HB 2152 by Representatives Roach, Santos, Shabro, Anderson, Dunn, Rodne, Ormsby and Haigh

Regarding the financial literacy public-private partnership.

Provides that, to the extent funds are appropriated or are available for this purpose, the superintendent of public instruction and other members of the partnership created in RCW 28A.300.455 shall make available to school districts the list of identified financial literacy skills and knowledge, instructional materials, assessments, and other relevant information.

Encourages each school district to provide its students with an opportunity to master the financial literacy skills and knowledge developed under RCW 28A.300.460.

Declares that, for the purposes of RCW 28A.300.455, 28A.300.460, and this act, it is not necessary to evaluate and apply the office of the superintendent of public instruction essential academic learning requirements or to develop grade level expectations.

Appropriates the sum of twenty-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the Washington financial literacy public-private partnership account for the purposes of RCW 28A.300.465.

Appropriates the sum of twenty-five thousand dollars, or as much thereof as may be necessary, for the fiscal year

ending June 30, 2007, from the general fund to the Washington financial literacy public-private account for the purposes of RCW 28A.300.465.

Declares that the amounts in this provision are provided solely for the purposes of RCW 28A.300.465.

HB 2155 by Representatives Lantz and Shabro; by request of Secretary of State

Regarding preservation of state publications by the state library services.

Recognizes that an informed citizenry is indispensable to the proper functioning of a democratic society. It is the basic right of citizens to know about the activities of their government, to benefit from the information developed at public expense, and to have permanent access to the information published by state agencies.

Declares that the state library within the office of the secretary of state should ensure permanent public access to public state government publications, regardless of the format, and prescribe the conditions for use of state publications in depository libraries.

HB 2156 by Representatives Hinkle, Kagi, Nixon, Pettigrew, McDonald, Dickerson, Pearson, Springer and Rodne

Regarding dependency and termination of parental rights.

Recognizes the importance of maintaining the family unit and the significance of the relationship between a child and a parent. However, when a parent demonstrates an inability to care for his or her child, the state must act to protect the child.

Finds that when a child has been removed from the care of a parent who has demonstrated his or her inability to care for the child, it is not appropriate to return the child to the

parent unless there is sufficient evidence that the child will be cared for and protected.

Finds that if the parent continues to demonstrate an inability or unwillingness to correct the deficiencies which led to the removal of the child, the child must not be placed in a situation in which he or she must live with uncertainty in his or her future.

Finds that there must be limitations upon the time a parent may be given to correct his or her parental deficiencies and that a parent must not be given repeated opportunities to have the child returned home when it is at the expense of the safety and stability of the child.

HB 2157 by Representatives Murray, Simpson, B. Sullivan, Dickerson, Sells, Ericks, McIntire and Conway

Authorizing the creation of a regional transportation improvement authority.

Finds that: (1) The capacity of many of Washington state's transportation facilities have failed to keep up with the state's growth, particularly in major urban regions;

(2) The state cannot by itself fund, in a timely way, many of the major capacity and other improvements required on highways of statewide significance in the state's largest urbanized area;

(3) Providing a transportation system that provides efficient mobility for persons and freight requires a shared partnership and responsibility between the state, local, and regional governments and the private sector;

(4) Timely construction and development of significant transportation improvement projects can best be achieved through enhanced funding options for governments at the county and regional levels, using already existing tax authority together with innovative funding approaches to address critical transportation needs and to provide authority for regions and counties to address transportation projects of regional and statewide significance; and

(5) The development of transportation improvements will require both state, and regional and local efforts. This act is intended to enhance this partnership, and not to replace the need for resources to be provided by the state.

Establishing a homeless housing program.

Finds that the fiscal and societal costs of homelessness are high for both the public and private sectors, and that ending homelessness is both morally and economically imperative.

Finds that there are many causes of homelessness, including a shortage of affordable housing; a shortage of family-wage jobs which undermines housing affordability; a lack of an accessible and affordable health care system available to all who suffer from physical and mental illnesses and chemical and alcohol dependency; domestic violence; and a lack of education and job skills necessary to acquire adequate wage jobs in the economy of the twenty-first century.

Finds that the support and commitment of all sectors of the statewide community is critical to the chances of success in ending homelessness in Washington. While the provision of housing and housing-related services to the homeless should be administered at the local level to best address specific community needs, the legislature also recognizes the need for the state to play a primary coordinating, supporting, and monitoring role.

Declares that the systematic collection and rigorous evaluation of homeless data, a search for and implementation through adequate resource allocation of best practices, and the systematic measurement of progress toward interim goals and the ultimate goal of ending homelessness are all necessary components of a statewide effort to end homelessness in Washington by July 1, 2015.

HB 2164 by Representatives Kagi and Dickerson

Regarding liability arising from acts or omissions of department of social and health services' workers.

Declares that, in an effort to protect the public health, safety, and welfare, the legislature has authorized and funded programs addressing child and elderly abuse and neglect and criminal offenders. The work undertaken by state employees and agents to deliver these important services requires them to make decisions based upon circumstantial evidence and measurable risk of harm associated with the available competing choices.

Declares that the legislature is obligated for policy reasons and fiscal responsibility to assure the state is accountable under fair and reasonable standards of negligence. The state cannot guarantee the safety of its citizens, particularly in cases of harm involving the criminal conduct of others. The legislature expects state workers to perform this difficult work nonnegligently, and does not intend to immunize the state for negligence.

Finds that the citizens of this state should not be liable when the state worker exercises reasonable care.

Concerning proceeds from the real estate excise tax.

Declares that, over the past decade, traditional school construction funding sources, such as timber revenues, have been declining, while the demand for school facility construction and improvements have been increasing. Washington's youth deserve safe, healthy, and supportive learning environments to help meet their educational needs.

Declares that, to increase state assistance for local school construction projects, the legislature expects to rely more on state bonding authority. The purpose of this act is to expand the constitutional definition of general state revenues by removing the dedication of a portion of the real estate excise tax for common schools. SB 6007 by Senators Finkbeiner and Stevens

Increasing child safety by requiring transition services in child placement matters.

Finds that all children, but particularly the youngest children, are harmed by multiple placements and the lack of a permanent home. Therefore, the legislature finds that when children are in out-of-home placement and subsequently returned to their parents more than three times, a petition for termination of parental rights must be filed, if in the best interests of the child.

Provides that, if the department fails to comply with the transition services requirements in chapter 13.34 RCW, any aggrieved person may institute proceedings for injunctive or other appropriate relief for enforcement of the requirement to provide evidence-based transition services. These proceedings may be instituted in the superior court for the county in which the person resides, or, if the person is not then a resident of this state, in the superior court for Thurston county.

Declares that in a proceeding under this act, the court shall enforce obedience to the requirement to provide evidence-based transition services by enjoining compliance upon the secretary. The court may issue such writs and processes as are necessary to carry out its orders and may award a penalty of up to one thousand dollars and reasonable attorneys' fees and court costs to the aggrieved person who instituted the proceedings.
