4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 47.06A.020 and 2005 c 319 s 125 are each amended to 6 read as follows:

(1) The board shall:

(c) Review and evaluate project applications based on criteria established under this section, and prioritize and select projects comprising a portfolio to be funded in part with grants from state funds appropriated for the freight mobility strategic investment program. p. 1

selecting projects comprising the portfolio, the board shall submit 1 2 them as part of its budget request to the office of financial management and the legislature.)) The board shall ensure that projects 3 4 ((submitted as part of)) included in the portfolio are not more appropriately funded with other federal, state, or local government 5 funding mechanisms or programs. The board shall reject those projects б 7 that appear to improve overall general mobility with limited 8 enhancement for freight mobility.

9 The board shall provide periodic progress reports on its activities 10 to the office of financial management and the senate and house 11 transportation committees.

12 (2) The board may:

(a) Accept from any state or federal agency, loans or grants for
the financing of any transportation project and enter into agreements
with any such agency concerning the loans or grants;

16

(b) Provide technical assistance to project applicants;

(c) Accept any gifts, grants, or loans of funds, property, or financial, or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;

(d) Adopt rules under chapter 34.05 RCW as necessary to carry outthe purposes of this chapter; and

(e) Do all things necessary or convenient to carry out the powersexpressly granted or implied under this chapter.

(3) The board shall designate strategic freight corridors within the state. The board shall update the list of designated strategic corridors not less than every two years, and shall establish a method of collecting and verifying data, including information on city and county-owned roadways.

(4) The board shall utilize threshold project eligibility criteriathat, at a minimum, includes the following:

31

(a) The project must be on a strategic freight corridor;

32

(b) The project must meet one of the following conditions:

33 (i) It is primarily aimed at reducing identified barriers to 34 freight movement with only incidental benefits to general or personal 35 mobility; or

36 (ii) It is primarily aimed at increasing capacity for the movement 37 of freight with only incidental benefits to general or personal 38 mobility; or (iii) It is primarily aimed at mitigating the impact on communities
 of increasing freight movement, including roadway/railway conflicts;
 and

4 (c) The project must have a total public benefit/total public cost 5 ratio of equal to or greater than one.

(5) From June 11, 1998, through the biennium ending June 30, 2001, 6 the board shall use the multicriteria analysis and scoring framework 7 8 for evaluating and ranking eligible freight mobility and freight mitigation projects developed by the freight mobility project 9 prioritization committee and contained in the January 16, 1998, report 10 11 entitled "Project Eligibility, Priority and Selection Process for a 12 Strategic Freight Investment Program." The prioritization process 13 shall measure the degree to which projects address important program 14 objectives and shall generate a project score that reflects a project's priority compared to other projects. The board shall assign scoring 15 points to each criterion that indicate the relative importance of the 16 criterion in the overall determination of project priority. After June 17 30, 2001, the board may supplement and refine the initial project 18 19 priority criteria and scoring framework developed by the freight 20 mobility project prioritization committee as expertise and experience 21 is gained in administering the freight mobility program.

22 (6) It is the intent of the legislature that each freight mobility 23 project contained in the project portfolio ((submitted)) approved by the board utilize the greatest amount of nonstate funding possible. 24 The board shall adopt rules that give preference to projects that 25 26 contain the greatest levels of financial participation from nonprogram fund sources. 27 The board shall consider twenty percent as the minimum partnership contribution, but shall also ensure that there are 28 provisions allowing exceptions for projects that are located in areas 29 30 where minimal local funding capacity exists or where the magnitude of the project makes the adopted partnership contribution financially 31 unfeasible. 32

(7) The board shall develop and recommend policies that address operational improvements that primarily benefit and enhance freight movement, including, but not limited to, policies that reduce congestion in truck lanes at border crossings and weigh stations and provide for access to ports during nonpeak hours.

highest priority project, without regard to location.

(4) In the event that a proposal contains projects in more than one region, for purposes of assuring that equitable geographic distributions are made under subsection (2) of this section, the board shall evaluate the proposal and proportionally assign the benefits that are attributable to each region.

27 (5) If the board identifies a project for funding, but later 28 determines that the project is not ready to proceed ((at the time the legislature's funding decision is pending)), the board shall recommend 29 30 removing the project from consideration and the next highest priority project shall be substituted in the project portfolio. Any project 31 32 removed from funding consideration because it is not ready to proceed shall retain its position on the priority project list ((and is 33 eligible to be recommended for funding in the next project portfolio 34 35 submitted by the board)).
