

**SSB 5410 (S1675.2) - S AMD TO S AMD 83**

By Senator Hasegawa

**NOT CONSIDERED 12/23/2019**

1        On page 2, line 25, after "2019." insert "The institutions of  
2 higher education must include in biennial reviews data including the  
3 number and proportion of students who requested and subsequently  
4 received or were denied college credit by exam type, subject area,  
5 and appropriate demographic information about credit recipients  
6 including transfer status, race or ethnicity, and state need grant  
7 status. The purpose of this data is to review equity in participation  
8 rates and success rates within the advanced placement, international  
9 baccalaureate, and Cambridge assessment international education  
10 programs, and subsequently compare that data with similar data from  
11 the general student populations of schools feeding into the  
12 programs."

EFFECT: Adds to reporting requirement that institutions of higher education include data about credit awarding by exam type, transfer status, race or ethnicity, and state need grant status.
