

HB 1638 - H AMD 181

By Representative Shea

WITHDRAWN 03/05/2019

1 On page 4, line 12, after "(3)" insert "A child who tests negative
2 for current infection of any vaccine-targeted infection during times
3 of outbreak may not be excluded from school. Intermittent testing
4 must be performed during the course of any outbreak, depending on the
5 incubation time of the infection.

6 (4)"

7

EFFECT: Prohibits a child who tests negative for current infection of any vaccine targeted infection during times of an outbreak from being excluded from school. Requires intermittent testing to be performed during the course of any outbreak, depending on the incubation time of the infection.
