House Bills

HB 1065-S2 by House Committee on Capital Budget (originally sponsored by Representatives Conway, Kenney, Wood, Hudgins, McCoy, Sullivan and Simpson)

Establishing apprenticeship utilization requirements for public works projects.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Provides that, from July 1, 2003, through December 31, 2003, for all public works estimated to cost two million dollars or more, all specifications shall require that no less than twelve percent of the labor hours within each trade be performed by apprentices of that trade.

Provides that, from January 1, 2004, and thereafter, for all public works estimated to cost two million dollars or more, all specifications shall require that no less than fifteen percent of the labor hours within each trade be performed by apprentices of that trade.

Provides that, by January 1, 2004, and each year thereafter, the department of general administration shall compile and summarize the agency data and provide reports to the senate commerce and trade committee, the house of representatives commerce and labor committee, or their successor committees, and the governor. The report shall include recommendations on modifications or improvements to the apprentice utilization program.

Requires that, by January 1, 2004, and each year thereafter, the department of labor and industries must report to the senate commerce and trade committee, the house of representatives commerce and labor committee, or their successor committees, and the governor on skill shortages in each trade or craft.

-- 2003 REGULAR SESSION --

Mar 8 CB - Majority; 2nd substitute bill be substituted, do pass.

Mar 10 Passed to Rules Committee for second reading.

HB 1095-S2 by House Committee on Appropriations (originally sponsored by Representatives Rockefeller, Sump, Linville, Orcutt, Schoesler, Pearson, Holmquist, Haigh and Kristiansen; by request of Commissioner of Public Lands)

Limiting the impact on small forest landowners caused by forest road maintenance and abandonment requirements.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that chapter 4, Laws of 1999 sp. sess. strongly encouraged the forest practices board to adopt administrative rules that were substantially similar to the recommendations presented to the legislature in the form of the forests and fish report. The rules adopted pursuant to the 1999 legislation require all forest landowners to complete a road maintenance and abandonment plan, and those rules cannot be changed by the forest practices board without either a final order from a court, direct instructions from the legislature, or a recommendation from the adaptive management process.

Finds that, in the time since the enactment of chapter 4, Laws of 1999 sp. sess., it has become clear that both the planning aspect and the implementation aspect of the road maintenance and abandonment plan requirement may cause an unforeseen and unintended disproportionate financial hardship on small forest landowners.

Finds that it is in the state's interest to help small forest landowners comply with the requirements of the forests and fish report in a way that does not require the landowner to spend unreasonably high and unpredictable amounts of money to complete road maintenance and abandonment plan preparation and implementation.

Declares that the legislature does not intend to appropriate additional funds for the implementation of this act and expects all affected state agencies to implement this act's provisions within existing appropriations.

-- 2003 REGULAR SESSION --

Mar 8 APP - Majority; 2nd substitute bill be substituted, do pass.

Requires the rate to be at four percentage points above the equivalent coupon issue yield (as published by the board of governors of the federal reserve system) of the average bill rate for twenty-six week treasury bills as determined at the first bill market auction conducted during the calendar month immediately preceding the date of entry of the judgment.

HB 1338-S2 by House Committee on Appropriations (originally sponsored by Representatives Linville, Kirby, Lantz, Rockefeller, Shabro, Jarrett, Grant, Quall, Hunt, Delvin, Wallace, Woods, Benson, Morris and Conway; by request of Governor Locke)

Providing additional certainty for municipal water rights.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that the legislature has provided numerous means and considerable guidance to its communities regarding their growth and for providing essential services within them as they grow. While the legislature recognizes that the totality of the statutory law that governs such communities is found in a wide variety of places throughout the codified version of the statute laws, the Revised Code of Washington, the legislature also recognizes that it has not always expressly announced in the portion of those statutes generally referred to as the state's water laws how the nature of water rights held by municipal water suppliers accommodates the growth of and changes in communities and the requirements placed on them and authorities granted to them by other laws.

Finds that this is in part because state policies in the administration of the water laws have reflected the dynamic nature of human habitation and population growth from within and from without the state. For a very long time, these policies recognized that a water right for municipal water supply purposes is "perfected" when facilities for diverting or withdrawing and distributing the water are constructed but before all of the water is placed to actual use within the community or communities served.

Declares that, with the enactment of this legislation, the legislature intends to provide within the water laws a curative clarification of the relationship of water rights for municipal water supply purposes to the requirements of other law and the realities of growth.

Does not intend to appropriate additional funds for the implementation of this act and expects all affected state agencies to implement this act's provisions within existing funds.

Regarding construction projects in state waters.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Declares that the purposes of this act are to: (1) Clarify the purpose of the fishway and hydraulic project approval requirements of chapter 77.55 RCW as applied to works and projects related to drainage infrastructure including tide gates, flood gates, and pump stations;

(2) Specify a statutory process for the department of fish and wildlife to follow when imposing conditions on

(3) Create demonstration projects to assess the effectiveness of self-regulating tide gates in achieving fish passage and to test their impact, if any, on surrounding agricultural lands;

(4) Prioritize the use of public lands for fish habitat restoration projects; and

(5) Establish a task force to review issues regarding the implementation of fishway and hydraulic project approval requirements as they relate to designated agricultural lands, analyze the effectiveness of the demonstration projects for fish habitat restoration, and report any legislative recommendations to the legislature.

Provides that, in conjunction with other public landowners, the department shall create a salmon habitat restoration plan for all public lands in Skagit county. The plan shall include a list of public properties that must be restored for salmon, a description of how those properties can be altered to support salmon, a description of costs and sources of funds to restore the property, and a strategy and schedule for prioritizing the restoration of public lands for salmon habitat.

Requires the department to make the Skagit public lands salmon habitat restoration plan a priority and complete it by November 30, 2004.

Declares that the legislature does not intend to appropriate additional funds for the implementation of this act and expects all affected state agencies to implement this act's provisions within existing appropriations.

Establishing the Washington climate action registry.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that: (1) It is in the best interest of the state of Washington, the United States of America, and the earth as a whole, to encourage voluntary actions to achieve all economically beneficial reductions of greenhouse gas emissions from Washington sources.

(2) Mandatory reductions of greenhouse gas emissions may eventually be imposed on Washington sources, and, consequently, the state has a responsibility to use its best efforts to ensure that organizations that voluntarily reduce their emissions receive appropriate consideration for reductions in emissions made before mandatory programs are implemented.
