SENATE BILL 6433

---

State of Washington

54th Legislature

1996 Regular Session

By Senators Fraser, Winsley, Spanel, Haugen, Johnson, Snyder and Sutherland

Read first time 01/15/96. Referred to Committee on Ecology & Parks.

1 AN ACT Relating to the integration of water resources and growth  
2 management; amending RCW 36.70A.020 and 36.70A.210; reenacting and  
3 amending RCW 36.70A.070; and adding a new section to chapter 36.70A  
4 RCW.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 **Sec. 1.** RCW 36.70A.020 and 1990 1st ex.s. c 17 s 2 are each  
7 amended to read as follows:

8 The following goals are adopted to guide the development and  
9 adoption of comprehensive plans and development regulations of those  
10 counties and cities that are required or choose to plan under RCW  
11 36.70A.040. The following goals are not listed in order of priority  
12 and shall be used exclusively for the purpose of guiding the  
13 development of comprehensive plans and development regulations:

14 (1) Urban growth. Encourage development in urban areas where  
15 adequate public facilities and services exist or can be provided in an  
16 efficient manner.

17 (2) Reduce sprawl. Reduce the inappropriate conversion of  
18 undeveloped land into sprawling, low-density development.

1 (3) Transportation. Encourage efficient multimodal transportation  
2 systems that are based on regional priorities and coordinated with  
3 county and city comprehensive plans.

4 (4) Housing. Encourage the availability of affordable housing to  
5 all economic segments of the population of this state, promote a  
6 variety of residential densities and housing types, and encourage  
7 preservation of existing housing stock.

8 (5) Economic development. Encourage economic development  
9 throughout the state that is consistent with adopted comprehensive  
10 plans, promote economic opportunity for all citizens of this state,  
11 especially for unemployed and for disadvantaged persons, and encourage  
12 growth in areas experiencing insufficient economic growth, all within  
13 the capacities of the state's natural resources, public services, and  
14 public facilities.

15 (6) Property rights. Private property shall not be taken for  
16 public use without just compensation having been made. The property  
17 rights of landowners shall be protected from arbitrary and  
18 discriminatory actions.

19 (7) Permits. Applications for both state and local government  
20 permits should be processed in a timely and fair manner to ensure  
21 predictability.

22 (8) Natural resource industries. Maintain and enhance natural  
23 resource-based industries, including productive timber, agricultural,  
24 and fisheries industries. Encourage the conservation of productive  
25 forest lands and productive agricultural lands, and discourage  
26 incompatible uses.

27 (9) Open space and recreation. Encourage the retention of open  
28 space and development of recreational opportunities, conserve fish and  
29 wildlife habitat, increase access to natural resource lands and water,  
30 and develop parks.

31 (10) Environment. Protect the environment and enhance the state's  
32 high quality of life, including air and water quality(~~(, and the~~  
33 ~~availability of water~~)). Ensure that new land uses are served by  
34 adequate water supplies obtained where possible through water  
35 conservation, and that growth be managed to avoid adverse effects on  
36 existing instream and out-of-stream water uses and on existing ground  
37 water sources.

1 (11) Citizen participation and coordination. Encourage the  
2 involvement of citizens in the planning process and ensure coordination  
3 between communities and jurisdictions to reconcile conflicts.

4 (12) Public facilities and services. Ensure that those public  
5 facilities and services necessary to support development shall be  
6 adequate to serve the development at the time the development is  
7 available for occupancy and use without decreasing current service  
8 levels below locally established minimum standards.

9 (13) Historic preservation. Identify and encourage the  
10 preservation of lands, sites, and structures, that have historical or  
11 archaeological significance.

12 **Sec. 2.** RCW 36.70A.070 and 1995 c 400 s 3 and 1995 c 377 s 1 are  
13 each reenacted and amended to read as follows:

14 The comprehensive plan of a county or city that is required or  
15 chooses to plan under RCW 36.70A.040 shall consist of a map or maps,  
16 and descriptive text covering objectives, principles, and standards  
17 used to develop the comprehensive plan. The plan shall be an  
18 internally consistent document and all elements shall be consistent  
19 with the future land use map. A comprehensive plan shall be adopted  
20 and amended with public participation as provided in RCW 36.70A.140.

21 Each comprehensive plan shall include a plan, scheme, or design for  
22 each of the following:

23 (1)(a) A land use element designating the proposed general  
24 distribution and general location and extent of the uses of land, where  
25 appropriate, for agriculture, timber production, housing, commerce,  
26 industry, recreation, open spaces, public utilities, public facilities,  
27 and other land uses. The land use element shall include population  
28 densities, building intensities, and estimates of future population  
29 growth.

30 (b) The land use element shall provide for protection of the  
31 quality and quantity of surface water and ground water used for public  
32 water supplies. Where applicable, the land use element shall review  
33 drainage, flooding, and storm water run-off in the area and nearby  
34 jurisdictions and provide guidance for corrective actions to mitigate  
35 or cleanse those discharges that pollute waters of the state, including  
36 Puget Sound or waters entering Puget Sound. The land use element shall  
37 address water uses needed by the land uses proposed and the proposed  
38 sources of supply for such uses, including conservation, transfers from

1 existing uses, or new sources. The water supply portion of the land  
2 use element may adopt or incorporate all or applicable portions of a  
3 regional water resources management plan adopted under chapter 90.54  
4 RCW.

5 (2) A housing element ensuring the vitality and character of  
6 established residential neighborhoods that: (a) Includes an inventory  
7 and analysis of existing and projected housing needs; (b) includes a  
8 statement of goals, policies, objectives, and mandatory provisions for  
9 the preservation, improvement, and development of housing, including  
10 single-family residences; (c) identifies sufficient land for housing,  
11 including, but not limited to, government-assisted housing, housing for  
12 low-income families, manufactured housing, multifamily housing, and  
13 group homes and foster care facilities; and (d) makes adequate  
14 provisions for existing and projected needs of all economic segments of  
15 the community.

16 (3) A capital facilities plan element consisting of: (a) An  
17 inventory of existing capital facilities owned by public entities,  
18 showing the locations and capacities of the capital facilities; (b) a  
19 forecast of the future needs for such capital facilities; (c) the  
20 proposed locations and capacities of expanded or new capital  
21 facilities; (d) at least a six-year plan that will finance such capital  
22 facilities within projected funding capacities and clearly identifies  
23 sources of public money for such purposes; and (e) a requirement to  
24 reassess the land use element if probable funding falls short of  
25 meeting existing needs and to ensure that the land use element, capital  
26 facilities plan element, and financing plan within the capital  
27 facilities plan element are coordinated and consistent. The inventory  
28 required by (a) of this subsection shall include existing capital  
29 facilities for water supply owned by private entities, including exempt  
30 and nonexempt wells, and the forecasts and plan element required under  
31 this subsection shall consider projected water supply provision by  
32 existing, new, or expanded private water supply purveyors.

33 (4) A utilities element consisting of the general location,  
34 proposed location, and capacity of all existing and proposed utilities,  
35 including, but not limited to, electrical lines, telecommunication  
36 lines, and natural gas lines.

37 (5) Counties shall include a rural element including lands that are  
38 not designated for urban growth, agriculture, forest, or mineral  
39 resources. The rural element shall permit appropriate land uses that

1 are compatible with the rural character of such lands and provide for  
2 a variety of rural densities and uses and may also provide for  
3 clustering, density transfer, design guidelines, conservation  
4 easements, and other innovative techniques that will accommodate  
5 appropriate rural uses not characterized by urban growth.

6 (6) A transportation element that implements, and is consistent  
7 with, the land use element. The transportation element shall include  
8 the following subelements:

9 (a) Land use assumptions used in estimating travel;

10 (b) Facilities and services needs, including:

11 (i) An inventory of air, water, and land transportation facilities  
12 and services, including transit alignments, to define existing capital  
13 facilities and travel levels as a basis for future planning;

14 (ii) Level of service standards for all arterials and transit  
15 routes to serve as a gauge to judge performance of the system. These  
16 standards should be regionally coordinated;

17 (iii) Specific actions and requirements for bringing into  
18 compliance any facilities or services that are below an established  
19 level of service standard;

20 (iv) Forecasts of traffic for at least ten years based on the  
21 adopted land use plan to provide information on the location, timing,  
22 and capacity needs of future growth;

23 (v) Identification of system expansion needs and transportation  
24 system management needs to meet current and future demands;

25 (c) Finance, including:

26 (i) An analysis of funding capability to judge needs against  
27 probable funding resources;

28 (ii) A multiyear financing plan based on the needs identified in  
29 the comprehensive plan, the appropriate parts of which shall serve as  
30 the basis for the six-year street, road, or transit program required by  
31 RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW  
32 35.58.2795 for public transportation systems;

33 (iii) If probable funding falls short of meeting identified needs,  
34 a discussion of how additional funding will be raised, or how land use  
35 assumptions will be reassessed to ensure that level of service  
36 standards will be met;

37 (d) Intergovernmental coordination efforts, including an assessment  
38 of the impacts of the transportation plan and land use assumptions on  
39 the transportation systems of adjacent jurisdictions;

1 (e) Demand-management strategies.

2 After adoption of the comprehensive plan by jurisdictions required  
3 to plan or who choose to plan under RCW 36.70A.040, local jurisdictions  
4 must adopt and enforce ordinances which prohibit development approval  
5 if the development causes the level of service on a transportation  
6 facility to decline below the standards adopted in the transportation  
7 element of the comprehensive plan, unless transportation improvements  
8 or strategies to accommodate the impacts of development are made  
9 concurrent with the development. These strategies may include  
10 increased public transportation service, ride sharing programs, demand  
11 management, and other transportation systems management strategies.  
12 For the purposes of this subsection (6) "concurrent with the  
13 development" shall mean that improvements or strategies are in place at  
14 the time of development, or that a financial commitment is in place to  
15 complete the improvements or strategies within six years.

16 The transportation element described in this subsection, and the  
17 six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for  
18 counties, and RCW 35.58.2795 for public transportation systems, must be  
19 consistent.

20 **Sec. 3.** RCW 36.70A.210 and 1994 c 249 s 28 are each amended to  
21 read as follows:

22 (1) The legislature recognizes that counties are regional  
23 governments within their boundaries, and cities are primary providers  
24 of urban governmental services within urban growth areas. For the  
25 purposes of this section, a "county-wide planning policy" is a written  
26 policy statement or statements used solely for establishing a county-  
27 wide framework from which county and city comprehensive plans are  
28 developed and adopted pursuant to this chapter. This framework shall  
29 ensure that city and county comprehensive plans are consistent as  
30 required in RCW 36.70A.100. Nothing in this section shall be construed  
31 to alter the land-use powers of cities.

32 (2) The legislative authority of a county that plans under RCW  
33 36.70A.040 shall adopt a county-wide planning policy in cooperation  
34 with the cities located in whole or in part within the county as  
35 follows:

36 (a) No later than sixty calendar days from July 16, 1991, the  
37 legislative authority of each county that as of June 1, 1991, was  
38 required or chose to plan under RCW 36.70A.040 shall convene a meeting

1 with representatives of each city located within the county for the  
2 purpose of establishing a collaborative process that will provide a  
3 framework for the adoption of a county-wide planning policy. In other  
4 counties that are required or choose to plan under RCW 36.70A.040, this  
5 meeting shall be convened no later than sixty days after the date the  
6 county adopts its resolution of intention or was certified by the  
7 office of financial management.

8 (b) The process and framework for adoption of a county-wide  
9 planning policy specified in (a) of this subsection shall determine the  
10 manner in which the county and the cities agree to all procedures and  
11 provisions including but not limited to desired planning policies,  
12 deadlines, ratification of final agreements and demonstration thereof,  
13 and financing, if any, of all activities associated therewith.

14 (c) If a county fails for any reason to convene a meeting with  
15 representatives of cities as required in (a) of this subsection, the  
16 governor may immediately impose any appropriate sanction or sanctions  
17 on the county from those specified under RCW 36.70A.340.

18 (d) If there is no agreement by October 1, 1991, in a county that  
19 was required or chose to plan under RCW 36.70A.040 as of June 1, 1991,  
20 or if there is no agreement within one hundred twenty days of the date  
21 the county adopted its resolution of intention or was certified by the  
22 office of financial management in any other county that is required or  
23 chooses to plan under RCW 36.70A.040, the governor shall first inquire  
24 of the jurisdictions as to the reason or reasons for failure to reach  
25 an agreement. If the governor deems it appropriate, the governor may  
26 immediately request the assistance of the department of community,  
27 trade, and economic development to mediate any disputes that preclude  
28 agreement. If mediation is unsuccessful in resolving all disputes that  
29 will lead to agreement, the governor may impose appropriate sanctions  
30 from those specified under RCW 36.70A.340 on the county, city, or  
31 cities for failure to reach an agreement as provided in this section.  
32 The governor shall specify the reason or reasons for the imposition of  
33 any sanction.

34 (e) No later than July 1, 1992, the legislative authority of each  
35 county that was required or chose to plan under RCW 36.70A.040 as of  
36 June 1, 1991, or no later than fourteen months after the date the  
37 county adopted its resolution of intention or was certified by the  
38 office of financial management the county legislative authority of any  
39 other county that is required or chooses to plan under RCW 36.70A.040,

1 shall adopt a county-wide planning policy according to the process  
2 provided under this section and that is consistent with the agreement  
3 pursuant to (b) of this subsection, and after holding a public hearing  
4 or hearings on the proposed county-wide planning policy.

5 (3) A county-wide planning policy shall at a minimum, address the  
6 following:

7 (a) Policies to implement RCW 36.70A.110;

8 (b) Policies for promotion of contiguous and orderly development  
9 and provision of urban services to such development;

10 (c) Policies for siting public capital facilities of a county-wide  
11 or state-wide nature;

12 (d) Policies for county-wide transportation facilities and  
13 strategies;

14 (e) Policies that consider the need for affordable housing, such as  
15 housing for all economic segments of the population and parameters for  
16 its distribution;

17 (f) Policies for joint county and city planning within urban growth  
18 areas;

19 (g) Policies for county-wide economic development and employment;  
20 ((and))

21 (h) Policies to achieve water resource management within  
22 hydrological units and to provide coordinated policies and programs  
23 among jurisdictions within such units; and

24 (i) An analysis of the fiscal impact.

25 (4) Federal agencies and Indian tribes may participate in and  
26 cooperate with the county-wide planning policy adoption process.  
27 Adopted county-wide planning policies shall be adhered to by state  
28 agencies.

29 (5) Failure to adopt a county-wide planning policy that meets the  
30 requirements of this section may result in the imposition of a sanction  
31 or sanctions on a county or city within the county, as specified in RCW  
32 36.70A.340. In imposing a sanction or sanctions, the governor shall  
33 specify the reasons for failure to adopt a county-wide planning policy  
34 in order that any imposed sanction or sanctions are fairly and  
35 equitably related to the failure to adopt a county-wide planning  
36 policy.

37 (6) Cities and the governor may appeal an adopted county-wide  
38 planning policy to the growth management hearings board within sixty  
39 days of the adoption of the county-wide planning policy.

1 (7) Multicounty planning policies shall be adopted by two or more  
2 counties, each with a population of four hundred fifty thousand or  
3 more, with contiguous urban areas and may be adopted by other counties,  
4 according to the process established under this section or other  
5 processes agreed to among the counties and cities within the affected  
6 counties throughout the nmulticounty region.

7 NEW SECTION. **Sec. 4.** A new section is added to chapter 36.70A RCW  
8 to read as follows:

9 In making the population forecasts required under this chapter, the  
10 office of financial management shall consider existing water supply  
11 availability and projected demand, commencing no later than January 1,  
12 1998. The office may consult with the departments of health and  
13 ecology for information on existing and projected water uses, the  
14 condition and quantities of water from ground water and surface water  
15 sources, reasonable water use levels for differing types of uses,  
16 considering conservation measures, and other water resource  
17 information.

--- END ---
