

STATE OF WASHINGTON
DEPARTMENT OF AGRICULTURE
OLYMPIA

ORDER NO. 823

Supersedes Order No. 797

Effective March 10, 1961

**A Regulation Relating to the Use of Chemicals and
Chemically treated Materials in Franklin County**

I, Joe Dyer, Director of Agriculture, State of Washington, after public notice and hearing held at Kennewick, Washington on November 16, 1960, by virtue of authority vested in me under Chapter 61, Session Laws of 1951, as amended by Chapter 261, Session Laws of 1953, Revised Code of Washington Chapter 17.20, do hereby amend Order No. 797 to read as follows:

Regulation 1. Area Under Order

Sections 1 and 12, Township 9 North, Range 28 East; Sections 3 through 9, 13 through 18 and 20 through 28, Township 9 North, Range 29 East; Sections 1, 12, 13, 24, 25 and 36, Township 10 North, Range 28 East; Sections 6, 7, 8, 15 through 22, 27 through 34, Township 10 North, Range 29 East and all lands comprising the Pasco Airport located north of the city of Pasco, Washington all lying in Franklin County.

Regulation 2. Prohibited Area

The use or application of the herbicides known as 2,4-D, 2,4,5-T and M.C.P. of the amine, sodium salt or ester type or any formulation thereof with any other herbicides, chemicals, oils, salts or water is prohibited in the following described area between the dates of March 1 and November 1 of each year: Sections 7, 8, 9, 13 through 18 and 20 through 28, Township 9 North, Range 29 East, all lying in Franklin County.

Dust formulations of any and all the materials or chemicals referred to in the above paragraphs are prohibited in the entire area under order (Regulation 1).

The use of the amine form of the above described herbicide impregnated in a wax block and employed solely for control of weeds in grass, shall not be construed as violation of the above regulation.

Regulation 3. Prohibits Aircraft Application

Aircraft application of the herbicides known as 2,4-D, 2,4,5-T and M.C.P. of the amine, sodium salt or ester type or any formulation thereof with any other herbicides, chemicals, oils, salts or water is prohibited in the entire area described in Regulation 1.

The loading and/or mixing of the herbicides known as 2,4-D, 2,4,5-T and M.C.P. of the amine, sodium salt or ester type, or any formulation thereof with any other herbicides, chemicals, oils, salts or water in aircraft or ground equipment for use or application is prohibited on any air strip, air field or on any location other than the property being treated within the area described in Regulation 1 of this order.

Regulation 4. Defines Certain Formulations in a Specific Area

In the area under order (Regulation 1) and outside the area of prohibition described in Regulation 2, the use and/or application of 2,4-D, 2,4,5-T and M.C.P. is restricted to the amine or sodium salt or the solubilized acid formulations between the dates of March 1 and November 1 of each year.

Regulation 5. Restrictions on Ground Equipment

Ground equipment used in application of the herbicides known as 2,4-D, 2,4,5-T and M.C.P. or any formulation thereof with any other herbicides, chemicals, oils, salts or water in the area under order (Regulation 1) and outside the prohibited area (Regulation 2) shall use not less than 15 gallons including diluent; pressure not to exceed

35 pounds per square inch at the nozzle; shall not operate when wind velocity exceeds 5 miles per hour and no application be made on vegetation at greater than a 4 foot height from ground level.

Regulation 6.

Injurious herbicides or emptied containers thereof shall not be dumped or allowed to remain at any place where plants of value are likely to be injured by the vapor or by water flowing through or over the material. Equipment used for injurious herbicides shall not be stored or allowed to remain at any place where susceptible crops might be affected.'

No herbicides shall be used under circumstances where injury is likely to result to plants of value on property other than the property to be treated, either through drift of the herbicides during applications or through subsequent movement of vapor or contaminated dust in the wind; nor at any time when the form of the herbicides, the method of application, the condition of surrounding crops, weather conditions, or other circumstances present exceptional risk of injury to crops.

This order will remain in effect until superseded or amended.

JOE DWYER
Director of Agriculture
State of Washington
