Background: The Endangered Missing Person Advisory (EMPA) program was developed and implemented in 2010. Its purpose is to enhance the public's ability to assist in recovering endangered missing persons who do not qualify for inclusion in an Amber Alert. The Amber Alert plan was originally designed to collect information about missing children. EMPA is initiated by law enforcement when the Amber Alert criteria are not met and a person is missing under unexplained or suspicious circumstances; the person is believed to be in danger; the incident was reported to law enforcement; and there is enough descriptive information available to assist in the person's recovery.

Summary of Substitute Bill: Missing endangered person is defined as a person believed to be in danger because of age, health, mental or physical disability, a combination of environmental or weather conditions, or is believed to be unable to return safely without assistance. The Missing Children Clearinghouse is renamed the Missing Children and Endangered Person Clearinghouse. The EMPA plan is created and maintained by the Washington State Patrol (WSP).
