4 (1) The land, water, and other resources of Washington are being
5 severely impacted by the invasion of an increasing number of harmful
6 invasive plant and animal species.

7 (2) These impacts are resulting in damage to Washington's
8 environment and causing economic hardships.

9 (3) The multitude of public and private organizations with an
10 interest in controlling and preventing the spread of harmful invasive
11 species in Washington need a mechanism for cooperation, communication,
12 collaboration, and developing a statewide plan of action to meet these
13 threats.

14 NEW SECTION. **Sec. 2.** (1) There is created the Washington invasive
15 species council to exist until December 31, 2011. Staff support to the
16 council shall be provided by the committee and from the agencies

28 species.

1 (4) For the purposes of this chapter, "invasive species" include
2 nonnative organisms that cause economic or environmental harm and are
3 capable of spreading to new areas of the state. "Invasive species"

5 crops, or nonharmful exotic organisms.

35 Washington's citizens and ensure the economic and environmental well-
36 being of the state;

1 (2) Serve as a forum for identifying and understanding invasive
2 species issues from all perspectives;

3 (3) Serve as a forum to facilitate the communication, cooperation,
4 and coordination of local, tribal, state, federal, private, and
5 nongovernmental entities for the prevention, control, and management of

21 NEW SECTION. **Sec. 5.** (1) The council shall develop and
22 periodically update a statewide strategic plan for addressing invasive
23 species. The strategic plan should incorporate the reports and
24 activities of the aquatic nuisance species committee, the biodiversity
25 council, the state noxious weed control board, and other appropriate
26 reports and activities.

27 (2) The strategic plan must, at a minimum, address:
