## NEW SECTION

### **WAC 16-54-155 Exotic Newcastle Disease (END) quarantine.**

This section applies to all avian species and commercial traffic originating from END quarantine areas in the United States and to bird exhibits, shows, auctions, public displays and competitions held in Washington state.

(1) Areas under quarantine. The areas under quarantine include all counties and portions of counties declared to be under quarantine for END by the U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service.

(2) Items under restriction. Birds, poultry, poultry products, poultry waste, vehicles, equipment and materials that could transmit END. Included in the restriction are vehicles that make deliveries of live birds into the quarantine zone and return to Washington state.

(3) No live or dead bird of any type, including poultry, poultry product, material or poultry waste, that could transmit END may be moved into Washington state from the area under quarantine. An exemption is made for eggs that have met the requirements of 9 CFR 82.8, including washing, sanitizing and packing in new material.

(4) No equipment used for the processing of eggs or for the housing, feeding, watering, entertaining, or otherwise caring for birds of any type may be moved into Washington state from the area under quarantine unless accompanied by a certificate signed by an official of the USDA or the department of agriculture stating the equipment has been cleaned and disinfected according to a protocol established by the USDA.

(5) The driver of a commercial vehicle originating from the area under quarantine who is transporting feed or eggs into Washington state must provide proof, if asked by an agriculture inspector, of the cleaning and disinfection of the vehicle, trailer, and packing material performed immediately prior to the loading of the vehicle. This proof must be provided in writing and demonstrate that the cleaning and disinfection was performed according to the protocol established by the USDA.

(6) A driver of a vehicle of any type transporting a bird into Washington state must provide, if asked by any agriculture inspector, an original health certificate issued by an accredited veterinarian within thirty days prior to entry stating the birds are healthy and do not originate from a quarantined area. Photocopies of health certificates must have an original veterinarian signature. National Poultry Improvement Plan (NPIP) forms for movement of poultry may be used by members of NPIP with the certification that the shipment did not originate from a quarantined area.

(7) A promoter of an event in Washington state, such as an exhibit, show, auction, competition, or other public display of birds of any type shall immediately inform the state veterinarian by mail, facsimile, or electronic mail of a scheduled event. The notification shall include the contact name, mailing address, physical address of the event, and daytime telephone number.

(8) A promoter of an event in Washington state, such as an exhibit, show, auction, competition, or other public display of birds of any type, shall inform the event exhibitors and vendors in writing of this WAC, the current quarantine for END, and the risk of introducing END into Washington state. The promoter also shall require each event exhibitor and vendor to attest in writing that they are not in violation of this WAC. The signed document shall be forwarded to the state veterinarian within one week of the conclusion of the event.
