AS AMENDED BY THE HOUSE

Passed Legislature - 1995 Regular Session

State of Washington                      54th Legislature                      1995 Regular Session

By Senate Committee on Ways & Means (originally sponsored by Senators Owen, Drew and Oke)

Read first time 03/06/95.

1            AN ACT Relating to regional fisheries enhancement program; amending  
2 RCW 75.50.110, 75.50.120, and 75.08.230; reenacting and amending RCW  
3 75.50.100; adding new sections to chapter 75.50 RCW; adding a new  
4 section to chapter 90.58 RCW; and declaring an emergency.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6            NEW SECTION.    **Sec. 1.** A new section is added to chapter 75.50 RCW  
7 to read as follows:

8            The legislature finds that:

9            (1) Regional enhancement groups are a valuable resource for  
10 anadromous fish recovery. They improve critical fish habitat and  
11 directly contribute to anadromous fish populations through fish  
12 restoration technology.

13            (2) Due to a decrease in recreational and commercial salmon license  
14 sales, regional enhancement groups are receiving fewer financial  
15 resources at a time when recovery efforts are needed most.

16            (3) To maintain regional enhancement groups as an effective  
17 enhancement resource, technical assets of state agencies must be  
18 coordinated and utilized to maximize the financial resources of  
19 regional enhancement groups and overall fish recovery efforts.

1        NEW SECTION.    **Sec. 2.**    A new section is added to chapter 75.50 RCW  
2 to read as follows:

3        The department's habitat division shall work with cities, counties,  
4 and regional fisheries enhancement groups to develop a program to  
5 identify and expedite the removal of human-made or caused impediments  
6 to anadromous fish passage. A priority shall be given to projects that  
7 immediately increase access to available and improved spawning and  
8 rearing habitat for depressed, threatened, and endangered stocks. The  
9 department may contract with cities and counties to assist in the  
10 identification and removal of impediments to anadromous fish passage.

11        A report on the progress of impediment identification and removal  
12 and the need for any additional legislative action shall be submitted  
13 to the senate and the house of representatives natural resources  
14 committees no later than January 1, 1996.

15        NEW SECTION.    **Sec. 3.**    A new section is added to chapter 75.50 RCW  
16 to read as follows:

17        To maximize available state resources, the department and the  
18 department of transportation shall work in partnership with the  
19 regional fisheries enhancement group advisory board to identify  
20 cooperative projects to eliminate fish passage barriers caused by state  
21 roads and highways. The advisory board may provide input to the  
22 department to aid in identifying priority barrier removal projects that  
23 can be accomplished with the assistance of regional fisheries  
24 enhancement groups. The department of transportation shall provide  
25 engineering and other technical services to assist regional fisheries  
26 enhancement groups with fish passage barrier removal projects, provided  
27 that the barrier removal projects have been identified as a priority by  
28 the department of fish and wildlife and the department of  
29 transportation has received an appropriation to continue the fish  
30 barrier removal program.

31        NEW SECTION.    **Sec. 4.**    A new section is added to chapter 90.58 RCW  
32 to read as follows:

33        A regional fisheries enhancement group or cooperative group project  
34 that is primarily designed to improve fish habitat or fish passage; has  
35 been approved by the department of fish and wildlife; has been given or  
36 is qualified to be given a hydraulic permit; and has been determined by  
37 local government to not substantially affect other concerns of this

1 chapter is exempt from the permitting requirements of this chapter. A  
2 letter of exemption must be obtained from the local government, which  
3 shall be provided in a timely manner.

4 **Sec. 5.** RCW 75.50.110 and 1990 c 58 s 4 are each amended to read  
5 as follows:

6 (1) A regional fisheries enhancement group advisory board is  
7 established to make recommendations to the director. ((The advisory  
8 board shall make recommendations regarding regional enhancement group  
9 rearing project proposals and funding of those proposals.)) The  
10 members shall be appointed by the director and consist of two  
11 commercial fishing representatives, two recreational fishing  
12 representatives, and three at-large positions. At least two of the  
13 advisory board members shall be members of a regional fisheries  
14 enhancement group. Advisory board members shall serve three-year  
15 terms. The advisory board membership shall include two members serving  
16 ex officio to be nominated, one through the Northwest Indian fisheries  
17 commission, and one through the Columbia river intertribal fish  
18 commission. The chair of the regional fisheries enhancement group  
19 advisory board shall be elected annually by members of the regional  
20 fisheries enhancement advisory board. The advisory board shall meet at  
21 least quarterly. All meetings of the advisory board shall be open to  
22 the public under the open public meetings act, chapter 42.30 RCW.

23 The department shall invite the advisory board to comment and  
24 provide input into all relevant policy initiatives, including, but not  
25 limited to, wild stock, hatcheries, and habitat restoration efforts.

26 (2) Members shall not be compensated but shall receive  
27 reimbursement for travel expenses in accordance with RCW 43.03.050 and  
28 43.03.060.

29 (3) The department may use account funds to provide agency  
30 assistance to the groups, to provide professional, administrative or  
31 clerical services to the advisory board, or to implement the training  
32 and technical services plan as developed by the advisory board pursuant  
33 to section 6 of this act. The level of account funds used by the  
34 department shall be determined by the director after review ((and)) of  
35 recommendation by the regional fisheries enhancement group advisory  
36 board and shall not exceed twenty percent of annual contributions to  
37 the account.

1        NEW SECTION.    **Sec. 6.**    A new section is added to chapter 75.50 RCW  
2 to read as follows:

11 be updated not less than every year. The advisory board shall provide  
12 ample opportunity for the public and interested parties to participate  
13 in the development of the plan. The plan shall include but is not  
14 limited to:
