I, Michael V. Schwisow, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is:

Brucellosis is a highly infectious disease which causes female cattle to abort. Several infected dairy breed cattle have recently been identified after their importation into Washington. The extent of this newly discovered outbreak is unknown, which makes it imperative that all dairy breed cattle in Washington be tested for brucellosis prior to any change of ownership.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

(3) Pursuant to the requirements of RCW 34.04.026 that "every agency shall incorporate the most specific, but in no case omit all, of the following language alternatives when adopting or amending rules" fill in statement (a), (b), or (c) as appropriate:
