

**HB 1765 - DIGEST**

(SUBSTITUTED FOR - SEE 1ST SUB)

Allows the donation of prescription drugs if, as determined by the professional judgment of a pharmacist, the prescription drugs: (1) Equipped with a time temperature indicator at the point of manufacture were stored under required temperature conditions; and

(2) Were properly stored and the person donating the drugs has completed and signed a donor form, adopted by the department of health, to release the drugs for distribution and certified that the drugs have never been opened, used, adulterated, or misbranded.
