- (i) You must separate from all eligible employment;
- (ii) The department must receive the notice of separation from your employer(s);
- (iii) The department's recordkeeper must receive documentation verifying your terminal illness; and
- (iv) The department's recordkeeper must receive a completed request for a defined contribution distribution from your account (see WAC 415-111-110).

(b) If you have an unforeseeable emergency, the department's recordkeeper will consider your request for a special exception payment and arrange for payment to you whenever possible. To be eligible for consideration:

- (i) You must separate from all eligible employment;
- (ii) The department must receive the notice of separation from your employer(s);
- (iii) The department's recordkeeper must receive documentation verifying and explaining your unforeseeable emergency. The recordkeeper will consider only unforeseeable emergencies. An unforeseeable emergency is defined as a severe financial hardship resulting from:

 - (C) Imminent foreclosure or eviction from your primary residence;
 - (D) The need to pay for funeral expenses of a spouse or immediate family member; or

(iv) The department's recordkeeper must receive a completed request for a defined contribution distribution from your account (see WAC 415-111-110).

(c) Depending on which program you are invested in, self-directed or WSIB Total Allocation Portfolio (TAP), the recordkeeper will distribute your special exception payment as specified in the table below, less any applicable tax withholding.

	Terminal Illness	Unforeseeable Emergency
Self-Directed	Up to 100% of the balance in the account within 10 days after approvals are completed.	Up to 100% of the balance in the account within 10 days after approvals are completed.

	Terminal Illness	Unforeseeable Emergency
WSIB Total Allocation Portfolio (TAP)	Up to 100% of the balance in the account based on the most recent valuation within 10 days after approvals are completed.	Up to 80% of the balance in the account distributed as a lump sum payment through the normal month-end distribution process. If 100% liquidation is requested, the remaining balance in the account will be disbursed after the final valuation has been made.

(3) **Can I still receive my defined contribution distribution if I have returned to work before receiving my funds?** If all the criteria in subsection (1) of this section are met prior to DRS being notified of you being rehired, you may receive distribution from your defined contribution account.

(4) **What are my options for distributing my defined contribution funds?** You have the following options for distributions from your Plan 3 defined contribution account. Options for both the WSIB and the self-directed investment programs are combined where applicable.

(a) **Lump sum cash distribution. In either program,** you may request the entire amount of your funds in a single lump-sum payment.

(b) **Direct rollover. In either program,** you may have some or all of your funds rolled over to an eligible retirement plan or individual retirement account (IRA). If you choose a partial rollover, the remaining funds that were not rolled over will be distributed to you as a lump sum, unless you create a personal payment schedule under (d) of this subsection.

(c) **Scheduled payments. In either program,** subject to the distribution requirements of IRC Section 401(a)(9), you may request that your funds be distributed in equal payments over a specified period of time, or that a specific dollar amount be paid on a monthly basis until the account is exhausted. You may also request equal payments over your lifetime or the lifetimes of you and your beneficiary. Scheduled payments for the WSIB program are made monthly only. Scheduled payments for the self-directed program may be made monthly, quarterly, semiannually or annually.

(d) **Personalized payment plan. In either program,** you may create a personalized payment plan using any part of one or more of the distribution options provided in (a), (b), and (c) of this subsection (see examples below).

(e) **Annuity purchase.** You may purchase an annuity that pays a benefit for your lifetime or the lifetimes of you and your joint annuitant. See WAC 415-111-320 for information about purchasing an annuity.

EXAMPLE (WSIB - Partial rollover with payments until account exhausted) :

Pat has \$10,000 in the WSIB investment program. Pat wants to rollover \$2,000 of the total to an IRA, but does not want to receive

the remainder of the account in a lump sum payment as provided by the partial direct rollover option. Pat selects the personalized payment schedule option and requests to do a partial rollover of \$2,000 and receive the remaining \$8,000 in equal monthly payments of \$125 until the account is exhausted (approximately 64 months).

EXAMPLE (Self - Partial rollover with payments for fixed period):

Chris has \$10,000 in the self-directed investment program. Chris wants to rollover \$3,000 of the total to an IRA, but does not want to receive the remainder of the account in a lump sum payment as provided by the partial direct rollover option. Chris selects the personalized payment schedule option and requests to do a partial rollover of \$3,000 and receive the remaining \$7,000 in quarterly payments of \$250 over the next 7 years (28 quarters).

(5) **Market fluctuations.** Your defined contribution account is subject to actual investment earnings (both gains and losses). These gains or losses impact the value of your account. The defined contri-

bution payment plans are subject to the same market fluctuations. As a result, the funding of your selected payment plan may last longer than anticipated due to market gains, or end earlier than anticipated due to market losses.

(6) **Minimum required distribution.** No later than April 1st of the calendar year following the year in which you turn ~~((age 72))~~ the age designated in Internal Revenue Code (IRC) Section 401(a)(9), you are required to withdraw a minimum amount from your defined contributions annually. ~~((Prior to January 2020, required minimum distributions began at age 70.5.))~~ Subsequent withdrawals must be taken by December 31st of each year. If you are still working at ~~((age 72))~~ the designated age for a required minimum distribution, distribution is required to begin by April 1st the year following separation.

Calculation. Your required distribution is calculated each year based on your account balance as of December 31st of the prior year.

OTS-5256.1

AMENDATORY SECTION (Amending WSR 23-18-025, filed 8/25/23, effective 9/25/23)

WAC 415-501-485 How do I obtain a distribution? Distribution from the plan is governed by Internal Revenue Code Sections 401(a)(9) and 457(d); the treasury regulations interpreting these sections; and these rules to the extent they are not inconsistent with the Internal Revenue Code. The options for distribution are available from the department's recordkeeper.

(1) **Date of distribution.** You may choose the date on which to begin distribution from your deferred compensation account, subject to the requirements in (a) through (c) of this subsection; however, in order for earnings on Roth contributions to be tax-free at time of distribution, the requirements for a qualified distribution must be satisfied.

(a) **Earliest date.** You may not begin distribution prior to your termination of employment, with the following exceptions:

(i) A distribution for an unforeseeable emergency under WAC 415-501-510;

(ii) A voluntary in-service distribution under subsection (4) of this section;

(iii) A distribution from funds that were rolled into the deferred compensation account (may be subject to tax penalties); or

(iv) An in-service distribution in any calendar year in which you will reach age ~~((70.5))~~ 59.5 or more.

(b) **Latest date.** You must begin distribution on or before April 1st of the calendar year following the latter of:

(i) The calendar year in which you ~~((reach age 72))~~ attain the required minimum distribution age as designated in Internal Revenue Code Section 401(a)(9); or

(ii) The calendar year in which you retire.

(c) If you do not choose a distribution date, the department will begin distribution according to the minimum distribution requirements in IRC Section 401(a)(9).

(2) **Method of distribution.** Payment options include a lump sum payment, partial lump sum payment, or installment payments.

Beginning at ((age-72)) the age in which you must receive a required minimum distribution as designated in Internal Revenue Code Section 401(a)(9) or when you terminate employment, whichever comes later, payment must be in an amount to satisfy minimum distribution requirements in IRC Section 401(a)(9).

(3) **Voluntary in-service distribution at any age.** You may choose to withdraw the total amount payable to you under the plan while you are employed if the following three requirements are met:

(a) Your entire account value does not exceed \$5,000;

(b) You have not previously received an in-service distribution;
and

(c) You have made no deferrals during the two-year period ending on the date of the in-service distribution.

(4) **Unforeseeable emergencies.** See WAC 415-501-510.

(5) **Rehire.** If you submit an immediate lump sum or partial distribution request and the request is received in good order prior to being rehired, your distribution will be processed even if you become rehired with a DCP employer. If you are receiving installment payments or have requested to receive installment payments and then return to employment with a DCP employer, your payments from your DCP account will cease. You may request a distribution when you are again eligible consistent with these rules.

PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[order 24-04—Filed June 13, 2024, 9:45 a.m., effective July 14, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the commercial salmon fisheries in Willapa Bay and Grays Harbor. These rules are part of a comprehensive suite of rule-making packages to implement the new 2024-2025 salmon seasons for Washington state, developed through the broader North of Falcon process pursuant to the fish and wildlife commission's (FWC) North of Falcon Policy C-3608 for 2024-2028.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and the Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as southern resident killer whales.

Three stakeholder public meetings specific to the Willapa Bay and Grays Harbor fisheries were held in February, March, and April. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2024 coastal commercial salmon fishery, filed on April 30, 2024 (WSR 24-10-099), which included the public hearing on the proposed rules held on June 4, 2024. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only commercial fisheries, the seasons specified in these rules are an integral part of implementing commercial and recreational fisheries in a coordinated manner pursuant to the Willapa Bay Salmon Management Policy C-3622 and Grays Harbor Basin Salmon Management Policy C-3621. As such, the commercial fisheries for 2024-2025 are structured in a manner intended to consider and provide both commercial and recreational fishing opportunities in Willapa Bay and Grays Harbor, while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and FWC policies are met.

Though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery rule-making package for the 2024-2025 salmon fishery season, and thus substantively replace prior years' fisheries in Willapa Bay and Grays Harbor. Specifically, these rules replace and supersede the language in WAC 220-354-250 for the Willapa Bay salmon fall fishery and WAC 220-354-290 for the Grays Harbor salmon fall fishery in their entirety.

Included in FWC's North of Falcon Policy C-3608 for 2024-2028 is a delegation of authority to the director of WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

Citation of Rules Affected by this Order: Amending WAC 220-354-250 Willapa Bay salmon fall fishery and 220-354-290 Grays Harbor salmon fall fishery.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.055, and 77.12.047.

WSR 24-13-053
PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-02—Filed June 13, 2024, 9:49 a.m., effective July 14, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the commercial salmon fisheries in Puget Sound. These rules are part of a comprehensive suite of rule-making packages to implement the new 2024-2025 salmon seasons for Washington state developed through the broader North of Falcon process pursuant to the fish and wildlife commission's (FWC) North of Falcon Policy C-3608 for 2024-2028 and the Administrative Procedure Act (APA), chapter 34.05 RCW.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and the Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as southern resident killer whales.

Stakeholder meetings specific to the Puget Sound fisheries were held in March and April 2024. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2024 Puget Sound commercial salmon fishery filed on April 30, 2024 (WSR 24-10-101), including during the public hearing on the proposed rules held on June 4, 2024. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only commercial fisheries, the seasons specified in these rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities in Puget Sound while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and FWC policies are met.

Though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery rule-making package for the 2024-2025 fishery season, and thus substantively replace prior years' fisheries in Puget Sound. Specifically, these rules replace and supersede the language in these WAC in their entirety: WAC 220-354-080 Puget Sound salmon—Closed areas, 220-354-120 Puget Sound salmon—Purse seine—Open periods, 220-354-160 Puget Sound salmon—Gillnet—Open periods, 220-354-180 Puget Sound salmon—Reef net—Open periods, 220-354-210 Puget Sound salmon—Beach seine—Open periods, and 220-354-200 Puget Sound salmon—Beach seine—Emerging commercial fishery—Eligibility—Lawful gear.

Included in FWC's North of Falcon Policy C-3608 for 2024-2028 is a delegation of authority to the director of the WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

Citation of Rules Affected by this Order: Amending WAC 220-354-080 Puget Sound salmon—Closed areas, 220-354-120 Puget Sound salmon—Purse seine—Open periods, 220-354-160 Puget Sound salmon—

AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

WAC 220-354-200 Puget Sound salmon—Beach seine—Emerging commercial fishery—Eligibility—Lawful gear. (1) The Puget Sound beach seine salmon fishery is designated as an emerging commercial fishery for which a vessel is required. An emerging commercial fishery license and an experimental fishery permit are required to participate in this fishery.

(2) The department will issue (~~four~~) six salmon beach seine experimental fishery permits.

(3) The following is the selection process the department will use to offer a salmon beach seine experimental permit.

(a) Persons who held a salmon beach seine experimental fishery permit in the previous management year will be eligible for a permit in the current management year.

(b) The department will work with the advisory board, per RCW 77.70.160(1), to establish criteria by which applicants will qualify to enter the pool. The pool established by this drawing will be maintained to replace any permit(s) which are voided.

(4) Permit holders are required to participate in the salmon beach seine experimental fishery.

(a) For purposes of this section, "participation" means the holder of the salmon beach seine experimental permit is aboard the designated vessel in the open fishery.

(b) If the salmon beach seine experimental permit holder fails to participate, the salmon beach seine experimental permit issued to that fisher will be voided, and a new salmon beach seine experimental permit will be issued through a random drawing from the applicant pool.

(c) The department may require permit holders to show proof of participation by maintaining a department approved log book or registering with state officials each day the salmon beach seine experimental permit holder participates.

(d) Persons who participate in the fishery but violate conditions of a salmon beach seine experimental permit will have their permit voided, and a new salmon beach seine experimental permit will be reissued through a random drawing from the pool of the voided permit holder.

(5) In Quilcene Bay, chum salmon may not be retained by a salmon beach seine experimental permit holder. Chum salmon in Quilcene Bay must be released alive.

(6) Any person who fails to purchase the license, fails to participate, or violates the conditions of a salmon beach seine experimental permit will have his or her name permanently withdrawn from the pools.

(7) It is unlawful to take salmon with beach seine gear that does not meet the requirements of this subsection.

(a) Beach seine salmon nets in Puget Sound shall not exceed 990 feet in length or 200 meshes in depth, or contain meshes of a size less than 3 inches or greater than 4 inches.

WSR 24-13-054
PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-03—Filed June 14, 2024, 9:54 a.m., effective July 15, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the recreational salmon fisheries statewide. These rules are part of a comprehensive suite of rule-making packages to implement the new 2024-2025 salmon seasons for Washington state developed through the broader North of Falcon process pursuant to the fish and wildlife commission's (FWC) North of Falcon Policy C-3608 for 2024-2028 and the Administrative Procedure Act (APA), chapter 34.05 RCW.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as southern resident killer whales.

Stakeholder meetings specific to the Puget Sound fisheries were held in March and early April 2024. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2024 recreational salmon fishery filed on April 30, 2024 (WSR 24-10-098), including during the public hearing on the proposed rules held on June 4, 2024. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only recreational fisheries, the seasons specified in these proposed rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and FWC policies are met.

Though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery package for the 2024-2025 fishery season, and thus substantively replace prior years' recreational salmon fisheries. Specifically, these rules replace and supersede the language in these WAC in their entirety: WAC 220-312-020 Freshwater exceptions to statewide rules—Coast, 220-312-030 Freshwater exceptions to statewide rules—Southwest, 220-312-040 Freshwater exceptions to statewide rules—Puget Sound, 220-312-050 Freshwater exceptions to statewide rules—Eastside, 220-312-060 Freshwater exceptions to statewide rules—Columbia River, 220-313-060 Puget Sound salmon—Saltwater seasons and daily limits, 220-311-020 Puget Sound public fishing piers—Restricted fishing areas, and 220-300-220 Geographical definitions—River mouth definitions.

Included in FWC's North of Falcon Policy C-3608 for 2024-2028 is a delegation of authority to the director of WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

Citation of Rules Affected by this Order: Amending WAC 220-312-020 Freshwater exceptions to statewide rules—Coast, 220-312-030 Freshwater exceptions to statewide rules—Southwest, 220-312-040 Freshwater exceptions to statewide rules—Puget Sound, 220-312-050 Freshwater exceptions to statewide rules—Eastside, 220-312-060 Freshwater exceptions to statewide rules—Columbia River, 220-313-060 Puget Sound salmon—Saltwater seasons and daily limits, 220-311-020 Puget Sound public fishing piers—Restricted fishing areas, and 220-300-220 Geographical definitions—River mouth definitions.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.055, and 77.12.047.

Adopted under notice filed as WSR 24-10-098 on April 30, 2024.

AMENDATORY SECTION (Amending WSR 23-13-072, filed 6/14/23, effective 7/15/23)

WAC 220-312-060 Freshwater exceptions to statewide rules—Columbia. The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

(1) **General Columbia River rules:**

(a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.

(i) Anglers must comply with the fishing regulations of the state in which they are fishing.

(ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.

(iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.

(b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.

(c) Salmon and trout handling rules provided in WAC 220-310-100 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-310-100 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).

(d) From Buoy 10 to the (~~Washington/Oregon border~~) Highway 395 Bridge in Pasco:

(i) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.

(ii) Barbless hooks are required for salmon and steelhead.

(e) Open year-round unless otherwise provided.

(f) Year-round night closure for salmon and steelhead fishing from Buoy 10 to Priest Rapids Dam.

(2) **Rules by river section:**

(a) Fishing from the north jetty is permissible when Marine Area 1 or Buoy 10 areas are open for salmon, and the limit and minimum size restrictions follow the most liberal regulations if both areas are open. Only single point barbless hooks may be used for salmon and steelhead.

(b) **From a true north-south line through Buoy 10 to the Megler Astoria Bridge:**

AMENDATORY SECTION (Amending WSR 22-19-001, filed 9/7/22, effective 10/8/22)

WAC 139-02-070 Costs for providing copies of public records.

(1) The following copy fees and payment procedures apply to requests to the agency under chapter 42.56 RCW.

(2) **Actual costs.** Pursuant to RCW 42.56.120 (2)(b), the agency is not calculating all actual costs for copying records because to do so would be unduly burdensome for the following reasons:

(a) The agency does not have the resources to conduct a study to determine all its actual copying costs;

(b) To conduct such a study would interfere with other essential agency functions; and

(c) Through the 2017 legislative process, the public and requestors have commented on and been informed of authorized fees and costs, including for electronic records, provided in RCW 42.56.120 (2)(b) and (c), (3), and (4).

(3) There is no fee charged for inspecting public records.

(4) **Costs for paper copies.** The agency will charge for copies of paper records pursuant to the fees in RCW 42.56.120 (2)(b) and (c) for each request.

(a) Before beginning to make copies for each request, the public records officer or designee may estimate costs of copying the records and may require a deposit of up to 10 percent of all the records selected by the requestor.

(b) The public records officer or designee may require the payment of the remainder of the copying costs before providing all the records, or the payment of the costs of copying an installment before providing that installment.

(c) The commission shall not charge sales tax when it makes copies of public records.

(5) **Costs for electronic records.** Electronic copies of records for each request shall be charged as follows pursuant to the fees in RCW 42.56.120 (2)(b) and (c), which includes:

(a) Charge for scanned records or for use of agency equipment for scanning.

(b) Charge for each four electronic files or attachments uploaded to email, or cloud-based data storage service, or other means of electronic delivery.

(c) Charge per gigabyte for records transmitted in an electronic format or for use of agency equipment to send records electronically.

(d) Actual costs of any digital storage media or devices provided by the agency.

(e) Actual costs of a "customized service charge" when the request would require the use of information technology expertise to

prepare data compilations or when such customized access services are not used by the agency for other business purposes.

(i) The agency will notify the requestor and take other steps if it will be doing a customized service charge.

(ii) The public records officer or designee may require a deposit of up to 10 percent of the estimated costs of copying all the records selected by the requestor. The public records officer or designee may also require the payment of the remainder of the copying costs before providing all the records, or the payment of the costs of copying an installment before providing that installment.

(iii) Copy charges may be combined to the extent more than one type of charge applies to copies responsive to a particular request.

(iv) Public records request fees do not supersede other statutory provisions for copying fees.

(6) **Costs of mailing.** The commission may also charge actual costs of mailing, including the cost of the shipping container.

(7) **Payment.** Payment shall be made (~~(payable to the Washington state criminal justice training commission by check or money order only)~~) through the fiscal department of the commission. The process to accept payments will be fully explained to the requestor.

(8) **Payment date.** The (~~(payment date for fees, deposits, or other costs will be scheduled at a minimum of 30 days, but no more than 45 days, after the required payment is communicated with the requestor)~~) commission shall accept payment for 30 days after the date the payment invoice is mailed. If a requestor fails to pay by the payment date, the request will be closed per WAC 139-02-090(~~(+8)~~) (11).

(9) **Summary of charges.** (~~(Upon)~~) For each request, the commission will provide a summary of the applicable charges before copies are made and the requestor may revise the request to reduce the number of copies, thereby reducing the applicable charges.

(10) **Waiver of charges.** Waivers may be made at the discretion of the public records officer, except the public records officer or designee will not charge a requestor copying fees (~~(when:~~

~~(a) All of the records responsive to an entire request are paper copies only and are 100 or fewer pages; or~~

~~(b) All of the records responsive to an entire request are electronic and no more than)) over a one-year period from the date of their initial request until their requests have exceeded:~~

(a) One hundred printed pages; or

(b) The equivalent of 250 printed pages of electronic records.

AMENDATORY SECTION (Amending WSR 22-19-001, filed 9/7/22, effective 10/8/22)

WAC 139-02-090 Processing requests for public records. (1) Providing fullest assistance. The Washington state criminal justice training commission is charged by statute with adopting rules which provide for how it shall "provide full access to public records," "protect records from damage or disorganization," "prevent excessive interference with other essential functions of the agency," provide "fullest assistance" to requestors, and provide the "most timely possible action" on public records requests. The public records officer or designee will evaluate and process requests according to the nature of the request, clarity, volume, and availability of requested records.

(2) **Acknowledging receipt of request.** Within five business days of receipt of the request, the public records officer or designee will do one or more of the following:

(a) Make the records available for inspection;

(b) Provide the requested records (or provide ~~((a bill))~~ copying fees for the records if applicable) to the requestor;

(c) Provide a reasonable estimate of when records will be available (the public records officer may revise the estimate of when records will be available when necessary);

(d) Deny the request and provide a statutory explanation as to the reason for the denial; or

(e) Acknowledge receipt of the request and ask the requestor to clarify all or any part of the request that is unclear and provide to the greatest extent possible a reasonable estimate of the time the commission will require to respond to the unclear request or unclear part of a request if it is not clarified.

(i) Such clarification may be requested and provided by telephone and memorialized in writing, or by email or letter;

(ii) Clarification may include identifying a record with specificity sufficient for the commission to locate or produce the record;

(iii) If the requestor fails to respond to a request for clarification ~~((and)), the ((entire request is unclear, the commission need not respond to it. The))~~ commission will respond to those portions of a request that are clear. If the requestor does not respond to the request for clarification on the unclear portion of the request after records on the clear portion have been provided, the commission will consider the request abandoned per subsection (11) of this section;

(iv) If the requestor fails to respond to a request for clarification for 30 days on an entirely unclear request, the commission will consider the request abandoned per subsection (11) of this section.

(3) **Additional time to respond.** Additional time for the commission to respond to a request may be based upon the need to clarify the request, locate and assemble the records requested, notify affected others or agencies affected by the request, or determine whether any of the information requested is exempt and that a denial should be made as to all or part of the request.

(4) **Consequences of failure to respond.** If the commission does not respond in writing within five business days of receipt of the request for disclosure, the requestor should consider contacting the public records officer to determine the reason for the failure to respond.

(5) **Protecting rights of others.** In the event the requested records contain information that may affect rights of others and may be exempt from disclosure, the public records officer or designee may, prior to providing the records, give notice to such others whose rights may be affected by the disclosure. This notice is given so affected persons may seek an order from a court to prevent or limit the disclosure. The notice to the affected persons may include a copy of the request.

(6) **Records exempt from disclosure.**

(a) The commission reserves the right to determine a public record is exempt in whole or in part consistent with provisions of the Public Records Act or other applicable provision of law.

(b) If the commission believes a record is exempt from disclosure and should be withheld, the public records officer or designee will state the specific exemption and provide a brief explanation of why the record or a portion of the record is being withheld. If only a

portion of a record is exempt from disclosure, but the remainder is not exempt, the public records officer or designee will redact the exempt portions, provide the nonexempt portions, and indicate to the requestor why portions of the record are being redacted.

(c) Certain exemptions other than the Public Records Act itself restrict the disclosure of documents held by the commission. Some examples of such other applicable statutory exemptions include, but are not limited to:

(i) RCW 5.60.060: Attorney-client privileged records.

(ii) Chapter 19.108 RCW: Trade secrets.

(iii) RCW 43.101.400(1) background investigation records.

(7) The commission reserves the right to ~~((delete))~~ redact identifying details when producing any public record when there is reason to believe disclosure of such details would be an invasion of personal privacy protected by RCW 42.56.050.

(8) The commission is prohibited by statute from disclosing lists of individuals or records that may be manipulated to created lists of individuals for commercial purposes pursuant to RCW 42.56.070.

(9) Inspection of public records.

(a) A requestor must notify the commission in advance of their intent to inspect public records. Using the tracking ID the commission assigns to each public records request a requestor must identify with specificity and in advance the records the requestor wishes to inspect. The commission will assist the requestor in scheduling an appointment for inspection and may propose convenient alternatives to an in-person visit. Public records will be available for inspection during customary business hours and when staff are available to assist the requestor.

(b) When the request to inspect is for a large number of records, the public records officer may schedule inspection in installments.

(c) The commission will work with the requestor to schedule an inspection and notify the requestor in writing of the scheduled appointment. ~~((The requestor must inspect the requested records within 30 days of the))~~ If the requestor does not attend the scheduled inspection date, the commission will reach out to reschedule the inspection within 30 days of the first scheduled appointment. If the requestor or a representative of the requestor fails to inspect the records within the 30-day period or fails to make other arrangements, the commission may ~~((close))~~ consider the request abandoned and refile the assembled records. If the requestor makes a request for the same records it will be processed as a new request.

(d) Agency facilities shall be made available to any person for the copying of public records except when and to the extent that this would unreasonably disrupt the operations of the agency.

(e) Inspections are conducted in accordance with the requirement that agencies protect the requested records from damage or disorganization. No member of the public shall remove a document from the inspection area or disassemble or alter any public record.

(f) After inspection is complete, the requestor may wish to identify which documents the requestor wishes the agency to copy.

(i) Where the commission charges for copies, the requestor must pay for the copies prior to the copies being provided to the requestor.

(ii) Electronic records will be provided as a link to the records on the commission public records website if the records are located on the public records website, or in a format used by the commission and which is generally commercially available.

(g) When the inspection of the requested records is complete and any requested copies are provided the public records officer will close the records request.

(10) Providing records in installments.

(a) When the request is for a large number of records, the public records officer or designee may provide access for inspection and copying in installments, if he or she reasonably determines that it would be more practical.

(b) If, within 30 days, the requestor fails to inspect one or more of the installments, the public records officer or designee may stop searching for the remaining records and close the request.

(c) When the request is for copies of public records, the public records officer may require payment for each installment either prior to providing the installment or prior to providing subsequent installments. In addition, the requestor may be required to provide a deposit up to 10 percent of the estimated cost of copying all records selected by the requestor. If the requestor fails to pay the required cost by the scheduled payment date, the public records officer may consider the request abandoned and close the request.

(11) Closing a withdrawn or abandoned request.

(a) The public records officer will close a request when the requestor:

(i) Withdraws the request;

(ii) Fails to fulfill his or her obligations to inspect the records 30 days after the scheduled inspection date;

(iii) Fails to clarify an entirely unclear request 30 days after clarification was requested;

(iv) Fails to claim an installment 30 days after records were provided;

(v) Fails to pay required fees for an installment by the scheduled payment date;

(vi) Fails to pay the deposit or final payment for the requested copies by the scheduled payment date.

(b) The public records officer will close the request and indicate to the requestor that the Washington state criminal justice training commission has closed the request and refile the assembled records.

(12) Later discovered documents. If, after the Washington state criminal justice training commission has informed the requestor that it has provided all available records, the Washington state criminal justice training commission becomes aware of additional responsive documents existing at the time of the request, it will promptly inform the requestor of the additional documents and provide them on an expedited basis.

(13) The commission is not required to create a record that does not otherwise exist.

AMENDATORY SECTION (Amending WSR 20-24-109, filed 12/1/20, effective 1/1/21)

WAC 415-104-370 Overtime is included in LEOFF Plan 2 basic salary. Overtime, additional pay earned for working time in excess of regularly scheduled shift(s), is a salary or wage for services rendered. Overtime payments are considered part of basic salary for LEOFF Plan 2. Overtime includes, but is not limited to:

(1) **Additional pay for working on a holiday.** If a member receives an extra payment for working on a ((scheduled)) recognized holiday, the payment is overtime. The employer may make the additional payment when the holiday occurs or in a lump sum at some other time. In either case, the payment is considered to be basic salary for LEOFF Plan 2((÷)).

(a) What are recognized holidays for purposes of holiday leave banks? Holidays recognized by either the state of Washington, the federal government, or formalized by an organization; and tied to a specific date. An employer must identify the recognized holidays associated with the hours that are added to the holiday leave bank.

(b) Are personal or floating holidays considered recognized holidays for purposes of holiday leave bank cash outs? No. Personal or

floating holidays are not tied to a specific date and are not considered recognized holidays for the purposes of holiday leave bank cash outs.

Examples: A firefighter works on Christmas day. As compensation for working on a holiday, the firefighter is given the option of taking some other day off with pay or receiving an extra day's pay. If the firefighter opts for the extra day of pay, this payment is overtime and is LEOFF Plan 2 basic salary. If the firefighter opts to take a day off instead, this is paid leave that qualifies as LEOFF Plan 2 basic salary.

Some employers create holiday leave banks for these employees, and it is considered a regular workday if an employee works on the holiday. Later, the employee may use hours from the holiday leave bank to take a day off and/or cash out all or some of the hours in the future. These cashed out days are reportable if the accrued leave was associated with (~~state or federal~~) recognized holidays. Report the cash out in the months the holidays occurred.

If the employer does not track the holidays worked, or does not separate out personal or floating holidays from recognized holidays, the employer should use the FIFO (first in, first out) method to report compensation for the holiday bank cash out. Recognized holidays would be accounted for before personal or floating holidays.

(2) **Callback pay**, which is a special rate of pay some employers provide members for being called back to work after the end of the member's regular shift;

(3) **Court pay**, which is an additional payment for appearing in court or performing other duties outside of a member's regularly scheduled shift.

(4) **Compensatory time (comp time)**, is paid time off given to an employee instead of overtime pay in compensation for extra hours of work. However, if the employee later receives this leave as a paid cash out, that payment is for overtime previously worked and therefore is basic salary. Basic salary is earned when the service is rendered, rather than when the payment is made. If the comp time is used as leave, it is reported as leave when used.

Example: An employee works eight additional hours in March and receives (~~twelve~~) 12 hours of comp time. The employer has a policy that all unused comp time must be paid out at the end of the fiscal year in June. When this cash out is paid to the employee, the compensation and eight hours were earned in March and should be reported as such. If the comp time is used as leave, it is reported as leave whenever it is used.

PERMANENT RULES

DEPARTMENT OF ECOLOGY

[Order 22-14—Filed June 14, 2024, 8:16 a.m., effective July 15, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The department of ecology (ecology) is adopting new chapter 173-187 WAC, Financial responsibility. The adopted rule implements updates to chapter 88.40 RCW, Transport of petroleum products—Financial responsibility, as required under E2SHB 1691. The adopted rule ensures that vessel and facility owners and operators have adequate financial resources to pay cleanup and damage costs arising from an oil spill. Additionally, the existing chapter 317-50 WAC, Financial responsibility for small tank barges, and oil spill response barges, has been incorporated into the new rule and has been repealed.

The new rule:

- Defines the entities subject to financial responsibility requirements.
- Establishes required levels of financial responsibility for oil handling facilities and pipelines.
- Specifies the procedures and timelines for obtaining or renewing a certificate of financial responsibility.
- Establishes requirements for acceptable evidence of financial responsibility, including self-insurance.
- Outlines the process for ensuring timely updates to changes in financial status.
- Defines the processes governing the suspension, revocation, and reissuance of certificates of financial responsibility considering potential liabilities incurred by a covered entity after an oil spill or other incident.
- Incorporates and updates financial responsibility requirements currently included in chapter 317-50 WAC, Financial responsibility for small tank barges and oil spill response barges.
- Repeals chapter 317-50 WAC.

Citation of Rules Affected by this Order: New chapter 173-187 WAC; and repealing chapter 317-50 WAC.

Statutory Authority for Adoption: Chapter 88.40 RCW, Transport of petroleum products—Financial responsibility.

Adopted under notice filed as WSR 24-03-115 on January 19, 2024.

Changes Other than Editing from Proposed to Adopted Version: The following content describes the changes between the rule proposal language and the adopted language and provides ecology's reasons for making them.

Minor grammatical edits were made throughout the chapter to improve clarity.

WAC 173-187-040 Definitions.

- The word "discharge" was replaced with "spill" for clarity and to use consistent terminology throughout the chapter.

WAC 173-187-100 Financial responsibility amounts for vessels.

- The word "rule" was replaced with "chapter" for clarity and to use consistent terminology throughout the chapter.

WAC 173-187-110 Financial responsibility amounts for facilities.

- The word "rule" was replaced with "chapter" for clarity and to use consistent terminology throughout the chapter.

WAC 173-187-120 Request for an alternative financial responsibility calculation.

- The word "calendar" has been added to clarify the number of days an alternate financial responsibility calculation must be submitted before submitting a request for a certificate of financial responsibility (COFR) and the number of days in which ecology will approve or disapprove the alternate financial responsibility calculation request.
- A new subsection was added to clarify that a new COFR will be required if the alternate financial responsibility calculation is revoked.

WAC 173-187-200 Demonstrating financial responsibility.

- The phrase "An owner or operator of more than one vessel or facility subject to financial responsibility..." was replaced by "An owner or operator of more than one vessel or facility that is required to obtain a Washington COFR" to add clarity based on a comment that was received. This is appropriate as all covered vessels are subject to financial responsibility, but those that are members of protection and indemnity clubs are not required to obtain a Washington COFR and are not affected by this section of rule.

WAC 173-187-210 Procedures for vessels to be verified as a member of an international protection and indemnity (P&I) club.

- The word "international" was deleted as it is redundant. The definition of P&I club and the title of this subsection include the word "international," so it does not need to be repeated throughout the subsection.
- The words "or operator" were added for clarity and to use consistent terminology throughout the chapter.

WAC 173-187-220 Procedures for applying for a Washington certification of financial responsibility (COFR).

- The adopted rule was updated to provide information about how to access ecology forms but no longer requires use of these forms as they have not been subject to the public review and comment process. Forms that may be used to support proof of financial responsibility have been created, published, and are available on ecology's financial responsibility web page, for use at the discretion of the applicant. The rule provides information about these forms but does not require the use of any specific form. Additional language was added to denote:
 - o Published form ECY 070-751 may be used to document an owner's or operator's attestation that their COFR application is accurate and complete.
 - o Published form ECY 070-758 may be used to document an owner's or operator's delegation of authority to an authorized representative.
 - o The requirement to complete and attach the certificate of insurance agreement that is available on the financial responsibility website has been removed. Published form ECY

- 070-752 may be used to document a certificate of insurance agreement.
- o Published form ECY 070-754 may be used to document a surety bond agreement.
 - o The requirement to complete and attach the standby trust agreement that is available on the COFR website when proving financial responsibility with a surety bond, guarantee, or letter of credit has been removed. Published form ECY 070-753 may be used to document the establishment of a standby trust fund. The requirement to fund the standby trust fund in accordance with ecology's instructions has been removed. All requirements for funding the standby trust fund must be included in the surety bond, guarantee, letter of credit, or certificate of deposit agreement.
 - o Published form ECY 070-757 may be used to document a guarantee agreement.
 - o Published form ECY 070-756 may be used to document a letter of credit agreement. When using a certificate of deposit to prove financial responsibility, the applicant will be required to establish a standby trust fund to receive all funds if the certificate of deposit is liquidated.
 - o The requirement to complete and attach the self-insurance letter that is available on the COFR website when proving financial responsibility with self-insurance has been removed. Published form ECY 070-755 may be used to document the self-insurance calculations and agreement.

WAC 173-187-230 Phase-in schedule for vessels and facilities.

- Deleted the redundant word "Class."

WAC 173-187-250 Issuance of Washington COFRs.

- Deleted the option to submit a COFR application through United States mail. All COFR applications must be submitted via ecology's web based application, which will ensure all required information is provided, improve the quality of applications, and improve processing timeliness.

WAC 173-187-300 Significant changes to Washington COFRs require notification.

- A minor revision to improve plain talk readability was made.
- The word "facility" was added to clarify that if a facility name is changed, a new COFR will be required.
- The sentence "The holder of a Washington COFR for more than one vessel or facility must notify ecology within 10 calendar days if it experiences a spill or spill from a vessel or facility in another jurisdiction ..." was replaced with "The holder of a Washington COFR must also notify ecology within 10 calendar days if it experiences a spill in Washington or in another jurisdiction ..." to improve clarity and to use plain talk to describe this notification requirement.
- The unnecessary word "covered" was removed.
- The word "calendar" has been added to clarify to the number of days after which a COFR may be suspended or revoked due to ecology's determination that the COFR holder is likely to no longer have the financial resources to comply with the financial responsibility requirements.

- The word "international" was deleted as it is redundant. The definition of P&I club and the title of this subsection include the word "international," so it does not need to be repeated throughout the subsection.

(c) For a Class 2 facility, the entire contents of the container(s) in which the oil is stored or transported; or

(d) For a Class 3 facility, the entire volume of the largest above ground storage tank on the facility site complicated by adverse weather conditions, unless ecology determines that a larger or smaller volume is more appropriate given a particular facility's site characteristics and storage, production, and transfer capacity; or

(e) For pipelines, the size of the worst case spill is dependent on the location of pump stations, key block valves, geographic considerations, response zones, or volume of the largest breakout tank. For each it is the largest volume determined from the following three different methods, complicated by adverse weather conditions:

(i) The pipeline's maximum time to detect the release, plus the maximum shutdown response time multiplied by the maximum flow rate per hour, plus the largest line drainage volume after shutdown.

For planning purposes, the total time to detect the release and shutdown the pipeline should be based on historic discharge data or, in the absence of such historic data, the operator's best estimate. At

a minimum, the total time to detect and shut down the pipeline must be equal to or greater than 30 minutes;

(ii) The maximum historic discharge from the pipeline; and

(iii) The largest single breakout tank or battery of breakout tanks within a single secondary containment system.

Each operator shall determine the worst case spill and provide the methodology, including calculations, used to arrive at the volume.

(31) "Verification of financial responsibility" means a verification by ecology that a covered vessel is a current member of an international protection and indemnity (P&I) club.

(2) A tank barge used solely as an oil spill response barge is not required to possess evidence of financial responsibility if the owner or operator submits to ecology a letter signed by an authorized representative that identifies the barge's name, official number, country of registry, and gross tonnage and certifies that:

(a) The barge is used exclusively for oil spill response activities and will not be used to carry oil in bulk in commerce; and

(b) The owner or operator is an approved primary response contractor under chapter 173-182 WAC.

If either certification becomes inaccurate, the owner or operator must notify ecology and must immediately comply with this chapter.

NEW SECTION

WAC 173-187-110 Financial responsibility amounts for facilities.

The owner or operator of any facility that is covered by this chapter must demonstrate financial responsibility as defined in the table below:

Facility Type	Financial Responsibility Amounts	Maximum Amount Required

NEW SECTION

WAC 173-187-120 Request for an alternative financial responsibility calculation. (1) A facility may submit to ecology a request for an alternative calculation to determine financial responsibility required under this chapter.

(a) The request must demonstrate financial responsibility capable of covering the response costs and damages that could occur during a reasonable worst case spill of oil from that facility into the navigable waters of the state.

(b) The request must include a detailed report justifying the alternative calculation. The report should include, but is not limited to:

(i) The worst case amount of oil that could be spilled, as calculated in the applicant's oil spill contingency plan approved under chapter 90.56 RCW, or as defined in this chapter;

- (ii) The cost of cleaning up the spilled oil;
 - (iii) The type and frequency of operations at the facility;
 - (iv) The damages that could result from the spill;
 - (v) The facility's proximity to navigable waters of the state and how a spill could be prevented from reaching such waters;
 - (vi) The spill prevention and preparedness measures for the facility including spill response procedures, response equipment, personnel, training, maintenance systems, contracted response resources, monitoring and shut down systems, pipeline drain times, tank conditions, secondary containment systems, and third-party inspection information.
- (2) Requests for an alternative must be submitted no less than 65 calendar days prior to submitting an application for a Washington COFR. Ecology will approve or disapprove the request for an alternative financial responsibility calculation no later than 65 calendar days from the submittal date.
- (3) Requests for an alternative shall be subject to a 30 calendar day public review and comment period which includes, but is not limited to, interested local and tribal governments and other stakeholders.
- (4) Ecology may revoke an approved alternate financial responsibility calculation at any time in response to new information or after operational or engineering changes that alter the conditions of the approval.
- (5) If an alternate financial responsibility calculation is revoked, a new Washington COFR will be required.

PART III: FINANCIAL RESPONSIBILITY - APPLYING FOR A WASHINGTON CERTIFICATE OF FINANCIAL RESPONSIBILITY (COFR)

NEW SECTION

- WAC 173-187-200 Demonstrating financial responsibility.** (1) The owner or operator of a vessel required to document financial responsibility under this chapter must:
- (a) Obtain a Washington COFR; or
 - (b) Be verified by ecology to be a current member of a P&I club.
- (2) The owner or operator of a facility required to demonstrate financial responsibility under this chapter must obtain a Washington COFR.
- (3) An owner or operator of more than one vessel or facility that is required to obtain a Washington COFR under this chapter may obtain a single Washington COFR that applies to all of the owner's or operator's vessels and facilities. Ecology will base the terms of such Washington COFR upon the vessel or facility that represents the greatest financial risk in the event of a spill. Alternatively, the owner or operator may obtain separate Washington COFRs that each apply to a subset of the owner's or operator's vessels or facilities, provided

that each vessel or facility of the owner or operator is covered by at least one valid Washington COFR.

NEW SECTION

WAC 173-187-210 Procedures for vessels to be verified as a member of an international protection and indemnity (P&I) club. (1)

Ecology will verify, through its available means, that the vessel is currently a member of a P&I club.

(2) If ecology is unable to verify the vessel is a member of a P&I club, the vessel owner or operator must, upon request by ecology, provide the vessel's P&I club certificate of entry demonstrating the required levels of financial responsibility to ecology within 10 calendar days of receiving the request.

(3) If a vessel owner or operator does not provide ecology the vessel's P&I club certificate of entry including financial coverage information within 10 calendar days of the request, they are subject to enforcement and penalties as described in WAC 173-187-050.

(4) If a vessel is not a member of a P&I club, the vessel owner or operator must obtain a Washington COFR with required financial amounts issued by ecology following the process in WAC 173-187-220 and the timelines in WAC 173-187-230 and 173-187-240.

PART IV: FINANCIAL RESPONSIBILITY - NOTIFICATION REQUIREMENTSNEW SECTION

WAC 173-187-300 Significant changes to Washington COFRs require notification. (1) If the owner or operator of a vessel or facility becomes aware of a significant change after ecology has issued a Washington COFR, they must notify ecology of the change within seven calendar days after becoming aware of the significant change. Ecology may suspend or terminate a Washington COFR if the owner or operator can no longer demonstrate financial responsibility based on the significant change. Significant changes include, but are not limited to:

- (a) A change in ownership or operational control;
- (b) A method of demonstrating financial responsibility will be terminated or any coverage thereunder will cease;
- (c) Any financial responsibility coverage amount that will be changed or adjusted.

(2) If there is a change in applicant name, vessel or facility name change, if the Washington COFR expires, or there is any change in the financial responsibility coverage amount, a new Washington COFR will be necessary.

(3) The holder of a Washington COFR under this chapter must notify ecology of an oil spill or discharge in state waters consistent with chapters 90.48 and 90.56 RCW.

(a) The holder of a Washington COFR must also notify ecology within 10 calendar days if it experiences a spill in Washington or in another jurisdiction for which it may be liable and which may incur damages that exceed 15 percent of the financial resources reflected by the Washington COFR.

(b) Upon notification of an oil spill or discharge or other potential liability by the owner or operator of a vessel or facility that holds a Washington COFR under (a) of this subsection, ecology may reevaluate the validity of the Washington COFR under this chapter. Ecology must reevaluate the validity of a Washington COFR under this chapter upon notification of a spill for which the Washington COFR holder may be liable and which may incur damages that exceed 25 percent of the financial resources reflected by the Washington COFR. Ecology may suspend or revoke a Washington COFR if ecology determines that, because of a spill, discharge, or other action or potential liability, the holder of the Washington COFR is likely to no longer have the financial resources to both pay damages for the oil spill or discharge or other action or potential liability and have resources remaining available in an amount sufficient to meet the requirements of this chapter, effective 10 calendar days after its determination.

(c) Ecology may request the owner or operator of a vessel that has been verified to be a member of a P&I club to provide evidence that it is able to maintain required levels of financial responsibility required under this chapter if it has an oil spill.

NEW SECTION

WAC 246-840-835 Nurse delegation—Blood glucose monitoring and testing in settings other than community-based and in-home care. In settings other than community-based and in-home care that deliver health care services, registered nurses may delegate blood glucose monitoring and testing only to registered or certified nursing assistants under chapter 18.88A RCW in accordance with the delegation process in RCW 18.79.260 (3) (a).

AMENDATORY SECTION (Amending WSR 22-12-026, filed 5/23/22, effective 9/9/22)

WAC 246-840-930 Criteria for delegation. (1) In community-based and in-home care settings, before delegating a nursing task, the registered nurse delegator shall decide(~~(s—the))~~ if a task is appropriate to delegate based on the elements of the nursing process: ASSESS, PLAN, IMPLEMENT, EVALUATE.

ASSESS

(2) The setting allows delegation because it is a community-based care setting as defined by RCW 18.79.260 (3) (e) (i) or an in-home care setting as defined by RCW 18.79.260 (3) (e) (ii).

(3) Assess the patient's nursing care needs and determine the patient's condition is stable and predictable. A patient may be stable and predictable with an order for sliding scale insulin or terminal condition.

(4) Determine the task to be delegated is within the delegating nurse's area of responsibility.

(5) Determine the task to be delegated can be properly and safely performed by the nursing assistant or home care aide. The registered nurse delegator assesses the potential risk of harm for the individual patient.

(6) Analyze the complexity of the nursing task and determine the required training or additional training needed by the nursing assistant or home care aide to competently accomplish the task. The registered nurse delegator identifies and facilitates any additional training of the nursing assistant or home care aide needed prior to delegation. The registered nurse delegator ensures the task to be delegated can be properly and safely performed by the nursing assistant or home care aide.

(a) Discusses the delegation process with the patient or authorized representative, including the level of training of the nursing assistant or home care aide delivering care.

(b) Obtains written consent. The patient, or authorized representative, must give written consent to the delegation process under chapter 7.70 RCW. Documented verbal consent of patient or authorized representative may be acceptable if written consent is obtained within 30 days; electronic consent is an acceptable format. Written consent is only necessary at the initial use of the nurse delegation process for each patient and is not necessary for task additions or changes or if a different nurse, nursing assistant, or home care aide will be participating in the process.

PLAN

(11) Document in the patient's record the rationale for delegating or not delegating nursing tasks.

(12) Provide specific, written delegation instructions to the nursing assistant or home care aide with a copy maintained in the patient's record that includes:

(a) The rationale for delegating the nursing task;

(b) The delegated nursing task is specific to one patient and is not transferable to another patient;

(c) The delegated nursing task is specific to one nursing assistant or one home care aide and is not transferable to another nursing assistant or home care aide;

(j) The action to take in situations where medications and/or treatments and/or procedures are altered by health care provider orders, including:

(i) How to notify the registered nurse delegator of the change;

(ii) The process the registered nurse delegator uses to obtain verification from the health care provider of the change in the medical order; and

(iii) The process to notify the nursing assistant or home care aide of whether administration of the medication or performance of the procedure and/or treatment is delegated or not;

(k) How to document the task in the patient's record;

(l) Document teaching done and a return demonstration, or other method for verification of competency; and

(m) Supervision shall occur at least every 90 days. With delegation of insulin injections, the supervision occurs at least ~~((weekly))~~ every two weeks for the first four weeks, and may be more frequent.

(13) The administration of medications may be delegated at the discretion of the registered nurse delegator, including insulin injections. Any other injection (intramuscular, intradermal, subcutaneous, intraosseous, intravenous, or otherwise) is prohibited. The registered nurse delegator provides to the nursing assistant or home care aide written directions specific to an individual patient.

IMPLEMENT

(14) Delegation requires the registered nurse delegator teach the nursing assistant or home care aide how to perform the task, including return demonstration or other method of verification of competency as determined by the registered nurse delegator.

(15) The registered nurse delegator is accountable and responsible for the delegated nursing task. The registered nurse delegator monitors the performance of the task(s) to assure compliance with established standards of practice, policies and procedures and appropriate documentation of the task(s).

The registered nurse delegator reevaluates the patient's condition, the care provided to the patient, the capability of the nursing assistant or home care aide, the outcome of the task, and any problems.

(18) The registered nurse delegator ensures safe and effective services are provided. Reevaluation and documentation occur at least every 90 days. Frequency of supervision is at the discretion of the registered nurse delegator and may be more often based upon nursing assessment.

(19) The registered nurse must supervise and evaluate the performance of the nursing assistant or home care aide with delegated insulin injection authority at least ~~((weekly))~~ every two weeks for the first four weeks. After the first four weeks the supervision shall occur at least every 90 days.

AMENDATORY SECTION (Amending WSR 11-04-041, filed 1/25/11, effective 2/25/11)

WAC 480-62-235 Flaggers. (1) The rules in this section apply whenever a railroad company engages in the maintenance, repair, or construction of a grade crossing or grade separated crossing; however, they do not apply when flaggers are provided only because of a crossing signal malfunction or only because of inspections or repairs to a crossing signal system. The latter circumstances are covered by 49 C.F.R., Part 234. In addition, 49 C.F.R. Part 234.5 recommends that railroad companies follow the requirements of Part VI of the Federal Highway Administration's Manual on Uniform Traffic Control Devices (MUTCD) to the extent possible. The commission further recommends that railroads also abide by the following rules to the extent possible in situations covered by 49 C.F.R. Part 234.

(2) Except as otherwise required in this section, traffic control devices, signs, barricades, and signaling methods must be set up in accordance with the provisions of the Manual on Uniform Traffic Control Devices (MUTCD). The commission adopts, by reference, specific portions of the MUTCD, as follows:

- (a) Chapter (~~8A.08~~) 8A.13, Temporary Traffic Control Zones;
- (b) Chapter (~~6A~~) 6A.01, General;
- (c) Chapter (~~6B~~) 6A.02, Fundamental Principles of Temporary Traffic Control;
- (d) Chapter (~~6D~~) 6C, Pedestrian and Worker Safety;
- (e) Chapter (~~6E~~) 6D, Flagger Control;
- (f) Chapter (~~6G.18~~) 6N.17, Work in the Vicinity of a Grade Crossing.

(3) Flaggers are to be used only when other reasonable means of control will not adequately control traffic in work zones. It may be reasonable in some cases to close the road on which the crossing is located, but only if agreed to by the public authority responsible for the roadway.

(4) Standards for high-visibility safety apparel.

(a) While flagging during daylight hours, a flagger must, at a minimum, wear:

- A high-visibility safety garment designed according to Class 2 specifications in ANSI/ISEA 207-((2006)) 2020, American National Standard for High-Visibility Public Safety Vests (~~(, specifically, a garment containing at least seven hundred seventy-five square inches of background material and two hundred one square inches of retro-reflective material)~~); and

- A high-visibility hard hat.

(b) While flagging at night, a flagger must, at a minimum, wear:

- A high-visibility safety garment designed according to Class 2 specifications in ANSI/ISEA 207-((2006)) 2020 over white coveralls, or other coveralls or trousers designed according to ANSI/ISEA 207-((2006)) 2020 standards; and

- A high-visibility hard hat (~~(that is marked with at least twelve square inches of reflectorized material providing three hundred sixty degrees of visibility)~~).

(c) While flagging during inclement weather, yellow rain gear, white rain gear, or rain gear designed according to ANSI/ISEA 207-((2006)) 2020 may be substituted for white coveralls.

(5) Railroad companies must develop and use a method to ensure that whenever there is any potential hazard associated with motor ve-

hicles, construction equipment, or on-track equipment, that flaggers have adequate warning of objects approaching from behind the flagger.

Note: The following are some nonmandatory examples of methods that may be used to adequately warn flaggers:

- Mount a mirror on the flagger's hard hat;
- Use a motion detector with audible warning; or
- Use a spotter.

(6) (a) Railroad companies must conduct an on-site safety briefing for flaggers each time a flagger reports for duty, and also when job site conditions change significantly. The briefing must include applicable portions of the traffic control plan and any changes applicable during the flagger's shift. If not covered in the traffic control plan, the briefing must also include:

- The flagger's role and location at the job site;
- Motor vehicles and equipment in operation at the site;
- Job site traffic patterns;
- Communications and signals to be used between flaggers and equipment operators;
- Expected train and other on-track equipment movements;
- On-foot escape route; and
- Other hazards specific to the job site.

(b) When flaggers are used on a job site at a roadway allowing speeds of (~~forty-five~~) 45 mph or more and the job will last more than one day, the railroad company must keep on the site a current site-specific traffic control plan. The purpose of this plan is to help move traffic through or around the construction zone in a way that protects the safety of the traveling public, pedestrians and workers. The plan must include, but is not limited to, such items as:

- Sign use and placement;
- Application and removal of pavement markings;
- Construction;
- Scheduling;
- Methods and devices for delineation and channelization;
- Placement and maintenance of devices;
- Placement of flaggers;
- Roadway lighting;
- Traffic regulations; and
- Surveillance and inspection.

(7) (a) Where flaggers are used on roads allowing speeds of at least (~~forty-five~~) 45 mph, the railroad company must provide an additional warning sign marked "BE PREPARED TO STOP."

(b) This sign is in addition to those required by Part VI of the Manual on Uniform Traffic Control Devices. It should be placed between the last two warning signs in the series or on the opposite side of the road when used on undivided roads.

(c) This additional sign does not increase the required advance warning area.

(d) The purpose of this additional sign is to clearly point out that a flagger will be encountered and the driver should be prepared to stop.

(8) To protect flaggers, railroad companies must ensure that:

(a) Flagger workstations are illuminated at night and during inclement weather by floodlights. It is important to adequately illuminate the workstation without creating glare in the eyes of approaching drivers. The adequacy and proper placement of floodlights can best be determined by driving through and observing the workstation from each direction on the roadway.

(b) Warning signs reflect the actual condition of the work zone. When not in use, warning signs should either be taken down or covered.

(c) Flaggers are not assigned other duties while engaging in flagging activities.

(d) Flaggers do not use devices (e.g., cell phones, pagers, or radio headphones) that may distract the vision, hearing, or attention of the flagger. Devices such as two-way radios used for communication between flaggers to direct traffic or ensure flagger safety are acceptable.

(e) Flaggers receive appropriate breaks from flagging so they can remain attentive and alert.

(9) Unless an emergency makes it impossible, before performing any work, railroad companies must coordinate all repair, maintenance, and construction work with the governing authority responsible for the road on which the crossing exists.

(10) Information about Title 49 C.F.R., the Manual on Uniform Traffic Control Devices, and ANSI/ISEA 207-((2006)) 2020 regarding the versions adopted and where to obtain them is set out in WAC 480-62-999.

AMENDATORY SECTION (Amending WSR 18-10-001, filed 4/18/18, effective 5/19/18)

(c) Before driving a vehicle, drivers or operators must obtain either a valid Washington state driver's license or a valid license from the state of the driver's residence. The driver must carry the license at all times while operating a vehicle. If the passenger carrying vehicle is a type for which the state of Washington requires an extraordinary license or endorsement, the driver must have such license or endorsement.

(3) **Driver's daily hours of service.** No driver of any passenger carrying vehicle may drive for more than ((ten)) 10 hours without resting afterward for a minimum of eight consecutive hours.

(4) **Refueling.** No driver or any employee of a railroad company operating within the state may:

(i) Where traffic is controlled by a police officer or a duly authorized flagger;

(ii) Where traffic is regulated by a traffic control signal;

(iii) Where traffic is controlled by crossing gate arms or an alternately flashing light signal intended to give warning of the approach of a train; or

(iv) Where an official traffic control device as designated by the commission pursuant to RCW 81.53.060 (i.e., an "EXEMPT" sign, specified as R15-3P by the Manual on Uniform Traffic Control Devices) gives notice that the stopping requirement imposed by this section does not apply. (6) Loading and carrying of passengers.

(a) Drivers are in charge of the vehicle and must require passengers to observe vehicle rules.

(b) Passengers may not enter or exit from the vehicle while it is in motion, or ride on running boards, fenders, bumpers, tops of cabs, or with any part of their body projecting beyond the sides or the ends of the vehicle.

(7) Carrying equipment or tools.

(a) When equipment or tools are carried inside the vehicle, they must be stored in enclosed racks or boxes that are secured to the vehicle in a manner that prevents employees from being struck in the event of sudden starts, stops, or turns.

(b) All tools and equipment, including cylinders, containers, or drums must be properly secured so they will not interfere with the use of any exit.

(c) The driver must ensure that equipment and tools are properly secured before moving the vehicle.

(8) Limitation on transportation of explosives, gasoline, and other hazardous materials on passenger carrying vehicles.

(a) Explosives other than track torpedoes and fusees may not be carried in or on any vehicle while the vehicle is being used to transport crew members in a passenger compartment.

(b) If track torpedoes or fusees are carried in a passenger carrying vehicle, they must be carried in a separate compartment or container provided for that purpose.

(c) Gasoline, or other hazardous materials, must not be carried in either the cab or in the passenger compartment; however, oxygen or acetylene cylinders may be carried if gauges and regulators have been removed with caps in place before loading.

(d) Passenger carrying vehicles may be used to carry flammable materials when they are located outside of and isolated from the passenger carrying area, and are stored in containers approved by the Underwriters Laboratories, Inc. Containers for fuel must be vented in a manner that prevents the hazardous concentration of fumes.

(e) A passenger carrying vehicle containing hazardous materials must not be parked within (~~three hundred~~) 300 feet of an open fire.

WAC 314-29-020 Group 1 violations against public safety. (1)

Group 1 violations are considered the most serious because they present a direct threat to public safety. (2) Group 1 violations will be counted sequentially rather than independently by group. For example, if a licensee received a violation for over service on one day and a violation for sale to a minor a week later, the sale to a minor would be treated as a second offense since both violations are in the same violation group.

- (c) **Examples.** This rule includes examples that identify certain facts and then state a conclusion. These examples should only be used as a general guide. The tax results of other situations must be determined after a review of all the facts and circumstances.
- (2) **Definitions.** The following definitions apply throughout this rule:
- (a) **"Clean alternative fuel"** means natural gas, propane, hydrogen, or electricity, when used as a fuel in a motor vehicle that meets the California motor vehicle emission standards in Title 13 of the California Code of Regulations, effective January 1, 2019, and the rules of the Washington state department of ecology.
- (b) **"Fair market value"** has the same meaning as "value of the article used" in RCW 82.12.010 and, for the purposes of this rule, the fair market value of a leased clean alternative fuel or plug-in hybrid vehicle is generally determined according to the retail selling price at the place of use of vehicles of similar quality and character. The fair market value includes delivery charges or any other services necessary to complete the lease. RCW 82.12.010; WAC 458-20-178.
- (c) **"New vehicle"** has the same meaning as "new motor vehicle" in RCW 46.04.358 and means any motor vehicle that:
- (i) Is self-propelled;
- (ii) Is required to be registered and titled under Title 46 RCW;
- (iii) Has not been previously titled to a retail purchaser or lessee; and
- (iv) Is not a used vehicle as defined in (h) of this subsection.
- (d) **"Plug-in hybrid vehicle"** is a vehicle that uses at least one method of propulsion capable of being reenergized by an external source of electricity and capable of traveling at least 30 miles using only battery power.
- (e) **"Qualification period end date"** means August 1, 2025.
- (f) **"Qualification period start date"** means August 1, 2019.
- (g) **"Selling price"** has the same meaning as used in RCW 82.08.010. Selling price includes charges for delivery and installation, for vehicle accessories purchased as part of the purchase of the vehicle, and any other charges for services necessary to complete the sale. RCW 82.08.010; WAC 458-20-108; 458-20-178; 458-20-247. The selling price does not include the value of any trade-in. However, for purposes of this exemption, the value of any trade-in is added to the selling price to determine exemption eligibility.
- (h) **"Used vehicle"** has the same meaning as "used vehicle" in RCW 46.04.660 and means a vehicle that:
- (i) Has been sold, bargained, exchanged, given away, or title transferred from the person who first took title to it from the manufacturer or first importer, dealer, or agent of the manufacturer or importer; and
- (ii) Is used in a manner to have become what is commonly known as "secondhand."

(3) **Exemption.** A sales and use tax exemption applies to new or used passenger cars, light duty trucks, or medium duty passenger vehicles that meet the power requirements and are within the value limitations described below. A person may not claim this exemption if the exemption under RCW 82.08.993 or 82.12.817(2) is claimed.

(a) **Power requirements.** The exemption applies only to the sale, lease, or use of a vehicle either exclusively powered by a clean alternative fuel or a plug-in hybrid vehicle.

(b) **List of eligible vehicles.** The department of licensing must maintain and publish a list of all vehicle models eligible for this tax exemption and is authorized to issue final rulings on vehicle model eligibility. A seller or lessor is not responsible for repayment of the tax exemption if a vehicle was listed as of the date it was purchased or the lease agreement was signed, and met the other exemption requirements, and is subsequently removed from the list.

(c) **Eligible vehicle values.** The selling price plus the trade-in value of property of like kind for vehicle sales at the time of purchase, or the fair market value for vehicles at the inception of the lease agreement, may not exceed the following amounts:

(i) New vehicles: \$45,000.

(ii) Used vehicles: \$30,000.

(d) **Trade-in values.** When determining whether a new or used vehicle is eligible for the exemption in this rule, the value of any trade-in vehicle must be added to the selling price of the vehicle.

Example 1. An automobile dealer sells a new clean alternative fuel vehicle for \$53,000. As part of the sale, the dealer accepts a trade-in vehicle from the buyer with an agreed upon value of \$10,000, resulting in a taxable selling price of \$43,000. The new vehicle does not qualify for the exemption because the selling price, as defined in subsection (2) of this rule, plus the vehicle trade-in value of \$10,000, exceeds the new vehicle value limit of \$45,000.

(e) **Determining amount subject to retail sales tax.** After determining the new or used vehicle qualifies for the exemption, the seller must then determine the eligible exemption amount as described in the table in this subsection (3)(e). The amount subject to retail sales tax is calculated by subtracting the exemption amount and the trade-in allowance, if any, from the selling price. In the case of a lease, the exemption amount applies up to the eligible exemption amount identified in the table in this subsection (3)(e) for lease payments made, and any additional selling price of the leased vehicle if the original lessee purchases the leased vehicle before the qualification period end date. The exemption amounts are provided below and based on the date of purchase or date of the signed lease agreement.

Date of purchase/Date of signed lease agreement	Exemption amount (New vehicles)	Exemption amount (Used vehicles)
August 1, 2019 - July 31, 2021	\$25,000	Total sales price or \$16,000, whichever is less
August 1, 2021 - July 31, 2023	\$20,000	
August 1, 2023 - July 31, 2025	\$15,000	

Example 2. In February 2024, an automobile dealer sells a new clean alternative fuel vehicle for \$44,000, before factoring in a trade-in allowance. The purchaser provides a down payment of \$5,000 and the dealer accepts a trade-in vehicle from the buyer with an agreed upon value of \$7,000 and finances the remaining \$32,000. The new vehicle qualifies for the exemption because the taxable selling price of \$37,000, plus the value of the buyer's trade-in vehicle of

\$7,000, does not exceed the \$45,000 limit. To determine the amount of the sale subject to retail sales tax, the dealer will subtract the exemption amount indicated in the chart in subsection (3)(e) of this rule and the trade-in value from the vehicle's selling price. The seller is required to report \$44,000 in gross revenue under the retailing B&O and retail sales tax classifications, then report a \$7,000 trade-in allowance deduction and a \$15,000 clean alternative fuel vehicle deduction from the retail sales tax classification. The retail sales taxable amount is \$22,000. The retailing B&O taxable amount is \$44,000.

Example 3. On March 1, 2025, ABC Vehicles LLC (ABC), an automobile dealer (who is assigned a monthly tax reporting frequency), leased a new clean alternative fuel vehicle to a customer with a fair market value of \$42,000. The new leased vehicle qualifies for the exemption because its fair market value is \$45,000 or less. The maximum allowable exemption amount is \$15,000. The lease covers a 36-month period, and the monthly lease payment is \$400. The lessee decides to purchase the vehicle following the expiration of the lease on March 1, 2028, for \$27,600. Because the lessee paid \$14,400 in total lease payments prior to purchasing the vehicle, the remaining available exemption is \$600, which may be deducted from the selling price of \$27,600, resulting in a retail sales taxable amount of \$27,000.

For the entire 36-month lease period, ABC is required to report \$400 in gross revenue from monthly vehicle lease payments under the retailing B&O and retail sales tax classifications on each of its monthly excise tax returns, then report a \$400 deduction from the retail sales tax classification, resulting in a retail sales taxable amount of \$0. ABC may not claim a deduction for B&O tax purposes, resulting in a retailing B&O taxable amount of \$400. For the March 2028 return, ABC is required to report \$27,600 in gross revenue under the retailing B&O and retail sales tax classifications, then report a \$600 clean alternative fuel vehicle deduction from the retail sales tax classification. The retail sales taxable amount is \$27,000. The retailing B&O taxable amount is \$27,600.

(f) **Exemption eligibility dates.**

(i) **Sales.** For vehicle sales, the sale must be made between August 1, 2019, and July 31, 2025, to qualify for the exemption. Sales of vehicles after July 31, 2025, do not qualify for the exemption.

(ii) **Leases.** For vehicle leases, the lease agreement must be signed between August 1, 2019, and July 31, 2025, to qualify for the exemption. Lease agreements signed after July 31, 2025, do not qualify for the exemption. However, leases that qualified for the exemption before August 1, 2025, will continue to receive the exemption on any lease payments due through the remainder of the lease through July 31, 2028. RCW 82.08.9999(7). Any unused exemption amounts are forfeited and may not be applied once the exemption expires on August 1, 2028.

Example 4. A lessee signs a four-year vehicle lease agreement for an eligible vehicle on June 15, 2025, with the first payment due on July 15, 2025, and the last payment due on June 15, 2029. Because this exemption expires on August 1, 2028, the retail sales tax exemption will be applied to each lease payment, beginning July 15, 2025, and continue until the earlier of July 31, 2028, or until the available exemption amount is reduced to zero. Any unused exemption amounts are forfeited and may not be applied once the exemption expires on August 1, 2028.

(4) **Recordkeeping.** The seller, or lessor in the case of a lease, of any eligible vehicle, new or used, must keep the following records,

in paper or electronic form, necessary for the department of revenue to verify eligibility:

- (a) Vehicle make, model, and year;
- (b) Whether the vehicle was sold or leased;
- (c) Selling price for purchased vehicles, or fair market value at the inception of the lease for leased vehicles;
- (d) Date of sale or start date of lease;
- (e) Terms of lease, including monthly lease payment and length of lease; and
- (f) Total amount qualifying for the incentive claimed for each vehicle, including the future monthly amount to be claimed for each leased vehicle.

PERMANENT RULES

DEPARTMENT OF AGRICULTURE

[Filed June 18, 2024, 2:22 p.m., effective July 1, 2024]

Effective Date of Rule: July 1, 2024.

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: RCW 34.05.380 (3)(a) allows for a rule to become effective earlier than 31 days after filing if such action is required by a statute. Section 1, chapter 69, Laws of 2024, and RCW 69.50.348 requires the department of agriculture (department) to adopt rules to implement section 2, chapter 277, Laws of 2019, by July 1, 2024.

Purpose: This rule-making order establishes chapter 16-310 WAC, Accreditation of cannabis laboratories, for the accreditation of cannabis laboratories in accordance with the standards set forth in chapter 16-309 WAC. The purpose of this rule is to ensure that laboratory standards described in chapter 16-309 WAC are followed when testing cannabis and cannabis products in Washington state.

Under 2019 HB 2052, the department of ecology (DOE) was to take over the accreditation of cannabis laboratories and began creating a fee-based program to audit and accredit the laboratories. In the process of writing cannabis laboratory standards, the department identified an opportunity to save costs to laboratories and streamline the hiring and work process related to laboratory standards and accreditation by taking on the task of laboratory audits and accreditation.

The department wrote an agency request bill replacing DOE with the department as the accrediting agency and requesting continuous funding and expedited rule-making authority to do this work. The bill, SSHB 2151, passed in 2024 and was signed by the governor. The bill authorized the creation of a new rule chapter to implement auditing and accrediting laboratories by the department's cannabis lab accreditation standards program. The bill also changes some components of the audit program, as audit fees will remain at a similar level to their current state. Laboratories will no longer be accredited by a third-party consultant and will instead be audited and accredited by a team at the department.

Citation of Rules Affected by this Order: New WAC 16-310-010, 16-310-020, 16-310-030, 16-310-040, 16-310-050, 16-310-060, 16-310-070, 16-310-080, 16-310-090, 16-310-100, 16-310-110, 16-310-120, 16-310-130, 16-310-140, 16-310-150, 16-310-160, 16-310-170, 16-310-180, 16-310-190, 16-310-200, and 16-310-210.

Statutory Authority for Adoption: RCW 69.50.348.

Adopted under notice filed as WSR 24-09-074 on April 17, 2024.

**Chapter 16-310 WAC
ACCREDITATION OF CANNABIS LABORATORIES**

NEW SECTION

WAC 16-310-010 Purpose of chapter. Under the authority of RCW 69.50.348, the department adopts rules to establish a state program for the accreditation of cannabis laboratories in accordance with chapter 16-309 WAC. The purpose of this program is to ensure the laboratory standards described in chapter 16-309 WAC are followed when testing cannabis and cannabis products under chapter 314-55 WAC.

NEW SECTION

WAC 16-310-020 Scope. (1) This chapter applies to cannabis laboratories that conduct tests for or prepare analytical data on cannabis in Washington state.

(2) Accreditation does not guarantee validity of all analytical data submitted by the accredited laboratory but rather assures that the laboratory has demonstrated its capability to generate and report the analytical data.

NEW SECTION

WAC 16-310-030 Definitions. "Accreditation" means the formal recognition by the department that a cannabis laboratory is capable of producing accurate and defensible analytical data. This recognition is signified by the issuance of a written accreditation letter, accompanied by a scope of accreditation indicating the parameters for which the laboratory is accredited.

"Accreditation year" means the one-year period as stated on the letter of accreditation.

"Analyte" means the constituent or property of a sample measured using an analytical method.

"Analytical data" means the recorded qualitative and/or quantitative results of a chemical, physical, biological, microbiological, radiochemical, or other scientific determination.

"Analytical method" means a written procedure for acquiring analytical data.

"Audit" means an inspection and evaluation of laboratory methods, instrumentation, facilities, equipment, records, and staff.

"Board" means the Washington state liquor and cannabis board.

"Cannabis laboratory" or "laboratory" means a facility:

(a) Under the ownership and technical management of a single entity in a single geographical location;

(b) Where scientific determinations are performed on samples taken from cannabis plants and products; and

(c) Where data is submitted to the customer or regulatory agency, or other entity requiring the use of an accredited laboratory under provisions of a regulation, permit, or contractual agreement.

"Data pack" means documentation created that supports each sample collected and sent to the laboratory for testing to include, but not limited to, any and all chain of custodies, manifests, worksheets, testing data including repeat testing, calibration data, quality control data, final report to customer, and any document created or received for that sample from time of receipt to disposal of sample.

"Data traceability" or "traceability" means the ability to recreate the final result by means of records.

(a) Records must be an unbroken trail of accountability for verifying or validating the chain of custody of samples, the data, the documentation of a procedure, certificates of analysis, and the values of a standard.

(b) This unbroken trail begins upon receipt of the samples at the laboratory.

"Department" means the state of Washington department of agriculture.

"Good standing" means the laboratory has met all its obligations to the state to remain certified by the board such as passing proficiency testing, current with any and all payments required, current with all accreditation requirements, and has no outstanding obligations to the board.

"Interlaboratory comparison" means a method used in quality control to evaluate the consistency and accuracy of test results across multiple laboratories. It involves sending sample replicates to different labs and comparing the results to identify discrepancies or variations.

"Matrix" means the material to be analyzed including, but not limited to, flower, trim, leaves, other plant matter, cannabis concentrate, cannabis infused, and edibles.

"Parameter" means the combination of one or more analytes determined by a specific analytical method.

"Precision" means the closeness of agreement between independent test results obtained under specified conditions. This is described by statistical methods such as a standard deviation (SD), coefficient of variation (CV), or confidence limit of test results.

"Proficiency testing (PT)" means evaluation of the results from the analysis of samples, the true values of which are known to the supplier of the samples but unknown to the laboratory conducting the analyses.

"Proficiency testing provider" means a third-party company, organization, or entity not associated with certified laboratories or a laboratory seeking accreditation that is approved by the department and provides samples for use in PT testing.

"Quality assurance (QA) manual" means a written record intended to assure the reliability of measurement data. A QA manual documents policies, organization, objectives, and specific QC and QA activities.

"Quality control (QC)" means the routine application of statistically based procedures to evaluate and control the accuracy of analytical results.

"Regular business hours" means the time frame during which the laboratory conducts testing or normal business. Should a laboratory have multiple shifts to conduct testing, normal business hours would include these shifts.

"Sample" means a representative portion of material taken from a larger quantity of homogenate for the purpose of examination or analysis, which can be used for judging the quality of a larger quantity for the purpose of compliance.

"Standard operating procedures (SOP)" means a written document that details the method for an operation, analysis, or action with thoroughly prescribed techniques and steps, and that is officially approved as the method for performing certain routine or repetitive tasks.

"Validation" means the process of demonstrating or confirming the performance characteristics through assessments of data quality indicators for a method of analysis.

NEW SECTION

WAC 16-310-040 Accreditation during transition period. (1) Laboratory accreditations issued by the board in 2023 will remain valid through their expiration date in 2024.

(2) Accreditation issued by the department prior to December 31, 2024, will be based on the laboratory standard set forth in chapter 314-55 WAC and be considered accreditation renewal. Accreditation will expire in one calendar year after issuance.

(3) After December 31, 2024, all laboratories must comply with the standard set forth in chapter 16-309 WAC in order to maintain accreditation.

(4) Laboratories must submit validation studies for their cannabinoid concentration analysis, residual solvent testing, pesticide testing, and heavy metals testing to the department for their methods prior to November 1, 2024.

(5) Laboratories that have not received approval for a validation study by January 1, 2025, will not be able to test for that parameter until the parameter is approved.

(6) Laboratories that have been accredited in 2024 to the standard identified in chapter 314-55 WAC must fill out an initial accreditation application in order to transfer to the department's accreditation program beginning January 1, 2025.

NEW SECTION

WAC 16-310-050 Laboratory initial accreditation application.

(1) A laboratory that has yet to become accredited must complete an initial application provided by the department to apply for accreditation to perform cannabis and cannabis product testing.

(2) The applying laboratory must submit an initial application fee with the application to the department before an initial inspection can be scheduled.

(3) Prior to the first audit, the laboratory must successfully complete a round of proficiency testing for each parameter the laboratory intends to be accredited for. Proficiency testing must come from a vendor approved by the department and graded results must be sent to the department for review.

(4) The laboratory must include the following pre-audit materials with the application:

(g) Validation studies for each method for which the laboratory is seeking accreditation.

(h) The department may request additional documents as necessary.

(5) Once all required conditions and documents are reviewed and accepted by the department, an audit will be scheduled to occur within 30 days.

NEW SECTION

WAC 16-310-060 Laboratory continued accreditation. (1) Laboratories must apply for accreditation renewal each year after initial accreditation to maintain their accreditation status.

(2) Renewal application documents must be submitted to the department at least 60 days prior to their accreditation expiration date. Documents may be submitted electronically.

(3) The laboratory must include the following pre-audit materials with the application:

(i) The department may request additional documents as necessary.

NEW SECTION

WAC 16-310-070 Application review and approval process. Upon review of the accreditation application and required documents, the department will either:

(1) Notify the applicant laboratory of any missing items or amendments necessary to approve the application.

(2) Approve the application, schedule an audit, and accredit the laboratory for initial, or renewed status upon successful completion of the audit.

(3) Extend a laboratory's current accreditation by a maximum of 60 days for the purpose of scheduling.

(4) Deny the application and deny accreditation. If the department denies accreditation or denies a subset of requested parameters, the department will notify the laboratory of the deficiencies.

NEW SECTION

WAC 16-310-080 Quality assurance manual. (1) The department will review and approve the laboratory's quality assurance (QA) manual prior to the department's initial and continued accreditation on-site audit of the lab.

(2) The QA manual submitted concurrently with the application must be in detail and scope commensurate with the size and mission of the laboratory. Instructions for contents of the QA manual are in WAC 16-309-120.

NEW SECTION

WAC 16-310-090 Standard operating procedures. (1) The department will review the laboratory's standard operating procedures (SOP) on-site during each audit.

(2) The SOP must be in detail sufficient to assure consistent and replicable results by any qualified employee at the laboratory.

(3) Guidelines for contents of a standard operating procedure are in WAC 16-309-090, the cannabis testing laboratory standards manual, and other guidance documents that may be published by the department.

NEW SECTION

WAC 16-310-100 Data and record traceability. (1) During audits and when necessary, the department will ask the lab to demonstrate data and record traceability with documentation. To demonstrate this, a cannabis laboratory must:

(a) Be able to recreate sample results by means of records in entirety, starting at receipt of the samples by the laboratory and ending at the final report or certificate of analysis, known as a data pack;

(b) Document validation of any chemical, reagent, and/or media used by an analytical method;

(c) Document storage of samples as required by the specific analytical method and regulations;

(d) Document that all temperature-based equipment such as a refrigerator, oven, or incubator is within control at the time of testing. When electronic recordkeeping equipment is used, these records must be monitored by lab personnel to verify that temperatures meet relevant method and regulatory requirements;

(e) Keep a log for all instruments, including documentation of installation, setup, maintenance, and removal from service; and

(f) Document preparation and quality control (QC) of chemicals, reagents, and media used in support of the analyses.

(2) When records are handwritten, they must be in indelible ink and comply with the relevant method requirements and include the date, technician's initials, and temperature when relevant. Any changes to handwritten records should be single line crossed out, initialed, and dated.

(3) Unmonitored use of continuous data-loggers is not an acceptable substitute when methods and regulations require temperature checks. Use of electronic recordkeeping equipment is allowed when:

(a) The equipment can demonstrate the accuracy and precision required by the applicable method and regulations;

(b) It includes the date and time the record was captured, using a fully traceable and secure format; and

(c) It is reviewed for failure each day instrument or equipment is used.

(4) (a) Certificates of analysis must be consistent with laboratory data.

(b) Reference labs must be named on the certificate of analysis when used.

NEW SECTION

WAC 16-310-110 Proficiency testing. (1) The laboratory must participate in an approved proficiency testing (PT) program on an ongoing basis and achieve a passing score for each field of testing parameter for which the lab will be or is accredited.

(2) The cost of obtaining and testing PT samples is the sole responsibility of the laboratory.

(3) The department will maintain a list of approved proficiency tests and proficiency test providers that laboratories can use.

(4) A laboratory must successfully complete a minimum of one round of PT for each field of testing the lab seeks to be accredited

for and provide proof of the successful PT results to the accrediting authority prior to initial accreditation.

(5) Accredited laboratories must successfully analyze a minimum of two PT samples for each parameter per year.

(6) The closing dates of a PT study for a particular field of accreditation can be no more than seven months apart, and the opening date of a PT study for a particular parameter must be at least seven calendar days after the closing date of the previous PT study for the same parameter or field of testing.

(7) At least one of the scores must be from a round of PT that occurs within six months prior to the laboratory's accreditation renewal date.

(8) To maintain accreditation, the laboratory must continue to pass each PT and parameter for which the lab is accredited.

(9) If the laboratory fails to achieve a pass for a parameter, the laboratory must investigate the root cause of the laboratory's performance and establish a corrective action plan for each unsatisfactory analytical result within five business days and report its finding and resolution to the department.

(10) If the corrective action has not resolved the analytical deficiency, the laboratory must suspend testing of that parameter, even if they have not yet been contacted by the department to do so first. The laboratory must then work with the department to resolve the issue and must receive authorization from the department before they can re-start testing for that parameter.

(11) The department may require the laboratory to submit raw data along with the report of analysis of PT samples.

(12) If the PT provider does not provide individual acceptance criteria for each analyte, the following criteria will be applied to determine whether the lab achieves a passing score for the round of PT:

(a) +/- 30 percent recovery from the reference value for residual solvent testing; or

(b) +/- 3 z or 3 standard deviations from the reference value for all other fields of testing.

(13) The department may waive proficiency tests for certain parameters if approved PT samples are not readily available or for other valid reasons.

(a) If a proficiency test is not available for any parameter for which the laboratory is accredited or applying for accreditation, the laboratory must implement an alternative assessment procedure for the affected analyte(s) approved by the department.

(b) An alternative assessment requirement can be fulfilled via a split-sample analysis sent to testing staff as a blind or potential customer sample unknown to the analyst.

(14) (a) PTs must undergo the identical preparation and analytical processes that are used for customer samples including, but not limited to, adhering to the same sample tracking, sample preparation, analysis methods, standard operating procedures, calibrations, quality control, and acceptance criteria used in testing customer samples.

(b) Should a PT provider require a sample preparation step such as spiking a standard onto a matrix or hydrating a sample, the laboratory must prepare the sample according to their instructions. Testing a spiking solution independently is not allowed.

(15) The laboratory is responsible for ensuring the department receives all PT results directly from the PT provider.

(16) The laboratory must ensure that the information provided to the PT provider reflects accurate information about the laboratory that corresponds to the information in the laboratory's accreditation or application for accreditation including, but not limited to:

- (a) The laboratory's name and address;
- (b) The laboratory's ID number; and
- (c) The method and analyte codes.

(17) For pesticide and cannabinoid concentration analyses, a laboratory must use PT samples made with a useable cannabis matrix.

(a) If a useable cannabis matrix is unavailable, then a PT sample made with useable hemp matrix may be used.

(b) If a PT sample made with a useable hemp matrix is used for accreditation of cannabinoid concentration analysis, then the PT vendor must prepare the sample in useable hemp material itself and may not provide a separate spiking solution with the sample.

(18) Presence-absence microbiology parameters must correctly detect the presence or absence of target organisms on all replicates in their PTs to be considered acceptable.

(19) It is strictly prohibited for laboratories to communicate with other laboratories about proficiency testing samples prior to the final results reported back to the laboratory by the proficiency testing provider.

(20) It is strictly prohibited for laboratories to send PT samples to another laboratory for testing.

(21) Laboratories must participate in interlaboratory comparison testing when the department provides samples.

(a) Testing and reporting of interlaboratory comparison sample results to the department must be conducted within five business days of receipt of samples.

(b) The cost of performing interlaboratory comparison testing is the sole responsibility of the laboratory.

(c) To be considered acceptable, results from interlaboratory comparison testing must be within:

(i) +/- 30 percent recovery from the reference value for residual solvent testing; or

(ii) +/- 3 z or 3 standard deviations from the reference value for all other fields of testing.

(d) If a laboratory fails an interlaboratory comparison test, they must investigate the root cause of the laboratory's performance and establish a corrective action plan for each unsatisfactory analytical result within five business days and report its finding and resolution to the department.

(e) Failure to correct deficiencies or findings of misconduct identified from interlaboratory comparison testing could lead to suspension of accreditation.

(f) Laboratories will not be required to perform interlaboratory comparison testing on more than five samples per year per parameter being investigated.

NEW SECTION

WAC 16-310-120 Audits. (1) A laboratory must undergo an audit by the department to assess critical elements and areas of required standard practices.

(a) All accredited laboratories will be audited on an annual basis. The laboratory must assist or accommodate department personnel and auditors during audits as necessary.

(b) Audits will be performed on-site.

(c) Off-site audits will only be available at the discretion of the department.

(2) The laboratory must successfully show that they meet the minimum standards for each of the critical elements. Critical elements of accreditation are components of a cannabis laboratory's operations which are critical to the consistent generation of accurate and defensible data and keep the laboratory compliant with regulations.

(3) Critical elements include:

(a) Analytical methods. The laboratory must demonstrate that documentation of analytical methods the laboratory employs:

(i) Are present at the laboratory;

(ii) Are approved by the scientific director;

(iii) Are readily available to analysts; and

(iv) Have been validated and implemented before testing customer samples.

(b) Equipment and supplies. The laboratory must demonstrate that sufficient equipment and supplies as required by analytical methods are:

(i) Available at the laboratory;

(ii) Being adequately maintained;

(iii) Have been validated before placing into service; and

(iv) In a condition to allow successful performance of applicable analytical procedures.

(c) QA and QC records. The laboratory must maintain and make available QA and QC records. QA and QC records must monitor laboratory testing and functions to demonstrate analytical performance and compliance requirements.

(d) Sample management. The laboratory must demonstrate that its procedures for sample receipt, analysis, storage, and disposal are sufficient to meet regulatory requirements.

(e) Data management. The laboratory must demonstrate that data management requirements are being met. The audit includes a review of activities necessary to assure accurate management of laboratory data including:

(i) Raw data;

(ii) Calculations;

(iii) Transcription;

(iv) Computer data entry; and

(v) Reports of analytical results.

The department may deny, revoke, or suspend accreditation for deficiencies in critical elements.

(4) The laboratory must successfully show that they meet the minimal requirements of required standard practices. Standard practices are those elements of laboratory operations which might affect efficiency, safety, and other administrative functions, but may not affect quality of analytical data. Typically, deficiencies to standard practices are not grounds for significant accreditation actions but can be if a specific finding directly affects the laboratory's ability to meet a critical element for accreditation or presents a significant safety concern. Standard practices include:

(a) Personnel. The laboratory must demonstrate that its managerial, supervisory, and technical personnel have adequate training and experience to allow satisfactory completion of analytical procedures

and compilation of reliable, accurate data. Minimum personnel requirements are set forth in chapter 16-309 WAC.

(b) Facilities. The laboratory must demonstrate that it allows for the efficient generation of reliable, accurate data in a safe environment.

(c) Safety. The laboratory must demonstrate that it has met the minimum safety requirements as stipulated in chapter 16-309 WAC. If the department determines the laboratory has a significant safety deficiency, the department may refer the deficiencies to appropriate state or federal agencies.

NEW SECTION

WAC 16-310-130 Audit access. (1) For the purpose of conducting audits, the department may, during regular business hours, enter business premises in which analytical data relevant to accreditation under the provisions of this chapter are generated or stored.

(2) A laboratory's refusal to permit the department entry for such audit or inspection purposes may result in denial or revocation of accreditation by the department.

NEW SECTION

WAC 16-310-140 Evaluation and issuance of accreditation. (1) After the department's determination that an applicant laboratory has met the requirements in chapter 16-309 WAC and this chapter, the department will grant approval of the application and provide the applicant laboratory with proof of accreditation and a scope of accreditation listing the accredited parameters.

(2) If the department grants an interim or provisional accreditation, the department will provide the laboratory a report specifying deficiencies and/or missing information necessary to upgrade all parameters to accreditation status.

(3) If the department denies the application for accreditation in whole, it will provide written notification to the applicant laboratory specifying:

(a) Areas of deficiency in meeting the requirements in chapter 16-309 WAC or this chapter; and

(b) Any missing information the department needs to complete the review of the laboratory's application.

(4) The laboratory shall have 30 calendar days from the receipt of the notification to provide the requested information to the department or provide documentation to the department that describes how the specified deficiencies have or will be corrected. Initial accreditation will not be issued until deficiencies have been corrected.

(a) Based on its review of documentation provided by the applicant laboratory, the department will issue a written decision that states whether the laboratory's application is granted or denied.

(b) If the requested information is not provided within the required time frame, the department will deny the application and the applicant must submit a new application to the department if they seek to obtain accreditation.

NEW SECTION

WAC 16-310-150 Interim accreditation. (1) The department may grant interim accreditation if the laboratory is unable to complete an audit for accreditation for a specific parameter, but all other requirements of accreditation have been satisfied.

(2) The department may also require the laboratory to submit analytical data packages as evidence of analytical capability to grant interim accreditation.

NEW SECTION

WAC 16-310-160 Provisional accreditation. (1) The department may approve an existing laboratory with prior accreditation for provisional accreditation when the department determines that the laboratory can consistently produce valid analytical data but has deficiencies requiring corrective action.

(a) When the laboratory has corrected such deficiencies, it must provide documented evidence of correction to the department or request a follow-up audit, as appropriate.

(b) If the department determines the deficiencies have been corrected, it may approve full accreditation as in WAC 16-310-140.

(2) The department may extend a provisional accreditation in 30-day intervals for up to one year.

NEW SECTION

WAC 16-310-170 Denying accreditation. (1) The department may deny accreditation for reasons including, but not limited to, the following laboratory actions:

- (a) Failure to comply with standards of this chapter;

- (c) Failure to disclose pertinent information in the application;
- (d) Falsifying reports of analysis including proficiency testing results;
- (e) Engaging in unethical or fraudulent practices concerning generation of analytical data;
- (f) Refusing to permit entry for department audits as required by WAC 16-310-130;
- (g) Failure to pay applicable fees; or
- (h) Is determined by the department or the board to be criminally negligent or not in compliance with chapter 69.50 RCW.

(2) The department may deny a laboratory accreditation for a specific parameter for unacceptable proficiency testing results.

(3) Laboratories denied accreditation may appeal under the provisions of WAC 16-310-210.

(4) The department will notify the board of any laboratories that are denied accreditation.

(b) If the department determines deficiencies are not corrected, they may revoke the laboratory's accreditation.

(2) The department may suspend or revoke accreditation for reasons including, but not limited to, the following laboratory actions:

(a) Failure to comply with standards in chapter 16-309 WAC and this chapter;

(b) Violating a state rule relative to the analytical procedures for which it is accredited;

(c) Misrepresenting itself to the department;

(d) Falsifying reports of analysis including PT results;

Chapter 132K-220 WAC
EXPRESSIVE ACTIVITIES POLICY

NEW SECTION

WAC 132K-220-010 General policy. Pierce College is an educational institution provided and maintained by the people of the state of Washington. College facilities are reserved primarily for educational use including, but not limited to, instruction, research, public assembly of college groups, student activities, and other activities directly related to the educational mission of the college. The public character of the college does not grant to individuals or groups an unlimited license to engage in activity which limits, interferes with, or otherwise disrupts the normal activities to which the college's facilities are dedicated. Accordingly, the college estab-

lishes the common areas of the college as a limited public forum dedicated to the use of college groups for expressive activity, subject to the college's time, place, and manner limitations and restrictions set forth in this policy or otherwise specified.

The purpose of the time, place, and manner regulations set forth in this policy is to establish procedures and reasonable controls for the use of college facilities. These regulations are intended to balance the college's responsibility to fulfill its mission as a state educational institution of Washington with the interests of college groups seeking to assemble in common areas of the campus for expressive activity. The college recognizes that college groups should be accorded the opportunity to utilize the facilities and grounds of the college to the fullest extent possible. The college has designated certain facilities as public use areas open to noncollege groups as set forth herein.

NEW SECTION

WAC 132K-220-020 Definitions. For purposes of this policy, the following definitions are used:

(1) "College facilities" means all college buildings, structures, grounds, office space, classrooms, and parking lots. This includes both physical and online/virtual version of these spaces.

(2) "College groups" means individuals or groups who are currently enrolled students or current employees of the college, or guests of the college who are sponsored by a recognized student organization, employee organization, or the administration of the college.

(3) "Common areas" means those indoor and outdoor areas of each campus established by the college where college groups may assemble for expressive activity, subject to the college's reasonable time, place, and manner restrictions.

(4) "Expressive activity" means activity protected by the first amendment and includes, but is not necessarily limited to, activities such as informational picketing, petition circulation, the distribution of informational leaflets or pamphlets, speech-making, demonstrations, rallies, appearances of speakers in outdoor areas, protests, meetings to display group feelings or sentiments, or other types of assemblies to share information, perspective, or viewpoints.

(5) "Noncollege groups" means individuals or groups who are not currently enrolled students or current employees of the college and who are not officially affiliated or associated with, or invited guests of a recognized student organization, recognized employee group, or the administration of the college.

(6) "Public use areas" means those outdoor areas of each campus that the college has chosen to open as places where both college groups and noncollege groups may assemble for expressive activity, subject to the college's reasonable time, place, and manner restrictions.

NEW SECTION

WAC 132K-220-030 Use of college facilities. (1) Subject to the regulations and requirements of this policy, groups may use the campus

common areas for expressive activities between the hours of 7:00 a.m. and 10:00 p.m.

(2) Any sound amplification device may only be used at a volume that does not disrupt or disturb the normal use of classrooms, offices, laboratories, or any previously scheduled college event or activity.

(3) Groups are encouraged to notify the campus public safety department no later than 24 hours in advance of an expressive activity. However, unscheduled expressive activities are permitted so long as the activity does not disrupt any other event or activity occurring at the college facility.

(4) All sites used for expressive activity must be cleaned up and left in their original condition and may be subject to inspection by a representative of the college after the activity. Reasonable charges may be assessed against the sponsoring organization for the costs of clean-up or for the repair of damaged property.

(5) All groups must comply with all fire, safety, and sanitation regulations, and any special requirements specified for the expressive activity. The college cannot and will not provide utility connections or hook-ups for purposes of expressive activity conducted pursuant to this policy.

(6) The expressive activity must not be conducted in such a manner to obstruct vehicular, bicycle, pedestrian, or other traffic or otherwise interfere with ingress or egress to the college, college buildings or facilities, or to college activities or events. The expressive activity must not create safety hazards or pose safety risks to people or property.

(7) The expressive activity must not interfere with educational or institutional activities inside or outside any college building or otherwise prevent the college from fulfilling its mission and achieving its primary purpose of providing an education to its students. The expressive activity must not materially infringe on the rights and privileges of college students, employees, or guests to the college.

(8) There shall be no overnight camping in or on college facilities. Camping is defined to include unauthorized: Sleeping, cooking activities, storing or use of personal belongings for habitation, and/or the erection of tents, shelters, or other structures used for purposes of habitation.

(9) College facilities may not be used for commercial sales, solicitations, advertising, or promotional activities, unless:

(a) Such activities serve educational purposes of the college; and

(b) Such activities are under the sponsorship of a college department, office, or recognized student organization.

(10) The expressive activity must also be conducted in accordance with any other applicable college policies and regulations, local ordinances, and state or federal laws.

NEW SECTION

WAC 132K-220-040 Additional requirements for noncollege groups.

(1) College buildings, rooms, and athletic fields may be rented by noncollege groups in accordance with the use of district facilities policy. Renting a college facility does not relieve individuals or groups from adhering to this policy.

(2) The college has established public use areas for use as limited public forums. These areas can be used by noncollege groups for expressive activity (i.e., speech and assembly) on campus. Areas identified as limited public forums can be found on the Pierce College website at <https://www.pierce.ctc.edu/maps>.

Public use areas may be scheduled. Scheduled groups have priority of use over unscheduled groups.

(3) Noncollege groups that seek to engage in expressive activity are encouraged to provide notice to the campus safety office no later than 24 hours prior to the expressive activity along with the following information to ensure the area is not otherwise scheduled, and to give the college an opportunity to assess any security needs:

(a) The name, address, and telephone number of a contact person for the individual, group, entity or organization sponsoring the expressive activity; and

(b) The date, time, and requested location of the expressive activity; and

(c) The nature and purpose of the expressive activity; and

(d) The estimated number of people expected to participate in the expressive activity.

NEW SECTION

WAC 132K-220-050 Distribution of materials. (1) College groups may post information on bulletin boards, and other display areas designated for that purpose, and may distribute materials throughout the common and public use areas of campus. Noncollege groups may distribute materials only in public use areas.

(2) All groups are encouraged to include the sponsoring organization's name and address on the distributed or posted information.

(3) Materials are subject to a posting time limit and require a date stamp prior to posting. Materials may be removed after the expiration of the date stamp time limit or if they do not have a date stamp.

PERMANENT RULES

DEPARTMENT OF HEALTH

[Filed June 20, 2024, 8:11 a.m., effective July 21, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: Audiologist and speech-language pathology interstate compact (ASLP-IC) fees and renewal cycle. The department of health (department), in consultation with the board of hearing and speech, is adopting new WAC 246-828-991 to implement HB 1001 (chapter 53, Laws of 2023). HB 1001, codified in chapter 18.35A RCW, entered Washington state into the ASLP-IC for audiologists and speech-language pathologists and gave member states the discretion to charge a fee for granting compact privileges.

The ASLP-IC is a formal agreement enacted into law among participating states that allows member states to grant practice privileges to licensed audiologists and speech-language pathologists from other states. Under the ASLP-IC, licensees who wish to practice in, but live outside of, Washington may obtain privilege to practice in Washington or any other participating member state. The purpose of entering into the ASLP-IC is to improve public access to audiology and speech-language pathology services.

RCW 18.35A.030(10) allows the state of Washington to collect fees for granting the compact privilege of practicing in the state. The adopted rule sets a fee and a renewal cycle for granting practice privileges in Washington through the compact. Setting a fee and renewal cycle is necessary because RCW 43.70.250 requires that the costs of each professional licensing program be fully borne by members of that profession. Additionally, the office of financial management requires professions maintain a reasonable cash reserve to cover fluctuations in cash flow and operating expenses. The adopted rule is needed to ensure the department is in alignment with RCW 43.70.250, and chapter 18.35A RCW, and to ensure that there is sufficient funding to recover the costs of issuing a license for compact privileges in Washington state.

Citation of Rules Affected by this Order: New WAC 246-828-991.

Statutory Authority for Adoption: HB 1001 (chapter 53, Laws of 2023); RCW 43.70.110, 43.70.250, and 43.70.280.

PERMANENT RULES

DEPARTMENT OF HEALTH

[Filed June 20, 2024, 8:25 a.m., effective July 21, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: Athletic trainer scope of practice for medication purchase, storage, and administration. The department of health (department) in collaboration with the athletic training advisory committee (committee) is adopting a new section in chapter 246-916 WAC in response to SHB 1275 (chapter 143, Laws of 2023) that passed during the 2023 legislative session. SHB 1275 authorized athletic trainers to purchase, store, and administer over-the-counter medications as prescribed by an authorized health care practitioner for the practice of athletic training. SHB 1275 also permits athletic trainers who have completed accredited training programs on pharmacology and medication administration to purchase, store, and administer medications other than over-the-counter medications as prescribed by an authorized health care practitioner, and in accordance with the training program.

The purpose of the adopted medications rule, WAC 246-916-070, is to:

(1) Define terms to provide direction to athletic trainers regarding what types of medications an athletic trainer is permitted to purchase, store, and administer; and

(2) Create training requirements for athletic trainers who would like to purchase, store, and administer medications for the practice of athletic training.

The adopted rule provides clear instructions and requirements for athletic trainers to use both over-the-counter and prescription medications as a part of athletic training care, while supporting patient safety.

The purpose of rule making was to clarify that athletic trainers are not permitted to purchase, store, or administer controlled substances, as that would conflict with chapter 69.50 RCW, Uniform Controlled Substances Act. Chapter 69.50 RCW excludes athletic trainers from handling medications that are controlled substances. Rule making was also necessary to create enforceable standards and set training requirements for athletic trainers seeking to purchase, store, or administer medications while providing athletic training services.

Citation of Rules Affected by this Order: New WAC 246-916-070.

Statutory Authority for Adoption: RCW 18.250.020 and 18.250.030.

Other Authority: SHB 1275 (chapter 143, Laws of 2023) codified as RCW 18.250.110.
