- not receiving or expecting compensation from the state or local government;
- not a state or local government employee unless on leave without pay status; and
- registered with and holds an identification card issued by the state or local emergency management director for the purpose of engaging in authorized emergency management activities.

Volunteers who are registered as emergency workers are immune from liability for damages that arise while:

- traveling to or from an emergency or disaster, search and rescue, or training exercise authorized by the Military Department.

This immunity extends to the volunteers' supervisor, health care facilities and employees, property and vehicle owners, the local organization that registered the volunteer, and the state and state or local government entities.

Summary of First Substitute Bill: The immunity afforded to volunteer emergency workers or their employers for damages that arise while:

- providing assistance or transportation during an emergency or disaster or participating in an approved training or exercise in preparation for an emergency disaster; or
- traveling to or from an emergency or disaster, search and rescue, or training exercise authorized by the Military Department.

is extended to include any professional or trade association of covered volunteer emergency workers.

Appropriation: None.

Fiscal Note: Available.

Creates Committee/Commission/Task Force that includes Legislative members: No.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony on First Substitute: PRO: It will take an entire community working alongside other volunteers to get through a large disaster. Local authorities will not have the manpower to handle disasters on their own. The state will need volunteer engineers, architects, and building inspectors to help local cities and towns determine the damage in order to get people back into housing. Associations are statewide organizations and provide training and services to get people prepared and dispatch them to the emergency operations centers. This change would cover associations for providing this training and volunteer resources for emergency response.

Persons Testifying: PRO: Senator Lynda Wilson, Prime Sponsor; Ray Cockerham, Washington Association of Building Officials; Paul Brallier, SEAW; Cliff Webster, Architects & Engineers Legislative Council; Nancy Bickford, Washington Military Department - Emergency Management.
