15 the greatest potential to move their operations out-of-state as a
16 result of the agreements;

17 (h) Identify what measures, if any, can be undertaken domestically
18 to improve the competitiveness of each of these sectors under the
19 agreements; and

20 (i) Identify traded sectors other than those comprising the six
21 most significant that are presented with competitive advantages and
22 exhibit significant potential for growth as a result of the agreements.

23 (2) The department shall identify and utilize in the study existing
24 analyses, studies, and data from the federal government, national and
25 state business and labor organizations, and educational and policy
26 institutes.

27 (3) The department of trade and economic development shall report
28 the findings of the study conducted under this section before July 1,
