

**HB 2695 - DIGEST**

Requires the office of the superintendent of public instruction to examine and report on student access to school library information and technology resources and associated impacts to student success.

Creates the school library information and technology office, within the office of the superintendent of public instruction, to: (1) Assist districts with implementing school library information and technology programs;

(2) Increase access for students to these programs; and

(3) Promote student achievement of the educational technology learning standards.
