

HB 1310 - DIGEST

Creates the students protecting students program, within the office of the superintendent of public instruction, to provide students and the community with the means to relay information anonymously concerning unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to the appropriate schools or law enforcement agencies.

Requires the office of the superintendent of public instruction to contract with an existing organization to provide the program.

Requires school districts to annually: (1) Make available to students at least one age-appropriate educational program, class, or activity designed to teach students about the program; and

(2) Disseminate information about the program, including contact information for anonymous reporting, to students and families through any normal means of existing communication.
