SUBSTITUTE SENATE BILL 6161

AS AMENDED BY THE HOUSE

Passed Legislature - 2009 Regular Session

State of Washington 61st Legislature 2009 Regular Session

By Senate Ways & Means (originally sponsored by Senator Prentice)

READ FIRST TIME 04/19/09.

1 AN ACT Relating to actuarial funding of pension systems; amending
2 RCW 41.45.010, 41.45.035, 41.45.060, 41.45.070, 41.45.150, and
3 41.45.155; reenacting and amending RCW 41.45.0631; adding a new section
4 to chapter 41.45 RCW; providing an effective date; and declaring an
5 emergency.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 **Sec. 1.** RCW 41.45.010 and 2005 c 370 s 4 are each amended to read
8 as follows:

9 It is the intent of the legislature to provide a dependable and
10 systematic process for funding the benefits provided to members and
11 retirees of the public employees' retirement system, chapter 41.40 RCW;
12 the teachers' retirement system, chapter 41.32 RCW; the law enforcement
13 officers' and firefighters' retirement systems, chapter 41.26 RCW; the
14 school employees' retirement system, chapter 41.35 RCW; the public
15 safety employees' retirement system, chapter 41.37 RCW; and the
16 Washington state patrol retirement system, chapter 43.43 RCW.

17 ~~((The legislature finds that the funding status of the state
18 retirement systems has improved dramatically since 1989. Because of
19 the big reduction in unfunded pension liabilities, it is now prudent to~~

1 ~~adjust the long term economic assumptions that are used in the~~
2 ~~actuarial studies conducted by the state actuary. The legislature~~
3 ~~finds that it is reasonable to increase the salary growth assumption in~~
4 ~~light of Initiative Measure No. 732, to increase the investment return~~
5 ~~assumption in light of the asset allocation policies and historical~~
6 ~~returns of the state investment board, and to reestablish June 30,~~
7 ~~2024, as the target date to achieve full funding of all liabilities in~~
8 ~~the public employees' retirement system plan 1, the teachers'~~
9 ~~retirement system plan 1, and the law enforcement officers' and~~
10 ~~firefighters' retirement system plan 1.)~~)

11 The funding process established by this chapter is intended to
12 achieve the following goals:

13 (1) To fully fund the public employees' retirement system plans 2
14 and 3, the teachers' retirement system plans 2 and 3, the school
15 employees' retirement system plans 2 and 3, the public safety
16 employees' retirement system plan 2, and the law enforcement officers'
17 and firefighters' retirement system plan 2 as provided by law;

18 (2) To fully amortize the total costs of (~~the public employees'~~
19 ~~retirement system plan 1, the teachers' retirement system plan 1, and~~)
20 the law enforcement officers' and firefighters' retirement system plan
21 1, not later than June 30, 2024;

22 (3) To fully amortize the unfunded actuarial accrued liability in
23 the public employees' retirement system plan 1 and the teachers'
24 retirement system plan 1 within a rolling ten-year period, using
25 methods and assumptions that balance needs for increased benefit
26 security, decreased contribution rate volatility, and affordability of
27 pension contribution rates;

28 (4) To establish long-term employer contribution rates which will
29 remain a relatively predictable proportion of the future state budgets;
30 and

31 ((+4)) (5) To fund, to the extent feasible, (~~benefit increases~~
32 ~~for plan 1 members and~~) all benefits for plan 2 and 3 members over the
33 working lives of those members so that the cost of those benefits are
34 paid by the taxpayers who receive the benefit of those members'
35 service.

36 **Sec. 2.** RCW 41.45.035 and 2004 c 93 s 2 are each amended to read
37 as follows:

1 (1) Beginning July 1, 2001, the following long-term economic
2 assumptions shall be used by the state actuary for the purposes of RCW
3 41.45.030:

4 (a) The growth in inflation assumption shall be 3.5 percent;

5 (b) The growth in salaries assumption, exclusive of merit or
6 longevity increases, shall be 4.5 percent;

7 (c) The investment rate of return assumption shall be 8 percent;
8 and

9 (d) The growth in system membership assumption shall be 1.25
10 percent for the public employees' retirement system, the public safety
11 employees' retirement system, the school employees' retirement system,
12 and the law enforcement officers' and firefighters' retirement system.
13 The assumption shall be .90 percent for the teachers' retirement
14 system.

15 (2) Beginning July 1, 2009, the growth in salaries assumption for
16 the public employees' retirement system, the public safety employees'
17 retirement system, the teachers' retirement system, the school
18 employees' retirement system, plan 1 of the law enforcement officers'
19 and firefighters' retirement system, and the Washington state patrol
20 retirement system, exclusive of merit or longevity increases, shall be
21 the sum of:

22 (a) The growth in inflation assumption in subsection (1)(a) of this
23 section; and

24 (b) The productivity growth assumption of 0.5 percent.

25 (3)(a) Beginning with actuarial studies done after July 1, 2003,
26 changes to plan asset values that vary from the long-term investment
27 rate of return assumption shall be recognized in the actuarial value of
28 assets over a period that varies up to eight years depending on the
29 magnitude of the deviation of each year's investment rate of return
30 relative to the long-term rate of return assumption. Beginning with
31 actuarial studies performed after July 1, 2004, the actuarial value of
32 assets shall not be greater than one hundred thirty percent of the
33 market value of assets as of the valuation date or less than seventy
34 percent of the market value of assets as of the valuation date.
35 Beginning April 1, 2004, the council, by affirmative vote of four
36 councilmembers, may adopt changes to this asset value smoothing
37 technique. Any changes adopted by the council shall be subject to
38 revision by the legislature.

1 (b) The state actuary shall periodically review the appropriateness
2 of the asset smoothing method in this section and recommend changes to
3 the ((legislature)) council as necessary. Any changes adopted by the
4 council shall be subject to revision by the legislature.

5 **Sec. 3.** RCW 41.45.060 and 2007 c 280 s 2 are each amended to read
6 as follows:

7 (1) The state actuary shall provide preliminary actuarial valuation
8 results based on the economic assumptions and asset value smoothing
9 technique included in RCW 41.45.035 or adopted under RCW 41.45.030 or
10 41.45.035.

11 (2) Not later than July 31, 2008, and every two years thereafter,
12 consistent with the economic assumptions and asset value smoothing
13 technique included in RCW 41.45.035 or adopted under RCW 41.45.030 or
14 41.45.035, the council shall adopt and may make changes to:

15 (a) A basic state contribution rate for the law enforcement
16 officers' and firefighters' retirement system plan 1;

17 (b) Basic employer contribution rates for the public employees'
18 retirement system, the teachers' retirement system, and the Washington
19 state patrol retirement system; and

20 (c) Basic employer contribution rates for the school employees'
21 retirement system and the public safety employees' retirement system
22 for funding both those systems and the public employees' retirement
23 system plan 1.

24 The council may adopt annual rate changes for any plan for any
25 rate-setting period. The contribution rates adopted by the council
26 shall be subject to revision by the legislature.

27 (3) The employer and state contribution rates adopted by the
28 council shall be the level percentages of pay that are needed:

29 (a) To fully amortize the total costs of ((~~the public employees'~~
30 ~~retirement system plan 1, the teachers' retirement system plan 1, and~~))
31 the law enforcement officers' and firefighters' retirement system plan
32 1 not later than June 30, 2024; ((~~and~~))

33 (b) To fully fund the public employees' retirement system plans 2
34 and 3, the teachers' retirement system plans 2 and 3, the public safety
35 employees' retirement system plan 2, and the school employees'
36 retirement system plans 2 and 3 in accordance with RCW 41.45.061,

2 and the teachers' retirement system plan 1 in accordance with RCW
3 41.45.070, 41.45.150, and this section.

4 (4) The aggregate actuarial cost method shall be used to calculate

8 cost.

23 applied pursuant to RCW 41.45.150; plus

24 (c) The amounts required to amortize the costs of any benefit
25 improvements in plan 1 of the public employees' retirement system that
26 become effective after June 30, 2009. The cost of each benefit
27 improvement shall be amortized over a fixed ten-year period using
28 projected future salary growth and growth in system membership. The

9 system, school employees' retirement system, public safety employees'
10 retirement system, or Washington state patrol retirement system members
11 an additional supplemental rate to pay for the cost of additional

37 later than June 30, 2024)) over a fixed ten-year period, using

1 projected future salary growth and growth in system membership. The

25 retired members of the public employees' retirement system plan 1 and
26 the teachers' retirement system plan 1 shall be calculated as the level
27 percentage of pay needed to fund the cost of the automatic adjustments
28 ((not later than June 30, 2024)) over a fixed ten-year period, using

25 contribution rate required to amortize past gain-sharing distributions
26 in plan 3.

27 ~~((+4))~~ (5) Upon completion of each biennial actuarial valuation,
28 the state actuary shall review the appropriateness of these minimum
29 contribution rates and recommend to the ~~((legislature))~~ council any
30 adjustments as may be needed due to material changes in benefits or
31 actuarial assumptions, methods, or experience. Any changes adopted by
32 the council shall be subject to revision by the legislature.

33 **Sec. 7.** RCW 41.45.0631 and 2007 c 300 s 1 and 2007 c 280 s 5 are
34 each reenacted and amended to read as follows:

35 (1) The allocation of costs between the employer and members of the
36 Washington state patrol retirement system shall be made only after the
37 application of any minimum total contribution rate that may be in

1 effect for the system under subsection (4) of this section. For
2 benefit improvements effective on or after July 1, 2007, costs shall be
3 shared equally by members and the employer, and any cap on member
4 contributions shall be adjusted accordingly. The member contribution
5 rate shall be based on the adjusted total contribution rate described
6 in subsection (2) of this section. Beginning July 1, 2007, the
7 required member contribution rate for members of the Washington state
8 patrol retirement system shall be the lesser of the following: (a)
9 One-half of the adjusted total contribution rate for the system; or (b)
10 seven percent, plus fifty percent of the contribution rate increase
11 caused by any benefit improvements effective on or after July 1, 2007.

12 (2) The employer shall continue to pay for all costs attributable
13 to distributions under RCW 43.43.270(2) for survivors of members who
14 became disabled under RCW 43.43.040(2) prior to July 1, 2006, until
15 such costs are fully paid. In order to avoid charging members for
16 these costs, the total required contribution rate shall be adjusted to
17 exclude these costs. The result of the adjustment shall be the
18 adjusted total contribution rate that is to be used to calculate the
19 required member contribution rate.

20 (3) The employer rate shall be the contribution rate required to
21 cover all total system costs that are not covered by the member
22 contribution rate.

23 (4) Beginning July 1, 2009, a minimum total contribution rate is
24 established for the Washington state patrol retirement system. The
25 total Washington state patrol retirement system contribution rate (~~as~~
26 ~~adopted by the pension funding council and subject to revision by the~~
27 ~~legislature~~)) may exceed, but may not drop below, the established
28 minimum total contribution rate. From July 1, 2009, through June 30,
29 2011, the minimum total contribution rate shall equal the total
30 contribution rate required to fund fifty percent of the Washington
31 state patrol retirement system's normal cost as calculated under the
32 entry age normal cost method. Beginning July 1, 2011, the minimum
33 total contribution rate shall equal the total contribution rate
34 required to fund seventy percent of the Washington state patrol
35 retirement system's normal cost as calculated under the entry age
36 normal cost method. This minimum rate, when applicable, shall be
37 collected in addition to any contribution rate required to amortize any

1 unfunded costs attributable to distributions under RCW 43.43.270(2) for
2 survivors of members who became disabled under RCW 43.43.040(2) prior
3 to July 1, 2006.

4 (5) Upon completion of each biennial actuarial valuation, the state
5 actuary shall review the appropriateness of this minimum total
6 contribution rate and recommend to the ((legislature)) council any
7 adjustments as may be needed. Any changes adopted by the council shall
8 be subject to revision by the legislature.
