DATE: August 11, 2011

TO: State Register

FROM: Chad Phillips, Washington State Department of Agriculture

SUBJECT: PUBLIC NOTICE FOR SPARTINA TREATMENT IN WESTERN WASHINGTON

LEGAL NOTICE

The Washington State Department of Agriculture (WSDA) Plant Protection Division is hereby notifying the affected public that the herbicides glyphosate (e.g. Aquamaster[®], Aquaneat[®], or Rodeo[®]) and imazapyr (e.g. Habitat[®] or Polaris AQ[®]), surfactants (e.g. Agri-Dex[™], Class Act Next Generation[™], Competitor[™], Dyne-Amic[™], Kinetic[™], or LI-700[™]) and marker dyes may be used to control invasive *Spartina* grass species between June 1, 2011 and October 31, 2011. Properly licensed pesticide applicators who have obtained coverage under the WSDA National Pollutant Discharge Elimination System Waste Discharge General Permit may apply glyphosate or imazapyr to control the noxious weed *Spartina* in Grays Harbor, Hood Canal, Willapa Bay, Puget Sound, the north and west sides of the Olympic Peninsula, and the mouth of the Columbia River.

Use of herbicides is one of the options used to control *Spartina*. These infestations may also be treated, but not eradicated, by mowing, digging, crushing, or covering.

For more information, including locations of possible application sites or information on *Spartina*, contact the WSDA *Spartina* Control Program at (360) 902-1923. Or write: WSDA *Spartina* Program, PO Box 42560, Olympia, WA 98504-2560. To contact the WSDA NPDES permit coordinator, call Brad White at (360) 902-2071. The Washington State Department of Ecology 24-hour emergency number for reporting concerns about *Spartina* treatments is (360) 407-6283.
