Regulating race car driving schools.

Finds that currently in the state of Washington, race car driving schools are not subject to any form of licensing or regulation. The lack of oversight and industry accountability creates a potential for the operation of unsafe equipment and the employment of inconsistent safety standards.

Finds that no state in the United States regulates this industry and most of the schools in Washington state operate in the absence of critical safety policies and practices, such as having standby emergency care staff on the premises, and conducting regular safety checks of the vehicle's equipment.

Declares an intent to create a regulatory environment in which race car driving schools must operate in order that the consumers of this industry will be assured that steps have been taken to create a safe environment for them to learn in.

SB 5522-S by Senate Committee on Commerce & Trade (originally sponsored by Senators T. Sheldon, Brandland, Carlson and Hale)

Privatizing the sale of liquor.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the state of Washington currently contracts out part of its retail sales by allowing contract liquor stores to sell liquor. The legislature intends that further contracting

out of the state's retail liquor sales will result in a system that is more efficient than public sector retailing. Therefore, the legislature intends to close a portion of the state's retail liquor stores, to contract out their operation to private individuals, and to monitor the impact of the store closures.

Creates a task force on the contracting out of liquor to advise the board as it implements further contracting out of liquor stores.

Provides that, notwithstanding any other provision of law, the board is directed to implement the closure of twenty-five state liquor stores between July 1, 2005, and December 31, 2005. When determining which liquor stores to close, the board must give due consideration to recommendations from the task force. A state liquor store may not be closed unless at least one contract liquor store exists in the area served by the liquor store, or unless the board determines that reasonable alternative access is available to persons who previously purchased products from the state liquor store that is closing.

Declares that nothing in this act shall be construed to require the closing of any contract liquor stores having contracts with the board before January 1, 2003, to sell spirits and wine for off-premises consumption, or to require these contract liquor store managers to pay a fee to continue to operate their stores.

Directs the joint legislative audit and review committee to study the impacts of further contracting out the state's retail sale of liquor, and to deliver a report on their findings to the legislature by December 31, 2007. The legislature directs that the impacts to be studied shall include, but shall not be limited to: Underage access to alcohol in state retail liquor stores and contract liquor stores; alcohol consumption rates; state revenue; traffic accidents and fatalities related to alcohol use; and crimes directly related to alcohol use.

Provides that the requirements for counties and cities to consider best available science and conservation or protection measures shall be procedural requirements, not substantive requirements for the final adopted plans or regulations.

Provides that, in developing policies and development regulations, counties and cities: (1) May not consider approaches to protecting critical areas based on science derived from a different physical context than the one at issue, unless the approach is theoretically sound and specifically applicable to the physical context at issue, as determined by the county or city upon consultation with a qualified scientific expert in the applicable field or fields of science;

(2) Are not restricted to a precautionary or no-risk approach where there is an absence of adequate science applicable to the physical context at issue; and

(3) Should consider the cost-effectiveness of each alternative approach to protecting critical areas.

Provides that, by December 1, 2005, the office of permit assistance shall develop a guidance document for creating a unified project decision support document for state and federal agencies and local governments that will be sufficient to support all regulatory decision making.

Provides that, by December 1, 2005, the office shall develop recommendations for an integrated permit system to integrate project design, environmental review, permitting, and mitigation; develop recommendations for legislative changes to statutory authorizations and administrative procedures needed to establish the system; and develop detailed recommendations for full-scale testing of the system through one or more pilot projects.

Soliciting demonstration projects that modify the basic health plan.

Directs the administrator to solicit and approve applications from local organizations for demonstration projects for which the terms and conditions of chapter 70.47 RCW governing the design and operation of the basic health plan are modified.

SB 5999 by Senators Rossi, Hargrove, Deccio, T. Sheldon, Hale, Hewitt, Morton, Stevens, Sheahan, Schmidt, Oke, Haugen, Horn, Mulliken, Honeyford, Brandland, McCaslin and West

Controlling the costs of claims against public entities.

Finds that, while the common law doctrine of sovereign immunity declares that the state is immune from liability for the tortious conduct of its employees and officers, Article II, section 26 of the state Constitution allows the legislature to waive its immunity and specify by statute "in what manner, and in what courts, suit may be brought against the state." In the granting or withholding of sovereign immunity, there are limitations, gradations, and competing interests to be balanced by the legislature, including fairness to the citizens of the state, the preservation of proper and essential functions of government, and the conservation of scarce public resources.

Declares that, in balancing these competing interests, the legislature must also balance the traditional role of the jury in determining damages in civil cases and the legislature's constitutional mandate under Article VIII, section 4 of the state Constitution to protect the state treasury through the appropriation process.

Finds that these constitutional principles are not adequately served by either complete sovereign immunity or the complete waiver of sovereign immunity. Pursuant to the express authority of Article II, section 26 of the state Constitution, the purpose of this act is to recognize and implement these fundamental constitutional principles while providing a fair and equitable means of recovery against governmental entities for the negligent acts of their employees and officers.
