Background:

The liquor revolving fund consists of all income from license fees, permit fees, penalties, forfeitures, and all other moneys, income, or revenue received by the Washington State Liquor Control Board.

Moneys from the liquor revolving fund are used to finance the operations of the Liquor

Control Board, and the remainder is distributed for a variety of purposes. Among other distributions, 0.3 percent of the moneys is allocated to border areas. For the purposes of this distribution, border areas are defined to include cities and towns located within seven miles of the Washington-Canadian border and one unincorporated area, Point Roberts. The total allocation is divided among border cities and towns and Point Roberts on the basis of border area traffic totals, border-related crime statistics, and border area per capita law enforcement spending.

Summary of Bill:

The definition of a border area is modified to include all unincorporated areas located within seven miles of the Washington-Canadian border. Distributions from the liquor revolving fund for unincorporated border areas are made to the counties governing those areas.
