NEW SECTION

WAC 4-25-710 CPA certificate--Education requirements.

Applicants for a CPA certificate shall have a baccalaureate degree conferred by a college or university recognized by the board. The degree program shall include an accounting concentration or its equivalent and related subjects the board deems appropriate.

(1) Equivalent education. The board may, in its discretion, waive the educational requirements for any person if the board is satisfied that the applicant has successfully completed such equivalency examinations as may be offered by bona fide educational testing organizations. The board will not prepare or offer equivalent education examinations. The board will designate, by resolution, acceptable educational testing organizations and equivalency examinations when and if acceptable organizations and examinations exist.

(2) Education obtained outside the United States. In the case of education obtained outside the United States, the board may, at its discretion, rely on bona fide foreign education credential evaluation services. The board will not provide such services, but will designate acceptable foreign education evaluation services, by board resolution, upon application from service providers.

(3) As used in these rules, a "semester hour" means the conventional college semester hour. Quarter hours may be converted to semester hours by multiplying them by two-thirds.

(4) Accreditation standards. For purposes of this rule, the board will recognize colleges and universities which are accredited in accordance with (a) through (c) of this subsection.

(a) An accredited college or university is a four-year degree-granting college or university accredited at the time the applicant's degree was received by virtue of membership in one of the following accrediting agencies:

(i) Middle States Association of College and Secondary Schools;

(ii) New England Association of Schools and Colleges;

(iii) North Central Association of Colleges and Secondary Schools;

(iv) Northwest Association of Schools and Colleges;

(v) Southern Association of Colleges and Schools;

(vi) Western Association of Schools and Colleges; and

(vii) Accrediting Commission for Independent Colleges and Schools, or its predecessor, the Accrediting Commission of the Association of Independent Colleges and Schools.

(b) If an institution was not accredited at the time an applicant's degree was received but is so accredited at the time the application is filed with the board, the institution will be deemed to be accredited for the purpose of (a) of this subsection provided that it:

(i) Certifies that the applicant's total educational program would qualify the applicant for graduation with a baccalaureate degree during the time the institution has been accredited; and

(ii) Furnish the board satisfactory proof, including college catalogue course numbers and descriptions, that the preaccrediting courses used to qualify the applicant for a concentration in accounting are substantially equivalent to postaccrediting courses.

(c) If an applicant's degree was received at an accredited college or university as defined by (a) or (b) of this subsection, but the educational program which was used to qualify the applicant for a concentration in accounting included courses taken at nonaccredited institutions, either before or after graduation, such courses will be deemed to have been taken at the accredited institution from which applicant's degree was received, provided the accredited institution either:

(i) Has accepted such courses by including them in its official transcript; or

(ii) Certifies to the board that it will accept such courses for credit toward graduation.

(5) Alternative to accreditation. A graduate of a four-year degree-granting institution not accredited at the time the applicant's degree was received or at the time the application was filed will be deemed to be a graduate of a four-year accredited college or university if a credentials evaluation service approved by the board certifies that the applicant's degree is equivalent to a degree from an accredited college or university as defined in subsection (4) of this section.

(6) Accounting concentration. A concentration in accounting for holders of baccalaureate degrees, for purposes of this rule, shall consist of at least:

(a) Twenty-four semester hours or the equivalent, in accounting subjects including no more than ten semester hours of lower division elementary accounting courses; and

(b) Twenty-four semester hours or the equivalent, in business administration subjects which shall include business law, finance, and economics.

(c) A concentration in accounting for holders of graduate degrees for purposes of this rule shall consist of at least:

(i) Sixteen semester hours or the equivalent in graduate level accounting subjects. Undergraduate accounting courses may be substituted at two-thirds of the stated undergraduate credit; and

(ii) Sixteen semester hours or the equivalent in graduate level business administration subjects which shall include business law, finance, and economics. Undergraduate business courses may be substituted at two-thirds of the stated undergraduate credit.
