

SHB 1606 - H AMD 1066

By Representative Dahlquist

1 On page 4, after line 5, insert the following:

2 "(5) The department of agriculture shall conduct a study to
3 determine whether there are performance disadvantages, including lower
4 gas mileage, or other fuel quality concerns associated with using
5 diesel containing: (a) at least two percent biodiesel fuel or
6 renewable diesel fuel by volume; or (b) at least five percent
7 biodiesel fuel or renewable diesel fuel by volume. The department must
8 report its findings to the appropriate committees of the legislature
9 by September 1, 2012.

10

11 NEW SECTION. Sec. 4. A new section is added to chapter 19.112 RCW
12 to read as follows:

13 The minimum renewable fuel content requirements in section 3 of
14 this act take effect when the director determines, as result of its
15 study under section 3(5) of this act, that there are no performance
16 disadvantages or other fuel quality concerns associated with using
17 diesel containing: (a) at least two percent biodiesel fuel or
18 renewable diesel fuel by volume; or (b) at least five percent
19 biodiesel fuel or renewable diesel fuel by volume. The director must
20 provide notice of the effective date of section 3 of this act to
21 affected parties, the chief clerk of the house of representatives,
22 the secretary of the senate, the office of the code reviser, and
23 others as deemed appropriate by the department."

24

25 Renumber the remaining sections consecutively and correct any
26 internal references accordingly.

27

1 Correct the title.

2

EFFECT: Requires the Department to conduct a study to determine whether there are performance disadvantages or other fuel quality concerns associated with using specified blends of biodiesel. The Department must report its findings to the appropriate committees of the legislature by September 1, 2012. Specifies that the minimum renewable fuel content requirements for biodiesel take effect when the director of the Department determines as a result of the study that there are no performance disadvantages, including lower gas mileage, or other fuel quality concerns from specified blends of biodiesel.
