

SB 6112 - DIGEST

Provides that, no later than December 1, 2008, the department shall adopt rules creating a tax credit certification process for smart grid energy technologies that promise to significantly improve the reliability, efficiency, and environmental integrity of electrical transmission and distribution systems. The rules may not take effect until after the end of the next regular legislative session. "Smart grid energy technology" has the same meaning as provided in RCW 82.63.010.
