Development for Manufactured Housing regulations. L&I enforces manufactured housing safety and construction standards adopted by the Secretary of Housing and Urban Development under the National Manufactured Housing Construction and Safety Standards Act.

Certification Requirements. To become a certified manufactured home installer, an applicant must apply to L&I and L&I must review the information and make a determination about whether the applicant is eligible to take the training course and examination. An applicant must furnish written evidence of six months of experience under the direct supervision of a certified manufactured home installer, or other equivalent experience, in order to be eligible to take the training course and examination. L&I must issue a certificate of manufactured home installation to an applicant who has taken the training course, passed the examination, paid the fees, and meets all other qualifications.

Violations and Notices of Infraction. L&I can issue a notice of infraction for:

- failure to have a certified installer on the installation site when installation work is being performed;
- failure to correct all nonconforming aspects of the installation identified by a local enforcement agency or L&I within thirty days of issuance of the notice;
- failure by a certified installer to affix a certification tag to an installed manufactured/mobile home;
- the transfer of certification tags from a certified installer to another certified installer without L&I's prior written approval;
- the transfer of certification tags from a certified installer to a noncertified installer; or
- the transfer of unused installer certification tags by a manufactured home retailer to a new ownership without L&I's prior written approval.

There is a \$1,000 penalty for an infraction. Each worksite and day on which a violation occurs constitutes a separate infraction. Each day in which a person engages in the installation of manufactured homes in violation of this laws is a separate infraction. Each worksite where a person engages in the trade of manufactured home installation in violation of the laws is a separate infraction. It is a violation for any contractor, manufactured home dealer, manufacturer, or home dealer's or manufacturer's agent to engage any person to install a manufactured home who is not certified.

**Summary of Bill:** A person who committed an infraction may be assessed a \$250 penalty for the first infraction and not more than \$1,000 for a second or subsequent infraction. L&I must set by rule a schedule of monetary penalties for infractions imposed under Mobile Home and Manufactured Home Installation chapter.

**Appropriation:** None.

**Fiscal Note:** Available.

**Creates Committee/Commission/Task Force that includes Legislative members:** No.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Staff Summary of Public Testimony:** PRO: This is a simple bill that allows L&I some discretion. Now the only option is to fine \$1,000. This bill is another way that L&I can improve the way it does business with the public. Rather than starting with a \$1,000 penalty, L&I is asking to be able to start with a warning for these specific violations and proceed from there. L&I would prefer to educate people.

**Persons Testifying:** PRO: Senator Curtis King, Prime Sponsor; Tammy Fellin, Labor & Industries.

**Persons Signed In To Testify But Not Testifying:** No one.
