12 ~~The tabulation of votes that results from that day's canvass must be~~
13 ~~made available to the general public immediately upon completion of the~~
14 ~~canvass.)~~

15 (2) Saturdays, Sundays, and legal holidays are not counted for
16 purposes of this section.

17 (3) In order to protect the secrecy of a ballot, the county auditor
18 may use discretion to decide when to process absentee ballots and
19 canvass the votes.

20 (4) Tabulation results must be made available to the public
21 immediately upon completion of the canvass.

22 **Sec. 3.** RCW 29A.60.170 and 2003 c 111 s 1517 are each amended to
23 read as follows:

24 (1) The counting center in a county using voting systems is under
25 the direction of the county auditor and must be observed by one
26 representative from each major political party, if representatives have
27 been appointed by the respective major political parties and these
28 representatives are present while the counting center is operating.
29 The proceedings must be open to the public, but no persons except those
30 employed and authorized by the county auditor may touch any ballot or
31 ballot container or operate a vote tallying system.

32 (2) In counties in which ballots are not counted at the polling
33 place, the official political party observers, upon mutual agreement,
34 may request that a precinct be selected at random on receipt of the
35 ballots from the polling place and that a manual count be made of the
36 number of ballots and of the votes cast on any office or issue. The
37 ballots for that precinct must then be counted by the vote tallying

1 system, and this result will be compared to the results of the manual
2 count. This may be done as many as three times during the tabulation
3 of ballots on the day of the primary or election.

4 (3) In counties using poll-site ballot counting devices, the
5 political party observers, upon mutual agreement, may choose as many as
6 three precincts and request that a manual count be made of the number
7 of ballots and the votes cast on any office or issue. The results of
8 this count will be compared to the count of the precinct made by the
9 poll-site ballot counting device. These selections must be made no
10 later than thirty minutes after the close of the polls. The manual
11 count must be completed within forty-eight hours after the close of the
12 polls. The process must take place at a location designated by the
13 county auditor for that purpose. The political party observers must
14 receive timely notice of the time and location, and have the right to
15 be present. However, the process must proceed as scheduled if the
16 observers are unable to attend.

17 (4) In counties voting entirely by mail, a random check of the
18 ballot counting equipment may be conducted upon mutual agreement of the
19 political party observers or at the discretion of the county auditor.
20 The random check procedures must be adopted by the county canvassing
21 board prior to the processing of ballots. The random check process
22 shall involve a comparison of a manual count to the machine count and
23 may involve up to either three precincts or six batches depending on
24 the ballot counting procedures in place in the county. The random
25 check will be limited to one office or issue on the ballots in the
26 precincts or batches that are selected for the check. The selection of
27 the precincts or batches to be checked must be selected according to
28 procedures established by the county canvassing board and the check
29 must be completed no later than forty-eight hours after election day.

30 NEW SECTION. Sec. 4. Section 1 of this act expires July 1, 2013.

31 NEW SECTION. Sec. 5. Section 2 of this act takes effect July 1,
32 2013.
