4 "may"

5 On page 2, line 30, after "education" strike "must assure that
6 sexual health education is consistent with the" and insert "may
7 utilize the"

8 On page 2, line 33, after "instruction" insert "in developing
9 a sexual health education curriculum"

10 On page 3, line 11, after "department" strike all material
11 through "of" on line 13 and insert "may make information available
12 pertaining to developments in the field of what constitutes"

EFFECT: Eliminates the requirement to assure that sexual health education is consistent with the 2005 Guidelines and states that school districts may use the 2005 Guidelines. Replaces the Department of Health's rulemaking authority regarding medically accurate information with the authority to make information available about developments in the field of what constitutes medically-accurate information.
