

SB 5766-S - DIGEST

(AS OF SENATE 2ND READING 3/12/13)

Requires the state conservation commission to initiate a state forum that includes persons designated by the directors of the departments of ecology, agriculture, natural resources, and fish and wildlife, and agricultural producers nominated to the commission by state and regional agricultural organizations to initiate a public process employing the commission to test processes to clearly define agency roles, improve mutual understandings, and build improved working relationships between agricultural producers and state regulatory personnel.

Expires July 1, 2018.
