Mr. Richard O. White
Code Reviser
Legislative Building
Olympia, Washington

Dear Mr. White:

On the date of July 26, 1963 the Board for Professional Engineers and Land Surveyors passed a motion to adopt the following rule:

"The branch of Marine Surveyor shall be discontinued with the calendar year of 1965 and that no further examinations or licenses will be issued in the branch of Marine Surveyor following this date.

Renewals of presently licensed persons who now hold certificates in good standing will be accepted through the years of 1964 and 1965, but shall be null and void at the expiration of the year 1965".

Please amend your record of the rules for Professional Engineers and Land Surveyors accordingly.

Very truly yours,

Clarence B. Shain
Executive Secretary, State Board of
Registration for Professional Engineers
and Land Surveyors
