

SB 6200 - DIGEST

Declares the purpose of this act is to assure that persons or entities authorized to prescribe, dispense, or purchase prescription drugs in Washington use an evidence-based approach.

Finds that: (1) The state of Washington has an interest in maximizing the well-being of its residents and in containing health care costs; and

(2) To further its legitimate interest in the well-being of its residents and containing health care costs, the state of Washington has shown, through numerous legislative and executive branch activities, a strong commitment to evidence-based care and cost-effective health purchasing.

Defines "program," "administrator," "authority," and "state purchased health care."

Establishes the prescription drug professional education program.

Creates the prescription drug professional education program account in the custody of the state treasurer.
