18 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

1 NEW SECTION. **Sec. 1.** This act shall be known as the higher
2 education consolidation act.

3 NEW SECTION. **Sec. 2.** The legislature finds that Washington needs
4 to reexamine and transform the way higher education programs and
5 services are delivered. Washington's adult citizens face significant
6 challenges in the coming years as they strive to meet the challenge of
7 an increasingly complex world. One arena that poses a major challenge
8 is Washington's economy. It is in the process of a radical
9 transformation from an economy heavily dependent on natural resources
10 to an economy that depends increasingly on the strength of
11 international trade, technology industries, and other emerging new
12 businesses. Successful economic transformations will require an
13 educated populace, able to compete in a technologically complex world.
14 Yet, during the 1980's and 1990's, enrollments in Washington's public
15 baccalaureate institutions have been strictly controlled. Currently,
16 Washington ranks second to last nationally in the percentage of its
17 citizens who have an opportunity to enroll in a public baccalaureate
18 college or university in the state. By the year 2010, high school
19 graduation classes in Washington will grow by fifty percent above the
20 number of students graduating in 1995. Yet, the state has not yet made
21 a commitment to providing enrollment opportunities for those new high
22 school graduates. Failure to provide postsecondary educational
23 opportunities for those graduates may well restrict their future
24 earning power as well as the state's economic health.

25 The legislature finds that Washington needs to find a way to
26 increase access to colleges and universities in a cost-effective
27 manner. Washington can no longer afford extensive program
28 duplications, low faculty-to-student ratios, modest faculty teaching
29 loads in some academic departments, and the amount of funding devoted
30 to administrative functions at public colleges and universities. In
31 order to assist the institutions to meet the challenges facing higher
32 education, the legislature intends to revise the governance structure
33 of the public baccalaureate college and universities. The legislature
34 further intends to create a consolidated governing board for those
35 institutions. The consolidated governing board will be able to reduce
36 unnecessary program duplications, increase the average teaching loads
37 of faculty members, prove the average amount of time needed to obtain
38 a degree, reduce administrative overhead, and advocate for the needs of

1 the baccalaureate system. The institutions will be able to concentrate
2 on meeting the needs of students and of members of the communities
3 served by the institutions. To assist the board in its work, the
4 legislature intends to reduce administrative requirements placed on the
5 institutions by state agencies and to provide a budgeting method that
6 includes incentive funding and performance based budgeting procedures.

7 NEW SECTION. **Sec. 3.** Unless the context clearly requires
8 otherwise, the definitions in this section apply throughout this
9 chapter.

10 (1) "Board" means the board of regents of the Washington state
11 college and university system.
