appropriate, who is authorized for the type(s) of use for which the licensee is seeking approval.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-072 Training for an authorized medical physicist. Except as provided in WAC 246-240-078, the licensee shall require the authorized medical physicist to be an individual who:

(1) Is certified by a specialty board whose certification process has been recognized by the department, ~~((the U.S. Nuclear Regulatory Commission))~~ NRC or an agreement state and who meets the requirements in subsections (2)(b) and (3) of this section. (Specialty boards whose certification process has been recognized by ~~((the commission))~~ NRC or an agreement state will be posted on ~~((the))~~ NRC's web page at ~~((http://www.nrc.gov))~~ http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Hold a master's or doctor's degree in physics, medical physics, other physical science, engineering, or applied mathematics from an accredited college or university;

(b) Have two years of full-time practical training ~~((and/))~~ or supervised experience in medical physics:

(i) Under the supervision of a medical physicist who is certified in medical physics by a specialty board recognized by ~~((the commission))~~ NRC or an agreement state; or

(ii) In clinical radiation facilities providing high energy, external beam therapy (photons and electrons with energies greater than or equal to one million electron volts) and brachytherapy services under the direction of physicians who meet the requirements for authorized users in WAC 246-240-078, 246-240-278 or 246-240-399;

(c) Pass an examination, administered by diplomates of the specialty board, which assesses knowledge and competence in clinical radiation therapy, radiation safety, calibration, quality assurance, and treatment planning for external beam therapy, brachytherapy, and stereotactic radiosurgery; or

(2)(a) Holds a master's or doctor's degree in physics, medical physics, other physical science, engineering, or applied mathematics from an accredited college or university; and has completed one year of full-time training in medical physics and an additional year of full-time work experience under the supervision of an individual who meets the requirements for an authorized medical physicist for the type(s) of use modalities for which the individual is seeking authorization. This training and work experience must be conducted in clinical radiation facilities that provide high energy, external beam therapy and brachytherapy services and must include:

(i) Performing sealed source leak tests and inventories;

(ii) Performing decay corrections;

(iii) Performing full calibration and periodic spot checks of external beam treatment units, stereotactic radiosurgery units, and remote afterloading units as applicable; and

(iv) Conducting radiation surveys around external beam treatment units, stereotactic radiosurgery units, and remote afterloading units as applicable; and

(b) Has obtained written (~~(certification under oath)~~) attestation that the individual has satisfactorily completed the requirements in subsections (1)(a) and (b) and (3), or (2)(a) and (3) of this section, and has achieved a level of competency sufficient to function independently as an authorized medical physicist for each type of therapeutic medical unit for which the individual is requesting authorized medical physicist status. The written (~~(certification under oath)~~) attestation must be signed by a preceptor authorized medical physicist who meets the requirements in WAC 246-240-072, 246-240-078, or equivalent (~~(U.S.)~~) NRC or agreement state requirements for an authorized medical physicist for each type of therapeutic medical unit for which the individual is requesting authorized medical physicist status; and

(3) Has training for the type(s) of use in the modalities for which authorization is sought that includes hands-on device operation, safety procedures, clinical use, and the operation of a treatment planning system. This training requirement may be satisfied by satisfactorily completing either a training program provided by the vendor or by training supervised by an authorized medical physicist authorized for the type(s) of use for which the individual is seeking authorization.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-075 Training for an authorized nuclear pharmacist. Except as provided in WAC 246-240-078, the licensee shall require the authorized nuclear pharmacist to be a pharmacist who:

(1) Is certified by a specialty board whose certification process has been recognized by the department, (~~(the U.S. Nuclear Regulatory Commission)~~) NRC or an agreement state and who meets the requirements in subsection (2)(b) of this section. (Specialty boards whose certification process has been recognized by (~~(the commission)~~) NRC or an agreement state will be posted on (~~(the)~~) NRC's web page at (~~(http://www.nrc.gov.)~~) http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Have graduated from a pharmacy program accredited by the American Council on Pharmaceutical Education (~~(ACPE)~~) or have passed the Foreign Pharmacy Graduate Examination Committee (~~(FPGEC)~~) examination;

(b) Hold a current, active license to practice pharmacy;

(c) Provide evidence of having acquired at least four thousand hours of training/experience in nuclear pharmacy practice. Academic training may be substituted for no more than two thousand hours of the required training and experience; and

(d) Pass an examination in nuclear pharmacy administered by diplomates of the specialty board, which assesses knowledge and competency in procurement, compounding, quality assurance, dispensing, distribution, health and safety, radiation safety, provision of information and consultation, monitoring patient outcomes, research and development; or

(2)(a) Has completed two hundred hours in a structured educational program consisting of both:

(i) Didactic training in the following areas:

(A) Radiation physics and instrumentation;

(B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity;

(D) Chemistry of radioactive material for medical use; and

(E) Radiation biology; and

(ii) Supervised practical experience in a nuclear pharmacy involving:

(A) Shipping, receiving, and performing related radiation surveys;

(B) Using and performing checks for proper operation of instruments used to determine the activity of dosages, survey meters, and, if appropriate, instruments used to measure alpha- or beta-emitting radionuclides;

(C) Calculating, assaying, and safely preparing dosages for patients or human research subjects;

(D) Using administrative controls to avoid medical events in the administration of radioactive material; and

(E) Using procedures to prevent or minimize radioactive contamination and using proper decontamination procedures; and

(b) Has obtained written (~~(certification under oath)~~) attestation, signed by a preceptor authorized nuclear pharmacist.

cist, that the individual has satisfactorily completed the requirements in subsections (1)(a), (b), and (c) or (2)(a) of this section and has achieved a level of competency sufficient to function independently as an authorized nuclear pharmacist.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-078 Training for experienced radiation safety officer, teletherapy or medical physicist, authorized user, and nuclear pharmacist. (1) An individual identified as a radiation safety officer, a teletherapy or medical physicist, or a nuclear pharmacist on a department, ~~((U.S.))~~ NRC, or agreement state license, or a permit issued by an agreement state or ~~((U.S.))~~ NRC broad scope licensee or master material license permit, or by a master material license permittee of broad scope before October 24, 2006, need not comply with the training requirements of WAC ~~((246-240-278))~~ 246-240-069, 246-240-072, or 246-240-075, respectively.

(2) Physicians, dentists, or podiatrists identified as authorized users for the medical use of radioactive material on a license issued by the department or agreement state, or ~~((U.S.))~~ NRC broad scope license, or license issued before October 24, 2006, who perform only those medical uses for which they were authorized on that date need not comply with the training requirements of WAC 246-240-151 and 246-240-399.

(3) Individuals who need not comply with training requirements as described in this section may serve as preceptors for, and supervisors of, applicants seeking authorization on state of Washington radioactive materials licenses for the same uses for which these individuals are authorized.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-107 Determination of dosages of unsealed radioactive material for medical use. (1) A licensee shall determine and record the activity of each dosage before medical use.

(2) For a unit dosage, this determination must be made by:

(a) Direct measurement of radioactivity; or
(b) A decay correction, based on the activity or activity concentration determined by:

(i) A manufacturer, producer, or preparer licensed under WAC 246-235-100 or equivalent ~~((U.S.))~~ NRC or agreement state requirements; or

(ii) An agreement state or ~~((U.S.))~~ NRC licensee for use in research in accordance with a radioactive drug research committee-approved protocol or an investigational new drug ~~((AND))~~ protocol accepted by FDA.

(3) For other than unit dosages, this determination must be made by:

(a) Direct measurement of radioactivity;
(b) Combination of measurement of radioactivity and mathematical calculations; or
(c) Combination of volumetric measurements and mathematical calculations, based on the measurement made by a

manufacturer, producer, or preparer licensed under WAC 246-235-100 or equivalent agreement state requirements.

(4) Unless otherwise directed by the authorized user, a licensee may not use a dosage if the dosage does not fall within the prescribed dosage range or if the dosage differs from the prescribed dosage by more than twenty percent.

(5) A licensee shall retain a record of the dosage determination required by this section in accordance with WAC 246-240-569.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-110 Authorization for calibration, transmission, and reference sources. Any person authorized by WAC 246-240-016 for medical use of radioactive material may receive, possess, and use any of the following radioactive material for check, calibration, transmission, and reference use:

(1) Sealed sources, not exceeding 1.11 gigabecquerels (30 millicuries) each, manufactured and distributed by a person licensed under WAC 246-235-102 or equivalent agreement state or ~~((U.S.))~~ NRC regulations.

(2) Sealed sources, not exceeding 1.11 gigabecquerels (30 millicuries) each, redistributed by a licensee authorized to redistribute the sealed sources manufactured and distributed by a person licensed under WAC 246-235-102, or equivalent agreement state or ~~((U.S.))~~ NRC regulations if the redistributed sealed sources are in the original packaging and shielding and are accompanied by the manufacturer's approved instructions.

(3) Any radioactive material with a half-life not longer than one hundred twenty days in individual amounts not to exceed 0.56 gigabecquerels (15 millicuries).

(4) Any radioactive material with a half-life longer than one hundred twenty days in individual amounts not to exceed the smaller of 7.4 megabecquerels (200 microcuries) or 1000 times the quantities in Schedule B of WAC 246-232-120.

(5) Technetium-99m in amounts as needed.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-113 Requirements for possession of sealed sources and brachytherapy sources. (1) A licensee in possession of any sealed source or brachytherapy source shall follow the radiation safety and handling instructions supplied by the manufacturer.

(2) A licensee in possession of a sealed source shall:

(a) Test the source for leakage before its first use unless the licensee has a certificate from the supplier indicating that the source was tested within six months before transfer to the licensee; and

(b) Test the source for leakage at intervals not to exceed six months or at other intervals approved by the department, ~~((the U.S.))~~ NRC, or an agreement state in the sealed source and device registry.

(3) To satisfy the leak test requirements of this section, the licensee shall ensure the sample is analyzed by such method that the leak test can detect the presence of 185 bec-

querels (0.005 microcuries) of radioactive material in the sample.

(4) A licensee shall retain leak test records in accordance with WAC 246-240-572(1).

(5) If the leak test reveals the presence of 185 becquerels (0.005 microcurie((s))) or more of removable contamination, the licensee shall:

(a) Immediately withdraw the sealed source from use and store, dispose, or cause it to be repaired in accordance with the requirements in chapters 246-221 and 246-232 WAC; and

(b) File a report within five days of the leak test in accordance with WAC 246-240-657.

(6) A licensee need not perform a leak test on the following sources:

(a) Sources containing only radioactive material with a half-life of less than thirty days;

(b) Sources containing only radioactive material as a gas;

(c) Sources containing 3.7 megabecquerels (100 microcuries) or less of beta- or gamma-emitting material or 0.37 megabecquerel((s)) (10 microcuries) or less of alpha-emitting material;

(d) Seeds of iridium-192 encased in nylon ribbon; and

(e) Sources stored and not being used. However, the licensee shall test each source for leakage before any use or transfer unless it has been leak tested within six months before the date of use or transfer.

(7) A licensee in possession of sealed sources or brachytherapy sources, except for gamma stereotactic radiosurgery sources, shall conduct a physical inventory of all the sources in its possession at intervals not to exceed six months. The licensee shall retain each inventory record in accordance with WAC 246-240-572.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-151 Use of unsealed radioactive material for uptake, dilution, and excretion studies for which a written directive is not required. Except for quantities that require a written directive under WAC 246-240-060(2), a licensee may use any unsealed radioactive material prepared for medical use for uptake, dilution, or excretion studies that is:

(1) Obtained from a manufacturer, producer, or preparer licensed under WAC 246-235-100(1) or equivalent ((U.S.)) NRC or agreement state requirements; or

(2) Prepared by an authorized nuclear pharmacist, or a physician who is an authorized user and who meets the requirements specified in WAC 246-240-163, or 246-240-210 and 246-240-163 (3)(a)(ii)(G), or an individual under the supervision of either as specified in WAC 246-240-057; or

(3) Obtained from and prepared by an agreement state or ((U.S.)) NRC licensee for use in research in accordance with a radioactive drug research committee-approved protocol or an investigational new drug ((IND)) protocol accepted by FDA; or

(4) Prepared by the licensee for use in research in accordance with a radioactive drug research committee-approved

application or an investigational new drug ((IND)) protocol accepted by FDA.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-154 Training for uptake, dilution, and excretion studies. Except as provided in WAC 246-240-078, the licensee shall require an authorized user of unsealed radioactive material for the uses authorized under WAC 246-240-151 to be a physician who:

(1) Is certified by a medical specialty board whose certification process has been recognized by the department, ((the U.S. Nuclear Regulatory Commission)) NRC or an agreement state and who meets the requirements of subsection (3)(b) of this section. (Specialty boards whose certification process has been recognized by the department, the ((U.S.)) NRC or an agreement state will be posted on ((the)) NRC's web page at ((http://www.nrc.gov)) <http://www.nrc.gov/materials/miau/med-use/toolkit/spec-board-cert.html>.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Meet the requirements in subsection (3)(a) of this section; and

(b) Pass an examination, administered by diplomates of the specialty board, which assesses knowledge and competence in radiation safety, radionuclide handling, and quality control; or

(2) Is an authorized user under WAC 246-240-163 or 246-240-210 or equivalent agreement state or ((U.S.)) NRC requirements; or subsection (3)(a) of this section; or

(3)(a) Has completed sixty hours of training and experience, including a minimum of eight hours of classroom and laboratory training, in basic radionuclide handling techniques applicable to the medical use of unsealed radioactive material for uptake, dilution, and excretion studies. The training and experience must include:

(i) Classroom and laboratory training in the following areas:

(A) Radiation physics and instrumentation;

(B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity;

(D) Chemistry of radioactive material for medical use; and

(E) Radiation biology; and

(ii) Work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-154, 246-240-163, or 246-240-210 or equivalent ((U.S.)) NRC or agreement state requirements, involving:

(A) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(B) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters;

(C) Calculating, measuring, and safely preparing patient or human research subject dosages;

(D) Using administrative controls to prevent a medical event involving the use of unsealed radioactive material;

(E) Using procedures to contain spilled radioactive material safely and using proper decontamination procedures; and

(F) Administering dosages of radioactive drugs to patients or human research subjects; and

(b) Has obtained written (~~(certification under oath)~~) attestation, signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-154, 246-240-163, or 246-240-210, or equivalent agreement state or (~~(U.S.)~~) NRC requirements, that the individual has satisfactorily completed the requirements in (a) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under WAC 246-240-151.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-157 Use of unsealed radioactive material for imaging and localization studies for which a written directive is not required. Except for quantities that require a written directive under WAC 246-240-060(2), a licensee may use any unsealed radioactive material prepared for medical use for imaging and localization studies that is:

(1) Obtained from a manufacturer, producer, or preparer licensed under WAC 246-235-100(1) or equivalent agreement state or (~~(U.S.)~~) NRC requirements; or

(2) Prepared by an authorized nuclear pharmacist, a physician who is an authorized user and who meets the requirements specified in WAC 246-240-163, or 246-240-210 and 246-240-163 (3)(a)(ii)(G), or an individual under the supervision of either as specified in WAC 246-240-057;

(3) Obtained from and prepared by an agreement state or (~~(U.S.)~~) NRC licensee for use in research in accordance with a radioactive drug research committee-approved protocol or an investigational new drug (~~((IND))~~) protocol accepted by FDA; or

(4) Prepared by the licensee for use in research in accordance with a radioactive drug research committee-approved application or an investigational new drug (~~((IND))~~) protocol accepted by FDA.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-163 Training for imaging and localization studies. Except as provided in WAC 246-240-078, the licensee shall require an authorized user of unsealed radioactive material for the uses authorized under WAC 246-240-157 to be a physician who:

(1) Is certified by a medical specialty board whose certification process has been recognized by the department, (~~(the U.S. Nuclear Regulatory Commission)~~) NRC or an agreement state and who meets the requirements in subsection (3)(b) of this section. (Specialty boards whose certification process has been recognized by (~~(the commission)~~) NRC or an agreement state will be posted on (~~(the U.S.)~~) NRC's web page at (~~(http://www.nrc.gov)~~) <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html>.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Satisfy the requirements in subsection (3)(a) of this section; and

(b) Pass an examination, administered by diplomates of the specialty board, which assesses knowledge and competence in radiation safety, radionuclide handling, and quality control; or

(2) Is an authorized user under WAC 246-240-210 and meets the requirements in WAC 246-240-163 (3)(a)(ii)(G) and 246-240-210 or equivalent agreement state or (~~(U.S.)~~) NRC requirements; or

(3)(a) Has completed seven hundred hours of training and experience, including a minimum of eighty hours of classroom and laboratory training, in basic radionuclide handling techniques applicable to the medical use of unsealed radioactive material for imaging and localization studies. The training and experience must include, at a minimum:

(i) Classroom and laboratory training in the following areas:

(A) Radiation physics and instrumentation;

(B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity;

(D) Chemistry of radioactive material for medical use;

(E) Radiation biology; and

(ii) Work experience, under the supervision of an authorized user, who meets the requirements in WAC 246-240-078, 246-240-163, or 246-240-210 and 246-240-163 (3)(a)(ii)(G), or equivalent agreement state or (~~(U.S.)~~) NRC requirements, involving:

(A) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(B) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters;

(C) Calculating, measuring, and safely preparing patient or human research subject dosages;

(D) Using administrative controls to prevent a medical event involving the use of unsealed radioactive material;

(E) Using procedures to safely contain spilled radioactive material and using proper decontamination procedures;

(F) Administering dosages of radioactive drugs to patients or human research subjects; and

(G) Eluting generator systems appropriate for preparation of radioactive drugs for imaging and localization studies, measuring and testing the eluate for radionuclidic purity, and processing the eluate with reagent kits to prepare labeled radioactive drugs; and

(b) Has obtained written (~~(certification under oath)~~) attestation, signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-163, or 246-240-210 and 246-240-163 (3)(a)(ii)(G) or equivalent agreement state or (~~(U.S.)~~) NRC requirements, that the individual has satisfactorily completed the requirements in (a) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under WAC 246-240-151 and 246-240-157.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-201 Use of unsealed radioactive material for which a written directive is required. A licensee may use any unsealed radioactive material prepared for medical use and for which a written directive is required that is:

(1) Obtained from a manufacturer, producer, or preparer licensed under WAC 246-235-100(1) or equivalent agreement state or ((U.S.)) NRC requirements; or

(2) Prepared by an authorized nuclear pharmacist, a physician who is an authorized user and who meets the requirements specified in WAC 246-240-163 or 246-240-210, or an individual under the supervision of either as specified in WAC 246-240-057; or

(3) Obtained from and prepared by an agreement state or ((U.S.)) NRC licensee for use in research in accordance with an investigational new drug ((IND)) protocol accepted by FDA; or

(4) Prepared by the licensee for use in research in accordance with an investigational new drug ((IND)) protocol accepted by FDA.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-210 Training for use of unsealed radioactive material for which a written directive is required. Except as provided in WAC 246-240-078, the licensee shall require an authorized user of unsealed radioactive material for the uses authorized under WAC 246-240-201 to be a physician who:

(1) Is certified by a medical specialty board whose certification process has been recognized by the department, ((the U.S. Nuclear Regulatory Commission)) NRC or an agreement state. (Specialty boards whose certification process has been recognized by ((the commission)) NRC or an agreement state will be posted on ((the)) NRC's web page at ((http://www.nrc.gov)) <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html>.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Successfully complete a residency training in a radiation therapy or nuclear medicine training program or a program in a related medical specialty that includes seven hundred hours of training and experience as described in subsection (2) of this section. Eligible training programs must be approved by the Residency Review Committee of the Accreditation Council for Graduate Medical Education or Royal College of Physicians and Surgeons of Canada or the Committee on Postgraduate Training of the American Osteopathic Association;

(b) Pass an examination, administered by diplomates of the specialty board, which tests knowledge and competence in radiation safety, radionuclide handling, quality assurance, and clinical use of unsealed by-product material; and

(c) Obtain written ((certification under oath)) attestation that the individual has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under WAC 246-240-201. The written ((certification under oath)) attestation must be signed by a preceptor authorized user who meets the requirements in

WAC 246-240-078, 246-240-210, or equivalent ((U.S.)) NRC or agreement state requirements. The preceptor authorized user, who meets the requirements in WAC 246-240-078 or 246-240-210 must have experience in administering dosages in the same dosage category or categories (i.e., this section) as the individual requesting authorized user status; or

(2) Has completed seven hundred hours of training and experience, including a minimum of two hundred hours of classroom and laboratory training, in basic radionuclide handling techniques applicable to the medical use of unsealed radioactive material requiring a written directive. The training and experience must include:

(a) Classroom and laboratory training in the following areas:

(i) Radiation physics and instrumentation;

(ii) Radiation protection;

(iii) Mathematics pertaining to the use and measurement of radioactivity;

(iv) Chemistry of radioactive material for medical use; and

(v) Radiation biology; and

(b) Work experience, under the supervision of an authorized user who meets the requirements in subsection (1) or (2) of this section, or equivalent ((U.S.)) NRC or agreement state requirements. A supervising authorized user, who meets the requirements in this subsection, must also have experience in administering dosages in the same dosage category or categories (i.e., this section) as the individual requesting authorized user status. The work experience must involve:

(i) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(ii) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters;

(iii) Calculating, measuring, and safely preparing patient or human research subject dosages;

(iv) Using administrative controls to prevent a medical event involving the use of unsealed radioactive material;

(v) Using procedures to contain spilled radioactive material safely and using proper decontamination procedures;

(vi) Eluting generator systems, measuring and testing the eluate for radionuclidic purity, and processing the eluate with reagent kits to prepare labeled radioactive drugs; and

(vii) Administering dosages of radioactive drugs to patients or human research subjects involving a minimum of three cases in each of the following categories for which the individual is requesting authorized user status:

(A) Oral administration of less than or equal to 1.22 gigabecquerels (33 millicuries) of sodium iodide I-131 for which a written directive is required;

(B) Oral administration of greater than 1.22 gigabecquerels (33 millicuries) of sodium iodide I-131. Experience with at least three cases in this also satisfies the requirement in (b)(vii)(A) of this subsection;

(C) Parenteral administration of any beta emitter, or a photon-emitting radionuclide with a photon energy less than 150 keV for which a written directive is required; ((and)) or

(D) Parenteral administration of any other radionuclide for which a written directive is required; and

(E) Has obtained written (~~(certification under oath)~~) attestation that the individual has satisfactorily completed the requirements in subsection (1)(a) and (2)(b)(vii) of this section, WAC 246-240-078, and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under WAC 246-240-201. The written (~~(certification under oath)~~) attestation must be signed by a preceptor authorized user who meets the requirements in this section, or equivalent ((U.S.)) NRC or agreement state requirements. The preceptor authorized user, who meets the requirements in this subsection (2), must also have experience in administering dosages in the same dosage category or categories (i.e., this section) as the individual requesting authorized user status.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-213 Training for the oral administration of sodium iodide I-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries). Except as provided in WAC 246-240-078, the licensee shall require an authorized user for the oral administration of sodium iodide I-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries), to be a physician who:

(1) Is certified by a medical specialty board whose certification process includes all of the requirements in subsection (3) of this section and whose certification has been recognized by the department, (~~(the U.S. Nuclear Regulatory Commission))~~ NRC or an agreement state. (Specialty boards whose certification process has been recognized by (~~(the commission))~~ NRC or an agreement state will be posted on (~~(the))~~ NRC's web page at (~~(http://www.nrc.gov-))~~ http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html); or

(2) Is an authorized user under WAC 246-240-210 for uses listed in WAC 246-240-210 (2)(b)(vii)(A) and (B), 246-240-216, or equivalent agreement state or ((U.S.)) NRC requirements; or

(3)(a) Has successfully completed eighty hours of classroom and laboratory training, applicable to the medical use of sodium iodide I-131 for procedures requiring a written directive. The training must include:

- (i) Radiation physics and instrumentation;
- (ii) Radiation protection;
- (iii) Mathematics pertaining to the use and measurement of radioactivity;
- (iv) Chemistry of radioactive material for medical use; and
- (v) Radiation biology; and

(b) Has work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-213, 246-240-216, or equivalent agreement state or ((U.S.)) NRC requirements. A supervising authorized user who meets the requirements in WAC 246-240-210(2), must also have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii)(A) or (B). The work experience must involve:

(i) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(ii) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters;

(iii) Calculating, measuring, and safely preparing patient or human research subject dosages;

(iv) Using administrative controls to prevent a medical event involving the use of radioactive material;

(v) Using procedures to contain spilled radioactive material safely and using proper decontamination procedures; and

(vi) Administering dosages to patients or human research subjects, that includes at least three cases involving the oral administration of less than or equal to 1.22 gigabecquerels (33 millicuries) of sodium iodide I-131; and

(c) Has obtained written (~~(certification under oath)~~) attestation that the individual has satisfactorily completed the requirements in (a) and (b) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user for medical uses authorized under WAC 246-240-201. The written (~~(certification under oath)~~) attestation must be signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-213, 246-240-216, or equivalent agreement state or ((U.S.)) NRC requirements. A preceptor authorized user, who meets the requirement in WAC 246-240-210 (2), must also have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii)(A) or (B).

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-216 Training for the oral administration of sodium iodide I-131 requiring a written directive in quantities greater than 1.22 gigabecquerels (33 millicuries). Except as provided in WAC 246-240-078, the licensee shall require an authorized user for the oral administration of sodium iodide I-131 requiring a written directive in quantities greater than 1.22 gigabecquerels (33 millicuries), to be a physician who:

(1) Is certified by a medical specialty board whose certification process includes all of the requirements in subsection (3) of this section and whose certification has been recognized by the department, (~~(the U.S.))~~ NRC or an agreement state. (Specialty boards whose certification process has been recognized by (~~(the commission))~~ NRC or an agreement state will be posted on (~~(the))~~ NRC's web page at (~~(http://www.nrc.gov-))~~ http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html); or

(2) Is an authorized user under WAC 246-240-210 for uses listed in WAC 246-240-210 (2)(b)(vii)(B), or equivalent agreement state or ((U.S.)) NRC requirements; or

(3)(a) Has successfully completed eighty hours of classroom and laboratory training, applicable to the medical use of sodium iodide I-131 for procedures requiring a written directive. The training must include:

- (i) Radiation physics and instrumentation;
- (ii) Radiation protection;
- (iii) Mathematics pertaining to the use and measurement of radioactivity;

(iv) Chemistry of radioactive material for medical use; and

(v) Radiation biology; and

(b) Has work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-216, or equivalent agreement state or ~~((U.S.))~~ NRC requirements. A supervising authorized user, who meets the requirements in WAC 246-240-210(2), must also have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii)(B).

The work experience must involve:

(i) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(ii) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters;

(iii) Calculating, measuring, and safely preparing patient or human research subject dosages;

(iv) Using administrative controls to prevent a medical event involving the use of radioactive material;

(v) Using procedures to contain spilled radioactive material safely and using proper decontamination procedures; and

(vi) Administering dosages to patients or human research subjects, that includes at least three cases involving the oral administration of greater than 1.22 gigabecquerels (33 millicuries) of sodium iodide I-131; and

(c) Has obtained written ~~((certification under oath))~~ attestation that the individual has satisfactorily completed the requirements in (a) and (b) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user for medical uses authorized under WAC 246-240-201. The written ~~((certification under oath))~~ attestation must be signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-216, or equivalent agreement state or ~~((U.S.))~~ NRC requirements. A preceptor authorized user, who meets the requirements in WAC 246-240-210(2), must have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii)(B).

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-219 Training for the parenteral administration of unsealed radioactive material requiring a written directive. Except as provided in WAC 246-240-078, the licensee shall require an authorized user for the parenteral administration requiring a written directive, to be a physician who:

(1) Is an authorized user under WAC 246-240-210 for uses listed in WAC 246-240-210 (2)(b)(vii)(C) or (D), or equivalent agreement state or ~~((U.S.))~~ NRC requirements; or

(2) Is an authorized user under WAC 246-240-278 or 246-240-399, or equivalent agreement state or ~~((U.S.))~~ NRC requirements and who meets the requirements in subsection (4) of this section; or

(3) Is certified by a medical specialty board whose certification process has been recognized by the ~~((U.S.))~~ NRC or an agreement state under WAC 246-240-278 or 246-240-

399, and who meets the requirements in subsection (4) of this section.

(4)(a) Has successfully completed eighty hours of classroom and laboratory training, applicable to parenteral administrations, for which a written directive is required, of any beta emitter or any photon-emitting radionuclide with a photon energy less than 150 keV, ~~((and/))~~ or parenteral administration of any other radionuclide for which a written directive is required. The training must include:

(i) Radiation physics and instrumentation;

(ii) Radiation protection;

(iii) Mathematics pertaining to the use and measurement of radioactivity;

(iv) Chemistry of radioactive material for medical use; and

(v) Radiation biology; and

(b) Has work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-219, or equivalent agreement state or ~~((U.S.))~~ NRC requirements, in the parenteral administration, for which a written directive is required, of any beta emitter or any photon-emitting radionuclide with a photon energy less than 150 keV, ~~((and/))~~ or parenteral administration of any other radionuclide for which a written directive is required. A supervising authorized user who meets the requirements in WAC 246-240-210 must have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii)(C) ~~((and/))~~ or (D). The work experience must involve:

(i) Ordering, receiving, and unpacking radioactive materials safely, and performing the related radiation surveys;

(ii) Performing quality control procedures on instruments used to determine the activity of dosages, and performing checks for proper operation of survey meters;

(iii) Calculating, measuring, and safely preparing patient or human research subject dosages;

(iv) Using administrative controls to prevent a medical event involving the use of unsealed radioactive material;

(v) Using procedures to contain spilled radioactive material safely, and using proper decontamination procedures; and

(vi) Administering dosages to patients or human research subjects, that include at least three cases involving the parenteral administration, for which a written directive is required, of any beta emitter, or any photon-emitting radionuclide with a photon energy less than 150 keV ~~((and/))~~ or at least three cases involving the parenteral administration of any other radionuclide, for which a written directive is required; and

(5) Has obtained written ~~((certification under oath))~~ attestation that the individual has satisfactorily completed the requirements in subsection (2) or (3) of this section, and has achieved a level of competency sufficient to function independently as an authorized user for the parenteral administration of unsealed radioactive material requiring a written directive. The written ~~((certification under oath))~~ attestation must be signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-210, 246-240-219, or equivalent agreement state or ~~((U.S.))~~ NRC requirements. A preceptor authorized user, who meets the require-

ments in WAC 246-240-210, must have experience in administering dosages as specified in WAC 246-240-210 (2)(b)(vii) (C) ~~((and))~~ or (D).

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-278 Training for use of manual brachytherapy sources. Except as provided in WAC 246-240-078, the licensee shall require an authorized user of a manual brachytherapy source for the uses authorized under WAC 246-240-251 to be a physician who:

(1) Is certified by a medical specialty board whose certification process has been recognized by the department, ~~((the U.S.))~~ NRC, or an agreement state. (Specialty boards whose certification process has been recognized by ~~((the commission))~~ NRC or an agreement state will be posted on ~~((the))~~ NRC's web page at ~~((http://www.nrc.gov.))~~ <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html>.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Successfully complete a minimum of three years of residency training in a radiation oncology program approved by the Residency Review Committee of the Accreditation Council for Graduate Medical Education or Royal College of Physicians and Surgeons of Canada or the Committee on Postgraduate Training of the American Osteopathic Association;

(b) Pass an examination, administered by diplomates of the specialty board, which tests knowledge and competence in radiation safety, radionuclide handling, treatment planning, quality assurance, and clinical use of high and low dose-rate brachytherapy; and

(c) Obtain written ~~((certification under oath))~~ attestation, signed by a preceptor authorized user who meets the requirements in WAC 246-240-278 or equivalent ~~((U.S.))~~ NRC or agreement state requirements, that the individual has achieved a level of competency sufficient to function independently as an authorized user of manual brachytherapy sources for the medical uses authorized in WAC 246-240-251; or

(2)(a) Has completed a structured educational program in basic radionuclide handling techniques applicable to the use of manual brachytherapy sources that includes:

(i) Two hundred hours of classroom and laboratory training in the following areas:

(A) Radiation physics and instrumentation;

(B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity; and

(D) Radiation biology; and

(ii) Five hundred hours of work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-278 or equivalent agreement state or ~~((U.S.))~~ NRC requirements at a medical institution, involving:

(A) Ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys;

(B) Checking survey meters for proper operation;

(C) Preparing, implanting, and removing brachytherapy sources;

(D) Maintaining running inventories of material on hand;

(E) Using administrative controls to prevent a medical event involving the use of radioactive material;

(F) Using emergency procedures to control radioactive material; and

(b) Has completed three years of supervised clinical experience in radiation oncology, under an authorized user who meets the requirements in WAC 246-240-078, 246-240-278 or equivalent ~~((U.S.))~~ NRC or agreement state requirements, as part of a formal training program approved by the Residency Review Committee for Radiation Oncology of the Accreditation Council for Graduate Medical Education or the Royal College of Physicians and Surgeons of Canada or the Committee on Postdoctoral Training of the American Osteopathic Association. This experience may be obtained concurrently with the supervised work experience required by (a)(ii) of this subsection; and

(c) Has obtained written ~~((certification under oath))~~ attestation, signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-278 or equivalent agreement state or ~~((U.S.))~~ NRC requirements, that the individual has satisfactorily completed the requirements in subsection (1)(a) of this section, or (a) and (b) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user of manual brachytherapy sources for the medical uses authorized under WAC 246-240-251.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-281 Training for ophthalmic use of strontium-90. Except as provided in WAC 246-240-078, the licensee shall require the authorized user of strontium-90 for ophthalmic radiotherapy to be a physician who:

(1) Is an authorized user under WAC 246-240-278 or equivalent agreement state or ~~((U.S.))~~ NRC requirements; or

(2)(a) Has completed twenty-four hours of classroom and laboratory training applicable to the medical use of strontium-90 for ophthalmic radiotherapy. The training must include:

(i) Radiation physics and instrumentation;

(ii) Radiation protection;

(iii) Mathematics pertaining to the use and measurement of radioactivity; and

(iv) Radiation biology; and

(b) Supervised clinical training in ophthalmic radiotherapy under the supervision of an authorized user at a medical institution that includes the use of strontium-90 for the ophthalmic treatment of five individuals.

This supervised clinical training must involve:

(i) Examination of each individual to be treated;

(ii) Calculation of the dose to be administered;

(iii) Administration of the dose; and

(iv) Follow up and review of each individual's case history; and

(c) Has obtained written (~~(certification under oath)~~) attestation, signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-278, 246-240-281, or equivalent agreement state or (~~(U.S.)~~) NRC requirements, that the individual has satisfactorily completed the requirements in subsections (1) and (2) of this section and has achieved a level of competency sufficient to function independently as an authorized user of strontium-90 for ophthalmic use.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-304 Training for use of sealed sources for diagnosis. Except as provided in WAC 246-240-078, the licensee shall require the authorized user of a diagnostic sealed source for use in a device authorized under WAC 246-240-301 to be a physician, dentist, or podiatrist who:

(1) Is certified by a specialty board whose certification process includes all of the requirements in subsections (2) and (3) of this section and whose certification has been recognized by the department, (~~(the U.S.)~~) NRC, or an agreement state. (Specialty boards whose certification process has been recognized by (~~(the commission)~~) NRC or an agreement state will be posted on (~~(the)~~) NRC's web page at (~~(http://www-nrc.gov)~~) <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html>); or

(2) Has completed eight hours of classroom and laboratory training in basic radionuclide handling techniques specifically applicable to the use of the device. The training must include:

- (a) Radiation physics and instrumentation;
 - (b) Radiation protection;
 - (c) Mathematics pertaining to the use and measurement of radioactivity;
 - (d) Radiation biology; and
- (3) Has completed training in the use of the device for the uses requested.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-357 Installation, maintenance, adjustment, and repair. (1) Only a person specifically licensed by the department, (~~(the U.S.)~~) NRC, or an agreement state shall install, maintain, adjust, or repair a remote afterloader unit, teletherapy unit, or gamma stereotactic radiosurgery unit that involves work on the source(s) shielding, the source(s) driving unit, or other electronic or mechanical component that could expose the source(s), reduce the shielding around the source(s), or compromise the radiation safety of the unit or the source(s).

(2) Except for low dose-rate remote afterloader units, only a person specifically licensed by the department, (~~(the U.S.)~~) NRC, or an agreement state shall install, replace, relocate, or remove a sealed source or source contained in other remote afterloader units, teletherapy units, or gamma stereotactic radiosurgery units.

(3) For a low dose-rate remote afterloader unit, only a person specifically licensed by the department, (~~(the U.S.)~~) NRC, or an agreement state or an authorized medical physi-

cist shall install, replace, relocate, or remove a sealed source(s) contained in the unit.

(4) A licensee shall retain a record of the installation, maintenance, adjustment, and repair of remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units in accordance with WAC 246-240-605.

AMENDATORY SECTION (Amending WSR 06-05-019, filed 2/6/06, effective 3/9/06)

WAC 246-240-393 Five-year inspection for teletherapy and gamma stereotactic radiosurgery units. (1) A licensee shall have each teletherapy unit and gamma stereotactic radiosurgery unit fully inspected and serviced during source replacement or at intervals not to exceed five years, whichever comes first, to assure proper functioning of the source exposure mechanism.

(2) This inspection and servicing may only be performed by persons specifically licensed to do so by the department, (~~(the U.S.)~~) NRC or an agreement state.

(3) A licensee shall keep a record of the inspection and servicing in accordance with WAC 246-240-632.

AMENDATORY SECTION (Amending WSR 11-03-068, filed 1/18/11, effective 2/18/11)

WAC 246-240-399 Training for use of remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units. Except as provided in WAC 246-240-078, the licensee shall require an authorized user of a sealed source for a use authorized under WAC 246-240-351 to be a physician who:

(1) Is certified by a medical specialty board whose certification process has been recognized by the department, (~~(the U.S.)~~) NRC, or an agreement state. (Specialty boards whose certification process has been recognized by (~~(the)~~) NRC or an agreement state will be posted on (~~(the)~~) NRC's web page at (~~(http://www-nrc.gov)~~) <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html>.) To be recognized, a specialty board shall require all candidates for certification to:

(a) Successfully complete a minimum of three years of residency training in a radiation therapy program approved by the Residency Review Committee of the Accreditation Council for Graduate Medical Education or Royal College of Physicians and Surgeons of Canada or the Committee on Postgraduate Training of the American Osteopathic Association; and

(b) Pass an examination, administered by diplomates of the specialty board, which tests knowledge and competence in radiation safety, radionuclide handling, treatment planning, quality assurance, and clinical use of stereotactic radiosurgery, high and low dose-rate brachytherapy, and external beam therapy; or

(2)(a) Has completed a structured educational program in basic radionuclide techniques applicable to the use of a sealed source in a therapeutic medical unit that includes:

(i) Two hundred hours of classroom and laboratory training in the following areas:

- (A) Radiation physics and instrumentation;
- (B) Radiation protection;

(C) Mathematics pertaining to the use and measurement of radioactivity; and

(D) Radiation biology; and

(ii) Five hundred hours of work experience, under the supervision of an authorized user who meets the requirements in WAC 246-240-078, 246-240-399 or equivalent agreement state or ~~((U.S.))~~ NRC requirements at a medical institution, involving:

(A) Reviewing full calibration measurements and periodic spot-checks;

(B) Preparing treatment plans and calculating treatment doses and times;

(C) Using administrative controls to prevent a medical event involving the use of radioactive material;

(D) Implementing emergency procedures to be followed in the event of the abnormal operation of the medical unit or console;

(E) Checking and using survey meters; and

(F) Selecting the proper dose and how it is to be administered; and

(b) Has completed three years of supervised clinical experience in radiation therapy, under an authorized user who meets the requirements in WAC 246-240-078, 246-240-399 or equivalent ~~((U.S.))~~ NRC or agreement state requirements, as part of a formal training program approved by the Residency Review Committee for Radiation Oncology of the Accreditation Council for Graduate Medical Education or Royal College of Physicians and Surgeons of Canada or the Committee on Postdoctoral Training of the American Osteopathic Association. This experience may be obtained concurrently with the supervised work experience required by (a)(ii) of this subsection; and

(c) Has obtained written ~~((certification under oath))~~ attestation that the individual has satisfactorily completed the requirements in subsection (1)(a) of this section, or (a) and (b), and (d) of this subsection and has achieved a level of competency sufficient to function independently as an authorized user of each type of therapeutic medical unit for which the individual is requesting authorized user status. The written ~~((certification under oath))~~ attestation must be signed by a preceptor authorized user who meets the requirements in WAC 246-240-078, 246-240-399 or equivalent ~~((U.S.))~~ NRC or agreement state requirements for an authorized user for each type of therapeutic medical unit for which the individual is requesting authorized user status; and

(d) Has received training in device operation, safety procedures, and clinical use for the type(s) of use for which authorization is sought. This training requirement may be satisfied by satisfactory completion of a training program provided by the vendor for new users or by receiving training supervised by an authorized user or authorized medical physicist, as appropriate, who is authorized for the type(s) of use for which the individual is seeking authorization.

AMENDATORY SECTION (Amending WSR 09-06-003, filed 2/18/09, effective 3/21/09)

WAC 246-240-587 Records of molybdenum-99, strontium-82, and strontium-85 concentrations. A licensee shall maintain a record of the molybdenum-99,

strontium-82, ~~((and))~~ or strontium-85 concentration tests required by WAC 246-240-160(2) for three years.

(1) The record must include, for each measured elution of technetium-99m, the ratio of the measures expressed as kilobecquerels of molybdenum-99 per megabecquerel of technetium-99m (or microcuries of molybdenum per millicurie of technetium), the time and date of the measurement, and the name of the individual who made the measurement.

(2) For each measured elution of rubidium-82, the ratio of the measures expressed as kilobecquerels of strontium-82 per megabecquerel of rubidium-82 (or microcuries of strontium-82 per millicurie of rubidium), ~~((and))~~ or kilobecquerels of strontium-85 per megabecquerel of rubidium-82 (or microcuries of strontium-85 per millicurie of rubidium), the time and date of the measurement, and the name of the individual who made the measurement.

PERMANENT RULES

STATE BOARD FOR COMMUNITY AND TECHNICAL COLLEGES

[Filed May 9, 2013, 4:22 p.m., effective June 9, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: To repeal state board rules governing the state board sponsored retirement plan. The WAC[s] are duplicative of state board policy included in the state board retirement plan document which is required by federal regulations. Repeal of these WAC[s], eliminates that duplication and clarifies the governing policies.

Citation of Existing Rules Affected by this Order: Repealing WAC 131-16-010, 131-16-011, 131-16-015, 131-16-021, 131-16-031, 131-16-040, 131-16-045, 131-16-050, 131-16-055, 131-16-056, 131-16-060, 131-16-061, 131-16-062, 131-16-065, and 131-16-066.

Statutory Authority for Adoption: RCW 28B.10.400.

Other Authority: State Board Resolution 13-05-23.

Adopted under notice filed as WSR 13-08-051 on March 29, 2013.

REPEALER

The following sections of the Washington Administrative Code are repealed:

- WAC 131-16-010 Establishment of the state board retirement plan.
- WAC 131-16-011 Definitions.
- WAC 131-16-015 Retirement benefit goal established.
- WAC 131-16-021 Employees eligible to participate in the retirement plan.
- WAC 131-16-031 Participation in the plan.
- WAC 131-16-040 Disability retirement provisions for plan participants.
- WAC 131-16-045 Transfers to and from other plans.
- WAC 131-16-050 Contribution rates established.
- WAC 131-16-055 Options for self-directed investment of retirement plan contributions and accumulations.
- WAC 131-16-056 Hardship withdrawals.
- WAC 131-16-060 Cashability.
- WAC 131-16-061 Supplemental retirement benefits.
- WAC 131-16-062 Benefit options after termination of employment.
- WAC 131-16-065 Optional retirement transition benefit.
- WAC 131-16-066 Single sum death benefit to spouse beneficiaries.

AMENDATORY SECTION (Amending WSR 12-14-073, filed 7/2/12, effective 8/2/12)

WAC 246-282-990 Fees. (1) The required annual shellfish operation license fees for shellstock shippers and shucker-packers due October 1, 2011, shall be reduced by twenty-five percent of the annual shellfish operation license fees in subsection (2) of this section. Beginning July 1, 2012, and for every subsequent year, the full annual shellfish operation license fees in subsection (2) of this section shall be assessed.

(2) Annual shellfish operation license fees are:

Type of Operation	Annual Fee
Harvester	\$263
Shellstock Shipper	
0 - 49 Acres	\$297
50 or greater Acres	\$476
Scallop Shellstock Shipper	\$297
Shucker-Packer	
Plants with floor space < 2000 sq. ft.	\$542
Plants with floor space 2000 sq. ft. to 5000 sq. ft.	\$656
Plants with floor space > 5000 sq. ft.	\$1,210

(3) The fee for each export certificate is \$20.00.

(4) Annual PSP testing fees for companies harvesting species other than geoduck intertidally (between the extremes of high and low tide) are as follows:

DEPARTMENT OF HEALTH

[Filed May 10, 2013, 1:30 p.m., effective June 10, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: WAC 246-282-990(5), Sanitary control of shellfish—Fees—Commercial geoduck paralytic shellfish poisoning (PSP) testing. The rule equitably assesses the costs of commercial geoduck PSP testing based on the number of tests done the previous year. The testing is essential to public health. It is the only way to know if dangerous levels of PSP

Fee Category	Number of Harvest Sites	Fee
Type of Operation		
Harvester	≤ 2	\$173
Harvester	3 or more	\$259
Shellstock Shipper 0 - 49 acres	≤ 2	\$195
Shellstock Shipper 0 - 49 acres	3 or more	\$292

Shucker-Packer (plants > 5000 ft ²)	N/A	\$1,189

(a) The number of harvest sites will be the total number of harvest sites on the licensed company's harvest site certificate:

- (i) At the time of first licensure; or
- (ii) January 1 of each year for companies licensed as harvesters; or
- (iii) July 1 of each year for companies licensed as shellstock shippers and shucker packers.

(b) Two or more contiguous parcels with a total acreage of one acre or less is considered one harvest site.

(5) Annual PSP testing fees for companies harvesting geoduck are as follows:

Harvester	Fee
Department of natural resources (quota tracts harvested by DNR contract holders)	\$(9,433) <u>8,310</u>
Discovery Bay Shellfish	\$(40+) <u>166</u>

OFFICE OF
INSURANCE COMMISSIONER**

[Insurance Commissioner Matter No. R 2012-32—Filed May 13, 2013, 10:40 a.m., effective June 13, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: This rule eliminates the requirement for surplus line brokers to have a concurrent Washington insurance producer license in order to be licensed as a surplus line broker. This rule will permit the commissioner to license both resident and nonresident surplus line brokers without requiring a concurrent Washington insurance producer license, thereby making Washington licensing requirements reciprocal with other states.

Insurance Commissioner

AMENDATORY SECTION (Amending Matter No. R 2008-06, filed 1/6/09, effective 7/1/09)

WAC 284-15-010 Brokers—Surplus line brokers—Qualifications and examination. (1) Each applicant for a resident surplus line broker's license must take and pass the required examination and pay the required fee prior to acting as a surplus line broker. The examination will test an applicant's qualifications and competence in all areas of surplus line insurance. Current information about testing procedures and examination dates is available on the commissioner's web site at: www.insurance.wa.gov.

(2) ~~((Before the commissioner can issue a surplus line broker's license, the applicant must be licensed in this state as an insurance producer with both property and casualty lines of authority. This requirement may be satisfied if the licenses are issued simultaneously.~~

(3)) The commissioner deems that a nonresident person holding a surplus line broker's license, or the equivalent, in the applicant's home state is qualified, competent and trustworthy and, therefore, meets the minimum standards of this state for holding a surplus line broker's license. For that reason, the commissioner will waive the Washington surplus line broker's examination for a person who has and maintains a current resident surplus line broker's license, or the equivalent, in the applicant's home state.

NEW SECTION

WAC 182-502-0022 Provider preventable conditions (PPCs)—Payment policy. (1) This section establishes the agency's payment policy for services provided to medicaid clients on a fee-for-service basis or to a client enrolled in a managed care organization (defined in WAC 182-538-050) by health care professionals and inpatient hospitals that result in provider preventable conditions (PPCs).

(2) The rules in this section apply to:

(a) All health care professionals who bill the agency directly; and

(b) Inpatient hospitals.

(3) Definitions. The following definitions and those found in chapter 182-500 WAC apply to this section:

(a) **Agency** - See WAC 182-500-0010.

(b) **Health care-acquired conditions (HCAC)** - A condition occurring in any inpatient hospital setting (identified as a hospital acquired condition by medicare other than deep vein thrombosis/pulmonary embolism as related to a total knee replacement or hip replacement surgery in pediatric and obstetric patients.) Medicare's list of hospital acquired conditions is also available at: http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalAcqCond/Hospital-Acquired_Conditions.html.

(c) **Other provider preventable conditions (OPPC)** - The list of serious reportable events in health care as identified by the department of health in WAC 246-302-030 and published by the National Quality Forum.

(d) **Present on admission (POA) indicator** - A status code the hospital uses on an inpatient claim that indicates if a condition was present at the time the order for inpatient admission occurs.

(e) **Provider preventable condition (PPC)** - An umbrella term for hospital and nonhospital acquired conditions identified by the agency for nonpayment to ensure the high quality of medicaid services. PPCs include two distinct categories: Health care-acquired conditions (HCACs) and other provider-preventable conditions (OPPCs).

(4) **Health care-acquired condition (HCAC)** - The agency will deny or recover payment to health care professionals and inpatient hospitals for care related only to the treatment of the consequences of a HCAC.

(a) HCAC conditions include:

(i) Foreign object retained after surgery;

- (ii) Air embolism;
- (iii) Blood incompatibility;
- (iv) Stage III and IV pressure ulcers;
- (v) Falls and trauma:
 - (A) Fractures;
 - (B) Dislocations;
 - (C) Intracranial injuries;
 - (D) Crushing injuries;
 - (E) Burns;
 - (F) Other injuries.
- (vi) Manifestations of poor glycemic control:
 - (A) Diabetic ketoacidosis;
 - (B) Nonketotic hyperosmolar coma;
 - (C) Hypoglycemic coma;
 - (D) Secondary diabetes with ketoacidosis;
 - (E) Secondary diabetes with hyperosmolarity.
- (vii) Catheter-associated urinary tract infection (UTI);
- (viii) Vascular catheter-associated infection;
- (ix) Surgical site infection, mediastinitis, following coronary artery bypass graft (CABG);
- (x) Surgical site infection following bariatric surgery for obesity:
 - (A) Laparoscopic gastric bypass;
 - (B) Gastroenterostomy; or
 - (C) Laparoscopic gastric restrictive surgery.
- (xi) Surgical site infection following certain orthopedic procedures:
 - (A) Spine;
 - (B) Neck;
 - (C) Shoulder;
 - (D) Elbow.
- (xii) Surgical site infection following cardiac implantable electronic device (CIED).
- (xiii) Deep vein thrombosis/pulmonary embolism (DVT/PE) following certain orthopedic procedures:
 - (A) Total knee replacement; or
 - (B) Hip replacement.
- (xiv) Latrogenic pneumothorax with venous catheterization.

(b) Hospitals must include the present on admission (POA) indicator when submitting inpatient claims for payment. The POA indicator is to be used according to the official coding guidelines for coding and reporting and the CMS guidelines. The POA indicator may prompt a review, by the agency or the agency's designee, of inpatient hospital claims with an HCAC diagnosis code when appropriate according to the CMS guidelines. The agency will identify professional claims using the information provided on the hospital claims.

(c) HCACs are based on current medicare inpatient prospective payment system rules with the inclusion of POA indicators. Health care professionals and inpatient hospitals must report HCACs on claims submitted to the agency for consideration of payment.

(5) **Other provider preventable condition (OPPC)** - The agency will deny or recoup payment to health care professionals and inpatient hospitals for care related only to the treatment of consequences of an OPPC when the condition:

(a) Could have reasonably been prevented through the application of nationally recognized evidence based guidelines;

- (b) Is within the control of the hospital;
- (c) Occurred during an inpatient hospital admission;
- (d) Has a negative consequence for the beneficiary;
- (e) Is auditable; and
- (f) Is included on the list of serious reportable events in health care as identified by the department of health in WAC 246-302-030 effective on the date the incident occurred. The list of serious reportable events in health care, as of the publishing of this rule, includes:
 - (i) Surgical or invasive procedure events:
 - (A) Surgical or other invasive procedure performed on the wrong site;
 - (B) Surgical or other invasive procedure performed on the wrong patient;
 - (C) Wrong surgical or other invasive procedure performed on a patient;
 - (D) Unintended retention of a foreign object in a patient after surgery or other invasive procedure;
 - (E) Intraoperative or immediately postoperative/postprocedure death in an ASA Class 1 patient.
 - (ii) Product or device events:
 - (A) Patient death or serious injury associated with the use of contaminated drugs, devices, or biologics provided by the hospital;
 - (B) Patient death or serious injury associated with the use or function of a device in patient care, in which the device is used or functions other than as intended;
 - (C) Patient death or serious injury associated with intravascular air embolism that occurs while being cared for in a hospital.
 - (iii) Patient protection events:
 - (A) Discharge or release of a patient/resident of any age, who is unable to make decisions, to other than an authorized person;
 - (B) Patient death or serious injury associated with patient elopement;
 - (C) Patient suicide, attempted suicide, or self-harm that results in serious injury, while being cared for in a hospital.
 - (iv) Care management events:
 - (A) Patient death or serious injury associated with a medication error (e.g., errors involving the wrong drug, wrong dose, wrong patient, wrong time, wrong rate, wrong preparation, or wrong route of administration);
 - (B) Patient death or serious injury associated with unsafe administration of blood products;
 - (C) Maternal death or serious injury associated with labor or delivery in a low-risk pregnancy while being cared for in a hospital;
 - (D) Death or serious injury of a neonate associated with labor or delivery in a low-risk pregnancy;
 - (E) Patient death or serious injury associated with a fall while being cared for in a hospital;
 - (F) Any stage 3, stage 4, or unstageable pressure ulcers acquired after admission/presentation to a hospital (not present on admission);
 - (G) Patient death or serious injury resulting from the irretrievable loss of an irreplaceable biological specimen;
 - (H) Patient death or serious injury resulting from failure to follow-up or communicate laboratory, pathology, or radiology test results.

(v) Environmental events:

(A) Patient death or serious injury associated with an electric shock in the course of a patient care process in a hospital;

(B) Any incident in which systems designated for oxygen or other gas to be delivered to a patient contains no gas, the wrong gas, or is contaminated by toxic substances;

(C) Patient death or serious injury associated with a burn incurred from any source in the course of a patient care process in a hospital;

(D) Patient death or serious injury associated with the use of physical restraints or bedrails while being cared for in a hospital.

(vi) Radiologic events: Death or serious injury of a patient associated with the introduction of a metallic object into the magnetic resonance imaging (MRI) area.

(vii) Potential criminal event:

(A) Any instance of care ordered by or provided by someone impersonating a physician, nurse, pharmacist, or other licensed health care provider;

(B) Abduction of a patient of any age;

(C) Sexual abuse/assault on a patient within or on the grounds of a health care setting;

(D) Death or serious injury of a patient resulting from a physical assault (i.e., battery) that occurs within or on the grounds of a health care setting.

(6) Reporting PPCs.

(a) The agency requires inpatient hospitals to report PPCs (as appropriate according to (d) and (e) of this subsection) to the agency by using designated present on admission (POA) indicator codes and appropriate HCPCs modifiers that are associated:

(i) With claims for medical assistance payment; or

(ii) With courses of treatment furnished to clients for which medical assistance payment would otherwise be available.

(b) Health care professionals and inpatient hospitals must report PPCs associated with medicaid clients to the agency even if the provider does not intend to bill the agency.

(c) Use of the appropriate POA indicator codes informs the agency of the following:

(i) A condition was present at the time of inpatient hospital admission or at the time the client was first seen by the health care professional or hospital; or

(ii) A condition occurred during admission or encounter with a health care professional either inpatient or outpatient.

(d) Hospitals must notify the agency of an OPPC associated with an established medicaid client within forty-five calendar days of the confirmed OPPC in accordance with RCW 70.56.020. If the client's medicaid eligibility status is not known or established at the time the OPPC is confirmed, the agency allows hospitals thirty days to notify the agency once the client's eligibility is established or known.

(i) Notification must be in writing, addressed to the agency's chief medical officer, and include the OPPC, date of service, client identifier, and the claim number if the facility submits a claim to the agency.

(ii) Hospitals must complete the appropriate portion of the HCA 12-200 form to notify the agency of the OPPC.

Agency forms are available for download at: <http://maa.dshs.wa.gov/forms/>.

(e) Health care professionals or designees responsible for or may have been associated with the occurrence of a PPC involving a medicaid client must notify the agency within forty-five calendar days of the confirmed PPC in accordance with chapter 70.56 RCW. Notifications must be in writing, addressed to the agency's chief medical officer, and include the PPC, date of service, and client identifier. Providers must complete the appropriate portion of the HCA 12-200 form to notify the agency of the PPC. Agency forms are available for download at <http://maa.dshs.wa.gov/forms/>.

(f) Failure to report, code, bill or claim PPCs according to the requirements in this section will result in loss or denial of payments.

(7) Identifying PPCs. The agency may identify PPCs as follows:

(a) Through the department of health (DOH); or

(b) Through the agency's program integrity efforts, including:

(i) The agency's claims payment system;

(ii) Retrospective hospital utilization review process (see WAC 182-550-1700);

(iii) The agency's provider payment review process (see WAC 182-502-0230);

(iv) The agency's provider audit process (see chapter 182-502A WAC); and

(v) A provider or client complaint.

(8) Payment adjustment for PPCs. The agency or its designee conducts a review of the PPC prior to reducing or denying payment.

(a) The agency does not reduce, recoup, or deny payment to a provider for a PPC when the condition:

(i) Existed prior to the initiation of treatment for that client by that provider. Documentation must be kept in the client's clinical record to clearly support that the PPC existed prior to initiation of treatment; or

(ii) Is directly attributable to a comorbid condition(s).

(b) The agency reduces payment to a provider when the following applies:

(i) The identified PPC would otherwise result in an increase in payment; and

(ii) The portion of the professional services payment directly related to the PPC, or treatment of the PPC, can be reasonably isolated for nonpayment.

(c) The agency does not make additional payments for services on claims for covered health care services that are attributable to HCACs and/or are coded with POA indicator codes "N" or "U."

(d) Medicare crossover claims. The agency applies the following rules for these claims:

(i) If medicare denies payment for a claim at a higher rate for the increased costs of care under its PPC policies:

(A) The agency limits payment to the maximum allowed by medicare;

(B) The agency does not pay for care considered nonallowable by medicare; and

(C) The client cannot be held liable for payment.

(ii) If medicare denies payment for a claim under its national coverage determination agency from Section 1862

(a)(1)(A) of the Social Security Act (42 U.S.C. 1395) for an adverse health event:

(A) The agency does not pay the claim, any medicare deductible or any coinsurance related to the inpatient hospital and health care professional services; and

(B) The client cannot be held liable for payment.

(9) The agency will calculate its reduction, denial or recoupment of payment based on the facts of each OPPC or HCAC. Any overpayment applies only to the health care professional or hospital where the OPPC or HCAC occurred and does not apply to care provided by other health care professionals and inpatient hospitals, should the client subsequently be transferred or admitted to another hospital for needed care.

(10) Medicaid clients are not liable for payment of an item or service related to an OPPC or HCAC or the treatment of consequences of an OPPC or HCAC that would have been otherwise payable by the agency, and must not be billed for any item or service related to a PPC.

(11) Provider dispute process for PPCs.

(a) A health care professional or inpatient hospital may dispute the agency's reduction, denial or recoupment of payment related to a PPC as described in chapter 182-502A WAC.

(b) The disputing health care professional or inpatient hospital must provide the agency with the following information:

(i) The health care professional or inpatient hospital's assessment of the PPC; and

(ii) A complete copy of the client's medical record and all associated billing records, to include itemized statement or explanation of charges.

AMENDATORY SECTION (Amending WSR 11-14-075, filed 6/30/11, effective 7/1/11)

WAC 182-550-1650 Adverse events, hospital-acquired conditions, and present on admission indicators.

((1) The rules in this section apply to:

(a) Inpatient hospital claims with dates of admission on and after January 1, 2010;

(b) Payment or denial of payment for any inpatient hospital claims identified in (a) of this subsection, including medicaid supplemental or enhanced payments and medicaid disproportionate share hospital (DSH) payments or denial of payment;

(c) Adverse events, hospital-acquired conditions (HACs), and present on admission (POA) indicators (defined in subsection (2) of this section);

(d) Hospital requirements to report adverse events and HACs to the department (see subsection (4)(a) of this section);

(e) Hospital requests for retrospective utilization reviews and the related requirements to provide root cause analysis of events to the department (see subsection (4)(d) through (f) of this section); and

(f) Hospital requirements to use POA indicator codes on claims (see subsection (5)(a) of this section).

(2) The following definitions apply to this section:

(a) "~~Adverse events~~" (also known as "adverse health events" or "never events") are the events that must be reported to the department of health (DOH) under WAC 246-320-146. These serious reportable events are clearly identifiable, preventable, and serious in their consequences for patients, and frequently their occurrence is influenced by the policies and procedures of the health care organization.

(b) "~~Hospital-acquired condition (HAC)~~" is a condition that is reasonably preventable and was not present or identifiable at hospital admission but is either present at discharge or documented after admission. For medicaid payment purposes, the department considers a HAC to be a condition that:

(i) Is high cost or high volume, or both;

(ii) Results in the assignment of a case to a diagnosis related group (DRG) that has a higher payment when present as a secondary diagnosis;

(iii) Could reasonably have been prevented through the application of evidence-based guidelines; and

(iv) Does not conflict with medicare's hospital-acquired conditions policy (http://www.ems.hhs.gov/HospitalAcq-Cond/06_Hospital-Acquired_Conditions.asp#TopOfPage).

(c) "~~Serious disability~~" means a physical or mental impairment that substantially limits the major life activities of a patient.

(d) "~~Present on admission (POA) indicator~~" is a status code the hospital uses on an inpatient hospital claim that indicates if a condition was present or incubating at the time the order for inpatient admission occurs. A POA indicator can also identify a condition that develops during an outpatient encounter. (Outpatient encounters include, but are not limited to, emergency department visits, diagnosis testing, observation, and outpatient surgery.)

(e) "~~Root cause analysis~~" is a class of problem-solving methods aimed at identifying the root causes of events instead of addressing the immediate, obvious symptoms.

(3) ~~Medicare crossover inpatient hospital claims.~~ The department applies the following rules for these claims:

(a) If medicare denies payment for a claim at a higher rate for the increased costs of care under its HAC and/or POA indicator policies:

(i) The department limits payment to the maximum allowed by medicare;

(ii) The department does not pay for care considered nonallowable by medicare; and

(iii) The client cannot be held liable for payment.

(b) If medicare denies payment for a claim under its National Coverage Determination authority from Section 1862 (a)(1)(A) of the Social Security Act (42 U.S.C. 1395) for an adverse health event:

(i) The department does not pay the claim, any medicare deductible, and/or any co-insurance related to the inpatient hospital services; and

(ii) The client cannot be held liable for payment.

(4) ~~Inpatient hospital claims related to adverse events (excludes medicare crossover inpatient hospital claims discussed in subsection (3) of this section).~~ The department applies the following rules for these claims:

(a) When the department requests information from a hospital regarding adverse events identified by DOH, the

hospital must provide the information requested for any affected medical assistance client (this includes both fee-for-service clients and clients enrolled in a managed care organization (MCO) contracted with the department). If no medical assistance client was affected by an adverse event, the hospital must provide a written response to the department with an assurance that no medical assistance clients were affected.

(b) The department does not pay for adverse events identified by DOH and/or identified through the department's retrospective utilization review process. Some HACs can become an adverse event if the:

- (i) Patient dies or is seriously disabled; or
- (ii) Level of severity is great, such as the patient develops level three or level four pressure ulcers.

(c) The client cannot be held liable for payment.

(d) A hospital may request a retrospective utilization review by the department, as described in WAC 388-550-1700 (6)(a) and (b)(iii), from the department or its designee to determine if the hospital is eligible for a partial payment for the adverse event.

(e) A hospital that requests a department retrospective utilization review of an adverse event must provide the department with the hospital's root cause analysis, as described in WAC 246-320-146 (3) and (4), of the adverse event claim.

(f) The health care information that is part of the retrospective utilization review, including the root cause analysis of the adverse event claim, is exempt from public disclosure under RCW 42.56.360 (1)(c).

(5) Inpatient hospital claims related to hospital-acquired conditions that do not qualify as an adverse event (excludes medicare crossover inpatient hospital claims discussed in subsection (3) of this section). The department applies the following rules for these claims:

(a) The department reviews POA indicator codes on inpatient hospital claims in order to determine if a condition was present or incubating at the time the order for inpatient admission occurred, if a condition occurred during, or as a result of, hospital care, or if a condition developed during an outpatient encounter.

(i) All hospitals that have signed a core provider agreement with the department must provide information to the department by using POA indicator codes on each claim (refer to the table in this subsection).

(ii) These POA indicator codes must designate which procedures or complications were present on admission, and which occurred during, or as a result of, hospital care.

(iii) POA indicator codes are to be assigned to principal and secondary diagnosis (as defined in Section II of the Official Guidelines for Coding and Reporting), and the external cause of injury codes.

POA Indicator Codes	
U	Documentation insufficient to determine if condition was present at the time of inpatient admission.
W	Clinically undetermined. Provider unable to clinically determine whether or not the condition was present at the time of inpatient admission.

(b) The department does not make additional payments for services on inpatient hospital claims that are attributable to HACs and are coded with POA indicator codes "N" or "U." Specifically, for hospitals paid under the:

(i) Diagnostic related group (DRG) payment method, the department does not make additional payments for complications and comorbidities (CC) and major complications and comorbidities (MCC).

(ii) Per diem payment method, the department does not pay for days beyond the average length of stay (LOS) (defined in WAC 388-550-1050).

(iii) Departmental weighted costs-to-charges (DWCC) payment method, the department does not pay for services attributable to the HAC.

(iv) DRG and per diem outlier payment methods, the department does not pay for services attributable to the HAC.

(v) Ratio of costs-to-charges (RCC) payment method, the department does not pay for services attributable to the HAC.

(vi) Per case payment method, the department does not pay for services attributable to the HAC.

(6) The department denies payment for any HAC that results in death or serious disability.

(7) A hospital that disagrees with a department decision to deny payment or partial payment of an adverse event or hospital-acquired condition may follow the administrative appeal process in WAC 388-502-0220.) Refer to WAC 182-502-0022 for the payment policy for provider preventable conditions.

AMENDATORY SECTION (Amending WSR 13-04-082, filed 2/5/13, effective 3/8/13)

WAC 181-79A-251 Residency and professional certification. Renewal and reinstatement.

(1) Residency certificate. Residency certificates shall be renewed under one of the following options:

(a) Teachers.

(i) Individuals who hold, or have held, residency certificates have the following options for renewal past the first three-year certificate:

(A) Candidates who have attempted and failed the professional certificate assessment are eligible for a two-year renewal;

(B) Candidates who have not been employed or employed less than full-time as a teacher during the dated, three-year residency certificate may receive a two-year renewal by submitting an affidavit to the certification office confirming that they will register and submit a uniform assessment portfolio or may permit their certificate to lapse until such time they register for the professional certificate assessment;

(C) Candidates whose three-year residency certificate has lapsed may receive a two-year renewal by submitting an affidavit to the certification office confirming that they will register and submit a uniform assessment portfolio for the professional certificate assessment;

(D) Individuals who complete a National Board Certification assessment but do not earn National Board Certification, may use that completed assessment to renew the residency certificate for two years.

(ii) A residency certificate expires after the first renewal if the candidate has not registered for and submitted a portfolio assessment prior to June 30th of the expiration year, to achieve the professional certificate, provided: When the first two-year renewal on residency certificates expires, teachers have two renewal options:

(A) Teachers who were employed but failed the professional certification assessment, may receive a second two-year renewal;

(B) Teachers who were unemployed or employed less than full-time during the first two-year renewal may permit their certificate to lapse and receive a second two-year renewal by submitting an affidavit to the certification office confirming that they will register and submit a uniform assessment portfolio for the professional certification assessment.

(C) An individual who completes a National Board Certification assessment but does not earn National Board Certification, may use that completed assessment to renew the residency certificate for two years in lieu of submitting an affidavit to the certification office confirming that they will register and submit the Washington uniform assessment portfolio as per this section, WAC 181-79A-251.

(iii) Teachers who hold expired residency certificates may be reinstated by having a district request, under WAC 181-79A-231, a transitional certification not less than five years following the final residency expiration: Provided, That the teacher registers and passes the professional certification assessment within two years.

(iv) Teachers that hold a dated residency certificate prior to September 2011 that have expiration dates past September 2011 are subject to the same renewal options as described in (a)(ii) and (iii) of this subsection.

(b) Principals/program administrators.

(i) Individuals who hold, or have held, a residency certificate and who qualify for enrollment in a professional certificate program pursuant to WAC 181-78A-535 (2)(a) may have the certificate renewed for one additional two-year period upon verification by the professional certificate program administrator that the candidate is enrolled in a state approved professional certificate program.

(ii) Individuals who hold, or have held, residency certificates who do not qualify for enrollment in a professional certificate program under WAC 181-78A-535 (2)(a) may have their residency certificates renewed for an additional five-year period by the completion of fifteen quarter credits (ten semester credits) of college credit course work, directly related to the current performance-based leadership standards as defined in WAC 181-78A-270 (2)(b) from a regionally accredited institution of higher education taken since the issuance of the residency certificate.

(c) School counselors and school psychologists.

(i) Individuals who hold a residency certificate and who qualify for enrollment in a professional certificate program pursuant to WAC 181-78A-535(3) may have the certificate renewed for one additional two-year period upon verification by the professional certificate program administrator that the candidate is enrolled in a state approved professional certificate program.

(ii) Individuals who hold, or have held, a residency certificate who do not qualify for admission to a professional certificate program under WAC 181-78A-535 (3)(a) may have their residency certificates renewed for an additional five-year period by the completion of fifteen quarter credits (ten semester credits) of college credit course work, directly related to the current performance-based standards as defined

in WAC 181-78A-270 (5), (7), or (9) from a regionally accredited institution of higher education taken since the issuance of the residency certificate.

(iii) School psychologists in the process of obtaining the NCSP may apply for a one-time two-year renewal with verification of NCSP submission.

(iv) School psychologists with residency certificates dated to expire June 30, 2013, 2014, or 2015 may apply until June 30, 2016, for a one-time two-year extension.

(2) Professional certificate.

(a) Teachers.

(i) A valid professional certificate may be renewed for additional five-year periods by the completion of one hundred fifty continuing education credit hours as defined in chapter 181-85 WAC or by completing the professional growth plan as defined in WAC 181-79A-030. Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours: Provided, that professional certificates issued under rules prior to September 1, 2014, retain the option of clock hours or professional growth plans for renewal. An expired professional certificate issued under rules in effect prior to September 1, 2014, may be renewed for an additional five-year period by presenting evidence to the superintendent of public instruction of completing the continuing education credit hour requirement within the five years prior to the date of the renewal application. All continuing education credit hours shall relate to either (a)(i)(A) or (B) of this subsection: Provided, That both categories (a)(i)(A) and (B) of this subsection must be represented in the one hundred fifty continuing education credit hours required for renewal:

(A) One or more of the following three standards:

(I) Effective instruction.

(II) Professional contributions.

(III) Professional development.

(B) One of the salary criteria specified in WAC 392-121-262.

(ii) Individuals not employed as a teacher in a public school or approved private school holding a professional teaching certificate may have their professional certificate renewed for a five-year period by the completion of:

(A) Fifteen quarter credits (ten semester credits) of college credit course work directly related to the current performance-based leadership standards as defined in WAC 181-78A-540; or

(B) One hundred fifty continuing education credit hours as defined in chapter 181-85 WAC since the certificate was issued and which relate to the current performance-based standards as defined in WAC 181-79A-207; or

(C) Beginning September 1, 2014, four professional growth plans developed annually during the period in which the certificate is valid in collaboration with the professional growth team as defined in WAC 181-79A-030 are required for renewal. The professional growth plans must document formalized learning opportunities and professional development activities that relate to the standards and "career level" benchmarks defined in WAC 181-79A-207. Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the

equivalent of thirty hours of continuing education credit hours.

(ii) Provided, That a professional certificate may be renewed based on the possession of a valid teaching certificate issued by the National Board for Professional Teaching Standards at the time of application for the renewal of the professional certificate. Such renewal shall be valid for five years or until the expiration of the National Board Certificate, whichever is greater.

(b) Principals/program administrators.

(i) A professional certificate may be renewed for additional five-year periods for individuals employed as a principal, assistant principal or program administrator in a public school or approved private school by:

(A) Completion of four professional growth plans developed annually since the certificate was issued in collaboration with a minimum of three certificated colleagues that documents formalized learning opportunities and professional development activities that relate to the six standards and "career level" benchmarks defined in WAC 181-78A-540(1). Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours.

(B) Documented evidence of results of the professional growth plan on student learning.

(ii) Individuals not employed as a principal, assistant principal, or program administrator in a public school or approved private school may have their professional certificate renewed for a five-year period by the completion of:

(A) Fifteen quarter credits (ten semester credits) of college credit course work directly related to the current performance-based leadership standards as defined in WAC 181-78A-540(1) from a regionally accredited institution of higher education taken since the issuance of the professional certificate; or

(B) Completion of one hundred fifty continuing education credit hours as defined in chapter 181-85 WAC since the certificate was issued and which relate to the current performance-based standards as defined in WAC 181-78A-540(1); or

(C) Completion of four professional growth plans developed annually since the certificate was issued in collaboration with the professional growth team as defined in WAC 181-79A-030 that documents formalized learning opportunities and professional development activities that relate to the standards and "career level" benchmarks defined in WAC 181-78A-540(2). Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours.

(c) School counselors and school psychologists.

(i) For certificates issued under rules in effect prior to September 1, 2014, a valid professional certificate may be renewed for additional five-year periods (~~for individuals employed as a school counselor or school psychologist in a public school, approved private school, or in a state agency which provides educational services to students~~) by:

(A) Completion of one hundred fifty continuing education credit hours as defined in chapter 181-85 WAC since the

certificate was issued and which relate to the current performance-based standards as defined in WAC 181-78A-270 (5), (7), or (9);

(B) Completion of four professional growth plans that are developed annually since the certificate was issued in collaboration with a minimum of three certificated colleagues or supervisor, and that documents formalized learning opportunities and professional development activities that relate to the standards and career level benchmarks defined in WAC 181-78A-540(2). Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours; or

(C) An expired professional certificate issued under rules in effect prior to September 1, 2014, may be renewed for an additional five-year period by presenting evidence to the superintendent of public instruction of completing the continuing education credit hour requirement within the five years prior to the date of the renewal application.

(ii) Beginning September 1, 2014, a valid professional certificate may be renewed for additional five-year periods for individuals employed as a school counselor or school psychologist in a public school, approved private school, or in a state agency which provides educational services to students by completion of four professional growth plans developed annually since the certificate was issued in collaboration with the professional growth team as defined in WAC 181-79A-030 that documents formalized learning opportunities and professional development activities that relate to the standards and "career level" benchmarks defined in WAC 181-78A-540(2). Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours.

~~((ii))~~ (A) Individuals not employed as a school counselor or school psychologist in a public school or approved private school may have their professional certificate renewed for an additional five-year period by:

~~((A))~~ (B) Completion of fifteen quarter credits (ten semester credits) of college credit course work directly related to the current performance-based standards as defined in WAC 181-78A-540(2) from a regionally accredited institution of higher education taken since the issuance of the professional certificate; or

~~((B))~~ (C) Completion of one hundred fifty continuing education credit hours as defined in chapter 181-85 WAC since the certificate was issued and which relate to the current performance-based standards as defined in WAC 181-78A-540(2);

~~((C))~~ (D) Completion of four annual professional growth plans developed since the certificate was issued in collaboration with the professional growth team as defined in WAC 181-79A-030 that documents formalized learning opportunities and professional development activities that relate to the standards and "career level" benchmarks defined in WAC 181-78A-540(2). Individuals who complete the requirements of the annual professional growth plan to renew their professional certificate shall receive the equivalent of thirty hours of continuing education credit hours;

~~((D))~~ (E) An expired professional certificate issued under rules in effect after September 1, 2014, may be renewed for an additional five-year period by presenting evidence to the superintendent of public instruction of completing the continuing education credit hour requirement within the five years prior to the date of the renewal application.

(iii) Provided, That a school counselor professional certificate may be renewed based on the possession of a valid school counselor certificate issued by the National Board for Professional Teaching Standards at the time of application for the renewal of the professional certificate. Such renewal shall be valid for five years or until the expiration of the National Board Certificate, whichever is greater; or

~~((E))~~ (iv) Provided, That a school psychologist professional certificate may be renewed based on the possession of a valid national certified school psychology certificate issued by the national association of school psychologists at the time of application for the renewal of the professional certificate. Such renewal shall be valid for five years or until the expiration of the national certified school psychology certificate, whichever is greater.

(d) For educators holding multiple certificates in (a), (b), or (c) of this subsection, or in chapter 181-85 WAC, a professional growth plan for teacher, administrator, or education staff associate shall meet the requirement for all certificates held by an individual which is affected by this section.

shelter cost income deduction for Basic Food?, to correct a typographical error from a previous rule making.

This change corrects a line that refers to a series of subsections in WAC 388-450-0185 What income deductions does the department allow when determining if I am eligible for food benefits and the amount of my monthly benefits?

Subsection (2), line one refers to subsections of WAC 388-450-0185 and should only include subsections (1) through (4). The current version refers to subsections (1) through (5) and this is incorrect.

AMENDATORY SECTION (Amending WSR 12-24-018, filed 11/27/12, effective 12/28/12)

WAC 388-450-0190 How does the department figure my shelter cost income deduction for Basic Food? The department calculates your shelter cost income deduction as follows:

(1) First, we add up the amounts your assistance unit (AU) must pay each month for shelter. We do not count any overdue amounts, late fees, penalties or mortgage payments you make ahead of time as an allowable cost. We count the following expenses as an allowable shelter cost in the month the expense is due:

(a) Monthly rent, lease, and mortgage payments;

(b) Property taxes;

(c) Homeowner's association or condo fees;

(d) Homeowner's insurance for the building only;

(e) Utility allowance your AU is eligible for under WAC 388-450-0195;

(f) Out-of-pocket repairs for the home if it was substantially damaged or destroyed due to a natural disaster such as a fire or flood;

(Economic Services Administration)

[Filed May 20, 2013, 2:35 p.m., effective June 20, 2013]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The community services division is amending WAC 388-450-0190 How does the department figure my

(g) Expense of a temporarily unoccupied home because of employment, training away from the home, illness, or abandonment caused by a natural disaster or casualty loss if your:

- (i) AU intends to return to the home;
- (ii) AU has current occupants who are not claiming the shelter costs for Basic Food purposes; and
- (iii) AU's home is not being leased or rented during your AU's absence.

(2) Second, we subtract all deductions your AU is eligible for under WAC 388-450-0185 (1) through ~~((5))~~ (4) from your AU's gross income. The result is your AU's net income.

(3) Finally, we subtract one-half of your AU's net income from your AU's total shelter costs. The result is your excess shelter costs. Your AU's shelter cost deduction is the excess shelter costs:

- (a) Up to a maximum of four hundred sixty-nine dollars if no one in your AU is elderly or disabled; or
- (b) The entire amount if an eligible person in your AU is elderly or disabled, even if the amount is over four hundred sixty-nine dollars.

Chief

AMENDATORY SECTION (Amending WSR 09-09-118, filed 4/21/09, effective 5/22/09)

WAC 204-91A-180 Additional vehicle towing/operator qualifications, restrictions, and requirements. In addition to the requirements contained in WAC 204-91A-170, tow truck operators appointed pursuant to this chapter must conform to all laws and administrative rules pertaining to the tow industry and must observe the following practices and procedures:

(1) When called by the patrol during normal business hours, the tow truck operator must dispatch a tow truck, from within the assigned zone within five minutes after receiving the call. Tow trucks must be registered to and belong to the particular tow business that is called and assigned only to that tow zone. If an officer at the scene deems it necessary, the officer may authorize additional assistance from a registered tow truck operator outside of the tow zone.

(2) When called by the patrol after normal business hours, the tow truck operator must dispatch a tow truck from within the assigned zone within fifteen minutes after receiving the call.

(3) The tow truck that is dispatched must arrive at the stated location within a reasonable time considering distance, traffic, and weather conditions.

(4) If for any reason a tow operator is unable to dispatch a tow truck within the stated time or if the dispatched truck will be delayed for any reason, the operator must advise the patrol stating the reason and estimated time of arrival. In the event the tow truck fails to arrive at the scene within a reasonable time, the patrol will contact another tow operator to respond to the scene and will cancel the original tow.

(5) A tow operator on rotation who is unable to dispatch or arrive within the times stated in subsections (1), (2), (3), and (4) of this section will forfeit the operator's turn and be placed at the bottom of the rotation list as if the operator had responded.

(6) Consistent refusal or failure of the appointee to respond to calls from the patrol for towing services or to provide the requested services may result in the suspension or revocation of the tow operator's letter of appointment.

(7) The tow operator must advise the appropriate patrol office when the tow company is temporarily unavailable to respond to rotational calls with a class "A," "B," or "C" tow truck. Unavailability may occur due to conditions including, but not limited to, other tow truck commitments, tow truck disabled and/or under repair, unforeseen driver shortage due to illness. The period of unavailability may last less than an hour or much longer. The tow operator will give the reason for unavailability and approximately when the company will be available to respond to calls.

The tow company will be removed from the rotational list and will not be called until the operator advises the patrol that the company is once again able to respond to calls with an "A," "B," or "C" class truck. In all such cases, the tow company will resume its normal position on the rotational list without regard to any missed calls or its position prior to being unavailable.

(8) The tow operator must advise the patrol whenever a private call is received for a tow with circumstances that indicate that the tow is for a vehicle that has been involved in a

collision, incident, or equipment breakdown on the public roadway. The tow operator also must advise the patrol of all private calls to motor vehicle collisions on private property resulting in bodily injury or death.

(9) The tow operator must notify the patrol before moving any vehicle involved in a collision on a public highway under the jurisdiction of the patrol as defined in the motor vehicle code, Title 46 RCW, or where it appears that the driver of the vehicle to be moved is under the influence of intoxicants or drugs, or is otherwise incapacitated.

(10) Other than a service patrol established and funded by the department of transportation, a tow operator must not solicit tow or roadside services by patrolling the public roadways searching for disabled vehicles or vehicles involved in a traffic collision.

(11) When the patrol is in charge of a collision scene or other such incident, a tow operator must not respond to such scene unless his services have been specifically requested by the patrol, the driver/owner, or his agent.

(12) The tow operator must be available, or will ensure that specific employees are available, twenty-four hours a day for the purpose of receiving calls or arranging for the release of vehicles. Business hours will be posted conspicuously at the operator's place of business so they can be seen during business hours and nonbusiness hours. A copy will also be sent to the section and patrol district commander of the district in which the tow operator does business. Changes of business hours will be sent to the department, the section, and the patrol district commander ten days before their effective date.

(13) The operator must post a current copy of tow and storage rates, on a form approved by the department and the patrol, in the following locations:

(a) At the entrance to the place of business, in a conspicuous location, plainly visible and capable of being read by the public, whether the business is open or closed. If, in order to meet this requirement, the rate sheets must be placed in a location, exposed to the elements, they must be protected so as to remain legible.

(b) Inside the business location, where business is commonly transacted. The rate sheets must be posted in such manner as to be clearly and plainly visible and read at all times by customers of the business.

(c) A copy of the current rates will be sent to the department, the section, and the patrol district commander of the district in which the tow operator has applied for a letter of appointment. Notice of any change(s) in service rates will be forwarded to the department, the section, and the district commander of the area ten days before the effective date of the changes. Charges made for towing services arising from calls initiated by the patrol must be consistent with current posted towing rates and must be based only upon services listed on the prescribed form.

(d) In the event that an operator has only a class "B" truck and utilizes it for class "A" and "B" type tows, the operator must file a rate sheet that specifies the rates charged for the different types of tows.

(e) Whenever any operator utilizes a larger truck than the towed vehicle warrants, the operator must charge fees based on the size of the towed vehicle not the size of the truck used.

(14) Charges made for towing services arising from calls initiated by the patrol must not exceed the maximum rates established by the chief.

(15) Unless other arrangements are made with commissioned patrol personnel at the scene, all impounded vehicles must be taken to the tow operators nearest approved storage location.

(16) The tow operator will maintain, for three years, records on towed and released vehicles which were towed at the request of the patrol. Such records will be available for inspection by the patrol during normal business hours at the operator's place of business. Records will include, but not be limited to:

(a) An itemized receipt of all charges for the services provided.

(b) A tow impound record inventory or copy thereof made out by the trooper at the scene of the tow and signed by the operator.

(c) All other records required by the department.

(17) The name of the registered tow truck operator will ~~(sign)~~ be placed on the tow impound inventory record made out by the patrol officer at the scene upon verification; except that the signature may be provided on existing forms with form number 3000-110-076 (R 7/11) until current stock is depleted.

(18) Tow operators will obtain and maintain current registration as a licensed tow truck operator pursuant to RCW 46.55.020.

(19) Tow operators must perform towing tasks competently. The standard of competence will be that quality of work which is accepted as efficient and effective within the towing industry. The tow operator must ensure tow truck drivers responding to calls initiated by the patrol have completed a minimum of one four-hour tow truck driver training course every five years. The operator must keep a file documenting training.

(20) No tow operator, employee, or agent will misappropriate, wrongfully convert to his/her own use, or abuse property belonging to another and entrusted to his/her care or storage.

(21) Tow truck operators must use emergency lights to warn other motorists only when at the scene of collisions, disabled vehicles, and/or recoveries. Such lighting must not be used when traveling to or from the scene.

(22) Tow truck operators are required to clean collision/incident scenes of all vehicle glass, debris, and vehicle liquid spills of one gallon or less.

(23) Specific operating restrictions and/or requirements, by truck class, are as follows:

(a) The standard air brake release tools (caging stud assemblies) required to be carried in the class "B," "B-2," and "C" trucks must be used, whenever necessary, to preserve potential evidence involving brake equipment or adjustment settings. When an operator is attempting to move a vehicle equipped with locked spring parking brakes that cannot be released by external air supply, the caging assemblies must be used to release the brake tension. Under no circumstances will the towed vehicle's brake assemblies or adjustments be moved or disturbed in any way that will prevent later determination of the precollision or incident settings.

(b) Class "B" or "B-2" trucks in excess of twenty-three thousand pounds gross vehicle weight rating need not carry dollies when towing or recovering heavy vehicles.

(24) Whenever a "special event or overflow" storage lot is approved by the department, the patrol and appropriate city/county jurisdictions, the following must apply:

(a) The operator must maintain personnel at the lot twenty-four hours per day for security and vehicle and/or personal property release. If necessary, reimbursement for such labor must be part of the contract for the "special event" if appropriate or by amended storage rates with a waiver of the ten-day rate change notice requirement approved by the department and the patrol.

(b) At the conclusion of a "special event or overflow" situation, all vehicles not reclaimed by the owner must be towed to the operator's regular storage facility and processed in the normal fashion. No additional fee must be charged for towing the vehicle from the overflow lot to the regular storage facility.

(25) All work performed by the operator and/or employee must be in the most professional and expeditious manner. Tow operators and employees must refrain from any unprofessional actions while towing for or conducting towing business at the request of the patrol. The actions include, but are not limited to, any of the following:

(a) Lack of service, selective service, or refusal to provide service which the operator should be capable of performing;

(b) Exhibiting any signs of either alcohol, drug use, or both;

(c) Displaying any objects, logos, slogans, or graphic material within the view of the public that contains any form of pornography, profanity, or prejudice toward any person or group of persons.

(26) Tow operators must, when required by the patrol or the department, cause to be displayed on each approved truck, decals indicating truck class, patrol district, and/or assigned tow zone.

(27) When responding to a patrol call, tow truck operators must wear clothing identifying the company and driver's name.

(28) Tow truck operators performing recovery, impounding, or towing must wear work vests of highly visible materials, or equivalent distinguishing apparel when outside of the towing vehicle as outlined in WAC 296-155-200(5) and Code of Federal Regulations, Title 23 Part 634.3.

(29) Tow truck operators must not display any sign, shield, marking, accessory, or insignia on uniforms or vehicles indicating the equipment or vehicle marking are similar to or belong to any public law enforcement agency. Tow truck operators must not engage in any advertisement indicating an official connection with the patrol or other law enforcement agency.

Statutory Authority for Adoption: RCW 77.04.012 and 77.12.047.

Adopted under notice filed as WSR 13-02-094 on January 2, 2013.

Changes Other than Editing from Proposed to Adopted Version: For WACs adopted as part of this CR-103P, all changes from the proposed to adopted version are shown below.

Some of the WACs that were included in WSR 13-02-094 have been filed with a CR-102 supplemental (WSR 13-10-083) and will be adopted under a separate CR-103P at a later date. These include WAC 220-56-235 Possession limits—Bottomfish, 220-56-310 Shellfish—Daily limits, 220-20-100 General provisions—Marine protected areas and 220-56-390 Squid, octopus; and new sections WAC 220-16-881 through 220-16-887, Marine preserves.

WAC 220-56-282 Sturgeon—Areas, seasons, limits and unlawful acts.

1. Implemented a two-sturgeon annual statewide limit effective May 1 through December 31, 2013.

2. Changed sturgeon to a catch-and-release fishery in the Columbia River from Bonneville Dam, downstream; the coast; Puget Sound; and the Columbia and Puget Sound tributaries, effective January 1, 2014.

WAC 232-28-619 Washington food fish and game fish—Freshwater exceptions to statewide rules.

1. Removed size and daily limits for bass and walleye, and daily limits for channel catfish, in the Columbia River from the OR/WA border above McNary Dam, upstream; the Snake River; and the Columbia and Snake tributaries. Clarified the areas on the Touchet River that its rules apply to.

2. Spokane River mouth to 400 feet below Little Falls Dam - implemented a year-round walleye season.

3. Lake Roosevelt and the Spokane River: Implemented a 16-fish limit for walleye per day.

4. Tucquala Lake: Changed the opening to the first Saturday before Memorial Day.

5. Calispell Creek Tributaries: Added Selective Gear Rules.

6. Clearwater River (Jefferson County), from the mouth to Snahapish River: Changed steelhead retention dates to "February 16 through April 15."

7. Humptulips River (Grays Harbor County): Changed season dates for the following sections:

- a. From the mouth (Jessie Slough) to Ocean Beach Road (near Copalis Crossing);
- b. Ocean Beach Road (near Copalis Crossing) to Highway 101 Bridge; and
- c. From Highway 101 Bridge to the confluence of the East and West forks.

8. Scootenev Reservoir (Franklin County): Added "No more than one walleye over 22 inches in length may be retained."

9. Hamma Hamma (Mason County): Reverted season back to "the first Saturday in June through October 31."

10. Cougar Lake (Pasayten Wilderness) (Okanogan County): Added two-pole fishing.

11. Touchet River (Columbia/Walla Walla counties): Added "Walleye: No size restrictions and no limit; Bass: No size restrictions and no limit; and Channel catfish: No limit." Also,

- a. Within the mainstem and tributaries: Open to gamefish angling; and
- b. From the mouth to the confluence of the North and South forks, and all tributaries: Open to gamefish angling.

12. Colville River (Stevens County), from the mouth to the bridge at town of Valley: Removed walleye daily limit and size restrictions.

13. Tucquala Lake: Changed opening date to "the first Saturday before Memorial Day." [Same as 4. above.]

14. Quilcene River: Withdrew proposed rule.

AMENDATORY SECTION (Amending Order 11-184, filed 8/3/11, effective 9/3/11)

WAC 220-56-240 Daily limits forage fish and other food fish not otherwise provided for. It is unlawful for any person to retain more than the following quantities and sizes of food fish taken for personal use. Unless otherwise provided, other food fish fishing is open the entire year:

(1) Forage fish:

(a) Catch Record Card Areas 5 through 13: 10 pounds (~~in the aggregate~~) total. The possession limit is two daily limits in fresh form. Additional forage fish may be possessed in frozen or processed form(~~;~~);

(b) Catch Record Card Areas 1 through 4, 2.1 (Willapa Bay) and 2.2 (Grays Harbor), excluding sardines and anchovies: 10 pounds total;

(c) Catch Record Card Areas 1 through 4, 2.1 (Willapa Bay) and 2.2 (Grays Harbor), sardines and anchovies: 25 pounds total;

(d) The possession limit is two daily limits in fresh form. Additional forage fish may be possessed in frozen or processed form.

(2) Shiner perch: Daily limit 15 fish.

(3) All other marine food fish not otherwise provided for in this chapter except albacore(~~, yellowfin, skipjack, and northern bluefin~~) tuna and all mackerel: Daily limit two fish.

AMENDATORY SECTION (Amending Order 10-64, filed 3/19/10, effective 5/1/10)

WAC 220-56-265 Forage fish—Lawful gear. (1) It (~~shall be~~) is unlawful to take, fish for (~~and~~), or possess herring, candlefish (sand lance), (~~pilehards~~) sardines, anchovies (~~and~~) or smelt (~~taken~~) for personal use (~~except with~~) unless an angler takes those species with the following gear:

(a) Hand dip net gear not exceeding 36 inches across the bag frame (~~having~~) with a maximum mesh size of (~~five eighths~~) 5/8 inch stretched mesh size(~~, and~~);

(b) Forage fish jigger gear (~~having~~) with not more than (~~three~~) 3 treble or (~~nine~~) 9 single hooks; or

(c) In Marine Areas 1 through 4, 2.1 (Willapa Bay), and 2.2 (Grays Harbor) it is permissible to take anchovies or sardines using dip net, cast net, jigger gear, or by angling.

(2) It is unlawful to take, fish for, or possess eulachon smelt.

(3) It is unlawful to use a dip bag net to take forage fish unless the operator of the net holds the handle at all times the netting is in the water.

(~~(3)~~) (4) It is unlawful to operate a dip bag net to harvest forage fish from a vessel under power, or to use more than one forage fish dip net at a time.

(~~(4)~~) (5) Only persons with (~~a reduced fee license or~~) WDFW disability status and a designated harvest companion card may use a hand-operated gate on a dip net while fishing for forage fish.

(~~(5)~~) (6) Forage fish jigger gear hooks may not have a gap between the shank and the point exceeding 3/8 inch.

(~~(6)~~) (7) It is unlawful for a fisher to operate cast net gear unless the gear is in his or her immediate control. The fisher must have the retrieval cord in his or her hand at all times when the cast net is deployed. Mesh size for cast nets is limited to 1 inch maximum, and cast nets may be no larger than 10 feet in diameter.

(8) Use of gear in violation of this section is an infraction, punishable under RCW 77.15.160.

(~~(7)~~) (9) It is unlawful to possess forage fish taken with gear in violation of the provisions of this section. Possession of forage fish while using gear in violation of the provisions of this section is a rebuttable presumption that the forage fish were taken with such gear. Violation of this subsection is punishable under RCW 77.15.380 Unlawful recreational fishing in the second degree—Penalty, unless the forage fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370 Unlawful recreational fishing in the first degree—Penalty.

AMENDATORY SECTION (Amending Order 12-190, filed 8/23/12, effective 9/23/12)

WAC 220-56-282 Sturgeon—Areas, seasons, limits and unlawful acts. (1) It is unlawful to retain green sturgeon.

(2) It is permissible to retain white sturgeon in Puget Sound and all Puget Sound tributaries from June 1 through June 30, 2013, and September 1 through October 15, 2013, except (~~that~~) in (~~the~~) Union River(~~;~~) white sturgeon may only be retained from June 1 through June 30, 2013.

(3) ~~((For all saltwater waterways, excluding Puget Sound and Puget Sound tributaries,))~~ It is permissible to ~~((fish for))~~ catch and release white sturgeon ((the entire year)) in saltwater waterways year-round. However, for freshwater waterways, including freshwater Puget Sound tributaries, it is permissible to ~~((fish for))~~ catch and release white sturgeon only when the season is open for salmon or game fish, unless otherwise provided.

(4) ~~((The daily limit is one white sturgeon, with the following size restrictions:~~

~~(a) Minimum size is 43 inches in fork length in the Columbia River and tributaries upstream from The Dalles Dam.~~

~~(b) Minimum size is 38 inches in fork length in all other state waters.~~

~~(c) Maximum size is 54 inches in fork length.~~

~~(5) Once the daily limit has been retained, it is permissible to continue to fish for sturgeon in the mainstem of the Columbia River downstream from where the river forms the boundary between Oregon and Washington, provided that all subsequent sturgeon are released immediately.~~

~~(6) The possession limit is two daily limits of fresh, frozen, or processed white sturgeon.~~

~~(7) There is an annual personal-use limit of five white sturgeon from April 1 through March 31, regardless of where the sturgeon were taken. After the annual limit of sturgeon has been taken, it is permissible to continue to fish for white sturgeon in the mainstem Columbia River downstream from where the river forms the common boundary between Oregon and Washington, provided that all subsequent sturgeon are released immediately.~~

~~(8))~~ It is permissible to catch and release sturgeon year-round in the following waters, unless otherwise provided by department rule:

(a) The mainstem Columbia River and its tributaries downstream from where the river forms the boundary between Oregon and Washington;

(b) The mainstem Columbia and its tributaries from Priest Rapids Dam to Chief Joseph Dam;

(c) The Snake River and tributaries from Lower Granite Dam upstream.

(5) It is unlawful to fish for sturgeon in the Columbia River and tributaries upstream of Chief Joseph Dam.

(6) Effective January 1, 2014, it is unlawful to retain white sturgeon in the following areas:

(a) The Columbia River and its tributaries below Bonneville Dam;

(b) Coastal waters and tributaries of coastal waters; and

(c) Puget Sound waters and tributaries of Puget Sound.

(7) The following limits and requirements apply in areas where it is permissible to retain sturgeon:

(a) The daily limit is one white sturgeon.

(b) The possession limit is two daily limits of fresh, frozen, or processed white sturgeon.

(c) The annual personal-use limit for white sturgeon from April 1 through March 31 is two fish, regardless of where the angler takes the sturgeon.

(d) The maximum fork-length is 54 inches.

(e) The minimum fork-length is 38 inches, except the minimum fork-length is 43 inches on the mainstem Columbia

and its tributaries from The Dalles Dam to Priest Rapids Dam and the Snake River from the Confluence Protection Area to Lower Granite Dam.

(f) It is unlawful to fail to release undersize or oversize sturgeon immediately.

(g) Once an angler reaches his or her annual limit of white sturgeon, he or she may continue to fish for white sturgeon in the mainstem Columbia River downstream from where the river forms the common boundary between Oregon and Washington, unless otherwise provided by department rule, so long as the angler releases all subsequent sturgeon immediately.

(h) It is unlawful to fish for sturgeon with terminal gear other than bait and one single-point barbless hook.

(i) It is permissible to use artificial scent with bait when fishing for white sturgeon.

~~((9))~~ (j) It is unlawful to use a gaff or other body-penetrating device while restraining, handling, or landing a sturgeon.

(k) It is unlawful to fish for or possess sturgeon ((taken for personal use)) from freshwater, except the Chehalis River, from one hour after official sunset to one hour before official sunrise.

~~((10) It is unlawful to possess in the field sturgeon eggs without having retained the intact carcass of the fish from which the eggs have been removed.~~

~~(11) It is unlawful to use a gaff or other fish landing aid that penetrates the fish while restraining, handling, or landing a sturgeon.~~

~~(12) It is unlawful to fail to immediately return to the water any undersize or oversize sturgeon.~~

~~((13))~~ (l) It is unlawful to possess sturgeon eggs in the field without retaining the intact carcass of the fish from which the eggs have been removed.

(8) Violation of this section is an infraction, punishable under RCW 77.15.160, unless the person has harvested sturgeon. If the person has harvested sturgeon, the violation is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree—Penalty, unless the sturgeon are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.

~~((14))~~ (9) It is unlawful to possess sturgeon taken with gear in violation of the provisions of this section. AMENDATORY SECTION (Amending Order 12-190, filed 8/23/12, effective 9/23/12)

WAC 232-28-619 Washington food fish and game fish—Freshwater exceptions to statewide rules. (1) All freshwater streams and lakes not listed as open for salmon fishing are closed to fishing for salmon.

(2) Waters listed as open during a specific date range that do not reference any particular species are open during the date range for game fish only.

(3) Rivers, streams, and beaver ponds that drain into Puget Sound, the Strait of Juan de Fuca, or the Pacific Ocean (excluding the Columbia River) are closed to fishing unless listed as open.

(4) The limits listed in this section are daily limits, unless otherwise provided.

(5) Within Puget Sound, beaver ponds located within or adjoining streams that are listed as open to trout and other game fish follow the same rules and regulations as the stream, except as otherwise provided.

(6) As used in this section, "lead jig" means a lure consisting of a hook permanently or temporarily attached directly to a lead weight by any method. "Lead weight" means material constructed of lead and applied to a fishing line or lure and designed to help keep the hook, bait, or lure underwater.

~~((3))~~ (7)(a) Violation of this section is an infraction, punishable under RCW 77.15.160, unless the person has harvested fish. If the person has harvested fish, the violation is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree—Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.

(b) Freshwater terminal gear restrictions: Terminal gear restrictions apply to all species, including salmon, unless otherwise provided. In all waters with freshwater terminal gear restrictions, including, but not limited to, night closures, selective gear rules, whitefish gear rules, single-point barbless hooks required, fly-fishing only, and anti-snagging rules, violation of the gear rules is an infraction, punishable under RCW 77.15.160. It is unlawful to possess fish taken with gear in violation of the freshwater terminal gear restrictions. Possession of fish while using gear in violation of the freshwater terminal gear restrictions is a rebuttable presumption that the fish were taken with such gear. Possession of such fish is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-108-050 Brief adjudicative procedures.

This rule is adopted in accordance with RCW 34.05.482 through 34.05.494, the provisions of which are hereby adopted. Brief adjudicative procedures shall be used, unless provided otherwise by another rule or determined otherwise in a particular case by the district chancellor, the affected campus president, or a designee of either, in regard to:

- (1) Parking violations.
- (2) Outstanding debts owed by students or employees.
- (3) Use of college facilities.
- (4) Residency determinations.
- (5) Use of library—Fines.
- (6) Challenges to contents of education records.
- (7) Loss of eligibility for participation in institution sponsored athletic events.

(8) Student conduct appeals involving minor disciplinary actions imposing probation or suspensions of ten instructional days or less and any conditions or terms placed on the student.

(9) Appeals of decision regarding mandatory tuition and fee waivers.

Brief adjudicative proceedings are informal hearings and shall be conducted in a manner which will bring about a prompt fair resolution of the matter.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-010 Definitions and general provisions. For purposes of this chapter:

(1)(a) Bullying is defined as the repeated use by one or more students of a written, verbal or electronic expression or a physical act or gesture or any combination thereof, directed at another student or staff that:

(i) Intentionally causes physical or emotional imminent harm to the student or damage to the student's property;

(ii) Places the student in reasonable fear of harm to herself or himself or of damage to the student's property;

(iii) Creates an unlawful hostile environment at school for the student;

(iv) Infringes on the rights of the student at school; or

(v) Is conduct that is sufficiently severe or pervasive to cause material disruption to the ability of a student to participate or benefit in the education program.

(b) Cyber-bullying is defined as bullying through the use of technology or any electronic communication which shall include, but not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromag-

netic, photo electronic, or photo optical system including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications. Cyber-bullying shall also include the creation of a web page or blog in which the creator posted content or messages, if the creation or impersonation creates any of the conditions constituting bullying in the student conduct code. Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions constituting bullying in the student conduct code.

(2) The terms "college" and "campus" are used interchangeably, and each refers to any of the district's three colleges, North Seattle Community College, Seattle Central Community College, and South Seattle Community College. The Seattle Vocational Institute is considered to be part of Seattle Central Community College.

~~((2))~~ (3) "Day" means calendar day, unless specified otherwise, and deadlines shall be computed in accordance with WAC 10-08-080.

~~((3))~~ (4) "District" means the sixth state college district, the district administrative offices (Siegal Center), North Seattle Community College, Seattle Central Community College, South Seattle Community College, the Seattle Vocational Institute, and/or every other District VI educational facility, each separately and all together.

~~((4))~~ (5) "District community" includes, but is not limited to, the district itself and all enrolled students, employees, officers, and invitees of the district.

~~((5))~~ (6) "District property" includes all real property, buildings, and other facilities that are owned, leased, or controlled by the district or by the state for district purposes.

~~((6))~~ (7) "Vice-president for student services" means the person whom a college president has appointed to that position or has otherwise designated to perform the functions ascribed to that position in this chapter.

~~((7))~~ (8) An action or activity that may be authorized or taken by the district chancellor, a vice chancellor, a campus president, or a campus vice-president may also be authorized or taken by any other person whom that officer has specifically designated to perform that function on his/her behalf, but this officer retains responsibility for the function.

~~((8))~~ (9) After the adoption of these rules, if a statute or rule to which they refer is ~~((re-numbered))~~ renumbered or otherwise amended, these rules shall be interpreted to the fullest extent possible to incorporate such amendment while still giving effect to their original purposes.

~~((9))~~ (10) Service of any document, notice, or copy under this chapter shall be made (a) by personal delivery, (b) by mailing to the recipient's last known address, which service shall be regarded as complete upon deposit in the U.S. mail properly stamped and addressed, or (c) as otherwise authorized by law or rule.

(11) The term "student" includes all persons taking courses at the district, either full-time or part-time. Persons who withdraw after allegedly violating the student code, who are not officially enrolled for a particular term but who have a continuing relationship with the district, or who have been notified of their acceptance for admission are considered

"students" as are persons who are living in district resident halls, although not enrolled at the district.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-030 Student organizations. (1) Student organizations may be established and recognized whether their aims are educational, cultural, recreational, social, athletic, religious, political, or economic. Affiliation with an external organization shall not in and of itself disqualify a campus-based student organization from recognition. Membership in a student organization shall be open to any student who subscribes to the stated aims of the organization. To operate as such, a student organization must be recognized by the approved student government organization. The student organization shall abide by all governing federal and state laws and district and campus rules, policies and procedures.

(2) A college may require, as a condition of access to campus funds and/or facilities, demonstration or proof of the student enrollments of a student organization's members. However, any list of members compiled for such purposes shall not be publicly disclosed except in accordance with applicable law. A college may, in its discretion, permit others, such as students' spouses, to participate in a student organization's activities under appropriate conditions.

(3) Each year, before a student organization may be recognized or function as such, or may use services and activities funds, a college employee must ~~((agree))~~ be identified to serve as its advisor and his/her name must be ~~((provided to and))~~ approved by the vice-president for student services or designee. ~~((No campus employee may serve as the advisor for more than two student organizations at the same time.))~~

(4) Where funds are allocated to a student organization, financial accountability is required. Student organizations' funds shall be maintained at the college, in college accounts. The organizations shall keep detailed written records of their income and expenditures and shall assure that these can be reconciled with the campus budget and accounting system. Student organizations' financial records must be made available upon request to the student government organization and to any administrative officer designated by the college president.

(5) A college president may withdraw a student organization's recognition and funding for good cause. Such cause shall include, but not be limited to, (a) failure to comply with this rule or other district requirements or (b) hazing.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-050 Student use of the district/college name. (1) No individual student, student group, or student organization may act or make any representation in the name of the district or of any campus without specific authorization from the vice-president for student services or designee.

(2) No individual student, student group or student organization shall falsely indicate or represent that his, her, or its

own position on any policy or issue is that of the district or of any campus.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-060 Student complaints generally.

(1) The procedures in this chapter are to be used for the processing and disposition of complaints by students (complainants) against college employees or other students, except to the extent that a complaint is against a college employee and the processing is dictated otherwise by a collective bargaining agreement or other applicable process. These procedures are available to all students and are intended to protect the rights of both the complainant and the respondent.

(2) For the purposes of this chapter, a "complaint" is defined as a good faith ((claim-)) allegation based on personal experience or knowledge ((, that the respondent employee or student (a) has violated a specific legal or district requirement or has otherwise acted without reasonable care (b) on district property or during an event or activity that the district conducts, participates in, or sponsors, (c) in a manner that had or has a significant detrimental effect on)) by a student or students that there has been a violation, misapplication, or misinterpretation of some service or rule as it applies to students in the institution by a staff or faculty member of the institution, resulting in loss or detriment to the complainant. However, an objection to disciplinary action under the student conduct code is only appealable under that code, and cannot constitute a complaint.

(3) Each college president shall appoint a complaints officer to handle student complaints. This position shall be filled by an employee whose position is below the level of vice-president. The district chancellor shall designate a complaints officer to handle complaints against Siegal Center employees. If the president or chancellor determines, upon request, that the complaints officer has a disqualifying personal interest in a particular matter, he/she may appoint a substitute complaints officer for that matter. Information on the identity and location of the complaints officer(s) and about this procedure shall be readily available within each college.

(4) The complaints officer shall be responsible for taking appropriate actions to try to resolve complaints. ~~((Information on the identity and location of the complaints officer(s) and about this procedure shall be readily available within each college.))~~

(5) A complaint may be ~~((initiated))~~ addressed under either the informal process or the formal process, as set forth below. Students are encouraged to begin with the informal process.

(6) No respondent or district employee shall take adverse action or otherwise retaliate against a student because that student initiated a good faith complaint or assisted another student with a complaint.

(7) If more than one type of complaint or more than one respondent is included in one complaint, the complaints officer may, upon request, provide for appropriate modification(s) of these procedures.

(8) If a respondent employee is unavailable, or otherwise fails or refuses to participate timely in a complaint proceeding, the respondent's supervisor may ~~(, upon request and in her/his discretion,)~~ act or designate another person to act in the complaint proceeding on that employee's behalf. However, no action by a substitute may subject the respondent employee to discipline.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-070 Informal processing of complaints. (1) This informal process is intended to facilitate prompt and amicable resolution of a complaint apart from the formal complaint process.

(2) A student who has a complaint is encouraged to discuss the matter directly with the respondent to attempt to resolve it.

(3) If the student complainant believes that discussion with an employee respondent will not achieve or has not achieved a satisfactory result, the ~~((complainant))~~ student may communicate about the matter with the respondent's supervisor ~~(, if any. If the complainant identifies the matter as a complaint under this procedure, the supervisor shall, within the earlier of five days following that communication or any deadline established in an applicable collective bargaining agreement, appropriately notify the respondent of the complaint. The supervisor also shall, within the earlier of fifteen days following that communication or any deadline established in an applicable agreement, meet or attempt to meet with the respondent and otherwise attempt to resolve the complaint)).~~

(4) Any participant in the informal process may request the complaint officer's assistance in obtaining a resolution.

(5) This informal process ~~((shall be deemed to be terminated if the complainant files a timely formal complaint related to the same matter))~~ must be completed in a timely manner.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-080 Formal processing of complaints. ~~((1) This formal process applies to student complaints that are made to the complaints officer in writing. The complaints officer may extend any deadline herein for good cause.~~

~~(2) To be considered under this formal process, a complaint must be filed with the complaints officer in writing within ninety days of when the complainant knew or reasonably should have known that he/she had cause for a complaint, except as otherwise provided in WAC 132F-121-090 for a grade complaint. The written complaint shall be designated as a complaint under these rules and shall fully specify the facts and other grounds on which it is based. The complainant should attach copies of relevant supporting documents when feasible.~~

~~(3) Upon receipt of the complaint, the complaints officer shall determine whether it qualifies as such. If the officer determines that it does not qualify as a complaint, she/he shall serve notice to that effect on the complainant within five~~

~~days. The complainant may obtain review of that notice of complaint disqualification by filing a written request with the complaints officer under subsection (7) below.~~

~~(4) If the complaints officer determines that the complaint does qualify as such, that officer shall serve copies of the complaint and any supporting documentation on the respondent and the respondent's supervisor (if any) within five days. After service of such a copy of the complaint, the respondent shall serve a written response on the complaints officer, and a copy thereof on the respondent's supervisor (if any), within fifteen days.~~

~~(5) Within five days of service of that response, or, absent a response, within five days of when one was due, the complaints officer shall serve on the complainant either the response or a statement that none has been received, together with notice of the complainant's rights under the following subsection.~~

~~(6) Within five days of this service, if the complainant finds that the response or nonresponse is unsatisfactory she/he may serve written notice of such dissatisfaction on the complaints officer. Within five days of service of such notice, the complaints officer shall schedule a conference and invite the complainant, the respondent, and the respondent's supervisor (if any). This conference shall be held within fifteen days of service of the complainant's notice, or as soon thereafter as feasible. During this conference the complaints officer shall try to facilitate resolution. The complaints officer shall produce a written statement summarizing this conference and serve copies on each of the invited attendees within ten days after the conference.~~

~~(7) Within five days after service of either a notice of complaint disqualification or a conference summary, the complainant may obtain review thereof by filing a written request for such review with the complaints officer. Within five days of receiving this request for review, the complaints officer shall forward it, together with the complaint and other relevant documents, either to the vice president of instruction (if the officer determines that the complaint is predominantly an instructional matter) or to the vice president for student services (if the officer determines that the complaint is predominantly noninstructional in nature). If the respondent is a Siegal Center employee, the complaints officer shall forward the matter to a vice chancellor.~~

~~(8) This reviewing administrator shall review the complaint and documentation, and may also interview knowledgeable persons as appropriate. The administrator should render a written decision within fifteen days after receiving the complaint and documents, or as soon thereafter as feasible. The administrator may accept, reject, or modify any of the previous action(s) in the matter, and/or take other action(s). This decision shall be in writing and shall be served on the complainant, respondent, and others deemed appropriate.~~

~~(9) This decision of the reviewing administrator shall be the final decision of the district on that complaint.)~~ (1) To be considered under the formal process, a complaint must be filed in writing with the campus complaints officer by the final day of the quarter following the quarter in which the problem occurred, except as otherwise provided in WAC 132F-121-090 for a grade complaint. For purposes of com-

plaints, the quarter which follows spring quarter is fall quarter. The written document should fully specify the facts and other grounds on which the complaint is based, and should include copies of relevant supporting documents when feasible. The complaints officer may extend any deadline herein for good cause.

(2) If the complaints officer determines that the complaint does not qualify to be addressed through the formal process, that officer must inform the student, explaining the reasons in writing within five working days. The student complainant may obtain review of that notice of complaint disqualification by filing a written request with the complaints officer under subsection (9) of this section.

(3) If the complaints officer determines that the complaint does qualify as such, that officer must serve copies of the complaint and the supporting documents on the individual named in the complaint (the respondent) and the respondent's supervisor, within five working days.

(4) The respondent, upon receiving notice of the formal complaint, shall provide a response in writing to the complaints officer, and to the respondent's supervisor, within ten working days.

(5) The complaints officer must forward the written response, or the information that no response was received, to the student complainant within five working days of receipt of the response, or five working days from when a response was due.

(6) If the student complainant finds that the response or lack thereof is unsatisfactory she/he has five working days in which to submit a written request for the complaints officer to schedule a conference with the respondent to discuss the matter.

(7) Upon receipt of such request, the complaints officer has five working days to schedule the conference which must be convened within ten working days of receipt of the students' request or as soon thereafter as feasible. This conference will include the student, the respondent, and his or her supervisor, and be moderated by the complaints officer.

(8) During this conference the complaints officer shall try to facilitate resolution. The complaints officer shall produce a written statement summarizing the conference and provide copies to all parties within ten working days of the conference.

(9) The student complainant may request a review of the outcome of the complaint conference (or of a complaint disqualification) by submitting a written request for administrative review to the complaints officer within five working days of receiving the conference summary.

(10) The complaints officer shall forward, within five working days, the request for administrative review, the complaint, supporting documents, and the conference summary either to the vice-president of instruction (if the officer determines that the complaint is predominantly an instructional matter), or to the vice-president for student services (if the officer determines that the complaint is predominantly non-instructional in nature).

(11) This administrator shall review the complaint and documentation, and may also interview knowledgeable persons as appropriate. The administrator should render a written decision within ten working days after receiving the com-

plaint and documents, or as soon thereafter as feasible. The administrator may accept, reject, or modify any of the previous action(s) in the matter, and/or take other action(s). This decision shall be in writing and shall be served on the student complainant and others deemed appropriate.

(12) This decision of the reviewing administrator shall be the final decision of the district on that complaint.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-090 Additional provisions for grade complaints. (1) For student complaints regarding grades received for course work, this section shall apply in addition to the above-described informal and formal procedures.

(2) A student may formally grieve only the final grade received in a course, but that complaint may include any or all of the components of that final grade. For a grade complaint, the respondent(s) shall be, or include, the instructor who issued the grade.

(3) ~~(Instead of the deadline in WAC 132F-121-080,)~~ A formal complaint regarding a grade must be filed not later than the last day of the quarter which follows the quarter for which the disputed grade was received, except that a complaint regarding a spring quarter grade may be filed through the last day of the following fall quarter.

(4) In specifying the facts and other grounds on which it is based, the formal complaint shall specify the grade that is being challenged and should attach copies of relevant documents. The response on behalf of the respondent shall include, to the extent feasible, the applicable evaluation criteria, copies of the course syllabus and relevant grading records, and the faculty member's explanation for the grade.

(5) Ordinarily the evaluation of course mastery is exclusively within the province of the instructor of a particular course, and so a grade change may be initiated only by that instructor. However, if a formal grade complaint is ultimately reviewed by the vice-president of instruction, and she/he finds that the grade was issued for an improper reason or was arbitrary and capricious or otherwise unlawful, that vice-president may change the grade in the records of the college.

(6) Nothing in these rules shall be construed to limit the separate authority of the vice-president of instruction to change a grade when required by a judicial order or a legal settlement agreement entered into by the district, regardless of whether a complaint has been filed.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-110 Student misconduct. Misconduct for which the campuses may impose sanctions includes, but is not limited to, any of the following:

(1) Any act of course-related dishonesty, including but not limited to cheating or plagiarism.

(a) Cheating includes, but is not limited to, using, or attempting to use, any material, assistance, or source which has not been authorized by the instructor to satisfy any expectation or requirement in an instructional course, or obtaining, without authorization, test questions or answers or other academic material that belong to another.

(b) Plagiarism includes, but is not limited to, using another person's ideas, words, or other work in an instructional course without properly crediting that person.

(c) Academic dishonesty also includes, but is not limited to, submitting in an instructional course either information that is known to be false (while concealing that falsity) or work that is substantially the same as that previously submitted in another course (without the current instructor's approval).

(2) Any other act of college-related dishonesty. Such acts include, but are not limited to:

(a) Forgery, alteration, or misuse of any district document, record, or instrument of identification;

(b) Tampering with an election conducted by or for district students; or

(c) Furnishing false information, or failing to furnish correct information, in response to the request or requirement of a district officer or employee.

(3) Obstruction or disruption of (a) any instruction, research, administration, disciplinary proceeding, or other district activity, whether occurring on or off district property, or (b) any other activity that is authorized to occur on district property, whether or not actually conducted by the district.

(4) Assault, physical abuse, verbal abuse, threat(s), intimidation, harassment, bullying, or other conduct which harms, threatens, or is reasonably perceived as threatening the health or safety of any student, any district officer or employee, or any other person who is on district property or is participating in a district activity.

(5) Attempted or actual damage to, or theft or misuse of, real or personal property or money of (a) the district or state, (b) any student or district officer, employee, or organization, or (c) any other person or organization lawfully present on district property, or possession of such property or money after it has been stolen.

(6) Failure to comply with the direction of a district officer or employee who is acting in the legitimate performance of his or her duties, or failure to properly identify oneself to such a person when requested to do so.

(7) Participation in any activity which unreasonably disrupts the operations of the district or infringes on the rights of another member of the district community, or leads or incites another person to engage in such an activity.

(8) Possession or use, without express authorization by the district chancellor or a campus president, of any explosive, incendiary device, dangerous chemical, weapon, or other device or substance which can be used to inflict bodily harm or to damage real or personal property.

(9) Hazing. Hazing includes, but is not limited to, any initiation into a student organization or any pastime or amusement engaged in with respect to such an organization that causes, or is likely to cause, bodily danger or physical harm, or serious mental or emotional harm, to any student.

(10) Being observably under the influence of any alcoholic beverage, or otherwise using, possessing, consuming, or selling any alcoholic beverage, except as permitted by law and authorized by the chancellor or a college president.

(11) Being observably under the influence of any legend drug, marijuana, narcotic drug or controlled substance as defined in chapters 69.41 and 69.50 RCW, or otherwise

using, possessing, ~~((consuming))~~ delivering, or selling any such drug or substance, except (a) in accordance with a lawful prescription for that student by a licensed health care professional or (b) as permitted by law and authorized by the chancellor or a college president.

(12) Obstruction of the free flow of pedestrian or vehicular movement on district property or at a district activity.

(13) Conduct which is disorderly, lewd, or obscene.

(14) Breach of the peace, or aiding, abetting, or procuring a breach of the peace.

(15) Discriminatory action which harms or adversely affects any student or district employee because of her/his race, color, national origin, mental or physical disability, gender, sexual orientation, age, creed, or religion.

(16) Sexual harassment of a student or district employee. This includes, but is not limited to, engaging in unwelcome sexual advances, requests for sexual favors, ~~((or other conduct of a sexual nature where such behavior offends or would offend a reasonable and prudent person))~~ and other verbal, nonverbal, or physical conduct of a sexual nature that has the effect of denying or limiting a student's ability to participate or benefit from any of the college's programs.

(17) Other harassment of a student or district employee. This includes, but is not limited to, repeated and unwelcome following (stalking) or contacting of such a person or making a threat which places that person in reasonable fear of bodily harm.

(18) Smoking inside a campus building or in or on any other property where smoking is not authorized.

(19) Theft or other misuse of computer time or other electronic information resources of the district. Such misuse includes but is not limited to:

(a) Unauthorized use of such resources or opening of a file, message, or other item;

(b) Unauthorized duplication, transfer, or distribution of a computer program, file, message, or other item;

(c) Unauthorized use or distribution of someone else's password or other identification;

(d) Use of such time or resources to interfere with someone else's work;

(e) Use of such time or resources to send, display, or print an obscene or abusive message, text, or image;

(f) Use of such time or resources to interfere with normal operation of the district's computing system or other electronic information resources;

(g) Use of such time or resources in violation of applicable copyright or other law; ~~((or))~~

(h) Adding to or otherwise altering the infrastructure of the district's electronic information resources without authorization; or

(i) Failure to comply with the district's electronic use policy.

(20) Unauthorized possession, duplication, or other use of a key, keycard, or other restricted means of access to district property, or unauthorized entry onto or into district property.

(21) Abuse or misuse of any of the procedures relating to student complaints or misconduct, including but not limited to:

(a) Failure to obey a subpoena;

- (b) Falsification or misrepresentation of information;
 - (c) Disruption, or interference with the orderly conduct, of a proceeding;
 - (d) Interfering with someone else's proper participation in a proceeding;
 - (e) Destroying or altering potential evidence, or attempting to intimidate or otherwise improperly pressure a witness or potential witness;
 - (f) Attempting to influence the impartiality of, or harassing or intimidating, a student conduct committee member; or
 - (g) Failure to comply with any disciplinary sanction(s) imposed under this student conduct code.
- (22) Operation of any motor vehicle on district property in an unsafe manner or in a manner which is reasonably perceived as threatening the health or safety of another person.
- (23) Violation of any other district rule, requirement, or procedure, including but not limited to any that is posted in electronic form, the district's traffic and parking rules, or the requirements for carpool parking.
- (24) Violation of any federal, state, or local law, rule, or regulation.
- (25) Aiding, abetting, inciting, encouraging, or assisting another person to commit any of the foregoing acts of misconduct.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-140 Initiation of discipline. (1) The vice-president for student services or designee at each campus is responsible for investigating possible violations of this student conduct code at that campus and initiating any appropriate disciplinary actions. If that officer is a respondent in a complaint initiated by the subject student, the college president shall, upon request and when feasible, designate another person to fulfill any such disciplinary responsibilities relative to the complainant.

(2) Any member of the district community may make a complaint against a student whom she/he believes has violated this student conduct code. Such a complaint should ordinarily be filed in writing with the vice-president for student services. However, no such complaint is required in order for that vice-president to take action on any matter that comes to his/her attention.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-150 Vice-president's review and action. (1) After conducting such initial investigation of possible misconduct as she/he deems appropriate, the vice-president for student services or designee shall meet, or make a reasonable effort to meet, with the subject student. At that meeting, or if there is no meeting in a document served on the student, the vice-president shall describe the complaint and/or information that has been received and identify the rule violations that appear to have occurred. In order that any informality not mislead the student as to the seriousness of the matter, the vice-president shall also inform the student of the sanction(s) that may be imposed for the alleged misconduct. The vice-president shall give the student an opportunity

to respond to the allegations before a disciplinary decision is made.

(2) After considering the information that has been obtained through investigation and/or from the student, the vice-president may take any of the following actions:

- (a) Terminate the proceeding, exonerating the student;
- (b) Give any appropriate counseling or advice and then terminate the proceeding;
- (c) Impose disciplinary sanction(s), subject to any right of appeal as described herein; or
- (d) Refer the matter to the student conduct committee for such action as it deems appropriate. Such referral shall be in writing, to the attention of the committee chair, with a copy served on the student.

(3) A "respondent" as referred to hereinafter is a student upon whom a disciplinary sanction has been imposed or whose case has been referred to the student conduct committee.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-160 Disciplinary actions. (1) Any of the following disciplinary sanctions may be imposed for violation of one or more specified provisions of this student conduct code:

(a) Warning: Oral notice to the student of the violation(s). There shall be no appeal from a warning.

(b) Reprimand: Written notice to the student of the violation(s). A reprimand indicates, and usually states, that other or further misconduct, especially any continuation or repetition of the misconduct in question, may or will result in more serious disciplinary action. There shall be no appeal from a reprimand.

(c) Probation: Placement of one or more conditions on the student's continued attendance, as specified in the written notice to the student. The time period of the probation will ordinarily be stated in the notice; if not stated at all, or if so stated, the probation shall be for an indefinite period, concluding only with the end of the student's enrollment.

(d) Suspension from activities: Disqualification of the student, for a stated or indefinite period of time, from participation in specified (or all) privileges, services, or activities that are provided or sponsored by the district.

(e) Suspension of enrollment: Termination, for a stated or indefinite period of time, of all rights as an enrolled student in the college and/or the district, subject to the student's right to seek reinstatement as provided in WAC 132F-121-240.

(f) Expulsion: Permanent termination of a student's enrollment, and right to enroll, at any college or other educational facility in the district.

(g) Grade change: Lowering of a student's grade in a course below that awarded by the instructor.

(2) The conditions or terms of probation or suspension may include, without limitation:

- (a) Restriction of future contact or communication with designated persons;
- (b) Restriction of the student's access to district property; and/or

(c) Payment for personal injury, property damage, or other expenses related to the violation((-);

(d) Requirement of a medical evaluation by a qualified professional to assess the student's ability to function in the academic environment. Upon completion of the medical evaluation, the student may be readmitted so long as the student does not pose a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices or procedures, or by the provision of auxiliary aids or services. In determining whether students with disabilities (as defined by Section 504 of the Rehabilitation Act, Title II of the ADA, and chapter 49.60 RCW) pose such a direct threat, the vice-president of student services or designee will make an individualized assessment based on reasonable judgment that relies on current medical knowledge or on the best available evidence, to ascertain the nature, duration, and severity of the risk and the likelihood, imminence, and nature of future harmful conduct to others in the college community.

(e) Requirement of satisfactory completion of anger management therapy or other specified counseling.

Failure to comply with a condition or term of probation or suspension shall be cause for further disciplinary sanction.

(3) A respondent's record of past misconduct may be considered in determining the appropriate disciplinary action.

(4) A summary suspension (~~((and/or an emergency suspension))~~) under WAC 132F-121-250 may be combined with or added to another suspension or an expulsion.

(5) A suspension or expulsion may include a provision stating whether all or any part of the respondent's tuition and other fees will be refunded.

(6) A disciplinary sanction, except a warning, shall be imposed through written notice served on the respondent. Each notice of disciplinary action shall state:

(a) A reasonable description of the facts on which the action is based;

(b) The provision(s) of this student conduct code found to have been violated;

(c) The sanction(s) imposed; and

(d) The respondent's right to appeal, i.e., to request an adjudicative proceeding, under these rules (except for a reprimand).

A copy of these student conduct rules should be included with the notice.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-170 Appeals and referrals generally.

(1) Except as otherwise provided herein, a respondent who has received notice of disciplinary sanction(s) imposed by the vice-president for student services may appeal such sanction(s) by filing a written notice of appeal with that officer within twenty days. The notice of appeal may include any statement that the respondent wishes to make of the grounds for her/his appeal.

(2) If the vice-president has referred the matter to the student conduct committee for action, no appeal is required, but the student may file a written response with the vice-president within twenty days of service of that referral.

(3) Except for conduct matters referred for brief adjudicative proceedings, the vice-president shall promptly transmit any notice of appeal or response to referral, together with a copy of any notification of discipline, to the chair of the student conduct committee, described below. The vice-president should serve a copy of that transmittal on the respondent.

(4) Except through a summary suspension (~~((and/or emergency suspension))~~) under WAC 132F-121-250, a respondent's enrollment status and rights as an enrolled student shall not be altered, on the basis of a disciplinary sanction imposed by the vice-president, until (a) the appeal period has run without a proper appeal being filed or (b) if there is an appeal, either that appeal has been withdrawn or the final order has been entered.

(5) If a respondent files a timely appeal of a probation or suspension that includes restrictions on contacts, communications, or campus access, the vice-president will ordinarily modify those restrictions as necessary to facilitate the respondent's preparation for the hearing.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-180 Student conduct committee. (1)

A student conduct committee at each college will hear all disciplinary cases at that college which are referred to it by the vice-president for student services or appealed to it by a student. For purposes of WAC 132F-108-020 and any other requirements, the district trustees and chancellor and each college president designate (a) the committee provided for herein to serve as presiding officer to hear the described student disciplinary matters and (b) the committee chair both to handle and decide procedural matters (as provided herein) and to preside at the hearing.

(2) This committee shall be composed of the following three members:

(a) One administrator or exempt employee, appointed by the college president;

(b) One member of the faculty, appointed by the college president; and

(c) One student, appointed by the president of the recognized student government organization.

(3) Each appointment shall be accompanied by the appointment of two alternates. Each member and alternate shall serve for the academic year or until a replacement is appointed, whichever is longer. When a member is not available for a hearing, the committee chair shall designate an alternate to replace him/her for that hearing. If a member or alternate ceases to serve, a successor shall be promptly appointed. A member or alternate may be reappointed in any role.

(4) The administrator or exempt employee shall be the committee chair.

(5) ~~((No employee who reports to, or is subject to the authority of, the vice-president who handles student disciplinary matters may be a committee member, as further provided in RCW 34.05.458.))~~ A committee member is subject to disqualification for bias, prejudice, interest, or as further provided in RCW 34.05.425.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-190 Student conduct committee hearings—In general. (1) A respondent student has a right to a prompt, fair, and impartial hearing before the student conduct committee on a referral for, or timely appeal of, a disciplinary sanction, except as otherwise provided in these rules.

(2) Chapter 34.05 RCW and chapter 10-08 WAC govern committee proceedings and control in the event of any conflict with these rules. The district's chapter 132F-108 WAC also governs committee proceedings.

(3) The chair of the committee shall give not less than seven days advance written notice of the hearing to all parties, as further specified in RCW 34.05.434 and WAC 10-08-040 and 10-08-045. The chair may shorten this notice period if both parties agree, and also may continue the hearing to a later time for good cause.

(4) The committee chair may provide to the committee members in advance of the hearing copies of (a) the vice-president for student service's notification of imposition of discipline (or referral to the committee) and (b) the notice of appeal (or any response to referral) by the respondent. If doing so, however, the chair should remind the members that these "pleadings" are not evidence of any facts they may allege.

(5) The committee chair is authorized to conduct prehearing conferences and/or to make prehearing decisions, except as overridden by majority vote of the committee, concerning the extent and forms of any discovery, issuance of protective orders, and similar procedural matters.

(6) Upon request made at least five days before the hearing by either the respondent or the vice-president, the two of them shall exchange, no later than the third day prior to the hearing, lists of potential witnesses and copies of potential exhibits that they reasonably expect to present in their respective cases, except impeachment or rebuttal evidence. Failure to participate in good faith in such a requested exchange may be cause for exclusion from the hearing of any witness or exhibit not disclosed, absent a showing of good cause for such failure.

(7) The respondent and the vice-president may agree before the hearing to designate specific exhibits as admissible without objection and, if they do so, whether the committee chair may provide copies of these admissible exhibits to the committee members before the hearing.

(8) The vice-president shall provide reasonable assistance to the respondent, upon request, in obtaining relevant and admissible evidence that is within the college's control.

(9) Communications between committee members and other persons regarding any issue in the proceeding, other than procedural communications that are necessary to maintain an orderly process, are generally prohibited without notice and opportunity for all parties to participate, and any improper "ex parte" communication shall be placed on the record, as further provided in RCW 34.05.455.

(10) Each party may be accompanied at the hearing by a nonattorney assistant of his/her choice. A respondent may elect to be represented by an attorney, but will be deemed to have waived that right unless, at least four days before the

hearing, written notice of the attorney's identity and participation is served on both the chair and the vice-president. If the respondent is represented by an attorney, the vice-president may also be represented by an attorney. If both the respondent and vice-president have counsel, the committee will ordinarily be advised by a separate assistant attorney general.

(11) Minor disciplinary actions imposing probation or suspension of ten instructional days or less and any conditions or terms placed on the student may be conducted by a brief adjudicative proceeding in accordance with RCW 34.05.482 through 34.05.494.

AMENDATORY SECTION (Amending WSR 03-16-015, filed 7/28/03, effective 8/28/03)

WAC 132F-121-250 Summary ~~((and emergency))~~ suspensions. ~~((1) As part of a suspension or expulsion, a summary suspension and/or an emergency suspension may be imposed in accordance with this section. All, or specified, rights as an enrolled student may be suspended.~~

~~(2) A summary suspension may be imposed when necessary to prevent or avoid immediate disruption, danger, or other harm to the educational process or to the health, safety, or welfare of any member(s) of the public, including the district community. The summary suspension may be ordered only after the respondent has been given oral or written notice of the charge(s) and, if he/she denies them, an explanation of the evidence and an opportunity to respond. The order shall be effective when served. A summary suspension may be ordered:~~

~~(a) For ten days or less, by the vice-president; and/or~~

~~(b) For any time period through the final determination of a respondent's appeal, by the student conduct committee, upon the written request of the vice-president. The vice-president shall serve a copy of this request on the respondent. Before entering its order, the committee shall hold an initial hearing, as it determines is appropriate.~~

~~(3) An emergency suspension may be ordered by the vice-president under RCW 34.05.479 when necessary to prevent or avoid immediate danger to the health, safety, or welfare of any member(s) of the public, including the district community:~~

~~(a) Before ordering an emergency suspension, the vice-president shall make reasonable effort to give the respondent oral or written notice of the charge(s) and, if the respondent denies such, an explanation of the evidence and an opportunity to respond.~~

~~(b) The vice-president may order the emergency suspension only to the extent, and only for the time period, necessary to prevent or avoid the immediate danger, and only in compliance with RCW 34.05.479. The vice-president shall serve the order on the respondent, or otherwise give him/her such notice as is practicable, and shall also serve a copy on the student conduct committee.~~

~~(c) After the emergency suspension order is served, the vice-president and the committee shall proceed as quickly as feasible to complete the appeal proceeding.)~~ (1) A summary suspension is a temporary exclusion from specified college premises or denial of access to all activities or privileges for

which the student might otherwise be eligible, during which an investigation and/or formal disciplinary procedures are pending.

Suspension may be imposed, if the vice-president for student services or his/her designee(s) has cause to believe that any student:

(a) Has violated any provision of the code of conduct; and

(b) Presents an immediate danger to the health, safety or welfare of members of the college community; or

(c) If the student poses an ongoing threat of disruption of, or interference with, the operations of the college, that student may be summarily suspended.

(2) Notice. Any student who has been summarily suspended shall be served with written notice or verbal notice of the summary suspension. If such notice is made in writing, it shall be provided by certified mail and first class mail delivered to the student's last known address.

(3) The oral or written notice to the student shall include the reasons for summary suspension, duration of the summary suspension, and any possible additional disciplinary or corrective action that may be taken. The notification shall indicate that the student must appear before the vice-president of student services or designee for a summary suspension hearing at a time specified in the notice. If oral notice is given, written notice shall follow within two calendar days. In addition, the vice-president for student services or designee shall set a date for summary suspension hearing as soon as practicable.

(4) The student shall be given the opportunity to present written and/or oral evidence. The issue before the vice-president for student services or designee shall be whether probable cause exists to support and to continue the summary suspension.

(5) The vice-president for student services or designee shall issue a written order within two days of the informal hearing, including a brief statement of findings of fact, conclusions of law, and policy reasons for the decision to justify the determination of an immediate danger and the vice-president's decision to take the specific action.

(6) If a student who has been summarily suspended fails to appear for a summary suspension hearing, the vice-president for student services may order the suspension to remain in place pending the final disposition of the disciplinary process as provided in this section.

(7) The student may request a de novo review of the informal hearing decision before the student conduct committee. The review will be scheduled promptly. Either party may request the review to be consolidated with any other disciplinary proceeding arising from the same matter.

(8) Nothing herein shall prevent faculty members from taking summary action as may be reasonably necessary to maintain order in the classroom and/or prevent substantial disruption to the educational process. Such summary action in the form of removal from the classroom may not exceed one day per episode. Any such summary action may be appealed to the vice-president for student services for a brief adjudicative proceeding.

AMENDATORY SECTION (Amending WSR 98-18-042, filed 8/28/98, effective 10/1/98)

WAC 296-17-31003 No-fault insurance. What is a workers' compensation insurance program? Workers' compensation insurance is a no-fault insurance program that eliminates blame to either party for workplace injuries or illnesses. The ~~((principle))~~ principal features include:

- Wage and medical benefits to employees who suffer on-the-job injuries or illnesses; and
- Immunity from lawsuits for employers as a result of workplace injuries or illnesses suffered by their employees.

AMENDATORY SECTION (Amending WSR 04-20-023, filed 9/28/04, effective 11/1/04)

WAC 296-17-31004 Coverage requirements. (1) I own a business. Am I required to have workers' compensation insurance coverage for my employees? Nearly every employer doing business in the state of Washington is required to have workers' compensation insurance for his/her employees. Washington law (*RCW 51.12.020*) does exempt certain types of employment from coverage. ~~((A copy of this law can be found in Appendix A of the workers' compensation manual.))~~ If you employ only individuals who are excluded from mandatory workers' compensation insurance coverage, you are not required to have workers' compensation insurance coverage.

(2) I hire contractors to perform work for me. Do I need to be concerned about premiums on their work? Yes. There are two ways you may be liable for premiums on the work they do.

First, they may be "workers" for whom you are required to report and pay premiums. The law defines worker to include both your employees and independent contractors you hire, when the essence of the contract is personal labor. See *RCW 51.08.070, 51.08.180, 51.08.181, and 51.08.195* for more guidance about when independent contractors will be considered workers.

Second, the Industrial Insurance Act imposes premium liability on anyone who contracts with another to have work performed. Even if the contractor you hire is not your worker (for example, if the contractor uses one or more workers on the job), you could be liable for their premiums if they fail to pay.

(3) Is there any way for me to protect myself from being held liable for premiums owed by construction contractors I hire? Yes, if you are a registered construction contractor or licensed electrical contractor, and you hire a registered construction contractor or a licensed electrical contractor to do construction work that requires licensing or registration, you can protect yourself from being found liable for the premiums on the work that contractor does for you if:

(a) They have a principal place of business eligible for IRS deduction;

(b) They keep books and records that reflect all items of income and all expenses of the business; and

(c) You have verified that they have an industrial insurance account in good standing, or are a self-insured employer approved by the department.

(4) What does "in good standing" mean? For someone's account to be in good standing, they must:

(a) Be registered with the department of labor and industries for industrial insurance coverage with the state fund;

(b) Have a certificate of coverage, also known as a liability certificate, that has not been revoked or canceled;

(c) Have submitted all reports and supplements required by the department within the past year; and

(d) Be current with all payments due to the state fund, or are current with an approved written payment agreement with the department regarding all unpaid amounts due the state fund.

(5) How do I know that someone's account is considered to be "in good standing"? You can find out whether someone's account is in good standing by visiting the department's web site or calling your account manager. If the account is in good standing, we will give you a confirmation number you can keep as proof that you verified their status.

(6) I use the same subcontractors over and over. Do I have to verify that they have an industrial insurance account in good standing every time I use them? No. In *RCW 51.12.070* protection for construction contractors only requires that you have confirmed a subcontractor's account within a year prior to letting a contract. When you check out your subcontractors on the department's web site or by calling your account manager, a confirmation number will be provided as proof you checked them out. This confirmation number is valid for one year from the time it is issued.

If you are notified by the department of labor and industries that a subcontractor's account is no longer in good standing, you may be liable for their industrial insurance premiums from the date of notification forward.

(7) Can I, as a construction contractor, be held liable if I verify that the accounts of construction contractors I hire are in good standing, but they fail to confirm the accounts of the construction subcontractors they hire? No. If you make sure you and your construction subcontractors meet the requirements of *RCW 51.12.070*, you cannot be held liable if they fail to make sure their construction subcontractors meet the requirements.

AMENDATORY SECTION (Amending WSR 98-18-042, filed 8/28/98, effective 10/1/98)

WAC 296-17-31005 Employer/employee relationship. How do I determine if I am an employer? Chances are that if you employ one or more individuals to work for you, you are probably an employer. *RCW 51.08.070, 51.08.180 and 51.08.195* all define the employer/employee relationship. These laws present the conditions that must exist before an exception or an independent contractor status can be recognized. ~~((Copies of these laws can be found in Appendix A of the workers' compensation underwriting manual.))~~ You may find information online at www.lni.wa.gov or you may call one of our offices and a representative

will help you determine if you are an employer. We are listed in the government pages of your local telephone directory, or you can call our underwriting section at ((☎)360(☎))-902-4817 for assistance.

AMENDATORY SECTION (Amending WSR 03-23-025, filed 11/12/03, effective 1/1/04)

WAC 296-17-31007 Owner coverage. (1) As a business owner, can I buy workers' compensation insurance to cover myself?

Yes. If you are a sole proprietor, partner, corporate officer, or member of a limited liability company you may not be required to have industrial insurance coverage as provided in RCW 51.12.020. In these instances, you can still obtain workers' compensation coverage from us. We refer to this coverage as optional coverage since as the owner/officer, you are not required to have this insurance. Because owner insurance coverage is optional, you must meet certain conditions and requirements which are detailed on the *application for owner/officer optional coverage*. These requirements include:

- Completing an application for optional owner/officer coverage;
- Reporting owner/officer hours in the classification assigned to your business that is applicable to the work being performed by the owner/officer;
- Submitting a supplemental report which lists the name of each covered owner/officer; and
- Reporting four hundred eighty hours or actual hours worked each quarter for each covered owner/officer and in the applicable workers' compensation classification code.

(2) When will my owner/officer coverage become effective?

Your coverage will become effective upon receipt of your application in the department in writing or by fax unless you indicate a future date. However, no such person or beneficiaries thereof shall be entitled to benefits unless the date of injury were the next day or later after coverage was elected. We will not make coverage effective on a date prior to our receipt of your completed application for owner/officer coverage.

(3) Where can I obtain an application for owner/officer coverage?

To obtain a copy of this application, go to <http://www.lni.wa.gov/FormPub> or contact your local labor and industries office. We are listed in the government pages of your local directory or you can call our underwriting section at ((☎)360(☎))-902-4817.

AMENDATORY SECTION (Amending WSR 98-18-042, filed 8/28/98, effective 10/1/98)

WAC 296-17-31008 Notification requirements. (1) Will you notify me when you have opened my workers' compensation insurance account?

Yes, we will notify you when we have opened your workers' compensation insurance account.

(2) Will you contact me if you need additional information about my business?

Yes, we will contact you if we need additional information to classify your business or establish your workers' compensation insurance account.

(3) Will you provide me with instructions on how to report and pay premiums to you?

Yes, we will send you a written notice describing the classification or classifications we have assigned to your business and how to report the worker hours or other exposure of your employees to us. You will receive a rate notice which will detail information about your premium rate and what portions of the rate you may deduct from your employees wages. You should keep these notices with your business records. You can find a copy of a sample rate notice (~~can be found in Appendix B of this manual~~) at www.lni.wa.gov. If you have questions about your classifications or you need help with reporting instructions, call your account manager.

(4) Will you notify me if you are going to change a classification assigned to my business?

Yes, if we need to change the classifications assigned to your business, we will send you a written notice describing the new classifications and when they become effective.

(5) How do I notify my employees that they are covered by workers' compensation insurance?

We will send you a certificate of coverage and a packet of information when we open your account. The packet will include some special notices which you are required to post in areas where employees frequently gather. Areas where you might consider posting the special notices include employee break rooms, employee bulletin boards, or areas where time cards are kept. These notices will inform your employees that they are covered for workers' compensation insurance under the Washington state fund and will tell them what they must do if they suffer a workplace injury or illness. The certificate of coverage should be posted in a place visible to the public. This certificate provides confirmation that you have obtained workers' compensation insurance coverage for your employees.

AMENDATORY SECTION (Amending WSR 10-10-108, filed 5/4/10, effective 7/1/10)

WAC 296-17-31017 Multiple classifications. (1) Can I have more than one basic classification assigned to my account?

Yes, we will assign other classifications to your business when the assignment of another basic classification is required or permitted by the description(s) of the employer's other classification(s).

Whenever you have more than one classification assigned to your account, you must keep detailed records of the actual time spent by each employee in each classification. An explanation of payroll records you must keep can be found under WAC 296-17-35201. Use of percentages, averages or estimates is not permitted. If you do not have original time card or time book entries to support your reporting, all worker hours in question will be assigned to the highest rated classification applicable to your business operations.

(2) Are there other circumstances when I can have more than one basic classification assigned to my account?

Yes, under certain circumstances we will assign more than one basic classification to your account. These circumstances include:

- The employer is operating a secondary business which includes operations that we do not consider a normal part of that employer's principal business in Washington, or
- The employer has multiple retail store locations.

In these instances we will assign additional basic classifications *only if all of the following conditions are met*:

- The employer maintains separate payroll records for each business,
- Different employees work in each business,
- Each business is separated by structural partitions if they share a common business location,
- Each business can exist independently of the other, and
- The classification language of the principal business does not prohibit the assignment of the secondary classification.

If all of the above *five* conditions are not met, then the operations of the secondary business will be reported in the highest rated classification that applies to the employer.

(3) What do you mean by the term "principal business?"

The principal business is represented by the basic classification assigned to an employer which produces the greatest amount of exposure. The principal business does not include standard exception or general exclusion classifications or operations.

(4) If my business is assigned a basic classification and a standard exception classification and I have an employee who works in both classifications, can I divide their exposure (hours) between the two classifications on my quarterly report?

No, you cannot divide an employee's exposure (*work hours*) between a basic classification and standard exception classification. An explanation of "standard exception classification" is discussed in ~~((the next section ()))~~ WAC 296-17-31018(2)((+)). If an employee performs work covered by a basic classification and a standard exception classification, all of their exposure (*hours*) must be reported in the basic classification applicable to your business. You cannot report the exposure (*hours*) of any employee in a standard exception classification if they perform duties covered by a basic classification assigned to your business. Refer to WAC 296-17-31018 for a list and explanation of the "*exception classifications*."

(5) I have more than one standard exception classification assigned to my business. One of my employees works in more than one of the standard exception classifications. Can I divide their exposure (hours) between two or more standard exception classifications on my quarterly report?

No, you cannot divide an employee's work hours between two standard exception classifications. You must report all exposure (*work hours*) in the highest rated standard exception classification applicable to the work being performed.

AMENDATORY SECTION (Amending WSR 12-11-109, filed 5/22/12, effective 7/1/12)

WAC 296-17-310171 How to report hours for employees supporting multiple business operations. I have more than one basic classification assigned to my business and I have workers who work in more than one of these classifications. Can I divide their hours between these basic classifications on my quarterly report? Yes, you may divide a worker's hours between basic classifications when:

- The classification descriptions allow a division of hours; and
- You maintain records from which the department can determine the hours the worker worked in each classification.

If the classification descriptions do not allow a division of hours, or if you fail to maintain adequate records, you must report the workers' hours in the highest rated risk classification applicable to your business, unless you can establish that the worker did not work in that classification.

Example: An employer has the risk classifications and rates shown below:

Risk Class	Description	Rate
0507 05	Roofing work	5.1370
0510 00	Wood frame building construction	2.9554
0513 00	Interior finish carpentry	1.3821

If the employer did not maintain records showing in which classes a worker worked, all of the worker's hours must be reported in class 0507.

If the employer had records that showed the worker only worked in classifications 0510 and 0513, but no further detail, all of the worker's hours must be reported in classification 0510.

If the employer had records that showed the hours the worker worked in classification 0510 and the hours the worker worked in 0513, the employer may report the worker's hours in both classes.

I have employees with duties that support more than one basic classification, but I am unable to distinguish their hours between classifications. In what classification(s) do I report these workers' hours? Sometimes employers are unable to divide a worker's hours between two or more classifications because the same work is incidental to more than one classification. You must report these hours in your governing classification. See "**What is my governing classification?**"

What is incidental work? Incidental work is any work, unless specifically excluded, that supports the operations described in your classification description(s), but takes place away from where the product or service is produced.

For example:

There is no incidental work:

- At the construction site if the employer is the builder;
- At the assembly facility if the employer is the manufacturer;
- In the emergency room if the employer is the hospital;
- In the kitchen, if the employer is ~~((#))~~ the restaurant.

Incidental work may include:

- Laundry workers employed by but not working at a hotel;
- Warehouse workers employed by but not working at a retail store;
- A technical support team working for but not at a wholesale distributor;
- Pick-up or delivery work;
- Travel time.

What is my governing classification? Your governing classification is the risk classification that describes what we consider your principal business. It is the basic classification assigned to your business with the largest number of worker hours/units reported in the experience rating period as defined by WAC 296-17-850(2). If you're not sure which classification is your governing classification, you should contact your account manager or refer to the expected loss summary in your current experience rating calculation.

If you're a new business and/or a business not experience rated, a provisional governing classification may be approved by your account manager.

The following exception classifications cannot be considered governing classifications:

- 4900
- 4904
- 4911
- 5206
- 6301
- 6303
- 7100
- 7101

Example 1: You operate both a motel with classification 4905, and a restaurant with classification 3905. You have an off-site laundry facility that cleans the linens for both the restaurant and for the motel.

In the sample 2009 expected loss summary shown below, the governing classification is the restaurant classification 3905 with a total of 108,199 units.

You must report all the laundry worker hours in your governing classification.

Expected Loss Summary

Class	Fiscal Year	Employee Units	Expected Loss Rate	Expected Losses	Primary Ratio	Expected Primary Losses
4905	2005	10,571	.4288	4,532.84	.5790	2,624.51
4905	2006	12,437	.3982	4,952.41	.5790	2,867.45
4905	2007	14,676	.3516	5,160.08	.5790	2,987.69
Class Total		37,684		14,645.33		8,479.65
3905	2005	24,701	.1539	3,801.48	.5980	2,273.29
3905	2006	35,825	.1445	5,176.71	.5980	3,095.67
3905	2007	47,673	.1290	6,149.82	.5980	3,677.59
Class Total		108,199		15,128.01		9,046.55

Example 2: You are a cabinet manufacturer who also offers installation services to your customers. Your manufacturing operations are under classification 2907 and your employees performing the installation service are under classification 0513. Your expected loss summary confirms you report more hours for manufacturing work in classification 2907 than for installation work in classification 0513. You must report all the delivery work in classification 2907.

Example 3: You have a floor covering store and also offer installation services to your customers. Your store operations are under classification 6309 and your employees performing the installation service are under classification 0502. Your expected loss summary confirms you report more hours for installation work in classification 0502 than for store operations in classification 6309. You must report all the delivery work in class 0502.

AMENDATORY SECTION (Amending WSR 04-18-025, filed 8/24/04, effective 10/1/04)

WAC 296-17-31025 Change in business operations. If I change the type of business I operate, or add a new

operation, should I call you? Yes, we rely on you to update us about changes in your business operations. We provide a place on your quarterly premium reports to let us know about any changes you have made. If you need help determining if changes to your account are necessary, you can call your account manager. Depending on the type of change you are making, you may need to complete a new ((master)) business license application. The name and phone number of your account manager can be found on your quarterly premium report or annual rate notice. For your convenience you can call us at 360-902-4817 and we will put you in contact with your assigned account manager.

AMENDATORY SECTION (Amending WSR 98-18-042, filed 8/28/98, effective 10/1/98)

WAC 296-17-31026 Reporting multiple business operations. If I have more than one business, can I report them on the same account? The way the businesses are organized will make a difference. Each separate "ownership type" must be classified and reported separately from any other much the same way you must keep each business' finan-

cial records separate from any other. Your (~~master~~) business license application must specify the "ownership type" of your business, such as, sole proprietor, partnership, corporation, etc. If that one ownership type registration is for more than one location of the same business or more than one type of business, you can choose to report all of them on the same account or on separate accounts. However, if you register each as a separate ownership type, you must report them on separate accounts.

AMENDATORY SECTION (Amending WSR 98-18-042, filed 8/28/98, effective 10/1/98)

WAC 296-17-31029 Insurance principles. (1) What insurance principles does the department of labor and industries use when a new classification is developed?

Those principles are broken down into four major components as follows:

- Administration
- Equity
- Homogeneity
- Safety

A detailed explanation of these principles can be found in subsection (2) of this section.

(2) What are these principles?

- **Administration:** Recordkeeping requirements must be simple and easy to follow. If our classification system imposed burdensome recordkeeping requirements, most employers would find it difficult to comply. Resolving complaints related to burdensome recordkeeping requirements would be in nobody's interest. The premium rate for your basic classification is based on the *average* exposure to hazard of all your workers. If our classification system were based upon individual occupations, you would pay a lower rate for your workers whose duties are considered low hazard, but you would pay a higher rate for your workers who have duties that expose them to a greater hazard. The total premium you pay would not be decreased; it would only be redistributed and would require more recordkeeping. Having one basic classification assigned to cover all the operations makes recordkeeping and reporting easier for you.
- **Statistical credibility or equity:** By monitoring our classification plan, we ensure that enough hours are reported in each classification to provide a meaningful statistical base. A large enough statistical base helps avoid sudden large increases or decreases in rates and keeps them at the lowest possible level. We refer to this as *statistical credibility*. Classifications must also be *responsive to change* if equity and fairness are to be achieved. Our classification plan is in a constant state of evolution. In the early 1970s we had approximately 45 classifications. Today we have over 300 main classifications and approximately 1,000 subclassification codes to track losses. In some industries, the evolution is gradual, and no change to the classification itself is needed. We recognize that the wording used to describe a classification may not have kept up with changes in an industry. However, as the industry con-

ditions evolve because of modern equipment, new processes or materials, or changes in employment laws and safety standards, so does the experience upon which the rate is based. In other words, the changes in the experience which (~~is~~) are used to develop premium rates *reflect* new developments in processes, equipment, and technology even though the wording in the classification is unchanged. We strive to keep our classification language current. Although it would be easy to just change the classification wording as we encounter changes in an industry, Washington law requires that we conduct public hearings before we make official changes to the rule. We do this as a public safeguard and to involve business in the change process. As technologies change or new industries develop, we receive requests from industry representatives for new classifications or for determination of proper classification assignments for the new processes. We will evaluate the request and determine if there is a large enough group of employers to justify a new classification. Any classification must produce enough premium to cover losses. In addition, as specific industries become obsolete or certain processes are no longer in use we will discontinue the classifications that covered them.

- **Homogeneity:** Although it is rare that any two businesses are identical, our classification plan recognizes that similar businesses have similar exposures to occupational injury and disease. Employers with similar operations and exposures are grouped together so each classification includes common exposures and carries a rate that reflects those exposures. This method of grouping *homogenous* risks ensures that the overall cost of the workers' compensation system is distributed fairly among the businesses we insure. Classifications must also be *mutually exclusive*. Our classifications are clearly defined so that each type of business or industry fits in only one basic classification.
- **Workplace safety and accident prevention:** By classifying employers by the nature of their business, each industry can take responsibility for controlling its own workers' compensation costs. Employers may belong to a trade association, which usually offers safety or risk management services. If such services result in fewer and less costly accidents, that improved experience will tend to lower the base rates for that industry. If our classification system were based upon the occupations or duties of employees, the success of a single industry's safety or risk management program would have little impact on its premium costs.

Example: *Many retail grocery stores employ meat cutters. If grocery stores wanted to reduce the frequency of injury to their meat cutters they could develop a safety plan that focused on proper meat handling, lifting, and cutting. Assuming the safety program was successful and reduced the cost associated with meat cutter claims, the rate for grocery stores would go down. If, on the other hand, all meat cutters, such as those who work for restaurants, grocery stores, or slaughter houses, reported in a single meat cutter classification, it is doubtful that the grocery stores' safety program would have any impact on the premium rates since grocery*

stores' meat cutters would represent only a small portion of a meat cutter classification.

AMENDATORY SECTION (Amending WSR 11-24-026, filed 12/1/11, effective 1/1/12)

WAC 296-17-870 Evaluation of actual losses. (1) Except as provided in subsections (3) through (12) of this section, the actual losses for claims with a date of injury during the experience period will be evaluated on the "valuation date." Losses on claims occurring outside the experience period will not be included. The actual losses for closed claims must include:

- (a) Accident and medical aid payments; and
- (b) Pension reserve amounts paid by the accident fund; and
- (c) Accident and medical aid benefits or payments that are scheduled to be paid; and
- (d) Reserve for other accident and medical aid benefits accessible by the worker while the claim is closed.

The actual losses for claims that are open may, in addition, also include a reserve for future payments. Actual losses do not include wage subsidies or reimbursements paid by the stay-at-work program.

(2) **Valuation date.** The valuation date shall be June 1, seven months immediately preceding the effective date of premium rates.

(3) **Retroactive adjustments - Revision of losses between valuation dates.** No claim value shall be revised between valuation dates and no retroactive adjustment of an experience modification shall be made because of disputation concerning the judgment of the claims examiner or because of subsequent developments except as specifically provided in the following cases:

- (a) In cases where loss values are included or excluded through mistake other than error of judgment.
- (b) In cases where a third party recovery is made, subject to subsection (5)(a) of this section.
- (c) In cases where the claim qualifies as a second injury claim under the provisions of RCW 51.16.120.
- (d) In cases where a claim, which was previously evaluated as a compensable claim, is closed and is determined to be noncompensable (ineligible for benefits other than medical treatment).
- (e) In cases where a claim is closed and is determined to be ineligible for any benefits.

In the above specified cases retroactive adjustment of the experience modification shall be made for each rating in which the claim was included. Retroactive adjustments will not be made for rating periods more than ten years prior to the date on which the claim status was changed.

(4) **Average death value.** Each fatality occurring to a worker included within the mandatory or elective coverage of Title 51 RCW shall be assigned the "average death value." The "average death value" shall be the average incurred cost for all such fatalities occurring during the experience period. The average death value is set forth in WAC 296-17-880 (Table II).

(5) **Third-party recovery - Effect on experience modification.**

(a) For claims with injury dates prior to July 1, 1994, a potential claim cost recovery from action against a third party, either by the injured worker or by the department, shall not be considered in the evaluation of actual losses until such time as the third-party action has been completed. If a third-party recovery is made after a claim had previously been used in an experience modification calculation, the experience modification shall be retroactively adjusted. The department shall compute a percentage recovery by dividing the current valuation of the claim into the amount recovered or recoverable as of the recovery date, and shall reduce both primary and excess losses previously used in the experience modification calculation by that percentage.

(b) For claims with injury dates on or after July 1, 1994, if the department determines that there is a reasonable potential of recovery from an action against a third party, both primary and excess values of the claim shall be reduced by fifty percent for purposes of experience modification calculation, until such time as the third-party action has been completed. This calculation shall not be retroactively adjusted, regardless of the final outcome of the third-party action. After a third-party recovery is made, the actual percentage recovery shall be applied to future experience modification calculations.

(c) For third-party actions completed before July 1, 1996, the claim shall be credited with the department's net share of the recovery, after deducting attorney fees and costs. For third-party actions completed on or after July 1, 1996, the claim shall be credited with the department's gross share of the recovery, before deducting attorney fees and costs.

(d) **Definitions:**

(i) As used in this section, "recovery date" means the date the money is received at the department or the date the order confirming the distribution of the recovery becomes final, whichever comes first.

(ii) As used in this section, "recoverable" means any amount due as of the recovery date and/or any amount available to offset case reserved future benefits.

(6) **Second injury claims.** The primary and excess values of any claim which becomes eligible for second injury relief under the provisions of RCW 51.16.120, as now or hereafter amended, shall be reduced by the percentage of relief granted.

(7) **Occupational disease claims.** When a claim results from an employee's exposure to an occupational disease hazard, the "date of injury," for the purpose of experience rating, will be the date the disability was diagnosed and that gave rise to the filing of a claim for benefits. The cost of any occupational disease claim, paid from the accident fund and medical aid fund and arising from exposure to the disease hazard under two or more employers, shall be prorated to each period of employment involving exposure to the hazard. Each insured employer who had employed the claimant during the experience period, and for at least ten percent of the claimant's exposure to the hazard, shall be charged for his/her share of the claim based upon the prorated costs.

(8) **Maximum claim value.** No claim shall enter an employer's experience record at a value greater than the

"maximum claim value." The maximum claim value is set forth in WAC 296-17-880 (Table II).

(9) **Catastrophic losses.** Whenever a single accident results in the deaths or total permanent disability of three or more workers employed by the same employer, costs charged to the employer's experience shall be limited as required by RCW 51.16.130.

(10) **Acts of terrorism.** Whenever any worker insured with the state fund sustains an injury or occupational disease as a result of an incident certified to be an act of terrorism under the U.S. Terrorism Risk Insurance Act of 2002, the costs of the resulting claim shall be excluded from the experience rating computation of the worker's employer.

(11) **Claims filed by preferred workers.** The costs of subsequent claims filed by certified preferred workers will not be included in experience calculations, as provided in WAC ((296-16-010)) 296-16-150.

(12) **Life and rescue phase of emergencies:** This provision applies to "emergency workers" of nongovernmental employers assigned to report in classification 7205 (WAC 296-17A-7205) who assist in a life and rescue phase of a state or local emergency (disaster). The life and rescue phase of an emergency is defined in RCW 51.16.130(3) as being the first seventy-two hours after a natural or man-made disaster has occurred. For an employer to qualify for this special experience rating relief, a state or local official such as, but not limited to, the governor; a county executive; a mayor; a fire marshal; a sheriff or police chief must declare an emergency and must request help from private sector employers to assist in locating and rescuing survivors. This special relief is only applicable to nongovernmental employers during this initial seventy-two hour phase of the declared emergency unless the emergency has been extended by the official who declared the emergency. The cost of injuries or occupational disease claims filed by employees of nongovernmental employers assisting in the life and rescue phase of a declared emergency will not be charged to the experience record of the nongovernmental state fund employer.

AMENDATORY SECTION (Amending WSR 90-20-092, filed 10/1/90, effective 11/1/90)

WAC 296-17-87301 Definitions. The definitions in this section shall apply throughout WAC 296-17-873 through ((296-17-87308)) 296-17-87306.

(1) "Entity" means an individual, partnership, corporation, unincorporated association, or fiduciary operation (e.g. trust, receivership, or estate of deceased individual).

(2) "Majority interest" means more than fifty percent ownership in the firm (business). If the owners of the firm (business) are a partnership, majority interest means more than fifty percent of the general partners' ownership in the firm (business). Majority interest in a partnership shall be determined in proportion to the general partners' ownership of the firm (business). For example, in a three-way partnership ... partner A owns twenty percent of the business, partner B owns twenty percent of the business, and partner C owns sixty percent of the business ... if partner A sold his/her share of the business, a majority interest still exists as partners B and C retain a majority interest (eighty percent) in the

firm (business). Limited partners shall not be considered to have an ownership interest for purpose of these rules.

(3) "Joint venture" means a combination of two or more entities, entered into for the purpose of carrying to completion a specified job of limited duration.

(4) "Employee leasing entity" means a firm (business) which provides workers on a long-term basis to another firm.

AMENDATORY SECTION (Amending WSR 12-11-109, filed 5/22/12, effective 7/1/12)

WAC 296-17A-0217 Classification 0217.

0217-00 Concrete flatwork - Construction and/or repair: N.O.C.

Applies to contractors engaged in the construction and/or repair of concrete flatwork not covered by another classification (N.O.C.) such as, but not limited to, walkways, pathways, fences, and curbing. Work in this classification includes the set-up and tear down of forms, placement of reinforcing steel and wire mesh, and the pouring and finishing of concrete.

This classification excludes land clearing and excavation which is to be reported separately in classification 0101; concrete work performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gutters, median or retaining walls, sawing, drilling, or cutting operations which is to be reported separately in classification 0214; ~~((and))~~ concrete work contained within a concrete, masonry, iron or steel frame building or structure such as the foundation, floor slabs, precast or poured in place bearing floors or wall panels, columns, pillars, metal erection or any other portion of the building or structure itself which is to be reported separately in classification 0518; and the installation of preformed concrete or stone pavers which is to be reported separately in classification 0302.

0217-01 Concrete foundation and flatwork construction and repair: Wood structural buildings

Applies to contractors engaged in the construction and/or repair of concrete foundation and flatwork for wood structural buildings not to exceed three stories in height. This classification includes the set-up and tear down of forms, placement of reinforcing steel and wire mesh, pouring, and finishing of concrete footings, stem walls, floor pads, cellar or basement floors, garage floors, swimming pools and ponds. This includes incidental concrete work such as walkways or driveways when performed by a foundation contractor.

This classification excludes land clearing and excavation which is to be reported separately in classification 0101; concrete work performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gutters, median or retaining walls, sawing, drilling, or cutting operations as part of the roadway which is to be reported separately in classification 0214; concrete landscape curbing which is included in classification 0301-08; ~~((and))~~ concrete work contained within a concrete, masonry, iron or steel frame building or structure such as the foundation, floor slabs, precast or poured in place bearing floors or wall panels, columns, pillars, metal erection or any other portion of the

building or structure itself which is to be reported separately in classification 0518; and the installation of preformed concrete or stone pavers which is to be reported separately in classification 0302.

0217-02 Concrete sawing, drilling and cutting, N.O.C.

Applies to contractors engaged in concrete sawing, drilling and cutting not covered by another classification (N.O.C.), including repairs. Work contemplated by this classification includes concrete sawing, drilling and cutting operations in connection with wood frame and nonwood frame buildings or structures, including flatwork, which may or may not be part of the building structure, such as, but not limited to, foundations, walkways, driveways, patios and swimming pools which may or may not be part of the building or structure. Activities include, but are not limited to, the sawing, cutting and drilling for ventilation boxes in the footings or stem walls, cutting out for windows or door ways, preparing to mount brackets for stairways or interior bearing walls, cutting interior walls as part of a building renovation project, cutting out for electrical and switch boxes, and repairing defective areas.

This classification excludes concrete sawing, drilling, and cutting operations performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gutters, median or retaining walls as part of roadways which are to be reported separately in classification 0214; bridge construction which is to be reported separately in classification 0201; and new dam construction which is to be reported separately in classification 0701.

AMENDATORY SECTION (Amending WSR 12-11-109, filed 5/22/12, effective 7/1/12)

WAC 296-17A-0510 Classification 0510.

0510-00 Wood frame building: Construction or alterations, N.O.C.

Applies to contractors engaged in wood frame building construction or alterations not covered by another classification (N.O.C.). For the purposes of this classification, wood frame building construction means buildings erected exclusively of wood or wood products. This classification includes all building framing activities done in connection with wood frame building construction including:

- Placement of roof trusses;
- Sheathing roofs;
- Installation of exterior building siding;
- Installation of exterior doors and door frames;
- Installation of windows, window frames, and skylights when performed by framing workers as part of the framing contract on a wood frame building;
- Erection of log home shells at customer's location.

The manufacturing of log homes in a permanent yard which includes peeling the logs, notching the logs with chain-saws, and assembly is to be reported in classification 1003-06.

This classification excludes all other phases of wood frame building construction not listed as part of the framing activities above such as, but not limited to:

- Site preparation and excavation (0101);

- Overhead or underground utilities, asphalt work, or concrete work which is to be reported separately in the applicable classification;

- New landscape work (0301);
- Brick work (0302);
- Stucco work (0303);
- Plumbing work (0306);
- HVAC work (0307);
- Carpet and tile work (0502);
- Exterior painting (0504);
- Roof work (0507);
- Insulation work (0512);
- Interior finish carpentry - Interior doors, cabinets, fixtures or molding (0513);
- Installation of garage doors (0514);
- Installation of sheet metal siding, gutters, and nonstructural sheet metal patio covers/carports (0519);
- Interior painting (0521);
- Electrical work (0601); and
- Wallboard installation, taping or texturing which are to be reported separately in the applicable classifications. For a more thorough description of the activities included and excluded from wood frame building construction, review the Construction Industry Guide.

Special note: Classification 0510 also includes wood frame building alterations or remodel work when the activity involves building new additions. The term "new additions" is defined as adding on to an existing wood frame building (upwards or outwards) in which the use of structural supports and main bearing beams is required. This is distinguishable from classification 0516 - Building repair or carpentry work that typically does not require the placement of structural supports or main bearing beams. The purpose of classification 0516 is to build or rebuild with nonstructural or bearing beams, or to replace an existing portion (including existing structural and bearing beams) of a wood frame building for appearances or as a result of deterioration to make it appear new again. Care should be exercised as the terminology to build, rebuild, remodel, construct or reconstruct is irrelevant to assignment of classification which should recognize what the project actually involves.

Guidelines:

- Altering all or part of an existing wood frame building by adding on new additions - 0510
- Constructing a new wood frame building that never existed - 0510
- Remodeling all or part of an existing wood frame building *without* adding on new additions - 0516
- Altering all or part of an existing wood garage by adding on new additions - 0510
- Altering the existing interior of a wood frame building by adding exterior additions - 0510
- Constructing a new wood garage that never existed - 0510
- Constructing, altering, or remodeling the interiors of nonwood frame buildings - 0516
- Constructing a new wood carport or wood shed that never existed - 0510
- Constructing or replacing a wood deck for any type of nonwood building - 0516

- Constructing or replacing a wood deck on an existing wood house - 0516
- Construction of a new wood deck by the framing contractor when a new wood house is being built - 0510
- Installation of windows, window frames, and skylights when performed by framing workers as part of the framing contract of a wood frame building - 0510
- Installation of wood or vinyl siding on a new or existing wood frame building - 0510
- Installation of wood or vinyl siding on a new addition by the remodeling contractor - ((0516-02)) 0510-00
- Installation of wood or vinyl siding on an existing structure by a remodeling contractor - 0516-00 or 0510-00
- Rebuilding an existing wood carport or wood shed (all or part) with or without new additions - 0516
- Remodeling all or part of an existing wood garage without adding on new additions - 0516
- Remodeling the existing interior of a wood frame building without adding exterior additions - 0516.

0510-99 Wood frame building: Construction or alteration, N.O.C. (only to be assigned by the wood framing specialist)

Applies to framing contractors who consider themselves to be independent contractors, have no employees, and have not elected owner coverage for themselves.

The purpose of assigning this classification is to allow the independent contractor the opportunity to be checked for "account in good standing" status for prime contractor liability.

Special note: Any contractor who hires employees or elects owner coverage is required to report in the applicable construction classification.

WAC 296-17A-0516 Classification 0516.

0516-00 Building repair, remodeling and carpentry

This subcode applies to a firm that chooses to report all construction phases in one classification. This is to simplify recordkeeping.

Applies to contractors engaged in building repair, remodeling and carpentry work.

This classification applies to:

- Remodeling and carpentry-related framing work on concrete, brick and steel buildings.
- Wood framed building renovation and remodeling projects when the skeleton framework is not being modified or altered.

Typical projects include, but are not limited to:

- Interior building demolition ("strip outs") involving only the removal of interior walls, partitions, interior trim, cabinetry, doors, flooring and related construction materials;
- Converting a room from one use to another, such as a bedroom to a study, or a garage to a family room;
- Enlarging or reconfiguring a room by removing or adding an interior wall;
- Upgrading a kitchen or bathroom;

- Adding structures such as a wooden deck to an existing building, screening a porch, installing a wood patio cover, or assembling sheet metal tool or garden sheds.

Contractors subject to this classification use a variety of dimensional lumber and wood products, light weight metal studs and plastic and fiber reinforced boards, metal fasteners (nails, screws and bolts), and metal reinforcing or support straps such as joist hangers and post brackets.

This classification includes:

- Framing of wood structures with light weight metal studs.
- Installation of earthquake tie downs on residential buildings.
- Specialty service providers or contractors engaged in providing general repair services or performing remodeling projects on buildings and structures.

Contractors who alter, remodel or repair existing structures and have opted to report their construction activities under this single subclassification 0516-00 are not to be assigned any other construction classification with the exception of roof work or roofing which is to be reported separately in classification 0507-05.

Special note: Businesses assigned to this classification are distinguishable from those assigned to classification 0516-02, in that 0516-02 requires each phase of construction to be reported separately in the appropriate construction classification(s).

Contractors that build **new wood structural additions** as part of a remodeling contract must also report each phase separately. They must use classification 0510-00 to report the new framing. All other phases of the construction must be reported separately in the appropriate classification(s) as noted in the text of classification 0516-02.

Contractors that build new structural additions and also repair and remodel existing structures will be assigned both 0510-00 and 0516-02 in addition to any other appropriate classification. 0516-00 will not be assigned to these employers.

Subclassifications 0516-00 and 0516-02 cannot be active on an account at the same time.

0516-01 Wood playground equipment: Installation and/or repair

Applies to contractors engaged in the installation and/or repair of wood playground equipment. Work contemplated by this classification begins after the area of land has been excavated and/or cleared and includes installing wood playground equipment at private residences and in public settings such as, but not limited to, schools, parks, day care centers, churches, and hotels. This classification usually includes a variety of playground equipment comprised of treated wood beams, poles, posts, and a variety of dimensional lumber used in building swings, forts, stationary and swinging bridges, balance beams, climbing towers, slides, and rope and tire walks. Generally, the process involves setting poles or posts with use of a post hole digger, backhoe or tractor equipped with an auger. The poles or posts may be set in concrete. Depending on the piece of equipment being built, use of beams, planks, dimensional lumber, rope, chains, tires, and metal bars or rings, are securely attached with nails, screws, bolts or eye hooks. This classification includes the building

of borders surrounding the playground equipment area with beams or railroad ties and the spreading of pea gravel, sand or wood chips underneath the equipment.

This classification excludes the installation of metal playground equipment which is to be reported separately in classification 0603, and the excavation or clearing of land which is to be reported separately in classification 0101.

0516-02 Building repair, remodeling and carpentry, N.O.C.

This subcode applies to a firm that chooses to report all construction phases into separate construction classifications.

Applies to contractors engaged in building repair, remodeling and carpentry work, not covered by another classification (N.O.C.).

This classification applies to:

- Remodeling and carpentry-related framing work on the interior of concrete, brick and steel buildings.

- Wood framed building renovation and remodeling projects when the skeleton framework is not being modified or altered.

Typical projects include, but are not limited to:

- Interior building demolition ("strip outs") involving only the removal of interior walls, partitions, interior trim, cabinetry, doors, flooring and related construction materials.

- Converting a room from one use to another, such as a bedroom to a study, or a garage to a family room.

- Enlarging or reconfiguring a room by removing or adding an interior wall.

- Upgrading a kitchen or bathroom.

- Adding structures such as a wooden deck to an existing building, screening a porch, installing a wood patio cover, or assembling sheet metal tool or garden sheds.

Contractors subject to this classification use a variety of dimensional lumber and wood products, light weight metal studs and plastic and fiber reinforced boards, metal fasteners (nails, screws and bolts), and metal reinforcing or support straps such as joist hangers and post brackets.

This classification includes:

- Framing of wood structures with light weight metal studs.

- Installation of earthquake tie downs on residential buildings.

- Specialty service providers or contractors engaged in providing general repair services or performing remodeling projects on buildings and structures.

Except for interior demolition, framing and drywall which are to be reported in classification 0516-02, each phase must be reported separately in the appropriate classification noted below, but not limited to:

Concrete foundations/slabs	0217
Interior painting	0521
Counter tops	0302/0502
Metal siding/gutters	0519
Drywall	0550/0551
Plumbing	0306
Electrical	0601

Roofing new construction	0507
Roof work includes repairs to trusses, rafters, supports and sheathing	0507
Exterior painting	0504
Wood framing/sheathing/windows/non-metal siding	0510
Floor coverings	0502
Interior finish carpentry	0513
Window installation (not part of a framing contract)	0511
Insulation	0512
<u>Masonry</u>	<u>0302</u>
<u>Brick</u>	<u>0302</u>

Reference: WAC 296-17-31013 and 296-17-31017.

Contractors performing remodeling or alteration projects which involve **new structural additions** must report that activity in classification 0510-00 and any other applicable classification(s) noted above.

Contractors who alter, remodel or repair existing structures can choose to report all hours in classification 0516-00. This classification excludes roofing or roof work which is to be reported in 0507-05. This method can simplify recordkeeping.

Special note: Proper reporting in multiple construction classifications requires special care in maintaining required records. If these records have not been maintained as required, all worker hours for which the records were not maintained will be reassigned to the highest rated classification applicable to the work that was performed.

AMENDATORY SECTION (Amending WSR 07-12-047, filed 5/31/07, effective 7/1/07)

WAC 296-17A-1101 Classification 1101.

1101-04 Automobile delivery or repossessing

Applies to establishments engaged in delivering or repossessing individual automobiles for others. Generally, a client will contact the service company and arrange for a car to be delivered to a specific destination or request that a car of which they (client) is the legal owner, be repossessed and delivered to a specific location. In either case, a driver, not a motorized transportation service, does the delivery. Duties of employees subject to this classification are generally limited to unlocking vehicles and driving. It is common on long distance deliveries for the service company to use more than one driver. This classification also applies to drivers of sound trucks.

This classification excludes operation of tractor/trailer combinations to transport vehicles which is to be reported separately in classification 1102 and the use of a tow truck which is to be reported separately in classification 1109.

1101-06 Delivery by retail and wholesale stores and distributors, N.O.C.

Applies to employees of retail and wholesale stores engaged in inter-store delivery~~((;))~~ or customer merchandise delivery when excluded from the store classification, employees of a company that contracts to perform those same services, small package specialty delivery companies, and delivery not covered by another classification (N.O.C.). Employees subject to this classification are generally involved in loading and unloading delivery vans or trucks and driving from store to store, or from a store to a customer's location. Drivers may ~~((or may not))~~ have designated routes or delivery areas.

This classification ~~((is not applicable to))~~ excludes establishments engaged in general trucking services such as hauling bulk merchandise or commodities which are to be reported separately in classification 1102. ~~((Classification 1101 is distinguishable from delivery operations reported in classification 1102 in that businesses covered by classification 1102 generally do not own the merchandise they are transporting.))~~

1101-09 Parcel delivery companies for delivery of small parcels

Applies to establishments engaged in the delivery of small parcels for others. Establishments subject to this classification may offer overnight express services, but usually do not deliver packages that exceed 150 pounds. Work contemplated by this classification includes, but is not limited to, driving, loading and unloading delivery vehicles. This classification also applies to contract mail delivery route drivers and contract hauling of mail between post offices.

This classification excludes the delivery of bulk freight such as that delivered by trucking companies which are to be reported separately in classification 1102.

1101-14 News agents or distributors of magazines, periodicals and telephone books - No retail dealers

Applies to establishments engaged in the distribution of newspapers, periodicals, and telephone books. Work contemplated by this classification includes, but is not limited to, driving, loading and unloading the vehicles, stocking shelves, and removing old periodicals from shelves.

1101-17 Driver delivery sales, N.O.C.

Applies to establishments engaged in route sales of a wide variety of merchandise not covered by another classification (N.O.C.), including, but not limited to, hand tools, automotive supply, and household items. Sales personnel deliver products, show samples and solicit further orders. They may also call on new customers along their route. The classification also applies to establishments or employees known as merchandisers who deliver products to their customer's place of business then perform related merchandising functions such as taking inventory of goods on hand, restocking, reordering, removing outdated or damaged merchandise from shelves or the premises, and/or assembling temporary displays which are usually made of lightweight material such as cardboard or plastic and used for promotional or seasonal goods. These merchandisers often deal in products such as, but not limited to, greeting cards, over-the-counter medications, and grooming products.

This classification excludes employees of establishments who provide merchandising services, but who do not deliver products to the customer's place of business, who may be reported separately in classification 0607; and establishments engaged in the set up or removal of advertising or merchandise displays that involve more than incidental assembly of seasonal or promotional exhibits which are to be reported separately in classification 0607.

Special note: The distinguishing factor between merchandising employees who are to be reported in classification 1101-17 and those who may be reported in classification 0607 is the delivery of products to the customer's place of business. Any employee who delivers merchandise to the customer's place of business is to be reported in classification 1101.

1101-19 Route food services

Applies to establishments engaged in route food services where prepackaged, prepared food is sold, or where food may be prepared in the mobile unit for immediate sale by employees of the route food service. Duties include, but are not limited to, driving, food preparation, loading and unloading the vehicle, and cashiering. Typical route food services include, but are not limited to, traveling coaches that sell beverages and prepared pastries or snack items at various locations during a given work day, ice cream wagons, refrigerated trucks that sell specialty prepackaged foods to route customers, or mobile "short-order" food services that sell fast foods at special events or at locations where hot food may not be available.

This classification excludes food preparation at a fixed location for the route food vehicles which may be reported separately in classification 3905 or as applicable, food vendors operating from a push cart or mobile stand and food vendors who operate from a truck or van but who do not move from place to place throughout the day who are to be reported separately in classification 3905.

1101-20 Computer tape or accounting records delivery service

Applies to establishments engaged in picking up and delivering computer tape, accounting records, or similar financial records to or from storage centers to customer locations. Delivery drivers in this classification often work in metropolitan areas and drive small cars or bicycles.

1101-21 Errand service

Applies to establishments engaged in providing errand services for others. Types of errands include, but are not limited to, shopping services, delivery of food, beverages or other commodities, and delivery of body fluid samples to laboratories. Vehicles used by these services are typically small cars or bicycles. This classification also applies to the distribution of sample merchandise by vehicle.

AMENDATORY SECTION (Amending WSR 07-01-052, filed 12/8/06, effective 12/8/06)

WAC 296-17A-1102 Classification 1102.**1102-02 Interstate trucking**

Applies to establishments engaged in interstate trucking. Interstate trucking is the hauling of goods, bulk merchandise, or commodities that either originate out-of-state or have an out-of-state destination. Duties include driving, (~~mechanical repair, and~~) in some cases loading/unloading vehicles, and mechanical repair. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers may have an assigned route, or they may be assigned a different destination each trip.

Special notes: ((Effective July 1, 1993,)) Trucking establishments are allowed to have both the trucking classification 1102 and the freight handling classification 2002. However, hours cannot be split for a worker who works in both classes. If an employee has any driving duties, *all* their hours are to be reported in classification 1102. Establishments subject to this classification are to report actual hours worked for each driver. However, the hours are to be capped at 520 hours per driver per quarter. Detailed information can be found in the general audit rule covering the trucking industry and in RCW 51.12.095.

1102-03 Intrastate trucking

Applies to establishments engaged in intrastate trucking. Intrastate trucking is the hauling of goods, bulk merchandise, or commodities only within the boundaries of a state (~~—In other words,;);~~ The goods must have both an origin and destination in the same state. Duties include driving, (~~mechanical repair and,;)~~ in some cases(;) loading and unloading the vehicles and mechanical repair. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers (~~are usually~~) may have assigned routes or a territory. Businesses in this classification usually have terminals or storage depots where merchandise is stored awaiting transfer.

Special notes: ((Effective July 1, 1993,)) Trucking establishments are allowed to have both the trucking classification 1102 and the freight handling classification 2002. However, hours cannot be split for a worker who works in both classes. If an employee has any driving duties, *all* their hours are to be reported in classification 1102. 1102-04 Combined interstate/intrastate trucking

Applies to establishments engaged in a combination of interstate(+) and intrastate trucking (~~(activities. Businesses assigned to this classification generally do not produce, manufacture, or legally own the goods they are hauling)~~). Interstate trucking is the hauling of goods which either originate out-of-state or have an out-of-state destination. Intrastate trucking is the hauling of goods only within the boundaries of a state (~~—In other words,;);~~ The goods have both an origin and destination in the same state. Duties include driving, (~~mechanical repair and,;)~~ in some cases(;) loading and unloading the vehicles, and mechanical repair. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers (~~are usually~~) may have assigned routes or a territory. Establishments in this classifi-

cation usually have terminals or storage depots where merchandise is stored awaiting transfer.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-1305 Classification 1305.

~~((1305-00 Television cable companies—All other employees~~

Applies to establishments engaged in providing point-to-point subscription cable communications services. ~~This classification is restricted to companies that provide the total spectrum of cable services for a fee or rental charge. These companies will normally operate and maintain antenna and control centers where they receive signals from broadcasting stations and transmit them through a cable system to local customers. This classification also includes homeowner associations and co-ops that operate a central system for residential users. Work contemplated by this classification includes, but is not limited to, the regular installation, maintenance and repair of machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), installation of antennae, the clearing of right of ways, erections of poles, crossarms and insulators, and subscriber service connections when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, cables, transformers, control panels, poles, lines, antennae, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, and hand tools.~~

~~This classification excludes contractors engaged in underground line construction, maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line installation who are to be reported separately in classification 0509; contractors engaged in pole and tower construction, maintenance or repair who are to be reported separately in classification 0508; contractors engaged in wiring within buildings and making pole to house service connections who are to be reported separately in classification 0601; and clerical office employees of television cable companies who are to be reported separately in classification 4502.)~~ **Cable companies, including homeowners' associations or cooperatives offering a central cable system; technical field staff**

Classification 1305 is restricted to firms providing point-to-point subscription television or other cable communications services. These companies normally operate and maintain control centers where they receive signals through antennas or satellite dishes from broadcasting stations. The signals

are then transmitted to subscribers. This classification applies to work performed away from the employer's premises, or on the roof or exterior of any building on the employer's premises. Work specific to this classification includes installing, testing, and repairing cable lines, antennas, satellite dishes, poles, towers, and using any field equipment for extending and maintaining the cable lines or doing point-to-point hook-up for customers.

This classification excludes:

- All employees working inside the employer's control centers, offices, or facilities who are reported in classification 4502:

- Workers employed by television and radio stations or audio and video production companies who are reported in classifications 4501 and 4502:

- Construction, maintenance, or repair by contractors, who are reported according to the following type work:

- Underground lines - Classification 0107;

- Overhead lines - Classification 0509;

- Towers - Classification 0508;

- Electrical wires, cable, or antenna hook-ups within buildings - Classification 0601; and

- Satellite dish and antenna hook-ups on building exteriors - Classification 0607.

Employers normally are assigned classification 4502 in addition to classification 1305; however, they must maintain records that permit the department to confirm hours worked in either classification. When employers do not or cannot maintain these records, they must report all hours in question in the classification with the higher rate.

For administrative purposes, classification 1305 is divided into the following subclassification(s):

1305-00 Cable companies, including homeowners' associations or cooperatives, providing point-to-point cable communication services; technical field staff

AMENDATORY SECTION (Amending WSR 10-24-118, filed 12/1/10, effective 1/1/11)

WAC 296-17A-3402 Classification 3402.

3402-00 Air compressor: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of air compressors. This includes air or gas compressors used for paint sprayers, air tools, tire inflation, and general industrial purposes. Operations contemplated include, but are not limited to, welding, machining, general mechanical and electrical work. Machinery and equipment includes, but is not limited to, hand and air tools, welders, punches, shears, and compression equipment. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-01 Printing or bookbinding machinery: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of printing or bookbinding machinery. The outside casings of the machines may be made of plate metal that varies between 1" to 2 1/2" in thickness. The machines used to make the presses and binding machinery may include both computer numeric controlled (CNC) and manual mills and lathes. Other machinery used in the manufacturing process includes, but is not limited to, welders or cutters, grinders, and drill presses. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; and the set up, installation and repair of printing or bookbinding machinery which is to be reported separately in classification 0603.

3402-02 Pump, safe, scale, auto jack, and water meter: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of pumps, safes, scales, auto jacks, and water meters. Materials range from brass screws and rubber washers used to rebuild water meters to plate metal and steel castings used for safe and pump manufacturing. Machinery includes, but is not limited to, hand tools used for repairs, lathes, welders, and pressure testers. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; the installation and repair of safes which is to be reported separately in classification 0607; and the installation of pumps which is to be reported separately in the applicable classification.

3402-03 Shoe or textile machinery: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of shoe machinery or textile machinery. Metal materials used vary in size, shape and dimension. Machinery includes, but is not limited to, drills, mills, lathes, saws, and welders. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and the installation and repair of shoe or textile machinery which is to be reported separately in classification 0603.

3402-04 Confectioners or food processing machinery: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of food processing or confectioners machinery. Metal materials used vary in size, shape and weight. These establishments often have an assembly line operation and a separate electronic assembly area. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and the installation and repair of confectioners and food processing machinery which is to be reported separately in classification 0603.

3402-05 Machine shops, N.O.C.

Applies to establishments engaged in general machine shop operations not covered by another classification (N.O.C.), tool sharpening, and mobile welding shops. Many of the establishments in this classification are "job shops." Size and shape of materials vary with steel and aluminum being the most common. Plastics, light weight aluminum, and alloyed metals are becoming increasingly popular in the manufacture of equipment for some industries. These establishments often have welding shops along with machine shops. Machinery and equipment includes, but is not limited to, mills, lathes, grinders, saws, welding equipment, inspection equipment, and material handling equipment. Machinery is both manual and computer numeric controlled (CNC). This classification also includes "mobile shops" which are used *exclusively* to repair machinery or equipment. A "mobile shop" in this classification usually means a van or pick up pulling a utility trailer equipped with hand tools, specialty tools, air tools, a compressor, and a portable welding unit. The machinery or equipment is usually repaired at the customer's location, however, sometimes the broken part is removed and taken back to the shop for repair.

This classification excludes repairs to buildings and structures which are to be reported separately in the appropriate construction classification, and mechanical repairs which are to be reported separately in the classification applicable to the work being performed.

Special note: The term "job shop" is an industry term that means the shop will produce products to customer specifications.

3402-06 Power saw, lawn and garden equipment, small motor, N.O.C.: Repair

Applies to establishments engaged in repairing small power tools, small motors powered by gas or diesel, outboard marine engines, and lawn and garden equipment not covered by another classification (N.O.C.). The largest piece of

equipment repaired in this classification is generally a riding lawn mower. Classification 3402-06 is assigned in conjunction with a store classification for establishments that have a store operation and also repair the type of items they sell. Classification 3402-06 may also be assigned to a manufacturer representative who performs warranty repairs. Tools used in this type of repair are mainly hand and air tools. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and the repair of electrical motors which is to be reported separately in classification 5201.

3402-07 Gear: Manufacturing or grinding

Applies to establishments engaged in the manufacture or grinding of gears. Establishments in this classification may also cut key slots and broaches. Establishments that cut stock to manufacture the gear are often not the same ones that perform the final grinding process. Gears may go through two, three, or four different grinding, slotting, and/or keying establishments and then go to another establishment for electroplating or galvanizing before they are ready for sale or use. Precision machine shops may grind gears to the ten thousandths of an inch. Materials used are usually stainless steel, aluminum, or plastic. Machinery includes, but is not limited to, gear shapers, drill presses, mill, hobbers, grinders, some of which might be computer numeric controlled (CNC). This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-08 Elevator: Manufacturing

Applies to establishments engaged in the manufacture of elevators and associated electronic components. Machinery includes, but is not limited to, mills, drills, lathes, saws, and grinders. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and the installation, service, and repair of elevators which is to be reported separately in classification 0602.

3402-12 Multimedia blasting

Applies to establishments engaged in multimedia (such as, but not limited to, glass, plastic and sand) blasting operations which strip paint or other coatings from metal or fiberglass. Most of the blasting operations in this classification are done on automobiles, but it also applies to establishments that perform blasting on items such as, but not limited to, barbe-

cue grills, and cast iron pieces. Multimedia blasting processes in this classification are performed in a shop, use less air pressure and media with softer finishes than other blasting operations. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and sandblasting of buildings or structures which is to be reported separately in classification 0504.

3402-14 Furnace, heater, radiator, wood, propane, or pellet stoves: Manufacturing

Applies to establishments engaged in the manufacture of furnaces, radiators, wood, propane, or pellet burning stoves or similar heating fixtures. Materials include, but are not limited to, metal cast parts, sheet metal, plate metal, aluminum, or stainless steel. Machinery includes, but is not limited to, hand tools, solder guns, punches, lathes, and saws. Establishments in this classification may have separate areas for electronic assembly and/or painting. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; establishments engaged in the manufacture of radiators for automobiles or trucks which are to be reported separately in classification 3402-48; and establishments engaged in the manufacture of baseboard heaters which are to be reported separately in classification 3404.

3402-16 Die casting

Applies to establishments engaged in the manufacture of products by die casting. Die casting is a manufacturing process for producing accurately(±)dimensioned, sharply(±)defined metal products which are referred to as "die castings." "Dies" are the steel molds used to mass produce the product. The process begins when ingots of various metal alloys are melted in die casting machines. The machine forces the metal into the die under hydraulic or pneumatic pressure. The casting quickly solidifies in the die, and is automatically ejected by the machine, and the cycle starts again. The castings are cleaned by grinding or sanding, which also removes any excess metal "flash." Many die casting manufacturers maintain their own machine shop for making the dies. Die making, when done as a part of die casting operations, is included within the scope of this classification. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; and establishments engaged in making dies for

others which are to be reported separately in classification 3402-74.

3402-26 Saw blade: Manufacturing, assembly, or sharpening

Applies to establishments engaged in the manufacture, assembly, or sharpening of saw blades such as, but not limited to, those used in circular saws, band saws, ripsaws, key-hole saws, and handsaws such as hacksaws or meat saws. This classification also includes sharpening services for items such as, but not limited to, tools, scissors, and knives. Materials include, but are not limited to, high tensile steel and carbide tipped blades. Machinery includes, but is not limited to, saws, mills, drills, and hand tools. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; establishments engaged in the repair or sharpening of chain saws which are to be reported separately in classification 3402-06; and establishments engaged in the manufacture or repair of electrical saws which are to be reported separately in classification 5201.

3402-28 Heat treating metal

Applies to establishments engaged in heat treating metal. The heat treating process may use computer numeric controlled (CNC) ovens or furnaces. The oven may heat up to 1200 degrees Fahrenheit and a furnace may heat up to 2000 degrees Fahrenheit. The metal(s) is placed on a platform; the platform is hydraulically moved into the first chamber and the door is automatically closed. At this time, the oxygen is burned from the chamber. Then the second chamber door is opened and the metal enters the oven/furnace. Depending upon the specifications, the heat treating process usually takes six to sixteen hours. When the metal is finished in the heating chamber it returns automatically to the first chamber. Then the platform lowers and the metals are dipped into a cooling agent. Once the metals are cooled to room temperature the platform rises, the door opens, and the materials are removed. The process is essentially the same without using (~~noncomputer~~) computer numeric controlled (CNC) heat treating equipment except that, rather than being hydraulically operated, the machine operators move the metals through the system. Many establishments do not produce a product, but heat treat a variety of products to customer specifications. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

**3402-29 Nut, bolt, screw, nail, tack, rivet, eyelet spike, needle, N.O.C.: Manufacturing
Sprinkler head, speedometer, carburetor: Manufacturing or assembly**

Applies to establishments engaged in the manufacture of nuts, bolts, screws, nails, tacks, rivets, eyelets, spikes, and needles not covered by another classification (N.O.C.). This classification also applies to establishments engaged in the manufacture or assembly of sprinkler heads, speedometers, or carburetors. Materials include, but are not limited to, steel or iron rods which may be pressed or formed, and small component parts. Machinery includes, but is not limited to, saws, shears, presses, chuckers, threading and tapping machines, some of which may be computer numeric controlled (CNC). Establishments may have separate areas for deburring, inspecting, packing and shipping. The carburetor rebuilding may be performed on vehicles that are driven or towed into the shop, or on carburetors that have been already removed from the vehicles. In either case the repairs are made exclusively with hand and air tools and sometimes a diagnostic scope and a drill press. A speedometer is usually embodied with a mileage recording mechanism. The central feature of the device is a permanent magnet. There are gears, spindles, and a drive shaft present in most speedometers. There is also a unit counting disc and a spiral spring calibrator. Hand tools are used almost exclusively in the repair of this kind of speedometer. Today many speedometers are computer controlled. Basically, if this kind of speedometer is in need of repair, a computer chip(s) is replaced, using hand tools. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in the manufacture of hardware that is not covered under another classification, such as handles, latches, and hinges which are to be reported separately in classification 3404, and the repair of speedometers or carburetors in a vehicle which is to be reported separately in the appropriate vehicle repair classification.

3402-32 Abrasive wheel: Manufacturing

Applies to establishments engaged in the manufacture of abrasive wheels. Manufacturing operations often include a laboratory where carbon and other materials are mixed together to form the abrasive edge of the mainly high tensile steel wheels. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-40 Welding or cutting, N.O.C. (mobile operations limited to repair of equipment and machinery)

Applies to establishments engaged in welding or cutting operations not covered by another classification (N.O.C.)

either in the shop or at the customer's site. Steel is the predominant material along with some aluminum alloys. Machinery is predominantly welding equipment, but may include tools such as, but not limited to, grinders, saws, drills, and material handling equipment. This classification also includes "mobile shops" which are used *exclusively* to repair machinery or equipment. A "mobile shop" in this classification usually means a van or pick up pulling a utility trailer equipped with hand tools, specialty tools, air tools, a compressor, and a portable welding unit. The machinery or equipment is usually repaired at the customer's location, sometimes with the use of the customer's equipment; however, broken parts may be removed and taken back to the shop for repair.

This classification excludes welding construction and repairs to buildings or structures which are to be reported separately in the appropriate construction classification and mechanical repairs which are to be reported separately in the classification applicable to the work being performed.

3402-48 Automobile or truck, radiator and heater core: Manufacturing and repair shops

Applies to establishments engaged in the manufacture and/or repair of automobile or truck radiator and heater cores. Manufacturers in this classification may have a die casting area and a separate electronic assembly area. Tools and equipment include, but are not limited to, hand tools, solder guns, and punches. Shops that repair radiators may work on the radiators in the vehicles, but usually the radiators have been removed from the vehicle. The radiator is examined and the core may be removed. Next the radiator is cleaned, air pressurized, and dipped in a water tank to check it for leaks. Once the leaks are found they can generally be repaired by welding the holes shut. The radiator is dipped again to ensure the repair has been made properly. Cleaning the radiator may be done by sandblasting, ultra sound baths or by "rodding" the radiator to remove corrosion. Repair equipment includes, but is not limited to, welders, air and hand tools, dipping tanks, hoists, and forklifts. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-60 Office machinery, N.O.C.: Manufacturing or assembly; Cash register or sewing machines: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of cash registers, sewing machines and office machinery not covered by another classification (N.O.C.) such as, but not limited to, copiers, collators, mail/postage machines, calculators and automatic letter openers. Component parts may be metal, plastic, or wood. Operations include, but are not limited to, cutting, shaping, forming, drilling, riveting, clamping, and bolting; there may be a separate electronic assembly area. Machinery and tools vary

within this classification; some establishments use hand and air tools only, others use additional equipment such as, but not limited to, saws, lathes, mills, drills, or water jets, some of which may be computer numeric controlled (CNC). This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-61 Small arms and ammunition: Manufacturing, assembly, or rebuild

Applies to establishments engaged in the manufacture, assembly, or rebuild of small arms, the manufacture of ammunition and reloading. For the purpose of this classification, small arms means .50 caliber or less, such as pistols, rifles, shotguns, and light machine guns. Operations include, but are not limited to, metal stamping of casings, machining, assembling, and a high proportion of inspecting. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; the manufacture or repair of heavy arms which is to be reported separately in classification 5109; and gun stores which are to be reported separately in classification 6309.

3402-74 Tool: Manufacturing, not hot forming or stamping; Die: Manufacturing - Ferrous

Applies to establishments engaged in tool manufacturing or die manufacturing, for others, from ferrous materials. Tools manufactured in this classification are usually cutting tools used in lathes, mills, rotors, and saws. Machinery includes, but is not limited to, sharpeners, grinders, lathes and mills, which are both manual or computer numeric controlled (CNC). The die manufacturing included in this classification includes those made exclusively of ferrous materials including, but not limited to, jigs, fixtures, and dies for metal work in general. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in the manufacture of machine-finished tools which are to be reported separately in classification 3402-83.

3402-77 Auto, truck, semi-trailer and bus body: Manufacturing;

Travel trailer body: Manufacturing or repair

Applies to establishments engaged in the manufacture of auto, truck, and bus bodies, and in the manufacture or repair of travel trailer bodies or cargo containers. Repairs are usually made with the use of welders or cutting torches and air or hand tools. These establishments will also repair or replace hydraulic units. Material used in the manufacture of goods in this classification is usually steel and aluminum, varying in thickness from 16 gauge to plate metal up to one inch thick. Shapes include, but are not limited to, sheet metal, tubes, solid rod or I-beams. Equipment includes, but is not limited to, shears, breaks, hydraulic presses, iron workers, drill presses, grinders, welders, hoist, cranes, and forklifts. Shops may have a finish sanding area as well as a paint area where the vehicle bodies are sprayed with primer, a body bonding material, or a finish coat of paint. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-83 Tool: Manufacturing and machine finishing

Applies to establishments engaged in manufacturing and machine finishing tools. Tools manufactured in this classification are usually hand held instruments such as, but not limited to, wrenches, screw drivers, hammers, torque wrenches, pliers, and sockets. Machinery includes, but is not limited to, air and hand tools, polishers, grinders, inspection equipment, mills, lathes, shapers, and drill presses, some of which may be computer numeric (~~Control~~) controlled (CNC). Establishments may have a galvanizing and/or electroplating area for the finish work which is included when performed by employees of employers subject to this classification. Other establishments in this classification send the finish work out. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; establishments engaged in the manufacture of tools from ferrous materials which are to be reported separately in classification 3402-74; and establishments engaged in tool forging which are to be reported separately in classification 5106.

3402-85 Auto or truck parts: Machining or rebuild not in vehicle

Applies to establishments engaged in machining or rebuilding auto or truck parts such as, but not limited to, water pumps, fuel pumps, transmissions, heads, brake drums,

ball joints, and rear ends, which are not in the vehicle. Work contemplated in this classification may also include manufacturing sockets, pulleys, shafts, fittings, flywheels, and/or bearings. Machinery includes, but is not limited to, mills, lathes, grinders, sanders, presses, welders, and balancing equipment. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in manufacturing or rebuilding auto, truck, or aircraft engines which are to be reported separately in classification 3402-86.

3402-86 Auto, truck or aircraft engine, N.O.C.: Manufacturing or rebuilding

Applies to establishments engaged in manufacturing or rebuilding auto, truck, or aircraft engines not covered by another classification (N.O.C.), including manufacturing the component parts. Establishments in this classification often specialize in the type of engines they make or rebuild. The basic difference between automobile, truck, and aircraft engines is the size and weight of the parts being worked on. Engine rebuild shops use many specialized machines and air tools to tear the core down to an engine block; then rebuild the engine. After the engine is stripped down to the engine block, it is placed in a machine called a baker which heats to approximately 600 degrees and bakes away the grease. After baking, the engine block is placed in a sand blaster where the surface is cleaned with very fine steel shot. The engine block is then placed in a large pressure washer which removes the steel shot. Next, the crank and cam shafts are ground and turned on machinery similar to lathes. There is usually a separate room or area which is called the "head shop" where the heads and valves are machined on valve grinders, valve facers, and head grinders. Engine rebuild shops that do not have the equipment to grind the crank and cam shafts will contract work out to other shops, or buy new crank shafts and cam shafts. Other machinery includes, but is not limited to, boring bars and hones to polish cylinder walls, small pressure washers for oil pans and other smaller parts, solvent tanks, and hoists or forklifts for lifting the engines or engine parts. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in machining or rebuilding auto or truck parts, other than engines, which are to be reported separately in classification 3402-85.

3402-91 Bed spring or wire mattress: Manufacturing

Applies to establishments engaged in the manufacture of bed springs or wire mattresses. The wire stock is coiled and cut to length on a coiling machine, then tempered in an oven to produce the spring. The coils are fastened to the frame either by hand or by machine. This classification includes the

repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in the manufacture of stuffed mattresses which are to be reported separately in classification 3708.

3402-93 Valve: Manufacturing

Applies to establishments engaged in the manufacture of valves. Valves regulate the flow of air, gases, liquids, or loose material through structures by opening, closing, or obstructing passageways. They are operated manually, electrically, with compressed air, or hydraulic pressure. Valves are usually cut from aluminum, steel, or stainless steel either by a computer numeric controlled (CNC) machine (~~((CNC))~~) or water jet machine. Depending upon the complexity of the valve, they are assembled in one or several stages. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged in the manufacture of valves made in a die mold which are to be reported separately in classification 3402-74.

3402-94 Precision machined parts, N.O.C.: Manufacturing

Applies to establishments engaged in manufacturing precision machined parts not covered by another classification (N.O.C.). Most of these establishments are "job shops." Job shops make component parts for other businesses according to customer specifications, rather than manufacturing a specific product. Many establishments in this classification manufacture precision parts for the aerospace industry. Machining usually begins with solid blocks of material such as, but not limited to, steel, aluminum, titanium, inconel, or plastic, although some hollow tube, flat bar, and angle stock may also be used. The "rough cuts" are often made on manual machines, and the finish cuts on computer numeric controlled (CNC) machines. Depending on the establishment and the job specifications, a specific part may be sent to one or more additional shops to be tempered, milled, or inspected before the original establishment is through with the manufacturing process. Some parts are so sensitive that climate controlled conditions are necessary. Both manual and CNC mills and lathes are the most common types of machines used. Others include, but are not limited to, saws, drills, and grinding machines. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection

with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-95 Storage battery: Manufacturing, assembly or repair

Applies to establishments engaged in the manufacture, assembly, or repair of storage batteries. Lead ingots, weighing 20-25 pounds, are melted and poured into a mold or casting machine. After the grids are cooled lead oxide is then pumped onto each side of a grid and cured by baking in an oven of about 300 - 400 degrees F. The plates are then assembled by placing a negative separator (zinc) between a positive separator (copper), and so forth until there are enough of these cells to form the battery. Next, they are sent to a burning machine that cures the paste and plates. After the burning process, the plates are placed into a plastic or hard rubber box-like container and cured for two or three days. The plates are welded together and the top is attached to the body of the battery case with an epoxy glue. Diluted sulfuric acid is added to the battery and then it is put on a charger. The battery is then cleaned and packed for shipping. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant; establishments engaged in the manufacture of dry cell (flashlight type) batteries which are to be reported separately in classification 3602; and establishments engaged in battery sales and installation which are to be reported separately in the applicable automotive services classification.

3402-96 Automobile or motorcycle: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of automobiles or motorcycles. Most of the manufacturing operations, such as cutting, milling, and turning, are performed with computer ((Numerically)) numeric controlled (CNC) machinery. Most of the assembly operations are performed with air and hand tools. Other machinery includes but is not limited to saws, grinders, and drill presses. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant and establishments engaged only in the manufacture of auto bodies which are to be reported separately in classification 3402-77.

3402-98 Machinery, N.O.C.: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of machinery not covered by another classification (N.O.C.). For purposes of this classification, machinery means any combination of mechanical parts constructed primarily with metal. Finished products vary widely and range from hand held machines to those weighing thousands of pounds; products include, but are not limited to, grinding machines, boring machines, conveyer systems, and wood chippers. Machinery used to manufacture these items includes, but is not limited to, lathes, mills, press, breaks, shears, and welders, some of which may be computer ((Numerically)) numeric controlled (CNC). This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

3402-99 Photo processing machinery: Manufacturing or assembly

Applies to establishments engaged in the manufacture or assembly of photo processing machinery such as, but not limited to, photo processors or film enlargers. This classification includes the repair of items being manufactured or assembled when done by employees of an employer having operations subject to this classification when the repair is done as a part of and in connection with the manufacturing or assembly operation. This is a shop or plant only classification; it includes work being performed in an adjacent yard when operated by an employer having operations subject to this classification.

This classification excludes all activities away from the shop or plant.

WAC 296-17A-3405 Classification 3405.

3405-02 Precision machined parts and products, N.O.C.: Manufacturing

Applies to establishments engaged in the manufacture of parts and products not otherwise classified (N.O.C.) of various sizes and metal compositions which are primarily produced with computer numeric controlled (CNC) machinery and equipment and are frequently used by aerospace, aircraft, automotive, medical, and scientific industries.

This classification excludes establishments engaged in the manufacture of hand tools, hardware, or similar parts or products, N.O.C. which are not produced with ((computer numeric controlled)) CNC machinery and equipment. This classification excludes all foundry operations involving the preparation of castings, the pouring of metal, and shake out operations which are to be reported separately in classification 5103.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-4501 Classification 4501.

~~((4501-00 Radio or television broadcasting companies; Transmitter or field employees outside, N.O.C.~~

Applies to the field employees, not covered by another classification (N.O.C.), of establishments engaged in the operation of radio or television broadcasting companies. This classification is limited to outside employees engaged in technical and engineering work such as the installation/testing/repair of lines, antennas (including tower mounted), satellite dishes, and field transmitting equipment.

This classification excludes radio or television broadcasting station employees confined to the studio or office such as, but not limited to, control operators/engineers, announcers, camera operators, players, entertainers, musicians, clerical office and sales personnel, who are to be reported separately in classification 4502; establishments engaged in providing television cable service to subscribers which are to be reported separately in classification 1305; contractors engaged in underground line construction, maintenance, or repair who are to be reported separately in classification 0107; contractors engaged in overhead line construction, maintenance or repair who are to be reported separately in classification 0509; and contractors engaged in wiring within buildings and antenna hookups within buildings who are to be reported separately in classification 0601.)) **Radio or television broadcasting, recording, and video production; technical field staff**

Classification 4501 applies to technical staff for radio, television, recording, and video production, who perform work such as installing, testing, and repairing lines, antennas (including tower mounted), satellite dishes, and field transmitting equipment outside their employers' offices or studios.

This classification excludes:

- Employees working inside the employer's studio or office who are to be reported separately in classification 4502;

- Workers employed by cable service providers who are reported separately in classifications 1305 and 4502;

- Construction, maintenance, or repair by contractors, who are reported according to the following type work:

- Underground lines - Classification 0107;

- Overhead lines - Classification 0509;

- Towers - Classification 0508;

- Electrical wires, cable, or antenna hook-ups within buildings - Classification 0601; and

- Satellite dish and antenna hookups on building exteriors - Classification 0607.

Employers normally are assigned classification 4502 in addition to classification 4501; however, they must maintain records that permit the department to confirm hours worked in either classification. When employers do not or cannot maintain these records, they must report all hours in question in the classification with the higher rate.

For administrative purposes, classification 4501 is divided into the following subclassification(s):

4501-00 Radio or television broadcasting, recording, and video production; technical field staff

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-4502 Classification 4502.

~~((4502-00 Radio broadcasting stations; All other employment~~

Applies to establishments engaged in the operation of radio broadcasting stations. This classification is limited to those employees who are confined to the studio or office such as, but not limited to, control operators, producers, engineers, announcers, reporters, disc jockeys, players, entertainers, musicians, clerical office and sales personnel. This classification includes occasional outside exposure when broadcasting from a remote location.

This classification excludes radio broadcasting station field employees engaged in technical and engineering work such as, but not limited to, the installation/testing/repair of lines, antennas, and satellite dishes who are to be reported separately in classification 4501.

~~**4502-01 Television broadcasting stations and video production; All other employment**~~

Applies to establishments engaged in the operation of television broadcasting stations and the production of videos. This classification is limited to those employees who are confined to the studio or office such as, but not limited to, control operators, producers, directors, announcers, camera operators, reporters, players, entertainers, musicians, clerical office and sales personnel. This classification includes occasional outside exposure when broadcasting from a remote location.

This classification excludes television broadcasting station field employees engaged in technical and engineering work such as, but not limited to, installation/testing/repair of lines, antennas, and satellite dishes who are to be reported separately in classification 4501; studio or office employees of television cable companies who are to be reported separately in classification 4502-03; and large scale theatrical/movie production which is to be reported separately in classification 6608.

~~**4502-02 Recording companies, studio**~~

Applies to establishments engaged in the operation of studio recording companies. This classification is limited to those employees who are confined to the studio or office such as, but not limited to, control operators, engineers, announcers, players, entertainers, musicians, clerical office and sales personnel. This classification includes occasional outside exposure when recording at a remote location.

~~**4502-03 Television cable companies; Control room and clerical personnel**~~

Applies to control room and office employees of establishments engaged in providing point to point cable television service to subscribers. Television cable companies receive commercially produced programming from others through satellite and antennae, which they distribute to their subscribers through the local cable lines they install and maintain. They may also become involved in producing original programming and making channels available for public access broadcasts. Work contemplated by this classification is limited to those employees who are confined to a control center, studio or office such as, but not limited to, control

operators, players, announcers, entertainers, musicians, clerical office and sales personnel. This classification includes occasional outside exposure for broadcasting from a remote location. Also included are homeowners' associations and co-ops who operate a central system for residential users.

This classification excludes television cable company field employees engaged in operation, maintenance and extension of lines and subscriber hook-ups who are to be reported separately in classification 1305 and studio or office employees of noncable television broadcasting companies who are to be reported separately in classification 4502-01.))
Radio, television, recording, video production, and cable service providers; all other employees

Classification 4502 is limited to employees who do **not** install, test, or repair electrical wiring, cable lines, antennas, satellite dishes, or hook-up subscribers, unless the work is performed inside buildings on their employers' premises. Occupations reported in this classification include clerical office and sales workers, but may also include:

Account managers;
Administrative staff;
Advertising, marketing, and promotions staff;
Animation production staff;
Announcers;
Art, design, wardrobe staff;
Billing, customer service staff;
Camera operators, videographers, photographers;
Commercial productions staff;
Control room engineers and operators;
Facility operations, maintenance staff;
Film and video editors;
Meteorologists;
Music DJs;
Musicians, performers, actors, and personalities;
Producers, directors, reporters;
Sales staff;
Set construction staff, lighting technicians;
Studio engineers, studio technicians;
Stunts staff.

This classification excludes:

- Field employees for cable television or communication providers installing or maintaining extension lines and subscriber hook-ups, who are reported separately in classification 1305;

- Technical staff employed by a radio or television station, recording studio, or video production company installing, testing, or repairing electrical wires, cable, antennas, satellite dishes, or any other equipment outside their employers' studios, offices, or facilities;

- Large-scale theatrical/movie productions reported separately in classification 6608;

- Videotaping by photography studios reported separately in classification 6506; and

- Entertainers, musicians, recording engineers, etc., who are not employees of the broadcasting or recording company.

Businesses may be assigned either classification 4501 or 1305 in addition to classification 4502; however, employers must maintain records that permit the department to confirm hours worked in each classification. If employers do not or

cannot maintain these records, they must report all hours in question in the classification with the higher rate.

For administrative purposes classification 4502 is divided into the following subclassification(s):

4502-00 Radio stations, N.O.C.

4502-01 Television stations and video production

4502-02 Recording studios

AMENDATORY SECTION (Amending WSR 09-24-082, filed 11/30/09, effective 1/1/10)

WAC 296-17A-5001 Classification 5001.

5001-03 Logging, N.O.C.

Applies to establishments engaged in various logging operations not covered by another classification (N.O.C.). Typical work contemplated by this classification includes, but is not limited to, high lead or tower logging, ground logging, and team logging with horses. For purposes of this rule, logging is the complete operation of felling, skidding, yarding, delimiting, and bucking of trees into logs or block wood and loading them onto trucks or rail cars.

Definitions:

High Lead or Tower Logging - Usually occurs in steep terrain where a metal tower is set-up on a hilltop with a system of heavy cables running down the hillside and fastened to a stump or tree and has other smaller cables with chokers hanging from it. A choker is wrapped around each fallen tree and pulled back to the landing site.

Helicopter logging - Includes ground crews that work with the use of helicopters to hoist fallen trees or bucked log lengths to the landing site.

Chokers - Chains or cables which are attached to the fallen trees for skidding to the landing site.

Ground logging - Usually occurs on relatively flat land; fallen trees are moved to a landing by a skidder, cat or shovel.

Bucking - Stripping or delimiting tree of branches and cutting the tree to desired log lengths.

Skidding - Process of dragging the fallen logs to the landing site.

Landing - Place where the fallen logs are brought for sorting and loading onto log trucks.

Yarding - Usually performed at the landing site with use of a log loader to sort the logs by species, length and diameter, prior to loading onto log trucks.

This classification excludes flight crews of helicopters used in helicopter logging which are to be reported separately in classification 6803; log hauling which is to be reported separately in classification 5003; logging road construction which is to be reported separately in classification 6902; logging machine operators which are to be reported separately in classification 5005-01; and mechanical or mechanized logging operations which are to be reported separately in classification 5005-00 provided the classification has been approved by the classification services section.

5001-04 Shake, shingle bolt, and post cutting

Applies to establishments engaged in the cutting of shakes, shingle bolts (blocks), and fence posts in the woods. For the purposes of this rule, this classification includes all operations performed in the woods such as, but not limited to, the felling of trees, stripping or delimiting of branches, and all further cutting or splitting of trees/logs to produce shakes, shingle bolts or fence posts. This classification includes all transporting of shakes, shingle bolts or fence posts from the cutting site when conducted by employees of employers subject to this classification.

5001-05 Firewood cutting

Applies to establishments engaged in the cutting of firewood in the woods. For the purposes of this rule, this classification includes all operations performed in the woods such as, but not limited to, the felling of trees, stripping or delimiting of branches, and all further cutting or splitting of trees/logs to produce firewood. This classification includes all transporting of log lengths, rounds or split wood from the cutting site when conducted by employees of employers subject to this classification. This classification excludes firewood sales lots conducted away from logging operations, which are to be reported in classification 1103.

5001-06 Sawmill operations conducted in the woods in connection with logging operations

Applies to establishments operating a temporary or portable sawmill operation in the woods. This type of work is usually performed on privately owned land. A portable sawmill and saw tables, similar to those at a permanent sawmill location, are transported directly to the logging site. Log lengths are fed through a circular saw that is capable of producing various sized rough cut timber, blocks, boards and planks. This classification includes all transporting of rough cut timber, blocks, boards and planks from the cutting and/or sawing site when conducted by employees of employers subject to this classification.

This classification excludes sawmill operations which are not conducted in the woods in connection with a logging operation which is to be reported separately in the applicable sawmill classification.

AMENDATORY SECTION (Amending WSR 09-24-082, filed 11/30/09, effective 1/1/10)

WAC 296-17A-5005 Classification 5005.**5005-00 Logging and/or tree thinning - Mechanized operations**

(to be assigned only by classification services staff)

((Applies to establishments engaged in mechanized logging or tree thinning operations. For purposes of this classification, mechanized logging is defined as the entire process of felling, removal (skidding), yarding, processing, delimiting, bucking and loading of trees/logs by machine. This classification can be used by a logging contractor only if the entire side is being logged using methods and equipment described in this rule. If any portion of the side is being logged by conventional methods the entire operation must be reported in classification 5001—Logging, N.O.C. or 5005-01 Logging Machine Operators. *For example*, an employer that subcon-

tracts to fell trees with a feller/buncher or processor but is not involved in the removal (skidding) of the trees, the processing (delimiting and bucking) of the trees and the loading of trees is excluded from classification 5005-00 and is to be reported in classification 5001—Logging, N.O.C. or 5005-01 Logging Machine Operators. Any employer whose operation includes any manual felling, removal, processing, or loading of trees is excluded from classification 5005-00 and is to be reported in classification 5001—Logging, N.O.C. Work contemplated by this classification includes the falling of trees with a machine such as a feller buncher or processor; skidding logs to the landing with use of a grapple skidder or forwarder; delimiting logs with a mechanized delimitter such as a stroke delimitter, processor, CTR or harvester; and loading logs onto log trucks with a mechanical loader or shovel. Equipment used by employers subject to this classification will consist of the following:

Feller/buncher—Used to fell trees and place felled trees into stacks (bunches) for removal to the log landing for further processing. The operator of this machine does not leave the cab of the machine in the performance of duties in the logging operation.

Processor—Used to fell trees, delimit them, buck tree to desired log length and stack the bunches for removal to the landing where they will be segregated by general grade and loaded onto log trucks. A processor is sometimes used at the landing to delimit trees and buck them to log length, especially when the trees are felled by a feller/buncher. The operator of this machine does not leave the cab of the machine in the performance of duties in the logging operation.

Grapple skidder—Is used to remove (ground skid) stacks (bunches) of felled trees from the woods to the landing. The industry refers to both the skidder and the bulldozers as a tractor. The two are distinguished from one another in that the skidder is a tire-driven tractor and the bulldozer is a track-driven tractor. A bulldozer equipped with a grapple is an acceptable piece of equipment to be used in the removal of trees. The operator of either the grapple skidder or bulldozer equipped with grapple does not leave the cab of the machine in the performance of duties in the logging operation.

Forwarder—Is used to remove logs as cut by a processor from the woods to an awaiting log truck or to be stacked in piles for a future pick up by a log truck. This is a small specialized tractor equipped with a self-loader and a log bunk. The operator of this machine does not leave the machine in the performance of duties in the logging operation.

Harvester—Is used at the landing of the logging side to delimit trees and buck trees to desired log length. This machine can also be used to load logs onto log trucks. The operator of this machine does not leave the cab of the machine in the performance of duties in the logging operation.

Loader—Is used at the landing to load logs onto log trucks. The operator of this machine does not leave the cab of the machine in the performance of duties in the logging operation.

This classification excludes log hauling which is to be reported separately in classification 5003, logging road construction which is to be reported separately in classification 6902, logging machine operators which are to be reported

separately in classification 5005-01, and logging operations which are to be reported separately in classification 5001.

Special notes: If any portion of the logging contract is performed manually or by hand, the establishment does not qualify for this classification. If any portion of the logging contract is subcontracted out to another business and is performed manually or by hand, then none of the businesses involved in the logging contract will qualify for this classification and are to be reported separately in classification 5001 or 5005-01.

All equipment used by employers subject to this classification must meet WISHA guidelines for Roll Over Protection Standards (ROPS) and Falling Object Protection Standards (FOPS).

See classification 5206 (WAC 296-17-675) for permanent shop/yard operations.

5005-01 Logging machine operators (to be assigned only by classification services staff)

This classification applies to employees of a logging company that does not qualify as a mechanized operation but operates equipment such as a feller buncher, processor, forwarder, skidder, log loader, or tower and who are in a protective cab. This classification also applies to firms who contract with logging firms to provide such equipment and operators to a logging side. The operator does not leave the cab to perform duties as part of the logging operation. Equipment used by employers subject to this classification are required to meet WISHA guidelines for roll over protection standards (ROPS) and falling object protection standards (FOPS).

This classification excludes all logging activities being performed on the ground which are to be reported separately in classification 5001.

Special note: This classification does not apply to classification 5005-00 "logging and/or tree thinning – mechanical operations" whereby logging activities are performed exclusively by machine and no employees are on the ground.)) Applies to establishments engaged in mechanized logging or tree thinning operations. For purposes of this classification, mechanized logging is defined as the entire process of felling, removal (skidding), yarding, processing, delimiting, bucking and loading of trees or logs by machine.

When would your business qualify for this classification?

• If the entire side is being logged using methods and equipment described in this rule.

Typical equipment:

- Feller buncher;
- Forwarder;
- Grapple skidder;
- Harvester;
- Log loader;
- Processor.

All equipment used by employers subject to this classification must have a protective cab and is required to meet WISHA guidelines for roll over protection standards (ROPS) and falling object protection standards (FOPS).

Work in this classification includes, but is not limited to:

• Falling of trees with a machine such as a feller buncher or processor;

• Skidding logs to the landing with use of a grapple skidder or forwarder;

• Delimiting logs with a mechanized delimeter such as a stroke delimeter, processor, or harvester;

• Loading logs onto log trucks with a mechanized loader or shovel; and

• Operators who leave the cab of the machine to perform incidental maintenance on the machine or to cut debris out of the equipment.

What activities are not included in this classification?

• Operators who leave the cab of the machine to perform duties as part of a logging operation or falling and processing of any trees by hand (report in classification 5001).

• If any portion of the logging contract is performed manually or by hand, the establishment does not qualify for this classification (report in classification 5001 or 5005-01);

• If any portion of the logging contract is subcontracted out to another business and is performed manually or by hand, then none of the businesses involved in the logging contract will qualify for this classification (report in classification 5001 or 5005-01);

• Log hauling (report in classification 5003);

• Logging road construction (report in classification 6902);

• Logging machine operators (report in classification 5005-01); and

• Manual logging operations (report in classification 5001).

Note: See classification 5206 and the exemption classification reporting rule (WAC 296-17-31018) for permanent yard or shop operations.

5005-01 Logging machine operators

(to be assigned only by classification services staff)

Applies to employees of a logging company that does not qualify as a mechanized operation, or firms who contract with logging firms to provide such equipment and operators to a logging side.

Typical equipment:

- Feller buncher;
- Forwarder;
- Grapple skidder;
- Harvester;
- Log loader;
- Processor;
- Tower.

All equipment used by employers subject to this classification must have a protective cab and is required to meet WISHA guidelines for roll over protection standards (ROPS) and falling object protection standards (FOPS).

Work in this classification includes:

• Operators who leave the cab of the machine to perform incidental maintenance of the machine or to cut debris out of the equipment.

What activities are not included in this classification?

• Operators who leave the cab of the machine to perform duties as part of a logging operation or falling and processing of any trees by hand (report those hours in classification 5001).

• Operators of machines that require the operator to routinely leave the cab during operation. For example: a skidder

operator that must leave the cab to set chokers (report in classification 5001).

Special note: This classification does not apply to classification 5005-00 "logging and/or tree thinning - Mechanical operations" where logging activities are performed exclusively by machine and no employees are on the ground.

AMENDATORY SECTION (Amending WSR 12-11-109, filed 5/22/12, effective 7/1/12)

WAC 296-17A-5301 Classification 5301.

5301-10 Accounting or bookkeeping services

Applies to establishments engaged in providing general accounting or bookkeeping services to others. Types of services contemplated by establishments subject to this classification include, but are not limited to:

- Auditing;
- Tax preparation;
- Medical or dental claims processing and billing;
- Advisory services.

This classification includes:

- Clerical office;
- Outside sales, and personnel who travel from one office to another.

This classification excludes establishments engaged primarily in management consultant services that are not otherwise classified, which are to be reported separately in classification 5301-12.

Special note: This classification is limited to employers engaged in such services being provided to the general public. This is a services only classification and does not include retailing or store operations, nor is this classification to be assigned to employers setting up separate business operations to manage other commonly owned or operated business undertakings unless coincidentally the other operations are also subject to this classification.

5301-11 Law firms

Applies to establishments engaged in providing legal services to others. Law firms may specialize in one or more areas of law. This classification includes clerical office and outside sales personnel who travel from one office environment to another.

Special note: This is a services only classification and does not include retailing or store operations, nor is this classification to be assigned to employers setting up separate business operations to manage other commonly owned or operated business undertakings unless coincidentally the other operations are also subject to this classification.

5301-12 Management consultant services, N.O.C.

Applies to establishments engaged in providing management consulting services not covered by another classification (N.O.C.). Management consultants typically will observe and analyze:

- Computer or communication systems;
- Mail distribution;
- Organizational structures;
- Planning or development of related business needs;
- Work processes or work flows.

After a thorough analysis, consultants usually prepare a written report for the customer which identifies problem areas and/or recommends improvements to processes or equipment. Consultants may remain to oversee the implementation of the recommended improvements. Consultants subject to this classification do not sell any product they have recommended although they may act as an agent for their client in purchasing the product. Consulting projects vary from client to client depending upon the contract. Included within this classification are businesses that provide similar consultative services such as, but not limited to:

- Advertising agencies;
- Employer representative organizations;
- Mortgage brokers and financial advisers who do not make purchases on behalf of their clients;
- Public relations companies.

This classification includes clerical office staff, outside sales personnel and other staff who travel from one office to another.

This classification excludes businesses that perform computer consulting for others, which is to be reported in classification 5302.

Special note: This classification is limited to employers engaged in such services being provided to the general public. This is a services only classification and does not include retailing or store operations, nor is this classification to be assigned to employers setting up separate business operations to manage other commonly owned or operated business undertakings unless coincidentally the other operations are also subject to this classification.

5301-13 Credit bureaus; collection agencies

Applies to establishments that are licensed to provide collection and/or credit investigation services to others. Services include, but are not limited to:

- Checking the credit backgrounds of their client's potential customers;
- Collection of NSF checks or delinquent debts owed to clients of the collection agency.

If debts are not collected, the service agency may initiate legal proceedings against the debtor. This classification includes clerical office and outside sales personnel, and other staff who travel from one office to another.

This classification excludes establishments engaged in providing process and legal messenger services which are to be reported separately in classification 6601.

5301-14 Employment agencies

(only to be assigned by the temporary help/leasing underwriter)

Applies to establishments that are licensed to provide employment services for others. Clients of employment agencies may be persons seeking employment or companies looking for employees. Employment agencies usually conduct preliminary interviews with candidates for positions prior to referring them to their client companies for interviews. Generally, establishments subject to this classification place people in permanent positions. This classification includes clerical office and outside sales personnel, and staff who travel from one office to another.

This classification excludes:

- Employees of a temporary help agency who are assigned to work in the administrative or branch offices of the agency who are to be reported separately in classification 7104;
- Employees of a temporary help agency who are assigned on a temporary basis to its customers who are to be reported separately in the appropriate temporary help classification.

5301-15 Court reporting services

Applies to establishments engaged in providing court reporting services to others. Court reporters record verbatim testimony presented in court proceedings, depositions, public hearings or meetings. The most frequently used method to record testimony is by stenotype machine, although it may be recorded by voice recording on audio tape, or by manual shorthand. Transcription of the recorded material may be performed by the court reporter or by "note readers" or typists. The majority of court reporters today use computer-aided transcription systems. Court reporters may also offer notary public services for their clients. This classification includes clerical office and staff who travel from one office to another.

5301-16 Service and professional organizations

Applies to establishments engaged in protecting or furthering the interest of their members and/or the general public. Many of these operate as nonprofit organizations. Service and professional organizations may perform one or many of the following activities:

- Administer certification tests;
- Arbitrate disputes;
- Award scholarships;
- Collect membership dues;
- Compile, review, and disseminate informational data;
- Disburse funds;
- Host conventions;
- Issue vehicle license registrations, plates, decals, and certificates of title;
- Lobby the legislature;
- Manage promotional marketing programs;
- Maintain a membership directory;
- Offer insurance programs;
- Operate a tourist information center;
- Organize fund-raising campaigns;
- Perform charitable community services;
- Perform collective bargaining;
- Provide counseling, adoption, and advocacy services;
- Provide job placement assistance;
- Publish a newsletter;
- Research and interpret local, state, and federal regulations and apprise members of the results;
- Sponsor athletic leagues and tournaments;
- Sponsor educational training programs.

Also included in this classification are Economic Development Councils, Boards, or Associations. These nonprofit organizations provide economic consulting services and related statistics to government and industry in the promotion of economic stability, and recruit businesses that will create jobs and provide loans from the grant funds they manage. This classification includes clerical office and outside sales personnel who travel from one office environment to another.

This classification excludes:

- Collection of donated items by truck which is to be reported separately in classification 1101;
- Labor unions and employee representative associations which are to be reported separately in classification 6503.

Special note: If a charitable organization subject to classification 5301 operates a retail store for the sale of donated items, the collection of those items by truck, and all store operations, are to be reported separately in classification 6504.

5301-18 Telephone answering services

Applies to establishments engaged in providing telephone answering services for others. Customers include, but are not limited to:

- Attorneys;
- Medical professionals;
- Private businesses;
- Individuals.

Most answering services today use computerized communications systems to identify company names when answering calls for various companies, obtain correct information about the company to respond to questions, record and relay accurate messages in a timely manner. Related services often offered by telephone answering service companies include, but are not limited to:

- Dispatching;
- Monitoring alarm systems;
- Placing reminder calls;
- Rental of office space;
- Scheduling appointments for customers;
- Telemarketing;
- Voice mail or paging.

This classification includes clerical office personnel and staff who travel from one office to another.

5301-19 Travel agencies

Applies to establishments engaged in providing travel arrangement services for others. Travel agencies coordinate all types of travel arrangements for their clients through:

- Air;
- Bus lines;
- Car rental agencies;
- Cruise;
- Hotels;
- Motels;
- Related travel providers;
- Resorts;
- Train;
- Travel insurance companies.

Services vary and could include:

- Arrangement of special needs for disabled or elderly travelers;
- Booking reservations;
- Delivery of tickets and itineraries to clients;
- Selling tickets for tours, excursions, or other entertainment events.

This classification includes clerical office and sales staff who travel from one office to another.

5301-21 Word processing or secretarial services

Applies to establishments engaged in providing word processing or secretarial services to others. Services include, but are not limited to:

- Desktop publishing;
- Dictation and transcription services;
- Making copies of documents;
- Typing/compiling reports, proposals, resumes, or correspondence;
- Sending faxes.

A pickup and delivery service may be offered. This classification includes clerical office and outside sales personnel who travel from one office environment to another.

Special note: This classification is limited to employers engaged in such services being provided to the general public. This is a services only classification and does not include retailing or store operations, nor is this classification to be assigned to employers setting up separate business operations to manage other commonly owned or operated business undertakings unless coincidentally the other operations are also subject to this classification.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-6207 Classification 6207.**6207-00 Carnivals - Traveling**

Applies to those employees of an employer engaged in operating traveling carnivals, who are drivers and/or engaged in the set up and/or tear down of mechanical and nonmechanical amusement rides, and any temporary structure associated with a traveling carnival such as, but not limited to, game, food, or souvenir concession booths, mobile offices, aid rooms or ticket booths.

This classification excludes clerical office employees who are assigned to a permanent office location with no outside duties who may be reported separately in classification 4904 provided all the conditions of the general reporting rules covering standard exception employees have been met; clerical employees who travel with the carnival or with ride operators and who work out of a mobile office, ride operators, game attendants, ticket sellers/takers and personnel involved in the care, custody, and maintenance of carnival facilities who are to be reported separately in classification 6208; establishments engaged in operating mechanical or nonmechanical rides at a permanent location which are to be reported separately in classification 6208; and establishments engaged in operating video or amusement game arcades at a permanent location, not within or operated in connection with an amusement park, which are to be reported separately in classification 6406.

Special note: Permanent shop employees, and those employees assigned to the shop during the winter quartering period may be reported separately in classification 5206 provided the conditions set forth in WAC ((~~296-17-675~~) 296-17-31018) have been met.

6207-01 Circuses - Traveling

Applies to establishments engaged in operating a traveling circus. Work contemplated by this classification includes

all preparations, operations and maintenance normally performed by employees of an employer having operations subject to this classification. Employments include, but are not limited to, drivers, trainers, performers, ticket sellers/takers, clerical staff who travel with the circus, set up/tear down of mechanical and nonmechanical rides, concession booths or stands, mobile offices, aid rooms, ticket booths and all other temporary structures associated with a traveling circus.

This classification excludes clerical office employees who are assigned to a permanent office location with no outside duties, who may be reported separately in classification 4904 provided all the conditions of the general reporting rules covering standard exception employees have been met.

Special note: Classifications 6208 and 5206 do not apply to circus operations.

6207-02 Amusement rides - Traveling

Applies to establishments engaged in operating mechanical or nonmechanical amusement rides. Employments contemplated by this classification include, but are not limited to, drivers and all employees engaged in the set up and tear down, operation, and maintenance of mechanical and nonmechanical rides and all other temporary structures associated with the amusement rides. This classification also includes automobile stunt shows, such as monster trucks or motorcycle car jumps, that perform for entertainment purposes. Covered employments associated with automobile stunt shows include, but are not limited to, drivers, mechanics, and maintenance employees who set up and take down ramps or other structures used in the show.

This classification excludes clerical office employees who are assigned to a permanent office location with no outside duties, who may be reported separately in classification 4904 provided all the conditions of the general reporting rule covering standard exception employees have been met; clerical employees who travel with the amusement operations and work out of a mobile office, ride operators, attendants, ticket sellers/takers, and personnel involved in the care, custody, and maintenance of amusement facilities who may be reported separately in classification 6208; employers engaged in operating mechanical or nonmechanical rides at a permanent location which are to be reported separately in classification 6208; and establishments engaged in operating video or amusement game arcades at a permanent location, not within or operated in connection with an amusement park, which are to be reported separately in classification 6406.

Special note: Permanent shop employees, and those employees assigned to the shop during the winter quartering period, may be reported separately in classification 5206 provided the conditions set forth in WAC 296-17-675 have been met.

6207-03 Rodeos

Applies to establishments engaged in the production of rodeos. Employments contemplated by this classification include all operations normally performed by employees of an employer having operations subject to this classification such as, but not limited to, drivers and all arena employees, setting up/tearing down temporary enclosures/structures/bleachers, clowns, gate openers, animal handlers, ticket

sellers/takers, first-aid staff, and clerical staff who travel with the rodeo.

This classification excludes clerical office employees who are assigned to a permanent office location with no outside duties, who may be reported separately in classification 4904 provided all the conditions of the general reporting rule covering standard exception employees have been met; and stock handlers who contract with a rodeo producer to supply horses, bulls, or other rodeo animals, who are to be reported separately in classification 7302.

Special note: Classifications 6208 and 5206 do not apply to rodeos.

6207-04 Fireworks exhibition

Applies to establishments engaged in producing pyrotechnic exhibitions. This classification includes purchasing ready made fireworks, setting up displays, timing fuses, lighting the fireworks, and cleaning up.

This classification excludes establishments engaged in the manufacture of fireworks which are to be reported separately in classification 4601.
