

HB 2227-S - DIGEST

(SEE ALSO PROPOSED 2ND SUB)

Removes certain responsibilities from the state liquor and cannabis board and, instead, requires the department of ecology to address: (1) The certification or accreditation of a marijuana product testing laboratory;

(2) The establishment and collection of fees for the accreditation of the testing laboratories;

(3) Development of a fee schedule allocating the costs of the accreditation program; and

(4) The report required by January 15, 2019, with recommendations regarding laboratory accreditation standards that should be applied to marijuana testing laboratories.
