

HB 2239 - DIGEST

Recognizes that the state as a whole benefits from investment in public infrastructure because it promotes community and economic development. Public investment stimulates business activity and helps create jobs; stimulates the redevelopment of brownfields and blighted areas in the inner city; lowers the cost of housing; and promotes efficient land use.

Finds that these activities generate revenue for the state and that it is in the public interest to invest in these projects through a credit against the state sales and use tax to those local governments that can demonstrate the expected returns to the state.
