Background:

The Department of Social and Health Services (Department) provides services to youth in foster care generally through age 18, unless the youth is in school or in treatment. In addition to foster care placement services, the Department may provide medical coverage through Medicaid or the Medical Assistance Program.

Medical coverage is generally available through age 18 for all children covered by Medicaid. A few young adults between ages 18 and 21 that remain in foster care maintain eligibility for medical assistance.

Summary of Second Substitute Bill:

Eligibility for Medicaid or Medical Assistance is extended for youth that were in foster care on their 18th birthday, up to age 21, irrespective of continuing placement in foster care.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed. However, the bill is null and void unless funded in the budget.

Staff Summary of Public Testimony: (Health Care & Wellness)

(In support) Extending Medicaid coverage to people aging out of foster care will result in reduced use of emergency rooms. It will help young adults coming from foster homes to keep health coverage until they are able to get a job and find health coverage through an employer.

(Concerns) The bill as introduced did not cover all out of home placements authorized by the federal government.

(Neutral) Funding for this proposal is not included in the Governor's budget request.

(Opposed) None.

Staff Summary of Public Testimony: (Appropriations)

(In support) The intent of this bill is to look at kids with a legal dependency with the state. We did not intend the bill to be retroactive. We will probably be dealing with a maximum population of 900 moving forward.

This is a straightforward bill. They are kids of the state. The bill will be a cost savings as kids who age out now don't receive preventative care. In 1999, the federal government gave permission to states to provide coverage until age 21. Twelve states have done that; as diverse as California and Mississippi. The bill also comes with a generous federal match.

Many youth will age out when they turn 18 with little financial or social support. This bill will help our youth make a better transition and improve their quality of life. They should receive Medicaid until 21.

(Opposed) None.
