

SSB 5529 - S AMD 21

By Senator Jarrett

1 On page 5, line 16, after "board;" strike "((or))" and insert "or"

2 On page 5, beginning on line 17, after "Have" strike all material  
3 through "board" on line 35, and insert "~~((eight-years'-practical  
4 architectural work experience, which may include designing buildings as  
5 a-principal-activity,-and-have-completed-the-requirements-of-a  
6 structured intern training program approved by the board.-Each year  
7 spent in an accredited architectural education program approved by the  
8 board shall be considered one year of practical experience.-At least  
9 four-years'-practical-work-experience-shall-be-under-the-direct  
10 supervision of an architect))~~ a high school diploma or equivalent and  
11 twelve years' practical architectural work experience, which may  
12 include designing buildings as a principal activity. At least six  
13 years of work experience must be under the direct supervision of a  
14 registered architect and include completing the requirements of a  
15 structured intern training program approved by the board. The board  
16 may approve up to four years of practical architectural work experience  
17 for courses completed in a related field, if the board determines that  
18 the education courses are equivalent to education courses in an  
19 accredited architectural degree program"

EFFECT: For an applicant for registration as an architect with a high school diploma or equivalent, this reduces the required number of years of practical architectural work experience from fifteen to twelve years. Reduces the number of years of practical architectural work experience required to be under the direct supervision of a registered architect from eight to six years.
