

SHB 2957 - H AMD 2115

By Representative DeBolt

1 On page 5, beginning on line 7, after "means" strike all material
2 through "fuels" on line 11 and insert "a release of greenhouse gas
3 into the ambient air as a result of the combustion or oxidation of
4 fossil fuels by an end user of the fuel. "Indirect emissions" does
5 not include emissions that are otherwise regulated as direct
6 emissions from another entity"

7 On page 5, after line 14, insert the following:

8 "(27) "Fossil fuel" has the same meaning defined in RCW
9 19.405.020 except that the term "fossil fuel" under this chapter also
10 excludes renewable natural gas and compressed and liquefied natural
11 gas used for transportation. "Fossil fuel" also includes
12 transportation emissions of a petroleum sourced fuel that is sold in
13 Washington and used for motor vehicles as defined in RCW 46.25.010
14 and results in emissions of carbon dioxide associated with the
15 complete combustion or oxidation of that fuel. The department shall
16 avoid rules under which greenhouse gas emission or greenhouse gas
17 emissions reductions are counted more than once."

EFFECT: Redefines indirect emissions and adds a definition of fossil fuels.
