

HOUSE BILL REPORT

HB 1054

As Passed House:
February 5, 2007

Title: An act relating to membership of the information services board.

Brief Description: Modifying membership of the information services board.

Sponsors: By Representatives Hudgins, Crouse, Morris and Wallace.

Brief History:

Committee Activity:

Technology, Energy & Communications: 1/16/07, 1/24/07 [DP].

Floor Activity:

Passed House: 2/5/07, 85-7.

Brief Summary of Bill

- Requires that one member of the Information Services Board (Board) have direct experience using the software projects overseen by the Board, or reasonably expect to use new software developed by the Board.

HOUSE COMMITTEE ON TECHNOLOGY, ENERGY & COMMUNICATIONS

Majority Report: Do pass. Signed by 11 members: Representatives Morris, Chair; McCoy, Vice Chair; Crouse, Ranking Minority Member; McCune, Assistant Ranking Minority Member; Eddy, Ericksen, Hankins, Hudgins, Hurst, Takko and VanDeWege.

Staff: Kara Durbin (786-7133).

Background:

The Information Services Board (Board) provides authorization and oversight for managing large information technology projects administered by executive branch agency staff. Board members develop state information technology standards, govern acquisitions, review and approve the statewide information technology strategic plans, develop statewide or inter-agency technical policies, and provide oversight on large information technology projects.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

The Board is comprised of 15 members who represent the legislative, judicial, and executive branches of government, higher education institutions, and the private sector. Eight of the 15 members are appointed by the Governor. Of those eight members, one is a representative of higher education, one is a representative of an agency under a statewide official other than the Governor, and two are representatives of the private sector. The representation of the other four Governor-appointed members is not specified in statute.

Summary of Bill:

One of the Governor-appointed members of the Board must have direct experience using the software projects overseen by the Board, or reasonably expect to use new software developed under the oversight of the Board.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony:

(In support) We passed this bill out of committee last year. The purpose of the bill is to have people who use the software be involved in what type of software to purchase. While there currently exists an opportunity for users to provide input at the design stage, that doesn't necessarily involve input at the purchasing stage.

(Opposed) We do not support this bill because we already have a system in place that allows for end-user input, as it relates to specific projects.

Persons Testifying: (In support) Representative Hudgins, prime sponsor.

(Opposed) Tracy Guerin, Department of Information Services.

Persons Signed In To Testify But Not Testifying: None.
