HEALTH CARE AUTHORITY

[Filed September 11, 2023, 9:05 a.m.]

NOTICE

Title or Subject: Medicaid State Plan Amendment (SPA) Amending Pharmacy Professional Dispensing Fees.

Effective Date: July 1, 2023.

Description: On March 21, 2023, the health care authority (HCA) filed notice under WSR 23-07-114 of the intent to submit a SPA to address the level of the professional dispensing fees paid to pharmacies for providing services to medicaid clients in the fee-for-service program. In addition to the professional dispensing fees, HCA pays a drug ingredient cost. That notice stated that the annual aggregate expenditures/reimbursement/payments in the fee-for-service pharmacy program was expected to increase, but HCA did not yet have a formal estimate of the anticipated amount of the potential increase and that HCA did not anticipate changes to the ingredient cost methodology.

On April 25, 2023, HCA filed an amended notice under WSR 23-20-015, presenting the following tentative amounts for the fee-for-service pharmacy program for professional dispensing fees:

Fee Structure	High Volume	Middle Volume	Low Volume	Unit Dose
Increase in fees	\$9.80 (Increase of \$5.56)	\$11.91 (Increase of \$7.35)	\$14.30 (Increase of \$9.05)	\$14.30 (Increase of \$9.05)

At this time, HCA anticipates the following changes in the fee-for-service pharmacy program for professional dispensing fees, which are expected to increase the annual aggregate expenditures/reimbursement/payments by an estimated \$60,562,287.00 annually, combined state and federal funds. Please note the following amounts are tentative:

Fee Structure	High Volume	Middle Volume	Low Volume	Unit Dose
Increase in fees	70,000 or more claims per year \$9.80	Between 30,000 - 69,999 claims per year \$11.91	Less than 30,000 claims per year \$14.30	\$14.30

This SPA is under development. To request a copy when it becomes available or to submit comments, you may contact Amy Irwin at amy.irwin@hca.wa.gov (please note that all comments are subject to public review and disclosure, as are the names of those who comment).

Contact: Amy Irwin, HCA, 626 8th Avenue S.E., Olympia, WA 98501, amy.irwin@hca.wa.gov, TRS 711.

POLICY STATEMENT

DEPARTMENT OF AGRICULTURE

[Filed September 13, 2023, 11:06 a.m.]

**Notice of Policy Statement**

Policy Statement PP-23-0001—Enforcement of Payment Method Requirements for Electric Vehicle Supply Equipment.

On September 13, 2023, a policy statement regarding the Washington state department of agriculture's (department) enforcement of the payment method requirements for electric vehicle supply equipment (EVSE) in WAC 16-662-210 was signed. As a result of a petition submitted by a group of electric vehicle service providers to amend the payment method requirements in WAC 16-662-210 to align with the requirements established by the Federal Highway Administration's National Electric Vehicle Infrastructure program and California SB 123 (chapter 52, Statutes of 2023), the department will be initiating the rule-making process to amend this section. While the rule-making process is underway, the department will not enforce the requirement in WAC 16-662-210 for a credit card reader device to be physically installed on the EVSE unit or kiosk servicing the equipment, which goes into effect on January 1, 2024.

A copy of the policy statement may be obtained by accessing our website or by contacting Gloriann Robinson, Rules Coordinator, 1111 Washington Street S.E., P.O. Box 42560, Olympia, WA 98504-2560, phone 360-902-1802, email [wsdarulescomments@agr.wa.gov](mailto:wsdarulescomments@agr.wa.gov).

**PARKS AND RECREATION**  
**COMMISSION**

[Filed September 14, 2023, 11:11 a.m.]

The Washington state parks and recreation commission (commission) has secured a facility to hold its October 9-10 public meeting. The meeting will be held at Holiday Inn and Quay Convention Center, 700 Port Drive, Clarkston, WA 99403.

Regular meetings run from 9 a.m. to 5 p.m. and include an opportunity for public comment.

The commission typically meets in a work session from 9 a.m. to 5 p.m. the day prior to the regular meeting in the same location or at a location near the regular meeting location. Work sessions are educational sessions on park operations and issues that eventually may go before the commission.

The commission may also tour area sites or parks the day before or following the regular meeting. No public comments or formal actions are taken at work sessions and tours. The commission chair may call special meetings at any time; all special meetings are announced in advance.

The public is welcome to attend all commission meetings. Meeting sites will be barrier free to the greatest extent feasible. The commission will provide Braille or taped agenda items for the visually impaired and interpreters for those with hearing impairments if a request is received at the appropriate address shown above at least 10 working days in advance of the scheduled meeting date.

Agendas are posted on the agency website at least one week in advance of meetings, and commission action is posted at [www.parks.state.wa.gov](http://www.parks.state.wa.gov).

## DEPARTMENT OF ECOLOGY

[Filed September 18, 2023, 10:17 a.m.]

Finding: Pursuant to RCW 70A.400.020 (2)(b), the Washington state department of ecology (ecology) finds that federal regulations have changed to allow the use of alternative firefighting agents that do not contain perfluoroalkyl and polyfluoroalkyl substances (also known as "PFAS" or "PFAS chemicals") at airports that are subject to 14 C.F.R. Sec. 139.317(k) (Section 139 Certificated airports).

Effect: Two years after the publication date of this state Register notice, a manufacturer of class B firefighting foam may not manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in Washington to Section 139 certificated airports any class B firefighting foam to which PFAS chemicals have been intentionally added.

Eighteen months after the publication date of this state register notice, each Section 139 certificated airport must report to ecology about the airport's procurement of approved alternative firefighting agents and any necessary related infrastructure.

In the event any Section 139 certificated airport is unable to secure alternative firefighting agents, ecology will publish a second notice delaying the restrictions for an additional year. This notice does not affect restrictions related to the discharge or use of class B firefighting foam for nontraining purposes or existing restrictions on the manufacture and distribution of class B foams containing PFAS chemicals to facilities not subject to federal requirements, nor does this notice affect those restrictions in effect starting January 2020 on manufacturers and retailers regarding their sale, manufacture, and distribution of class B firefighting foam.

Background: RCW 70A.400.050(2) defines "class B firefighting foam" as "foams designated for flammable liquid fires." Beginning in 2020, manufacturers of these foams were no longer allowed to manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state class B firefighting foam if PFAS chemicals were intentionally added to the foam.

This restriction on the distribution of class B firefighting foam containing PFAS chemicals in Washington does not apply if the inclusion of PFAS chemicals is required by federal law, including the requirements of 14 C.F.R. 139.317, adopted by the Federal Aviation Administration (FAA). RCW 70A.400.020 (2)(a) allows for the continued distribution of class B firefighting foams containing PFAS chemicals until federal requirements change. Upon the change in federal requirements, ecology must make findings, report on those findings in the Washington State Register, and submit the findings to the appropriate committees of the Washington state house of representatives and senate. Ecology is publishing this document in fulfillment of those requirements.

Federal changes: The National Defense Authorization Act (NDAA) for fiscal year 2020, P.L. 116-92, §322, 133 Stat. 1198 (2019), required the United States Department of Defense (DOD) to release a military specification for fluorine-free firefighting foam (F3) by January 31, 2023. The NDAA also required the DOD to ensure a fluorine-free firefighting alternative that meets that specification be available for use by October 1, 2023. Additionally, the NDAA prohibits the use of aqueous film-forming foam (AFFF) containing PFAS at military shore-based installations after October 1, 2024.

On January 6, 2023, the DOD released the new military specification no. MIL-PRF-32725 for the purchasing and use of F3—that is, class B firefighting foam that does not include intentionally-added PFAS chemicals. The new specification requires that the PFAS content must be less than one part per billion.

On January 12, 2023, the FAA released a CertAlert to all Title 14 C.F.R. Part 139 certificated Airport Operators informing them of the new military specification. Currently, AFFF that contains PFAS is the primary firefighting agent used at airports for fighting aircraft fuel fires. In the alert, the FAA noted it will "accept the airport operator's use of the new F3 extinguishing agent at certificated Part 139 airports," replacing AFFF, once F3 passes the military's performance standards qualification testing and is added to the Navy's Qualified Product List (QPL) and database. The FAA has authority under 14 C.F.R. Sec. 139.317(h) to allow this switch.

On September 12, 2023, the DOD certified Solberg three percent five-gallon SFFF and Solberg three percent 55-gallon SFFF as non-PFAS F3 firefighting agents that meet the military performance standard. The same day, the DOD added these two non-PFAS F3 foams to the Navy's QPL/Qualified Products Database (QPD). The DOD also authorized the use of these non-PFAS F3 firefighting agents at the military's shore-based installations. A list of the approved non-PFAS F3 firefighting agents appears at the end of this notice.

Conclusion: Ecology finds that DOD's certification of non-PFAS F3 agents, the addition of non-PFAS F3 agents to the Navy's QPL/QPD, DOD's authorization of non-PFAS F3 agents at the military's shore-based facilities, and FAA's authorization for the use of certified non-PFAS F3 agents at Section 139 certificated airports, combine to constitute a change in federal regulations.

As such, no later than March 31, 2025, each Section 139 certificated airport must report to ecology about the airport's procurement of DOD approved non-PFAS F3 firefighting agents and any necessary related infrastructure.

Effective September 30, 2025, a manufacturer of class B firefighting foam may not manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use at part [section] 139 certificated airports in Washington any class B firefighting foam to which PFAS chemicals have been intentionally added. This date may be extended by one year if any of Washington's Section 139 certificated airports are unable to secure approved F3 alternative firefighting agents and related infrastructure as determined by ecology. In case of a delay, ecology will publish a new notice in the Washington State Register reflecting an updated compliance deadline.

Questions regarding this notice should be directed to Sean Smith, product replacement coordinator, sean.smith@ecy.wa.gov, 425-324-0328.

Approved F3 firefighting agents as of the date of this posting: The following are F3 firefighting agents that currently appear in the Navy's QPL/QPD:

- Type 3, five Gallon Solberg three percent Mil-Spec SFFF, Perimeter Solutions LP; and
- Type 3, 55 Gallon three percent Mil-Spec SFFF, Perimeter Solutions LP.
