State of Washington

HOUSE BILL 2042

Passed Legislature - 2013 2nd Special Session

State of Washington 63rd Legislature 2013 Regular Session

By Representatives Cody, Hunter, and Sullivan

Read first time 04/18/13. Referred to Committee on Appropriations.

AN ACT Relating to modifying the nursing facility medicaid payment system by delaying the rebase of certain rate components and extending certain rate add-ons; amending RCW 74.46.431 and 74.46.501; creating a new section; providing an effective date; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

Sec. 1. RCW 74.46.431 and 2011 1st sp.s. c 7 s 1 are each amended to read as follows:

(1) Nursing facility medicaid payment rate allocations shall be facility-specific and shall have six components: Direct care, therapy care, support services, operations, property, and financing allowance. The department shall establish and adjust each of these components, as provided in this section and elsewhere in this chapter, for each medicaid nursing facility in this state.

(2) Component rate allocations in therapy care and support services for all facilities shall be based upon a minimum facility occupancy of eighty-five percent of licensed beds, regardless of how many beds are set up or in use. Component rate allocations in operations, property, and financing allowance for essential community providers shall be based upon a minimum facility occupancy of eighty-seven percent of

licensed beds, regardless of how many beds are set up or in use. Component rate allocations in operations, property, and financing allowance for small nonessential community providers shall be based upon a minimum facility occupancy of ninety-two percent of licensed beds, regardless of how many beds are set up or in use. Component rate allocations in operations, property, and financing allowance for large nonessential community providers shall be based upon a minimum facility occupancy of ninety-five percent of licensed beds, regardless of how many beds are set up or in use. For all facilities, the component rate allocation in direct care shall be based upon actual facility occupancy. The median cost limits used to set component rate allocations shall be based on the applicable minimum occupancy percentage. In determining each facility's therapy care component rate allocation under RCW 74.46.511, the department shall apply the applicable minimum facility occupancy adjustment before creating the array of facilities' adjusted therapy costs per adjusted resident day. In determining each facility's support services component rate allocation under RCW 74.46.515(3), the department shall apply the applicable minimum facility occupancy adjustment before creating the array of facilities' adjusted support services costs per adjusted resident day. In determining each facility's operations component rate allocation under RCW 74.46.521(3), the department shall apply the minimum facility occupancy adjustment before creating the array of facilities' adjusted general operations costs per adjusted resident day.

(3) Information and data sources used in determining medicaid payment rate allocations, including formulas, procedures, cost report periods, resident assessment instrument formats, resident assessment methodologies, and resident classification and case mix weighting methodologies, may be substituted or altered from time to time as determined by the department.

(4)(a) Direct care component rate allocations shall be established using adjusted cost report data covering at least six months. Effective July 1, 2009, the direct care component rate allocation shall be rebased, so that adjusted cost report data for calendar year 2007 is used for July 1, 2009, through June 30, ((~~2013~~)) 2015. Beginning July 1, ((~~2013~~)) 2015, the direct care component rate allocation shall be rebased biennially during every odd-numbered year thereafter using

adjusted cost report data from two years prior to the rebase period, so adjusted cost report data for calendar year ((~~2011~~)) 2013 is used for July 1, ((~~2013~~)) 2015, through June 30, ((~~2015~~)) 2017, and so forth.

(b) Direct care component rate allocations established in accordance with this chapter shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the direct care component rate allocation established in accordance with this chapter. When no economic trends and conditions factor or factors for either fiscal year are defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the direct care component rate allocation established in accordance with this chapter.

(5)(a) Therapy care component rate allocations shall be established using adjusted cost report data covering at least six months. Effective July 1, 2009, the therapy care component rate allocation shall be cost rebased, so that adjusted cost report data for calendar year 2007 is used for July 1, 2009, through June 30, ((~~2013~~)) 2015. Beginning July 1, ((~~2013~~)) 2015, the therapy care component rate allocation shall be rebased biennially during every odd-numbered year thereafter using adjusted cost report data from two years prior to the rebase period, so adjusted cost report data for calendar year ((~~2011~~)) 2013 is used for July 1, ((~~2013~~)) 2015, through June 30, ((~~2015~~)) 2017, and so forth.

(b) Therapy care component rate allocations established in accordance with this chapter shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the therapy care component rate allocation established in accordance with this chapter. When no economic trends and conditions factor or factors for either fiscal year are defined in a biennial appropriations

act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the therapy care component rate allocation established in accordance with this chapter.

(6)(a) Support services component rate allocations shall be established using adjusted cost report data covering at least six months. Effective July 1, 2009, the support services component rate allocation shall be cost rebased, so that adjusted cost report data for calendar year 2007 is used for July 1, 2009, through June 30, ((~~2013~~)) 2015. Beginning July 1, ((~~2013~~)) 2015, the support services component rate allocation shall be rebased biennially during every odd-numbered year thereafter using adjusted cost report data from two years prior to the rebase period, so adjusted cost report data for calendar year ((~~2011~~)) 2013 is used for July 1, ((~~2013~~)) 2015, through June 30, ((~~2015~~)) 2017, and so forth.

(b) Support services component rate allocations established in accordance with this chapter shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the support services component rate allocation established in accordance with this chapter. When no economic trends and conditions factor or factors for either fiscal year are defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the support services component rate allocation established in accordance with this chapter.

(7)(a) Operations component rate allocations shall be established using adjusted cost report data covering at least six months. Effective July 1, 2009, the operations component rate allocation shall be cost rebased, so that adjusted cost report data for calendar year 2007 is used for July 1, 2009, through June 30, ((~~2013~~)) 2015. Beginning July 1, ((~~2013~~)) 2015, the operations care component rate allocation shall be rebased biennially during every odd-numbered year thereafter using adjusted cost report data from two years prior to the

rebase period, so adjusted cost report data for calendar year ((~~2011~~)) 2013 is used for July 1, ((~~2013~~)) 2015, through June 30, ((~~2015~~)) 2017, and so forth.

(b) Operations component rate allocations established in accordance with this chapter shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the operations component rate allocation established in accordance with this chapter. When no economic trends and conditions factor or factors for either fiscal year are defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the operations component rate allocation established in accordance with this chapter.

(8) Total payment rates under the nursing facility medicaid payment system shall not exceed facility rates charged to the general public for comparable services.

(9) The department shall establish in rule procedures, principles, and conditions for determining component rate allocations for facilities in circumstances not directly addressed by this chapter, including but not limited to: Inflation adjustments for partial-period cost report data, newly constructed facilities, existing facilities entering the medicaid program for the first time or after a period of absence from the program, existing facilities with expanded new bed capacity, existing medicaid facilities following a change of ownership of the nursing facility business, facilities temporarily reducing the number of set-up beds during a remodel, facilities having less than six months of either resident assessment, cost report data, or both, under the current contractor prior to rate setting, and other circumstances.

(10) The department shall establish in rule procedures, principles, and conditions, including necessary threshold costs, for adjusting rates to reflect capital improvements or new requirements imposed by the department or the federal government. Any such rate adjustments are subject to the provisions of RCW 74.46.421.

(11) Effective July 1, 2010, there shall be no rate adjustment for facilities with banked beds. For purposes of calculating minimum occupancy, licensed beds include any beds banked under chapter 70.38 RCW.

(12) Facilities obtaining a certificate of need or a certificate of need exemption under chapter 70.38 RCW after June 30, 2001, must have a certificate of capital authorization in order for (a) the depreciation resulting from the capitalized addition to be included in calculation of the facility's property component rate allocation; and (b) the net invested funds associated with the capitalized addition to be included in calculation of the facility's financing allowance rate allocation.

Sec. 2. RCW 74.46.501 and 2011 1st sp.s. c 7 s 6 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2)(a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question based on the resident assessment instrument completed by the facility and the requirements and limitations for the instrument's completion and transmission (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable, by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4) In determining the number of days a resident is classified into

a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as specified by rule.

(5) The cutoff date for the department to use resident assessment data, for the purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment data applies.

(6)(a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the cost-rebasing period facility average case mix index will be used throughout the applicable cost-rebasing period in combination with cost report data as specified by RCW 74.46.431 and 74.46.506, to establish a facility's allowable cost per case mix unit. To allow for the transition to minimum data set 3.0 and implementation of resource utilization group IV for July 1, ((~~2011~~)) 2013, through June 30, ((~~2013~~)) 2015, the department shall calculate rates using the medicaid average case mix scores effective for January 1, ((~~2011~~)) 2013, rates adjusted under RCW 74.46.485(1)(a), and the scores shall be increased each six months during the transition period by one-half of one percent. The July 1, ((~~2013~~)) 2015, direct care cost per case mix unit shall be calculated by utilizing ((~~2011~~)) 2013 direct care costs, patient days, and ((~~2011~~)) 2013 facility average case mix indexes based on the minimum data set 3.0 resource utilization group IV grouper 57. Otherwise, a facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate semiannually.

(b) The facility average case mix index used to establish each nursing facility's direct care component rate shall be based on an average of calendar quarters of the facility's average case mix indexes from the four calendar quarters occurring during the cost report period used to rebase the direct care component rate allocations as specified in RCW 74.46.431.

(c) The medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate semiannually shall be from the calendar six-month period commencing nine months prior to the effective date of the semiannual rate. For example, July 1, 2010, through December 31, 2010, direct care component

rates shall utilize case mix averages from the October 1, 2009, through March 31, 2010, calendar quarters, and so forth.

NEW SECTION. **Sec. 3.** (1) For fiscal years 2014 and 2015 and subject to appropriation, the department of social and health services shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2013, using the payment methodology defined in chapter 74.46 RCW, to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2013, is smaller than the facility-based payment rate on June 30, 2010, the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(2) During the comparative analysis performed in subsection (1) of this section, if it is found that the direct care rate for any facility calculated under chapter 74.46 RCW is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(3) The rate add-ons provided in subsection (2) of this section are subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

NEW SECTION. **Sec. 4.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2013.

--- END ---
