4 violation detected by automated vehicle noise enforcement cameras in  
5 a Stay Out of Areas of Racing zone. Warning notices must be mailed to  
6 the registered owner of a vehicle within fourteen days of the  
7 detected violation;

2 communities of color, low-income households, vulnerable populations,  
3 and displaced communities. Input from members of the public must  
4 inform the work group's recommendations. The work group must notify  
5 members of the public of opportunities to engage through a variety of  
6 communication channels including, but not limited to, the following:  
7 Outreach through community organizations, print and broadcast media,  
8 and social media.

9 (d) The work group's recommendations must include, but are not  
10 limited to, the following:

11 (i) Options to provide or encourage rebates to vehicle owners who  
12 pay taxes and fees due at the time of application for vehicle  
13 registration;

14 (ii) An agreed upon service fee structure for vehicle  
15 registration payment plans;

16 (iii) An agreed upon service fee revenue allocation method;

17 (iv) A process to allow agents and subagents to determine if a  
18 vehicle owner has paid all taxes and fees due prior to renewal of a  
19 vehicle registration;

20 (v) Options for reducing revenue loss due to missed payments,  
21 transfer of the certificate of title, or registration of a vehicle  
22 out of state; and

23 (vi) Options to reduce impacts to communities of color, low-  
24 income households, vulnerable populations, and displaced communities.

25 (e) A report of the work group's findings and recommendations is  
26 due to the transportation committees of the legislature by September  
27 30, 2022.

28 (2) \$50,000 of the motor vehicle account—state appropriation is  
29 for the joint transportation committee to contract for a legal  
30 consultant to analyze and recommend options for the formation of a  
31 bistate bridge authority for the purpose of constructing, financing,  
32 operating and maintaining a new replacement bridge over the Columbia  
33 River near Hood River connecting Klickitat county in Washington to  
34 Hood River county in Oregon. The consultant may confer with the Hood  
35 River Bistate Working Group to understand the work and analysis that  
36 has been completed.

37 The Washington interlocal cooperation act, chapter 39.34 RCW,  
38 authorizes public agencies to contract with other public agencies via  
39 interlocal agreements that enable cooperation among the agencies to  
40 perform governmental activities and deliver public services,

1 including agreements with public entities in other states. Such  
2 interstate agreements are deemed interstate compacts. The legal  
3 analysis must identify and recommend alternative and/or additional  
4 statutory authority that would be necessary to allow for the  
5 formation of a local government bistate bridge authority or  
6 governance structure for the Hood River Bridge replacement that at a  
7 minimum may:

8 (a) Issue bonds for bridge construction;

9 (b) Collect tolls; and

10 (c) Secure and administer state or federal grants and loans.

11 The legal analysis must be presented to the transportation  
12 committees of the legislature by September 30, 2021.

13 (3) \$220,000 of the multimodal transportation account—state  
14 appropriation is for overseeing a consultant study to provide  
15 recommendations related to the Washington state department of  
16 transportation's role in broadband service expansion efforts as  
17 directed in chapter . . . (Engrossed Substitute House Bill No. 1457),  
18 Laws of 2021 (broadband along state highways). If chapter . . .  
19 (Engrossed Substitute House Bill No. 1457), Laws of 2021 (broadband  
20 along state highways) is not enacted by June 30, 2021, the amount  
21 provided in this subsection lapses.

22 (4) \$215,000 of the motor vehicle account—state appropriation is  
23 provided solely for the joint transportation committee, from amounts  
24 set aside out of statewide fuel taxes distributed to cities according  
25 to RCW 46.68.110(2), to convene a study on the impacts of current and  
26 historical city transportation investments on designated populations,  
27 including communities of color, low-income households, vulnerable  
28 populations, and displaced communities. The study must identify and  
29 measure the true costs of underinvestment of accessible  
30 transportation for designated populations, including the secondary  
31 impacts to public health, economic opportunity, educational access,  
32 and environmental risk factors. The assessment must include specific  
33 approaches to addressing existing inequities within cities, as well  
34 as recommendations to develop best practices to improve, diversify,  
35 and expand city transportation investments. A report must be provided  
36 to the office of financial management and the transportation  
37 committees of the legislature by December 20, 2022.

38 (5) \$400,000 of the motor vehicle account—state appropriation is  
39 for the development of a workforce plan for the Washington state

1 ferries which addresses recruitment, retention, diversity, training  
2 needs, leadership development, succession planning and other elements  
3 needed to ensure sufficient and cost-effective crewing and staffing  
4 of the ferry system. In developing the scope of work for the plan and  
5 throughout plan development, the joint transportation committee must  
6 solicit input from representatives of the Washington state ferries  
7 division and the human resources division of the Washington state  
8 department of transportation. Represented employee groups must also  
9 be consulted as part of plan development. The plan must include a  
10 roadmap for Washington state ferries to comprehensively address  
11 persistent staffing challenges and strategically position itself for  
12 its future workforce needs. The joint transportation committee must  
13 issue an interim report identifying short-term strategies to reduce  
14 reliance on overtime for staffing day-to-day ferry service. The  
15 interim report is due to the transportation committees of the  
16 legislature by January 1, 2022. The final report is due to the  
17 transportation committees of the legislature by December 20, 2022.

18 (6) \$200,000 of the multimodal transportation account—state  
19 appropriation is for the joint transportation committee to update the  
20 Washington State Short Line Rail Inventory and Needs Assessment,  
21 prepared in 2015, and to facilitate a stakeholder process to assess  
22 the effectiveness of state support for short line rail infrastructure  
23 based on current and future short line rail infrastructure needs.  
24 This assessment must include consideration of current state grant and  
25 loan programs, including state investment in nonstate owned short  
26 lines, the state's role and investments in the Palouse River and  
27 Coulee City (PCC) rail system, and any other ongoing state activities  
28 related to short line rail infrastructure. The joint transportation  
29 committee must solicit input from all regions of the state from  
30 representatives of: Short line rail infrastructure owners, short line  
31 rail operators, short line rail customers from representative  
32 industries, ports served by short line rail infrastructure, the  
33 Washington state department of transportation, the utilities and  
34 transportation commission, and other relevant stakeholders as  
35 identified by the joint transportation committee. A report with  
36 recommendations to enhance the state's support for short line rail  
37 infrastructure is due to the transportation committees of the  
38 legislature by January 1, 2022.

39 (7) (a) \$200,000 of the motor vehicle account—state appropriation  
40 is for the joint transportation committee to develop a truck parking

1 action plan with recommendations for immediate next steps for near-  
2 term and lasting change in the availability of truck parking for  
3 short-haul and long-distance commercial vehicle drivers who require  
4 reasonable accommodations for parking commercial motor vehicles,  
5 obtaining adequate services, and complying with federal rest  
6 requirements. For each opportunity identified, the action plan must:

7 (i) Assess the magnitude of potential impact;  
8 (ii) Assess the potential difficulty level of implementation; and  
9 (iii) Explain barriers to success and specific steps required to  
10 overcome them.

11 (b) The action plan must focus on approaches that would be most  
12 impactful and feasible and may include, but not be limited to:

13 (i) Specific cooperative private sector and government actions;

14 (ii) Legal and regulatory frameworks at the state level to drive  
15 private and/or public-sector action;

16 (iii) Incentive-based government programs to spur private sector  
17 innovation and investment; and

18 (iv) Direct government action at the state, regional, and/or  
19 local level.

20 (c) The action plan must identify specific, promising projects  
21 and approaches, and provide a clear roadmap to what is needed to  
22 drive real, substantial improvements in truck parking.

23 (d) Outreach for action plan input, including on the feasibility  
24 of each opportunity evaluated, must include outreach to  
25 representatives of: The trucking industry; truck labor organizations;  
26 the shipping industry; truck stop owners; commercial freight delivery  
27 recipients, including warehouse and retail recipients; the  
28 association of Washington cities; the Washington state association of  
29 counties; the Washington state department of transportation; the  
30 Washington state patrol; and an academic or research institution that  
31 can provide input on technical components of the plan.

32 (e) A concise action plan with specific recommended next steps is  
33 due to the transportation committees of the legislature by January 1,  
34 2022.

35 NEW SECTION. **Sec. 205. FOR THE TRANSPORTATION COMMISSION**

36 Motor Vehicle Account—State Appropriation . . . . . \$2,438,000

37 Interstate 405 and State Route Number 167 Express Toll Lanes

38 Account—State Appropriation. . . . . \$127,000

1	State Route Number 520 Corridor Account—State	
2	Appropriation. . . . .	\$276,000
3	Tacoma Narrows Toll Bridge Account—State	
4	Appropriation. . . . .	\$180,000
5	Alaskan Way Viaduct Replacement Project	
6	Account—State Appropriation. . . . .	\$172,000
7	TOTAL APPROPRIATION. . . . .	\$3,193,000

8       The appropriations in this section are subject to the following  
9 conditions and limitations:

10       (1) The commission shall reconvene the road usage charge steering  
11 committee, with the same membership described in chapter 297, Laws of  
12 2018, and shall periodically report to the steering committee with  
13 updates on activities undertaken in accordance with the federal grant  
14 awarded July 2020 ("Forward Drive"). A year-end update on the status  
15 of any federally-funded project for which federal funding is secured  
16 must be provided to the governor's office and the transportation  
17 committees of the legislature by January 1, 2022, and by January 1,  
18 2023. Any legislative vacancies on the steering committee must be  
19 appointed by the speaker of the house of representatives for a house  
20 of representatives member vacancy, and by the president of the senate  
21 for a senate member vacancy.

22       (2) \$200,000 of the motor vehicle account—state appropriation is  
23 provided solely for the implementation of chapter . . . (Substitute  
24 Senate Bill No. 5444), Laws of 2021 (per mile charge). If  
25 chapter . . . (Substitute Senate Bill No. 5444), Laws of 2021 is not  
26 enacted by June 30, 2021, the amount provided in this subsection  
27 lapses.

28       (3) \$127,000 of the Interstate 405 and state route number 167  
29 express toll lanes account—state appropriation, \$276,000 of the state  
30 route number 520 corridor account—state appropriation, \$180,000 of  
31 the Tacoma Narrows toll bridge account—state appropriation, and  
32 \$172,000 of the Alaskan Way viaduct replacement project account—state  
33 appropriation are provided solely for the transportation commission's  
34 proportional share of time spent supporting tolling operations for  
35 the respective tolling facilities.

36       (4) \$50,000 of the motor vehicle account—state appropriation is  
37 provided solely for the commission to identify and measure how a road  
38 usage charge could be adjusted so that vehicles of comparable  
39 efficiency pay the same rate regardless of their means of propulsion

1 and examine options for indexing to stabilize revenue as vehicle  
2 fleets become more efficient over time. If chapter . . . (Substitute  
3 Senate Bill No. 5444), Laws of 2021 is not enacted by June 30, 2021,  
4 the amount provided in this subsection lapses.

5 (5) (a) The transportation budget is currently reliant on vehicle  
6 and driver related fees. Motor vehicle registrations, driver  
7 licenses, tolls, and the motor vehicle fuel tax provide the primary  
8 revenues for the transportation budget. These user revenues no longer  
9 adequately support the transportation system's needs. Many of the  
10 transportation modes have no or little ability to generate revenue,  
11 yet are important elements of a functioning transportation network.  
12 Providing transportation options that do not involve passenger  
13 vehicles is critical. The tax burden in the transportation budget  
14 falls on people that own and drive vehicles. It fails to provide the  
15 money needed for the system quality that the people of Washington  
16 want.

17 (b) Therefore, the commission is directed to evaluate, identify,  
18 and consider agencies, programs, and activities that are currently  
19 funded in the transportation budget that provide a public good that  
20 might be paid for using other revenues. The commission is directed to  
21 make recommendations for potential changes to funding sources for the  
22 transportation system with the goal of providing funding to maintain  
23 existing transportation assets in a state of good repair without  
24 exclusively relying on vehicle owners or drivers as the revenue  
25 source. Preliminary findings must be presented to the Joint  
26 Transportation Committee by September 30, 2022, and a final report  
27 issued to the appropriate committees of the legislature by December  
28 1, 2022.

29 NEW SECTION. **Sec. 206. FOR THE FREIGHT MOBILITY STRATEGIC**

37 Appropriation . . . . . \$4,267,000

1	Highway Safety Account—State Appropriation . . . . .	\$1,214,000
2	Ignition Interlock Device Revolving Account—State	
3	Appropriation . . . . .	\$5,053,000
4	Multimodal Transportation Account—State Appropriation . . . . .	\$288,000

6	Appropriation. . . . .	\$433,000

8	Appropriation. . . . .	\$77,000
9	I-405 and SR 167 Express Toll Lanes Account—State	
10	Appropriation. . . . .	\$1,348,000
11	TOTAL APPROPRIATION. . . . .	\$545,909,000

13 conditions and limitations:

14 (1) Washington state patrol officers engaged in off-duty  
15 uniformed employment providing traffic control services to the  
16 department of transportation or other state agencies may use state  
17 patrol vehicles for the purpose of that employment, subject to  
18 guidelines adopted by the chief of the Washington state patrol. The  
19 Washington state patrol must be reimbursed for the use of the vehicle  
20 at the prevailing state employee rate for mileage and hours of usage,  
21 subject to guidelines developed by the chief of the Washington state  
22 patrol.

23 (2) \$580,000 of the state patrol highway account—state

36 which it is estimated that more than \$625,000 in state sales and use  
37 taxes have been remitted to the state since January 1, 2021, the  
38 Washington state patrol shall notify the state treasurer and the

1 state treasurer shall transfer funds pursuant to section 406 of this

8 the Washington state patrol must report to the house and senate  
9 transportation committees on the status of recruitment and retention  
10 activities as follows:

11 (a) A summary of recruitment and retention strategies;

12 (b) The number of transportation funded staff vacancies by major  
13 category;

14 (c) The number of applicants for each of the positions by these  
15 categories;

16 (d) The composition of workforce;

17 (e) Other relevant outcome measures with comparative information  
18 with recent comparable months in prior years; and

19 (f) Activities related to the implementation of the agency's  
20 workforce diversity plan, including short-term and long-term,  
21 specific comprehensive outreach and recruitment strategies to  
22 increase populations underrepresented within both commissioned and  
23 noncommissioned employee groups.

24 (5) \$493,000 of the state patrol highway account—state

33 office of the state chief information officer on the progress related  
34 to the projects and activities associated with the land mobile radio  
35 system, including the governance structure, outcomes achieved in the  
36 prior six month time period, and how the activities are being managed  
37 holistically as recommended by the office of the chief information  
38 officer. At the time of submittal to the office of the state chief  
39 information officer, this report shall be transmitted to the office

1 of financial management and the house and senate transportation  
2 committees.

3 (7) \$510,000 of the ignition interlock device revolving account—  
4 state appropriation is provided solely for the ignition interlock  
5 program at the Washington state patrol to provide funding for two  
6 staff to work and provide support for the program in working with  
7 manufacturers, service centers, technicians, and participants in the  
8 program.

9 (8) \$1,348,000 of the Interstate 405 and state route number 167  
10 express toll lanes account—state appropriation, \$433,000 of the state  
11 route number 520 corridor account—state appropriation, and \$77,000 of

25 (12) The Washington state patrol must provide a report to the  
26 office of financial management and the house and senate  
27 transportation committees on its plan for implementing a transition  
28 to cloud computing and storage with its 2023-2025 budget submittal.

29 (13) \$945,000 of the state patrol highway account—state  
30 appropriation is provided solely for implementation of chapter . . .  
31 (Substitute House Bill No. 1223), Laws of 2021 (custodial  
32 interrogations). If chapter . . . (Substitute House Bill No. 1223),  
33 Laws of 2021 (custodial interrogations) is not enacted by June 30,  
34 2021, the amount provided in this subsection lapses.

7 House Bill No. 1310), Laws of 2021 (use of force by officers) is not  
8 enacted by June 30, 2021, the amount provided in this subsection  
9 lapses.

10 (16) (a) The legislature finds that the water connection extension  
11 constructed by the Washington state patrol from the city of Shelton's  
12 water facilities to the Washington state patrol academy was necessary  
13 to meet the water supply needs of the academy. The legislature also  
14 finds that the water connection provides an ongoing water supply that  
15 is necessary to the operation of the training facility, that the  
16 state is making use of the water connection for these public  
17 activities, and that any future incidental use of the municipal  
18 infrastructure put in place to support these activities will not  
19 impede the Washington state patrol's ongoing use of the water  
20 connection extension.

21 (b) \$2,220,000 of the transfer from the waste tire removal  
22 account to the motor vehicle fund, as required under RCW 70A.205.425,  
23 reimburses the motor vehicle fund for the portion of the water  
24 project costs assigned by the agreement to properties, other than the  
25 Washington state patrol academy, that make use of the water  
26 connection while the agreement remains in effect. This reimbursement  
27 to the motor vehicle fund is intended to address any possibility that  
28 the termination of this agreement could be determined to result in  
29 the unconstitutional use of 18th amendment designated funds for  
30 nonhighway purposes under the constitution of the state of  
31 Washington; however, this transfer is not intended to indicate that  
32 the incidental use of this infrastructure by these properties  
33 necessarily requires such reimbursement under the state Constitution.  
34 Immediately following the transfer of funds, Washington state patrol  
35 and the city of Shelton shall meet to formally update the terms of  
36 their "Agreement for Utility Connection and Reimbursement of Water  
37 Extension Expenses" executed on June 12, 2017, to reflect the intent  
38 of the proviso.

39 (17) The appropriations in this section provide sufficient  
40 funding for state patrol staffing assuming vacancy savings which may

1 change over time. Funding for staffing will be monitored and adjusted  
2 in the 2022 supplemental budget to restore funding as authorized  
3 staffing levels are achieved.

31	TOTAL APPROPRIATION. . . . .	\$374,521,000

32 The appropriations in this section are subject to the following  
33 conditions and limitations:

34 (1) \$1,100,000 of the highway safety account—state appropriation  
35 is provided solely for the department to provide an interagency  
36 transfer to the department of social and health services, children's  
37 administration division for the purpose of providing driver's license

1 support to a larger population of foster youth than is already served  
2 within existing resources. Support services include reimbursement of

25 application.

32 (g) A high occupancy vehicle exempt decal expires June 30, 2023,  
33 and must be marked to indicate its expiration date. The decal may be

35 expiration. The status as an exempt vehicle continues until the high  
36 occupancy vehicle exempt decal is suspended or revoked for misuse,  
37 the vehicle is no longer used as a for hire nonemergency medical

3 traffic from pedestrians and bicyclists, increasing motor vehicle  
4 safety on state route number 2 and the coincident section of state  
5 route number 97. Consistent with chapter 47.30 RCW and pursuant to  
6 RCW 47.12.080, the legislature declares that transferring portions of

24 necessary to support the Rocky Reach Trail and adjacent buffer areas  
25 only after the transfer of trail-related property to the Washington  
26 state parks and recreation commission is complete. Adjoining property  
27 owners must be given the first opportunity to acquire such property  
28 that abuts their property, and applicable boundary line or other  
29 adjustments must be made to the legal descriptions for recording  
30 purposes.

33 certain quitclaim deed, dated April 19, 2000, recorded in King county  
34 under recording no. 20000425001234, the requirement in the deed that  
35 the property be used for road/street purposes only will be deemed  
36 satisfied by the department of transportation so long as commuter

6 of the legislature by December 1, 2021, on the status of its efforts  
7 to consolidate franchises for broadband facilities across the state,  
8 including plans for increasing the number of consolidated franchises  
9 in the future.

10 (5) During the 2021-2023 biennium, if the department takes  
11 possession of the property situated in the city of Edmonds for which  
12 a purchase agreement was executed between Unocal and the department  
13 in 2005 (Tax Parcel Number 262703-2-003-0009), and if the department  
14 confirms that the property is still no longer needed for  
15 transportation purposes, the department shall provide the city of  
16 Edmonds with the right of first purchase at fair market value in  
17 accordance with RCW 47.12.063(3) for the city's intended use of the

6 and refueling infrastructure to support forecasted levels of electric  
7 vehicle adoption, travel, and usage across Washington state as  
8 described in chapter . . . (Engrossed Second Substitute House Bill

35 reduction of the scope of a project or be made to support increases  
36 in the scope of a project;

37 (ii) Each transfer between projects may only occur if the  
38 director of the office of financial management finds that any  
39 resulting change will not hinder the completion of the projects on

1 (iii) Transfers between projects may be made by the board without  
2 the formal written approval provided under this subsection (3)(a),

19 (d) No fewer than 10 days after the receipt of a project transfer  
20 request, the director of the office of financial management must  
21 provide written notification to the board of any decision regarding  
22 project transfers, with copies submitted to the transportation

21 collaborate with the affected stakeholders as it implements the  
22 corridor construction and implementation plan for state route number  
23 167 and state route number 509. Specific funding allocations must be

18 office must examine the feasibility and necessity of an interstate  
19 compact in conjunction with the national center for interstate  
20 compacts.

21 (c) During the 2021-2023 biennium, the department shall have as a  
22 goal to:

32 (13) (a) \$400,000,000 of the coronavirus state fiscal recovery  
33 fund—federal appropriation, \$529,577,000 of the connecting Washington

35 account—federal appropriation, and \$1,849,000 of the motor vehicle

37 Barrier Removal project (OBI4001) with the intent of fully complying  
38 with the federal *U.S. v. Washington* court injunction by 2030. Of the  
39 amounts provided in this subsection, \$400,000,000 of the connecting

1 Washington account—state appropriation must be initially placed in  
2 unallotted status during the 2021-2023 fiscal biennium, and may only  
3 be released by the office of financial management for allotment by  
4 the department if it is determined that the Fish Passage Barrier  
5 Removal project (OBI4001) is not an eligible use of amounts received  
6 by the state pursuant to the federal American rescue plan act of  
7 2021.

8 (b) The department shall coordinate with the Brian Abbott fish  
9 passage barrier removal board to use a watershed approach by  
10 replacing both state and local culverts guided by the principle of  
11 providing the greatest fish habitat gain at the earliest time. The  
12 department shall deliver high habitat value fish passage barrier  
13 corrections that it has identified, guided by the following factors:  
14 Opportunity to bundle projects, tribal priorities, ability to  
15 leverage investments by others, presence of other barriers, project  
16 readiness, culvert conditions, other transportation projects in the  
17 area, and transportation impacts. The department and Brian Abbott  
18 fish barrier removal board must provide updates on the implementation  
19 of the statewide culvert remediation plan to the legislature by  
20 November 1, 2021, and June 1, 2022.

21 (c) The department must keep track of, for each barrier removed:  
22 (i) The location; (ii) the amount of fish habitat gain; and (iii) the  
23 amount spent to comply with the injunction.

24 (d) Of the amount provided in this subsection, \$142,923,000 of  
25 the motor vehicle account—federal appropriation reflects the  
26 department's portion of the unrestricted funds from the coronavirus  
27 response and relief supplemental appropriations act of 2021. If the  
28 final amount from this act changes while the legislature is not in  
29 session, the department shall follow the existing unanticipated  
30 receipt process and adjust the list referenced in subsection (1) of  
31 this section accordingly, supplanting state funds with federal funds  
32 if possible as directed in section 601 of this act.

34 appropriation and \$3,037,000 of the motor vehicle account—private/

36 Harvard - Improve Interchanges & Local Roads project (L2000122). The  
37 connecting Washington account appropriation for the improvements that  
38 fall within the city of Liberty Lake may only be expended if the city  
39 of Liberty Lake agrees to cover any project costs within the city of

1 Liberty Lake above the \$20,900,000 of state appropriation provided  
2 for the total project on the list referenced in subsection (1) of  
3 this section.

4 (15) \$15,189,000 of the motor vehicle account—federal  
5 appropriation, \$259,000 of the motor vehicle account—state

11 appropriation is provided solely for the SR 18 Widening - Issaquah/  
12 Hobart Rd to Raging River project (L1000199) for improving and  
13 widening state route number 18 to four lanes from Issaquah-Hobart  
14 Road to Raging River.

15 (17) \$1,000,000 of the connecting Washington account—state  
16 appropriation is provided solely for the North Lewis County  
17 transportation study. The study shall examine new, alternate routes  
18 for vehicular and truck traffic at the Harrison interchange (Exit 82)  
19 in North Centralia and shall allow for a site and configuration to be  
20 selected and feasibility to be conducted for final design,  
21 permitting, and construction of the I-5/North Lewis county  
22 Interchange project (L2000204).

23 (18) \$1,090,000 of the motor vehicle account—state appropriation  
24 is provided solely for the US 101/East Sequim Corridor Improvements

31 (20) \$1,378,000 of the motor vehicle account—federal  
32 appropriation is provided solely for the US 101/Morse Creek Safety

38 appropriation is provided solely for the US Hwy 2 Safety project  
39 (N00200R).

1 (23) The department shall itemize all future requests for the  
2 construction of buildings on a project list and submit them through  
3 the transportation executive information system as part of the  
4 department's annual budget submittal. It is the intent of the  
5 legislature that new facility construction must be transparent and  
6 not appropriated within larger highway construction projects.

7 (24) Any advisory group that the department convenes during the  
8 2021-2023 fiscal biennium must consider the interests of the entire  
9 state of Washington.

10 (25) The legislature continues to prioritize the replacement of  
11 the state's aging infrastructure and recognizes the importance of  
12 reusing and recycling construction aggregate and recycled concrete  
13 materials in our transportation system. To accomplish Washington  
14 state's sustainability goals in transportation and in accordance with  
15 RCW 70.95.805, the legislature reaffirms its determination that  
16 recycled concrete aggregate and other transportation building  
17 materials are natural resource construction materials that are too  
18 valuable to be wasted and landfilled, and are a commodity as defined  
19 in WAC 173-350-100.

20 Further, the legislature determines construction aggregate and  
21 recycled concrete materials substantially meet widely recognized  
22 international, national, and local standards and specifications  
23 referenced in American society for testing and materials, American  
24 concrete institute, Washington state department of transportation,  
25 Seattle department of transportation, American public works  
26 association, federal aviation administration, and federal highway  
27 administration specifications, and are described as necessary and  
28 desirable products for recycling and reuse by state and federal  
29 agencies.

30 As these recyclable materials have well established markets, are  
31 substantially a primary or secondary product of necessary  
32 construction processes and production, and are managed as an item of  
33 commercial value, construction aggregate and recycled concrete  
34 materials are exempt from chapter 173-350 WAC.

6 conditions and limitations:

7 (1) Except as provided otherwise in this section, the entire  
8 appropriations in this section are provided solely for the projects  
9 and activities as listed in LEAP Transportation Document 2021-2 ALL  
10 PROJECTS as developed April 23, 2021, Program - Washington State  
11 Ferries Capital Program (W). No funds appropriated in this act or  
12 additional funds received through the unanticipated receipt process  
13 may be allocated or expended for terminal electrification purposes

15 (2) For the 2021-2023 biennium, the marine division shall provide  
16 to the office of financial management and the legislative  
17 transportation committees the following reports on ferry capital  
18 projects:

19 (a) On a semiannual basis the report must include a status update  
20 on projects with funding provided in subsections (4), (5), (6), and  
21 (8) of this section including, but not limited to, the following:

- 22 (i) Anticipated cost increases and cost savings;
- 23 (ii) Anticipated cash flow and schedule changes; and
- 24 (iii) Explanations for the changes.

25 (b) On an annual basis the report must include a status update on

- 30 (iii) Associated changes in funding among projects, accompanied  
31 by explanations for the changes.

32 (c) On an annual basis the report must include an update on the  
33 implementation of the maintenance management system with  
34 recommendations for using the system to improve the efficiency of  
35 project reporting under this subsection.

36 (3) \$5,000,000 of the Puget Sound capital construction account—  
37 state appropriation is provided solely for emergency capital repair  
38 costs (999910K). Funds may only be spent after approval by the office  
39 of financial management.

1 (4) \$1,277,000 of the Puget Sound capital construction account—  
2 state appropriation is provided solely for the ORCA card next

5 development of a new, interoperable ticketing system.

6 (5) \$24,750,000 of the Puget Sound capital construction account—  
7 state appropriation is provided solely for the conversion of up to  
8 two Jumbo Mark II vessels to electric hybrid propulsion (G2000084).  
9 The department shall seek additional funds for the purposes of this

19 such, it is the intent of the legislature that the department award  
20 the contract for the hybrid electric Olympic class vessel  
21 #5(L2000329) in a timely manner. In addition, the legislature intends  
22 to minimize costs and maximize construction efficiency by providing  
23 sufficient funding for construction of all five vessels, including  
24 funding for long lead time materials procured at the lowest possible  
25 prices. The commencement of construction of new vessels for the ferry  
26 system is important not only for safety reasons, but also to keep  
27 skilled marine construction jobs in the Puget Sound region and to  
28 sustain the capacity of the region to meet the ongoing construction  
29 and preservation needs of the ferry system fleet of vessels. The  
30 legislature has determined that the current vessel procurement  
31 process must move forward with all due speed, balancing the interests  
32 of both the taxpayers and shipyards. To accomplish construction of  
33 vessels in accordance with RCW 47.60.810, the prevailing shipbuilder,  
34 for vessels initially funded after July 1, 2020, is encouraged to  
35 follow the historical practice of subcontracting the construction of

18 transportation costs; jobs saved in rail-dependent industries; and/or  
19 reduced future costs to repair wear and tear on state and local  
20 highways due to fewer annual truck trips (reduced vehicle miles  
21 traveled). The amounts provided in this subsection are not a  
22 commitment for future legislatures, but it is the legislature's  
23 intent that future legislatures will work to approve biennial  
24 appropriations until the full \$7,337,000 cost of this project is

4 freight rail assistance program, and shall evaluate the applications  
5 in a manner consistent with past practices as specified in section  
6 309, chapter 367, Laws of 2011. By November 15, 2022, the department  
7 shall submit a prioritized list of recommended projects to the office  
8 of financial management and the transportation committees of the  
9 legislature.

10 (7) \$33,964,000 of the multimodal transportation account—state

12 account—federal appropriation are provided solely for Passenger Rail  
13 Equipment Replacement (project 700010C.) The appropriations in this  
14 subsection include insurance proceeds received by the state. The  
15 department must use these funds only to purchase replacement

29 state match to improve the state-owned Palouse river and Coulee City  
30 system. The amount listed in this subsection is not a commitment for  
31 future legislatures, but is the legislature's intent that future  
32 legislatures will work to approve biennial appropriations up to a  
33 state match share not to exceed \$6,696,000 of a grant award.

10 (1) The 2005 transportation partnership projects or improvements  
11 and 2015 connecting Washington projects or improvements are listed in  
12 the LEAP Transportation Document 2021-1 as developed April 23, 2021,  
13 which consists of a list of specific projects by fund source and  
14 amount over a sixteen-year period. Current fiscal biennium funding  
15 for each project is a line-item appropriation, while the outer year  
16 funding allocations represent a sixteen-year plan. The department of  
17 transportation is expected to use the flexibility provided in this  
18 section to assist in the delivery and completion of all  
19 transportation partnership account and connecting Washington account  
20 projects on the LEAP transportation document referenced in this  
21 subsection. For the 2021-2023 project appropriations, unless  
22 otherwise provided in this act, the director of the office of  
23 financial management may provide written authorization for a transfer  
24 of appropriation authority between projects funded with  
25 transportation partnership account appropriations or connecting  
26 Washington account appropriations to manage project spending and  
27 efficiently deliver all projects in the respective program under the  
28 following conditions and limitations:

29 (a) Transfers may only be made within each specific fund source  
30 referenced on the respective project list;

31 (b) Transfers from a project may not be made as a result of the  
32 reduction of the scope of a project or be made to support increases  
33 in the scope of a project;

34 (c) Transfers from a project may be made if the funds  
35 appropriated to the project are in excess of the amount needed in the  
36 current fiscal biennium;

37 (d) Transfers may not occur for projects not identified on the  
38 applicable project list;

1 (e) Transfers to a project may not occur if that project is a  
2 programmatic funding item described in broad general terms on the  
3 applicable project list without referencing a specific state route  
4 number;

5 (f) Transfers may not be made while the legislature is in  
6 session;

7 (g) Transfers to a project may not be made with funds designated  
8 as attributable to practical design savings as described in RCW  
9 47.01.480;

10 (h) Except for transfers made under (l) of this subsection,  
11 transfers may only be made in fiscal year 2023;

12 (i) The total amount of transfers under this section may not  
13 exceed \$50,000,000;

14 (j) Except as otherwise provided in (l) of this subsection,  
15 transfers made to a single project may not cumulatively total more  
16 than \$20,000,000 per biennium;

17 (k) Each transfer between projects may only occur if the director  
18 of the office of financial management finds that any resulting change  
19 will not hinder the completion of the projects as approved by the  
20 legislature; and

21 (l) Transfers between projects may be made by the department of  
22 transportation without the formal written approval provided under  
23 this subsection (1), provided that the transfer amount to a single  
24 project does not exceed two hundred fifty thousand dollars or ten  
25 percent of the total project per biennium, whichever is less. These  
26 transfers must be reported quarterly to the director of the office of  
27 financial management and the chairs of the house of representatives  
28 and senate transportation committees.

29 (2) The department of transportation must submit quarterly all  
30 transfers authorized under this section in the transportation  
31 executive information system. The office of financial management must  
32 maintain a legislative baseline project list identified in the LEAP  
33 transportation documents referenced in this act, and update that  
34 project list with all authorized transfers under this section,  
35 including any effects to the total project budgets and schedules  
36 beyond the current biennium.

37 (3) At the time the department submits a request to transfer  
38 funds under this section, a copy of the request must be submitted to  
39 the chairs and ranking members of the transportation committees of  
40 the legislature.

1 (4) Before approval, the office of financial management shall

12 submittal a report detailing all transfers made pursuant to this  
13 section, including any effects to the total project budgets and  
14 schedules beyond the current biennium.

16 funding not appropriated in this act, the department shall apply such  
17 funds to any of the following activities in lieu of state funds, if  
18 compliant with federal funding restrictions, and in the order that  
19 most reduces administrative burden and minimizes the use of bond  
20 proceeds:

21 (i) Projects on LEAP Transportation Document 2021-2 ALL PROJECTS  
22 as developed April 23, 2021; or

23 (ii) Other department of transportation operating or capital  
24 expenditures funded by appropriations from state accounts in this  
25 act.

26 (b) However, if the funds received may not be used for any of the  
27 purposes enumerated in this section and must be obligated before the  
28 next regular legislative session, then the department may program the  
29 funds for other transportation-related activities, provided that  
30 these actions do not initiate any new programs, policies, or  
31 expenditure levels requiring additional one-time or ongoing state  
32 funds that have not been expressly authorized by the legislature. The  
33 department shall follow the existing unanticipated receipt process to  
34 notify the legislative standing committees on transportation and the  
35 office of financial management of the amount of federal funds  
36 received in addition to those appropriated in this act and the  
37 projects or activities receiving funding through this process.

1 interlock device revolving account program also includes ignition  
2 interlock enforcement work conducted by the Washington state patrol.

3 (2) A pilot program is created within the ignition interlock  
4 device revolving account program for the purpose of monitoring  
5 compliance by persons required to use ignition interlock devices and  
6 by ignition interlock companies and vendors.

7 (3) The department, the state patrol, and the Washington traffic

29 multiplied by the wholesale value of the substance. Moneys collected  
30 under this subsection (1)(a) must be deposited in the model toxics  
31 control capital account.

32 (b) Beginning July 1, 2019, the rate of the tax on petroleum  
33 products is one dollar and nine cents per barrel. The tax collected  
34 under this subsection (1)(b) on petroleum products must be deposited  
35 as follows, after first depositing the tax as provided in (c) of this  
36 subsection ((1)), except that during the 2021-2023 biennium the  
37 deposit as provided in (c) of this subsection may be prorated equally

16 (d) The department must compile a list of petroleum products that  
17 are not easily measured on a per barrel basis. Petroleum products  
18 identified on the list are subject to the rate under (a) of this  
19 subsection in lieu of the volumetric rate under (b) of this  
20 subsection. The list will be made in a form and manner prescribed by  
21 the department and must be made available on the department's  
22 internet website. In compiling the list, the department may accept  
23 technical assistance from persons that sell, market, or distribute  
24 petroleum products and consider any other resource the department  
25 finds useful in compiling the list.

26 (2) Chapter 82.32 RCW applies to the tax imposed in this chapter.  
27 The tax due dates, reporting periods, and return requirements

14 (a) Each year the department shall provide the commission a  
15 report of its review of fares and pricing policies, with  
16 recommendations for the revision of fares and pricing policies for  
17 the ensuing year;

18 (b) By September 1st of each year, beginning in 2008, the  
19 commission shall adopt by rule fares and pricing policies for the  
20 ensuing year.

21 (2) The commission may adopt by rule fares that are effective for  
22 more or less than one year for the purposes of transitioning to the  
23 fare schedule in subsection (1) of this section.

24 (3) The commission may increase ferry fares included in the  
25 schedule of charges adopted under this section by a percentage that  
26 exceeds the fiscal growth factor.

27 (4) The chief executive officer of the ferry system may authorize  
28 the use of promotional, discounted, and special event fares to the  
29 general public and commercial enterprises for the purpose of  
30 maximizing capacity use and the revenues collected by the ferry

32 the promotional, discounted, and special event fares offered during  
33 each fiscal year and the financial results from these activities.

34 (5) Fare revenues and other revenues deposited in the Puget Sound  
35 ferry operations account created in RCW 47.60.530 may not be used to  
36 support the Puget Sound capital construction account created in RCW  
37 47.60.505, unless the support for capital is separately identified in  
38 the fare or except as provided in section 715 of this act during the  
39 2021-2023 biennium.

1 (6) The commission may not raise fares until the fare rules

4 (7) The commission shall impose a vessel replacement surcharge of

7 clearly indicated to ferry passengers and drivers and, if possible,  
8 on the fare media itself.

9 (8) Except as provided in subsection (10) of this section,  
10 beginning May 1, 2020, the commission shall impose an additional  
11 vessel replacement surcharge in an amount sufficient to fund twenty-

13 account funds provided in chapter 417, Laws of 2019 or chapter . . .  
14 (SSB 5419), Laws of 2019. The department of transportation shall  
15 provide to the commission vessel and debt service cost estimates.  
16 Information on vessels constructed or purchased with revenue from the  
17 surcharges must be publicly posted including, but not limited to, the  
18 commission web site.

19 (9) The vessel replacement surcharges imposed in this section may  
20 only be used for the construction or purchase of ferry vessels and to  
21 pay the principal and interest on bonds authorized for the  
22 construction or purchase of new ferry vessels.

23 (10) The commission shall not impose the additional vessel  
24 replacement surcharge in subsection (8) of this section if doing so  
25 would increase fares by more than ten percent.

26 **Sec. 717.** RCW 34.05.350 and 2011 1st sp.s. c 2 s 1 are each  
27 amended to read as follows:

28 (1) If an agency for good cause finds:

29 (a) That immediate adoption, amendment, or repeal of a rule is  
30 necessary for the preservation of the public health, safety, or  
31 general welfare, and that observing the time requirements of notice  
32 and opportunity to comment upon adoption of a permanent rule would be  
33 contrary to the public interest;

34 (b) That state or federal law or federal rule or a federal  
35 deadline for state receipt of federal funds requires immediate  
36 adoption of a rule; or

37 (c) In order to implement the requirements or reductions in  
38 appropriations enacted in any budget for fiscal year 2009, 2010,  
39 2011, 2012, (~~or~~) 2013, or in an omnibus transportation

1 appropriations act for the 2021-2023 biennium related to setting toll  
2 rates or ferry fares, which necessitates the need for the immediate  
3 adoption, amendment, or repeal of a rule, and that observing the time  
4 requirements of notice and opportunity to comment upon adoption of a  
5 permanent rule would be contrary to the fiscal needs or requirements  
6 of the agency,  
7 the agency may dispense with those requirements and adopt, amend, or  
8 repeal the rule on an emergency basis. The agency's finding and a  
9 concise statement of the reasons for its finding shall be  
10 incorporated in the order for adoption of the emergency rule or  
11 amendment filed with the office of the code reviser under RCW  
12 34.05.380 and with the rules review committee.

13 (2) An emergency rule adopted under this section takes effect  
14 upon filing with the code reviser, unless a later date is specified  
15 in the order of adoption, and may not remain in effect for longer  
16 than one hundred twenty days after filing. Identical or substantially  
17 similar emergency rules may not be adopted in sequence unless  
18 conditions have changed or the agency has filed notice of its intent  
19 to adopt the rule as a permanent rule, and is actively undertaking  
20 the appropriate procedures to adopt the rule as a permanent rule.  
21 This section does not relieve any agency from compliance with any law  
22 requiring that its permanent rules be approved by designated persons  
23 or bodies before they become effective.

24 (3) Within seven days after the rule is adopted, any person may  
25 petition the governor requesting the immediate repeal of a rule  
26 adopted on an emergency basis by any department listed in RCW  
27 43.17.010. Within seven days after submission of the petition, the  
28 governor shall either deny the petition in writing, stating his or  
29 her reasons for the denial, or order the immediate repeal of the  
30 rule. In ruling on the petition, the governor shall consider only  
31 whether the conditions in subsection (1) of this section were met  
32 such that adoption of the rule on an emergency basis was necessary.  
33 If the governor orders the repeal of the emergency rule, any sanction  
34 imposed based on that rule is void. This subsection shall not be  
35 construed to prohibit adoption of any rule as a permanent rule.

36 **Sec. 718.** 2019 c 396 s 2 (uncodified) is amended to read as

9 community, and economic impacts. Options for a new primary commercial  
10 aviation facility in Washington may include expansion of an existing  
11 airport facility but may not include siting a facility on or in the

13 the installation's ability to carry out its mission requirements. The  
14 work of the commission shall include the following:

15       (a) Recommendations to the legislature on future Washington state  
16 long-range commercial aviation facility needs including possible  
17 additional aviation facilities or expansion of current aviation

31 commercial aviation facility by (~~January 1, 2022~~) February 15,  
32 2023; and

34 commercial aviation facility that is completed and functional by  
35 2040.

36       (2) The commission shall submit a report of its findings and  
37 recommendations to the transportation committees of the legislature  
38 by (~~January 1, 2022~~) February 15, 2023. The commission must allow a

11 account may be spent only after appropriation. Expenditures from the  
12 account may be used only for grants administered by the department of  
13 transportation to: (a) Counties to perform safety engineering  
14 analysis of mixed vehicle use on any road within a county; (b) local  
15 governments to provide funding to erect signs providing notice to the

28       (2) The department of transportation must prioritize grant awards  
29 in the following priority order:

36 motorists of the upcoming intersection. Such signs must conform to  
37 the manual on uniform traffic control devices.

19 projects based on a competitive process that considers the following  
20 criteria:

21       (i) The cost-effectiveness of the reductions in carbon emissions  
22 provided by the project; and

23       (ii) The benefit provided to transitioning the entire state to a  
24 transportation system with lower carbon intensity.

25       (2) The department's public transportation division must  
26 establish an advisory committee to assist in identifying projects  
27 under subsection (1) of this section. The advisory committee must  
28 include representatives from the department of ecology, the

30 and at least one transit authority.

31       (3) In order to receive green transportation capital grant  
32 program funding for a project, a transit authority must provide  
33 matching funding for that project that is at least equal to twenty  
34 percent of the total cost of the project.

35       (4) The department's public transportation division must report  
36 annually to the transportation committees of the legislature on the

1 the first phase of this effort, the office of financial management,  
2 with the assistance of relevant agencies, must develop implementation  
3 plans and take all necessary steps to ensure that the actual cost-  
4 recovery mechanisms will be in place by January 1, 2020, for the  
5 vehicles and drivers programs of the department of licensing. By  
6 November 1, 2019, the office of financial management must provide a  
7 report to the joint transportation committee on the phase 1  
8 implementation plan and options to expand similar cost recovery  
9 mechanisms to other state agencies and programs, including the

10 conditions and limitations:

11 (1) \$150,000 of the highway safety account—state appropriation is  
12 provided solely for the implementation of chapter 54, Laws of 2019  
13 (Cooper Jones Active Transportation Safety Council). If chapter 54,  
14 Laws of 2019 is not enacted by June 30, 2019, the amount provided in  
15 this subsection lapses.

16 (2) The Washington traffic safety commission may oversee a pilot  
17 program in up to three cities implementing the use of automated  
18 vehicle noise enforcement cameras in zones that have been designated  
19 by ordinance as "Stay Out of Areas of Racing."

20 (a) Any programs authorized by the commission must be authorized  
21 by December 31, 2020.

22 (b) If a city has established an authorized automated vehicle  
23 noise enforcement camera pilot program under this section, the  
24 compensation paid to the manufacturer or vendor of the equipment used  
25 must be based upon the value of the equipment and services provided  
26 or rendered in support of the system.

27 (c) Any city administering a pilot program overseen by the  
28 traffic safety commission shall use the following guidelines to  
29 administer the program:

30 (i) Automated vehicle noise enforcement camera may record  
31 photographs or audio of the vehicle and vehicle license plate only  
32 while a violation is occurring. The picture must not reveal the face  
33 of the driver or of passengers in the vehicle;

34 (ii) The law enforcement agency of the city or county government  
35 shall install two signs facing opposite directions within two hundred  
36 feet, or otherwise consistent with the uniform manual on traffic  
37 control devices, where the automated vehicle noise enforcement camera  
38 is used that state "Street Racing Noise Pilot Program in Progress";

2 enforcement cameras must post information on the city web site and  
3 notify local media outlets indicating the zones in which the  
4 automated vehicle noise enforcement cameras will be used;

5 (iv) A city may only issue a warning notice with no penalty for a  
6 violation detected by automated vehicle noise enforcement cameras in  
7 a Stay Out of Areas of Racing zone. Warning notices must be mailed to  
8 the registered owner of a vehicle within fourteen days of the  
9 detected violation;

10 (v) A violation detected through the use of automated vehicle  
11 noise enforcement cameras is not part of the registered owner's  
12 driving record under RCW 46.52.101 and 46.52.120;

13 (vi) Notwithstanding any other provision of law, all photographs,  
14 videos, microphotographs, audio recordings, or electronic images  
15 prepared under this section are for the exclusive use of law  
16 enforcement in the discharge of duties under this section and are not  
17 open to the public and may not be used in a court in a pending action  
18 or proceeding. No photograph, microphotograph, audio recording, or  
19 electronic image may be used for any purpose other than the issuance  
20 of warnings for violations under this section or retained longer than

22 (2); and

23 (vii) By June 30, 2021, the participating cities shall provide a  
24 report to the commission and appropriate committees of the  
25 legislature regarding the use, public acceptance, outcomes, warnings  
26 issued, data retention and use, and other relevant issues regarding  
27 automated vehicle noise enforcement cameras demonstrated by the pilot  
28 projects.

29 (3) The Washington traffic safety commission may oversee a  
30 demonstration project in one county, coordinating with a public  
31 transportation benefit area (PTBA) and the department of  
32 transportation, to test the feasibility and accuracy of the use of  
33 automated enforcement technology for high occupancy vehicle (HOV)  
34 lane passenger compliance. All costs associated with the  
35 demonstration project must be borne by the participating public  
36 transportation benefit area. Any photograph, microphotograph, or  
37 electronic images of a driver or passengers are for the exclusive use  
38 of the PTBA in the determination of whether an HOV passenger  
39 violation has occurred to test the feasibility and accuracy of  
40 automated enforcement under this subsection and are not open to the

1 public and may not be used in a court in a pending action or  
2 proceeding. All photographs, microphotographs, and electronic images  
3 must be destroyed after determining a passenger count and no later  
4 than the completion of the demonstration project. No warnings or  
5 notices of infraction may be issued under the demonstration project.

6 For purposes of the demonstration project, an automated  
7 enforcement technology device may record an image of a driver and  
8 passenger of a motor vehicle. The county and PTBA must erect signs  
9 marking the locations where the automated enforcement for HOV  
10 passenger requirements is occurring.

11 The PTBA, in consultation with the Washington traffic safety  
12 commission, must provide a report to the transportation committees of  
13 the legislature with the number of violations detected during the  
14 demonstration project, whether the technology used was accurate and  
15 any recommendations for future use of automated enforcement  
16 technology for HOV lane enforcement by June 30, 2021.

17 (4) (a) The Washington traffic safety commission shall coordinate  
18 with each city that implements a pilot program as authorized in  
19 chapter 224, Laws of 2020 (automated traffic safety cameras) or  
20 chapter . . . (Substitute Senate Bill No. 5789), Laws of 2020

25 violators under the pilot program;

26 (ii) The number of warnings and infractions issued to the  
27 registered owners of vehicles that are not registered with an address  
28 located in the city conducting the pilot program; and

29 (iii) The frequency with which warnings and infractions are  
30 issued on weekdays versus weekend days.

31 (b) If neither chapter 224, Laws of 2020 nor chapter . . .

11 department of licensing shall recommend any statutory,  
12 administrative, or other changes needed to optimize and further

14 corresponding resource requirements. Among its recommendations, the  
15 department of licensing must address potential changes to the process  
16 under RCW 46.93.210 by which the department notifies persons whose

13 2019-2021 fiscal biennium, the department may use the distributed  
14 direct program support or other cost allocation method to fund a new  
15 capital systems replacement or modernization project. The department  
16 shall submit a decision package for implementation of a new capital

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. Adjoining property owners must be given the first opportunity to acquire such property that abuts their property, and applicable boundary line or other adjustments must be made to the legal descriptions for recording purposes.

(2) With respect to Parcel 12 of the real property conveyed by the state of Washington to the city of Mercer Island under that certain quitclaim deed, dated April 19, 2000, recorded in King county under recording no. 20000425001234, the requirement in the deed that the property be used for road/street purposes only will be deemed satisfied by the department of transportation so long as commuter

1 parking, as part of the vertical development of the property, is one  
2 of the significant uses of the property.

3 (3) \$1,600,000 of the motor vehicle account—state appropriation  
4 is provided solely for real estate services activities. Consistent  
5 with RCW 47.12.120 and during the 2019-2021 fiscal biennium, when  
6 initiating, extending, or renewing any rent or lease agreements with  
7 a regional transit authority, consideration of value must be  
8 equivalent to one hundred percent of economic or market rent.

9 (4) (a) \$100,000 of the motor vehicle account—state appropriation  
10 is provided solely for the department to:

11 (i) Determine the real property owned by the state of Washington

20 (b) The department shall provide a report to the transportation  
21 committees of the legislature describing the properties it has

13 The appropriations in this section are subject to the following  
14 conditions and limitations:

15 (1) \$6,000,000 of the motor vehicle account—state appropriation  
16 is provided solely for low-cost enhancements. The department shall

22 (2)(a) During the 2019-2021 fiscal biennium, the department shall  
23 continue a pilot program that expands private transportation  
24 providers' access to high occupancy vehicle lanes. Under the pilot  
25 program, when the department reserves a portion of a highway based on  
26 the number of passengers in a vehicle, the following vehicles must be  
27 authorized to use the reserved portion of the highway if the vehicle

33 defined under department of licensing rules; (iii) private nonprofit  
34 transportation provider vehicles regulated under chapter 81.66 RCW;  
35 and (iv) private employer transportation service vehicles. For  
36 purposes of this subsection, "private employer transportation  
37 service" means regularly scheduled, fixed-route transportation  
38 service that is offered by an employer for the benefit of its  
39 employees. Nothing in this subsection is intended to authorize the

1 conversion of public infrastructure to private, for-profit purposes  
2 or to otherwise create an entitlement or other claim by private users  
3 to public infrastructure.

4 (b) The department shall expand the high occupancy vehicle lane  
5 access pilot program to vehicles that deliver or collect blood,  
6 tissue, or blood components for a blood-collecting or distributing  
7 establishment regulated under chapter 70.335 RCW. Under the pilot  
8 program, when the department reserves a portion of a highway based on  
9 the number of passengers in a vehicle, blood-collecting or

15 access pilot program to organ transport vehicles transporting a time  
16 urgent organ for an organ procurement organization as defined in RCW

23 access pilot program to private, for hire vehicles regulated under  
24 chapter 81.72 RCW that have been specially manufactured, designed, or  
25 modified for the transportation of a person who has a mobility  
26 disability and uses a wheelchair or other assistive device. Under the  
27 pilot program, when the department reserves a portion of a highway  
28 based on the number of passengers in a vehicle, wheelchair-accessible  
29 taxicabs that are clearly and identifiably marked as such on all  
30 sides of the vehicle are considered public transportation vehicles  
31 and must be authorized to use the reserved portion of the highway.

33 vehicles from paying tolls when they do not meet the occupancy  
34 requirements established by the department for express toll lanes.

35 (3) When regional transit authority construction activities are  
36 visible from a state highway, the department shall allow the regional  
37 transit authority to place safe and appropriate signage informing the

19 state and local roadways in Whatcom county, and to continue the  
20 existing pilot information campaign in Spokane county. The reason for  
21 the geographic selection of Spokane and Whatcom counties is based on  
22 the high utilization of studded tires in these jurisdictions. The  
23 public information campaigns must primarily focus on making the  
24 consumer aware of the safety implications for other drivers, road  
25 deterioration, financial impact for taxpayers, and, secondarily, the  
26 alternatives to studded tires. The Whatcom county pilot media-based  
27 public information campaign must begin by September 1, 2020. By  
28 January 14, 2021, the department must provide the transportation

5 appropriation is provided solely to complete the road usage charge  
6 pilot project overseen by the transportation commission using the

9 road usage charge as a possible replacement for the gas tax.

10 (5) \$1,050,000 of the motor vehicle account—federal appropriation  
11 is provided solely for the Forward Drive road usage charge research  
12 project overseen by the transportation commission using a portion of

12 methodologies and project timelines and costs. A final report must be  
13 submitted to the transportation committees of the legislature and the  
14 governor by (~~December~~) March 1, (2021) 2022.

36 providers of transportation. Of this amount:

37 (a) \$14,297,000 of the multimodal transportation account—state  
38 appropriation is provided solely for grants to nonprofit providers of

1 special needs transportation. Grants for nonprofit providers must be

6 (b) \$48,401,000 of the multimodal transportation account—state  
7 appropriation is provided solely for grants to transit agencies to  
8 transport persons with special transportation needs. To receive a

10 have a maintenance of effort for special needs transportation that is  
11 no less than the previous year's maintenance of effort for special  
12 needs transportation. Grants for transit agencies must be prorated  
13 based on the amount expended for demand response service and route  
14 deviated service in calendar year 2017 as reported in the "Summary of  
15 Public Transportation - 2017" published by the department of  
16 transportation. No transit agency may receive more than thirty  
17 percent of these distributions. Fuel type may not be a factor in the

24 appropriation is provided solely for a vanpool grant program for: (i)  
25 Public transit agencies to add vanpools or replace vans; and (ii)  
26 incentives for employers to increase employee vanpool use. The grant  
27 program for public transit agencies will cover capital costs only;  
28 operating costs for public transit agencies are not eligible for  
29 funding under this grant program. Additional employees may not be  
30 hired from the funds provided in this section for the vanpool grant  
31 program, and supplanting of transit funds currently funding vanpools  
32 is not allowed. The department shall encourage grant applicants and  
33 recipients to leverage funds other than state funds. Fuel type may  
34 not be a factor in the grant selection process.

35 (b) At least \$1,600,000 of the amount provided in this subsection  
36 must be used for vanpool grants in congested corridors.

37 (4) \$27,483,000 of the regional mobility grant program account—

4 program account—state appropriation is provided solely for the  
5 regional mobility grant projects identified in LEAP Transportation  
6 Document ((2020)) 2021-2 ALL PROJECTS as developed ((March 11, 2020))  
7 April 23, 2021, Program - Public Transportation Program (V). The  
8 department shall review all projects receiving grant awards under  
9 this program at least semiannually to determine whether the projects  
10 are making satisfactory progress. Any project that has been awarded  
11 funds, but does not report activity on the project within one year of  
12 the grant award, must be reviewed by the department to determine  
13 whether the grant should be terminated. The department shall promptly  
14 close out grants when projects have been completed, and any remaining  
15 funds must be used only to fund projects identified in the LEAP  
16 transportation document referenced in this subsection. The department  
17 shall provide annual status reports on December 15, 2019, and  
18 December 15, 2020, to the office of financial management and the  
19 transportation committees of the legislature regarding the projects  
20 receiving the grants. It is the intent of the legislature to  
21 appropriate funds through the regional mobility grant program only  
22 for projects that will be completed on schedule. A grantee may not  
23 receive more than twenty-five percent of the amount appropriated in  
24 this subsection. ((Additionally, when allocating funding for the  
25 ~~2021-2023 biennium, no more than thirty percent of the total grant~~

30 (b) In order to be eligible to receive a grant under (a) of this  
31 subsection during the 2019-2021 fiscal biennium, a transit agency  
32 must establish a process for private transportation providers to  
33 apply for the use of park and ride facilities. For purposes of this  
34 subsection, (i) "private transportation provider" means: An auto  
35 transportation company regulated under chapter 81.68 RCW; a passenger

8 appropriation and \$784,000 of the state vehicle parking account—state

13 appropriation is provided solely for the department to continue a  
14 pilot transit pass incentive program. Businesses and nonprofit

16 population of more than seven hundred thousand that have never  
17 offered transit subsidies to employees are eligible to apply to the  
18 program for a fifty percent rebate on the cost of employee transit  
19 subsidies provided through the regional ORCA fare collection system.  
20 No single business or nonprofit organization may receive more than  
21 ten thousand dollars from the program.

22 (i) Businesses and nonprofit organizations may apply and be  
23 awarded funds prior to purchasing a transit subsidy, but the  
24 department may not provide reimbursement until proof of purchase or a  
25 contract has been provided to the department.

26 (ii) The department shall update the transportation committees of  
27 the legislature on the impact of the program by January 31, 2020, and  
28 may adopt rules to administer the program.

30 appropriation is provided solely for the STAR pass program for state  
31 employees residing in Mason and Grays Harbor Counties. Use of the  
32 pass is for public transportation between Mason County and Thurston  
33 County, and Grays Harbor and Thurston County. The pass may also be  
34 used within Grays Harbor County. The STAR pass commute trip reduction  
35 program is open to any state employee who expresses intent to commute  
36 to his or her assigned state worksite using a public transit system  
37 currently participating in the STAR pass program.

14 It is the intent of the legislature that entities identified to  
15 receive funding in the LEAP document referenced in this subsection  
16 receive the amounts specified in the time frame specified in that  
17 LEAP document. If an entity has already completed a project in the  
18 LEAP document referenced in this subsection before the time frame  
19 identified, the entity may substitute another transit project or  
20 projects that cost a similar or lesser amount.

21 (9) \$1,000,000 of the multimodal transportation account—state  
22 appropriation is provided solely for transit coordination grants.  
23 Fuel type may not be a factor in the grant selection process.

29 department expects to have substantial reappropriations for the  
30 2021-2023 fiscal biennium, the department may, on a pilot basis,  
31 apply funding from a project with an appropriation that cannot be  
32 used for the current fiscal biennium to advance one or more of the  
33 following projects:

34 (i) King County Metro - RapidRide Expansion, Burien-Delridge  
35 (G2000031);

36 (ii) King County Metro - Route 40 Northgate to Downtown

1 (b) At least ten business days before advancing a project  
2 pursuant to this subsection, the department must notify the office of  
3 financial management and the transportation committees of the  
4 legislature. The advancement of a project may not hinder the delivery  
5 of the projects for which the reappropriations are necessary for the  
6 2021-2023 fiscal biennium.

7 (c) To the extent practicable, the department shall use the  
8 flexibility and authority granted in this section to minimize the  
9 amount of reappropriations needed each biennium.

15 management may authorize, through an allotment modification,  
16 reductions in the appropriated amounts that are provided solely for a  
17 particular purpose within this section subject to the following  
18 conditions and limitations:

19 (a) No allotment modifications may be made to amounts provided

4 Management - Mobile Work. This includes reporting after the 2020  
5 legislative session on the measurable results of an early pilot  
6 initiative, "Telework Tuesday," beginning in January 2020.

7 (b) Capitol campus state agency management is directed to fully  
8 participate in this work, which aims to reduce greenhouse gases,  
9 require less office space and parking investments; provide low cost  
10 congestion relief on I-5 during peak periods, US 101, and the local  
11 transportation network; and improve retention and recruitment of  
12 public employees. The agencies should actively: Encourage employees  
13 qualified to telework to participate in this program and increase the  
14 number of employees who qualify for mobile work and schedule shifts.

15 (c) If measurable success is achieved, the capitol campus state  
16 agencies shall provide options to expand the project to other  
17 jurisdictions concentrated with large employers. Expansion and  
18 encouragement of telework will help reduce demand on the  
19 transportation system, reduce traffic during peak hours, and reduce  
20 greenhouse gas emissions.

25 (b) The study must consist of the following:

26 (i) Development of proposed corridor governance, general powers,  
27 operating structure, legal instruments, and contracting requirements,  
28 in the context of the roles of relevant jurisdictions, including  
29 federal, state, provincial, and local governments;

30 (ii) Development of a long-term funding and financing strategy  
31 for project initiation, development, construction, and program  
32 administration of the high-speed corridor, building on the funding  
33 and financing chapter of the 2019 business case analysis and aligned  
34 with the recommendations of (b) (i) of this subsection; and

35 (iii) Development of recommendations for a department-led ultra-  
36 high speed corridor engagement plan for policy leadership from  
37 elected officials.

38 (c) This study must build on the results of the 2018 Washington  
39 state ultra high-speed ground transportation business case analysis

1 and the 2019 Washington state ultra high-speed ground transportation  
2 study findings report. The department shall consult with the  
3 transportation committees of the legislature regarding all issues  
4 related to proposed corridor governance.

5 (d) The development work referenced in (b) of this subsection is  
6 intended to identify and make recommendations related to specific  
7 entities, including interjurisdictional entities, policies, and  
8 processes required for the purposes of furthering preliminary  
9 analysis efforts for the ultra high-speed ground transportation  
10 corridor. This development work is not intended to authorize one or  
11 more entities to assume decision making authority for the design,  
12 construction, or operation of an ultra high-speed rail corridor.

13 (e) By December 1, 2020, the department shall provide to the  
14 governor and the transportation committees of the legislature a  
15 report of the study's findings regarding the three elements noted in  
16 this subsection. As applicable, the report should also be sent to the  
17 executive and legislative branches of government in the state of  
18 Oregon and appropriate government bodies in the province of British  
19 Columbia.

20 (2) The department is directed to continue to pursue efforts to  
21 reduce costs, increase ridership, and review Amtrak Cascades fares  
22 and fare schedules. Within thirty days of each annual cost/revenue  
23 reconciliation under the Amtrak service contract, the department  
24 shall report annual credits to the office of financial management and  
25 the legislative transportation committees. Annual credits from Amtrak  
26 to the department including, but not limited to, credits due to  
27 higher ridership, reduced level of service, and fare or fare schedule  
28 adjustments, must be used to offset corresponding amounts of the  
29 multimodal transportation account—state appropriation, which must be  
30 placed in reserve.

22       The appropriations in this section are subject to the following  
23 conditions and limitations:

24       (1) Except as provided otherwise in this section, the entire  
25 connecting Washington account—state appropriation and the entire

29 developed ((~~March 11, 2020~~)) April 23, 2021, Program - Highway

3 ~~congressional action not related to a specific project or purpose,~~)  
4 or the federal funds redistribution process must then be applied to  
5 highway and bridge preservation activities or fish passage barrier  
6 corrections (OBI4001).

7 (3) Within the motor vehicle account—state appropriation and  
8 motor vehicle account—federal appropriation, the department may  
9 transfer funds between programs I and P, except for funds that are  
10 otherwise restricted in this act. Ten days prior to any transfer, the  
11 department must submit its request to the office of financial  
12 management and the transportation committees of the legislature and  
13 consider any concerns raised. The department shall submit a report on  
14 fiscal year funds transferred in the prior fiscal year using this  
15 subsection as part of the department's annual budget submittal.

16 (4) The connecting Washington account—state appropriation  
17 includes up to (~~(\$1,835,325,000)~~) \$1,085,325,000 in proceeds from the

30 of the motor vehicle account—private/local appropriation, \$3,384,000  
31 of the transportation 2003 account (nickel account)—state  
32 appropriation, \$77,956,000 of the Alaskan Way viaduct replacement  
33 project account—state appropriation, and (~~(\$1,838,000)~~) \$854,000 of  
34 the multimodal transportation account—state appropriation are  
35 provided solely for the SR 99/Alaskan Way Viaduct Replacement project  
36 (809936Z). It is the intent of the legislature that the \$25,000,000  
37 increase in funding provided in the 2021-2023 fiscal biennium be  
38 covered by any legal damages paid to the state as a result of a  
39 lawsuit related to contractual provisions for construction and

1 delivery of the Alaskan Way viaduct replacement project. The  
2 legislature intends that the \$25,000,000 of the transportation  
3 partnership account—state funds be repaid when those damages are  
4 recovered.

12 vehicle account—private/local appropriation are provided solely for  
13 the US 395 North Spokane Corridor project (M00800R).

14 (11) (~~(\$82,991,000)~~) \$29,187,000 of the Interstate 405 and state  
15 route number 167 express toll lanes account—state appropriation is  
16 provided solely for the I-405/SR 522 to I-5 Capacity Improvements  
17 project (L2000234) for activities related to adding capacity on  
18 Interstate 405 between state route number 522 and Interstate 5, with  
19 the goals of increasing vehicle throughput and aligning project  
20 completion with the implementation of bus rapid transit in the  
21 vicinity of the project.

22 (12) (a) (~~(\$422,099,000)~~) \$356,007,000 of the connecting  
23 Washington account—state appropriation and (~~(\$456,000)~~) \$400,000 of  
24 the motor vehicle account—private/local appropriation are provided  
25 solely for the SR 520 Seattle Corridor Improvements - West End  
26 project (M00400R).

27 (b) Recognizing that the department of transportation requires  
28 full possession of parcel number 1-23190 to complete the Montlake  
29 Phase of the West End project, the department is directed to:

30 (i) Work with the operator of the Montlake boulevard market  
31 located on parcel number 1-23190 to negotiate a lease allowing  
32 continued operations up to January 1, 2020. After that time, the  
33 department shall identify an area in the vicinity of the Montlake  
34 property for a temporary market or other food service to be provided  
35 during the period of project construction. Should the current  
36 operator elect not to participate in providing that temporary  
37 service, the department shall then develop an outreach plan with the  
38 city to solicit community input on the food services provided, and  
39 then advertise the opportunity to other potential vendors. Further,

1 the department shall work with the city of Seattle and existing  
2 permit processes to facilitate vendor access to and use of the area  
3 in the vicinity of the Montlake property.

4 (ii) Upon completion of the Montlake Phase of the West End  
5 project (current anticipated contract completion of 2023), WSDOT  
6 shall sell that portion of the property not used for permanent  
7 transportation improvements and initiate a process to convey that  
8 surplus property to a subsequent owner.

9 (c) \$60,000 of the motor vehicle account—state appropriation is  
10 provided solely for grants to nonprofit organizations located in a  
11 city with a population exceeding six hundred thousand persons and  
12 that empower artists through equitable access to vital expertise,  
13 opportunities, and business services. Funds may be used only for the  
14 purpose of preserving, commemorating, and sharing the history of the  
15 city of Seattle's freeway protests and making the history of activism  
16 around the promotion of more integrated transportation and land use  
17 planning accessible to current and future generations through the  
18 preservation of Bent 2 of the R. H. Thompson freeway ramp.

19 (13) It is the intent of the legislature that for the I-5 JBLM  
20 Corridor Improvements project (M00100R), the department shall  
21 actively pursue \$50,000,000 in federal funds to pay for this project  
22 to supplant state funds in the future. \$50,000,000 in connecting  
23 Washington account funding must be held in unallotted status during  
24 the 2021-2023 fiscal biennium. These funds may only be used after the  
25 department has provided notice to the office of financial management  
26 that it has exhausted all efforts to secure federal funds from the  
27 federal highway administration and the department of defense.

28 (14) (~~(\$310,469,000)~~) \$172,911,000 of the connecting Washington  
29 account—state appropriation (~~(is)~~), \$15,099,000 of the motor vehicle  
30 account—private/local appropriation, and \$1,500,000 of the motor  
31 vehicle account—federal appropriation are provided solely for the SR  
32 167/SR 509 Puget Sound Gateway project (M00600R).

33 (a) Any savings on the project must stay on the Puget Sound  
34 Gateway corridor until the project is complete.

35 (b) Proceeds from the sale of any surplus real property acquired  
36 for the purpose of building the SR 167/SR 509 Puget Sound Gateway  
37 (M00600R) project must be deposited into the motor vehicle account  
38 for the purpose of constructing the project.

1 (c) In making budget allocations to the Puget Sound Gateway  
2 project, the department shall implement the project's construction as  
3 a single corridor investment. The department shall develop a  
4 coordinated corridor construction and implementation plan for state  
5 route number 167 and state route number 509 in collaboration with  
6 affected stakeholders. Specific funding allocations must be based on  
7 where and when specific project segments are ready for construction  
8 to move forward and investments can be best optimized for timely  
9 project completion. Emphasis must be placed on avoiding gaps in fund  
10 expenditures for either project.

11 (d) It is the legislature's intent that the department shall  
12 construct a full single-point urban interchange at the junction of  
13 state route number 161 (Meridian avenue) and state route number 167  
14 and a full single-point urban interchange at the junction of state  
15 route number 509 and 188th Street. If the department receives  
16 additional funds from an outside source for this project after the  
17 base project is fully funded, the funds must first be applied toward  
18 the completion of these two full single-point urban interchanges.

19 (e) In designing the state route number 509/state route number  
20 516 interchange component of the SR 167/SR 509 Puget Sound Gateway  
21 project (M00600R), the department shall make every effort to utilize  
22 the preferred "4B" design.

23 (f) The department shall explore the development of a multiuse  
24 trail for bicyclists, pedestrians, skateboarders, and similar users  
25 along the SR 167 right-of-way acquired for the project to connect a  
26 network of new and existing trails from Mount Rainier to Point  
27 Defiance Park.

28 (g) If sufficient bonding authority to complete this project is  
29 not provided within chapter 421, Laws of 2019 (addressing tolling),  
30 or within a bond authorization act referencing chapter 421, Laws of  
31 2019 by June 30, 2019, it is the intent of the legislature to return  
32 the Puget Sound Gateway project (M00600R) to its previously  
33 identified construction schedule by moving \$128,900,000 in connecting  
34 Washington account—state appropriation back to the 2027-2029 biennium  
35 from the 2023-2025 biennium on the list referenced in subsection (2)  
36 of this section. If sufficient bonding authority is provided, it is  
37 the intent of the legislature to advance the project to allow for  
38 earlier completion and inflationary savings.

39 (15) It is the intent of the legislature that, for the I-5/North  
40 Lewis County Interchange project (L2000204), the department develop

1 and design the project with the objective of significantly improving  
2 access to the industrially zoned properties in north Lewis county.  
3 The design must consider the county's process of investigating  
4 alternatives to improve such access from Interstate 5 that began in  
5 March 2015.

6 (16) (~~(\$1,029,000)~~) \$1,030,000 of the transportation partnership  
7 account—state appropriation is provided solely for the U.S. 2 Trestle  
8 IJR project (L1000158).

9 (17) The department shall itemize all future requests for the  
10 construction of buildings on a project list and submit them through  
11 the transportation executive information system as part of the  
12 department's annual budget submittal. It is the intent of the  
13 legislature that new facility construction must be transparent and  
14 not appropriated within larger highway construction projects.

15 (18) Any advisory group that the department convenes during the  
16 2019-2021 fiscal biennium must consider the interests of the entire  
17 state of Washington.

18 (19) The legislature finds that there are sixteen companies  
19 involved in wood preserving in the state that employ four hundred  
20 workers and have an annual payroll of fifteen million dollars. Before  
21 the department's switch to steel guardrails, ninety percent of the  
22 twenty-five hundred mile guardrail system was constructed of  
23 preserved wood and one hundred ten thousand wood guardrail posts were  
24 produced annually for state use. Moreover, the policy of using steel  
25 posts requires the state to use imported steel. Given these findings,  
26 where practicable, and until June 30, 2021, the department shall  
27 include the design option to use wood guardrail posts, in addition to  
28 steel posts, in new guardrail installations. The selection of posts  
29 must be consistent with the agency design manual policy that existed  
30 before December 2009.

31 (20) (a) For connecting Washington projects that have already  
32 begun and are eligible for the authority granted in section 601 (~~(of~~  
33 ~~this act)~~), chapter 219, Laws of 2020, the department shall  
34 prioritize advancing the following projects if expected  
35 reappropriations become available:

- 36 (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);
- 37 (ii) SR 305 Construction - Safety Improvements (N30500R);
- 38 (iii) SR 14/Bingen Underpass (L2220062);
- 39 (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);
- 40 (v) US Hwy 2 Safety (N00200R);

1 (vi) US-12/Walla Walla Corridor Improvements (T20900R);  
2 (vii) I-5 JBLM Corridor Improvements (M00100R);  
3 (viii) I-5/Slater Road Interchange - Improvements (L1000099);  
4 (ix) SR 510/Yelm Loop Phase 2 (T32700R); or  
5 (x) SR 520/124th St Interchange (Design and Right of Way)  
6 (L1000098).

7 (b) To the extent practicable, the department shall use the  
8 flexibility and authority granted in this section and in section 601  
9 of this act to minimize the amount of reappropriations needed each  
10 biennium.

11 (c) The advancement of a project may not hinder the delivery of  
12 the projects for which the reappropriations are necessary for the  
13 2021-2023 fiscal biennium.

14 (21) The legislature continues to prioritize the replacement of  
15 the state's aging infrastructure and recognizes the importance of  
16 reusing and recycling construction aggregate and recycled concrete  
17 materials in our transportation system. To accomplish Washington  
18 state's sustainability goals in transportation and in accordance with  
19 RCW 70.95.805, the legislature reaffirms its determination that  
20 recycled concrete aggregate and other transportation building  
21 materials are natural resource construction materials that are too  
22 valuable to be wasted and landfilled, and are a commodity as defined  
23 in WAC 173-350-100.

24 Further, the legislature determines construction aggregate and  
25 recycled concrete materials substantially meet widely recognized  
26 international, national, and local standards and specifications  
27 referenced in American society for testing and materials, American  
28 concrete institute, Washington state department of transportation,  
29 Seattle department of transportation, American public works  
30 association, federal aviation administration, and federal highway  
31 administration specifications, and are described as necessary and  
32 desirable products for recycling and reuse by state and federal  
33 agencies.

34 As these recyclable materials have well established markets, are  
35 substantially a primary or secondary product of necessary  
36 construction processes and production, and are managed as an item of  
37 commercial value, construction aggregate and recycled concrete  
38 materials are exempt from chapter 173-350 WAC.

39 (22) (a) (~~(\$17,500,000)~~) \$8,072,000 of the motor vehicle account—  
40 state appropriation (~~(is)~~) and \$7,329,000 of the motor vehicle

4 ~~project (L2000370). ((If at least a \$9,000,000 transfer is not~~  
5 ~~authorized in section 406(29), chapter 416, Laws of 2019, then~~  
6 ~~\$9,000,000 of the motor vehicle account state appropriation lapses.))~~

7 (b) ~~((Of the amount provided in this subsection, \$7,780,000 of~~

13 ~~office of financial management shall consult with the chairs and~~  
14 ~~ranking members of the transportation committees of the legislature~~  
15 ~~prior to making a decision to allot these funds.~~

16 ~~(e))~~ The work of this project office includes, but is not  
17 limited to, the reevaluation of the purpose and need identified for  
18 the project previously known as the Columbia river crossing, the  
19 reevaluation of permits and development of a finance plan, the  
20 reengagement of key stakeholders and the public, and the reevaluation  
21 of scope, schedule, and budget for a reinvigorated bistate effort for  
22 replacement of the Interstate 5 Columbia river bridge. When  
23 reevaluating the finance plan for the project, the department shall  
24 assume that some costs of the new facility may be covered by tolls.  
25 The project office must also study the possible different governance  
26 structures for a bridge authority that would provide for the joint  
27 administration of the bridges over the Columbia river between Oregon  
28 and Washington. As part of this study, the project office must  
29 examine the feasibility and necessity of an interstate compact in  
30 conjunction with the national center for interstate compacts.

31 ~~((d))~~ (c) Within the amount provided in this subsection, the  
32 department must implement chapter 137, Laws of 2019 (projects of  
33 statewide significance).

34 ~~((e))~~ (d) The department shall have as a goal to:

35 (i) Reengage project stakeholders and reevaluate the purpose and  
36 need and environmental permits by July 1, 2020;

37 (ii) Develop a finance plan by December 1, 2020; and

38 (iii) Have made significant progress toward beginning the  
39 supplemental environmental impact statement process by June 30, 2021.

1 The department shall aim to provide a progress report on these  
2 activities to the governor and the transportation committees of the  
3 legislature by December 1, 2019, and a final report to the governor  
4 and the transportation committees of the legislature by December 1,  
5 2020.

6 ~~((23))~~ ~~(((\$17,500,000 of the motor vehicle account state

15 Barrier Removal project (OBI4001) with the intent of fully complying  
16 with the court injunction by 2030.

17 (b) Of the amounts provided in this subsection, \$320,000 of the  
18 connecting Washington account—state appropriation is provided solely  
19 to remove the fish passage barrier on state route number 6 that  
20 interfaces with Boistfort Valley water utilities near milepost 46.6.

21 (c) The department shall coordinate with the Brian Abbott fish  
22 passage barrier removal board to use a watershed approach to maximize  
23 habitat gain by replacing both state and local culverts. The  
24 department shall deliver high habitat value fish passage barrier  
25 corrections that it has identified, guided by the following factors:  
26 Opportunity to bundle projects, ability to leverage investments by  
27 others, presence of other barriers, project readiness, other  
28 transportation projects in the area, and transportation impacts.

29 (d) The department must keep track of, for each barrier removed:  
30 (i) The location; (ii) the amount of fish habitat gain; and (iii) the  
31 amount spent to comply with the injunction.

32 (e) It is the intent of the legislature that for the amount  
33 listed for the 2021-2023 biennium for the Fish Passage Barrier  
34 Removal project (OBI4001) on the LEAP list referenced in subsection  
35 (1) of this section, that accrued practical design savings deposited  
36 in the transportation future funding program account be used to help  
37 fund the cost of fully complying with the court injunction by 2030.

38 ~~((25))~~ (24) (a) The Washington state department of  
39 transportation is directed to pursue compliance with the *U.S. v.*

1 Washington permanent injunction by delivering culvert corrections  
2 within the injunction area guided by the principle of providing the  
3 greatest fisheries habitat gain at the earliest time and considering  
4 the following factors: Opportunity to bundle projects, tribal  
5 priorities, ability to leverage investments by others, presence of  
6 other barriers, project readiness, culvert condition, other  
7 transportation projects in the area, and transportation impacts.

8 (b) The department and Brian Abbott fish barrier removal board,  
9 while providing the opportunity for stakeholders, tribes, and  
10 government agencies to give input on a statewide culvert remediation  
11 plan, must provide updates on the development of the statewide  
12 culvert remediation plan to the capital budget, ways and means, and  
13 transportation committees of the legislature by November 1, 2020, and  
14 March 15, 2021. The first update must include a project timeline and  
15 plan to ensure that all state agencies with culvert correction  
16 programs are involved in the creation of the comprehensive plan. The  
17 department and Brian Abbott fish barrier removal board must submit  
18 the final comprehensive statewide culvert remediation plan and the  
19 process by which it will be adaptively managed over time to the  
20 governor and the legislative fiscal committees by June 30, 2021.

27 in significant cost savings changes in terms of construction or the  
28 long-term maintenance and operations of the vessel. The vendor must  
29 allow for exercising the options without a penalty. It is the intent  
30 of the legislature to provide an additional \$88,000,000 in funding in  
31 the 2021-23 biennium. The reduction provided in this subsection is an  
32 assumed underrun pursuant to subsection (11) of this section. The  
33 commencement of construction of new vessels for the ferry system is  
34 important not only for safety reasons, but also to keep skilled  
35 marine construction jobs in the Puget Sound region and to sustain the  
36 capacity of the region to meet the ongoing construction and  
37 preservation needs of the ferry system fleet of vessels. The  
38 legislature has determined that the current vessel procurement  
39 process must move forward with all due speed, balancing the interests

1 of both the taxpayers and shipyards. To accomplish construction of  
2 vessels in accordance with RCW 47.60.810, the prevailing shipbuilder,  
3 for vessels initially funded after July 1, 2020, is encouraged to  
4 follow the historical practice of subcontracting the construction of  
5 ferry superstructures to a separate nonaffiliated contractor located  
6 within the Puget Sound region, that is qualified in accordance with  
7 RCW 47.60.690.

8 (10) The capital vessel replacement account—state appropriation  
9 includes up to (~~(\$96,030,000)~~) \$35,547,000 in proceeds from the sale  
10 of bonds authorized in RCW 47.10.873.

11 (~~((12))~~) (11) The appropriations in this section include savings  
12 due to anticipated project underruns; however, it is unknown which  
13 projects will provide savings. The legislature intends to provide  
14 sufficient flexibility for the department to manage to this savings  
15 target. To provide this flexibility, the office of financial  
16 management may authorize, through an allotment modification,  
17 reductions in the appropriated amounts that are provided solely for a  
18 particular purpose within this section subject to the following  
19 conditions and limitations:

20 (a) The department must confirm that any modification requested  
21 under this subsection of amounts provided solely for a specific  
22 purpose are not expected to be used for that purpose in this  
23 biennium;

24 (b) Allotment modifications authorized under this subsection may  
25 not result in increased funding for any project beyond the amount  
26 provided for that project in the 2019-2021 fiscal biennium in LEAP  
27 Transportation Document (~~(2020)~~) 2021-2 ALL PROJECTS as developed  
28 (~~(March 11, 2020)~~) April 23, 2021;

29 (c) Allotment modifications authorized under this subsection  
30 apply only to amounts appropriated in this section from the following  
31 accounts: Puget Sound capital construction account—state,  
32 transportation partnership account—state, and capital vessel  
33 replacement account—state; and

34 (d) By December 1, 2020, the department must submit a report to  
35 the transportation committees of the legislature regarding the  
36 actions taken under this subsection.

11 reduced future costs to repair wear and tear on state and local  
12 highways due to fewer annual truck trips (reduced vehicle miles  
13 traveled). The amounts provided in this subsection are not a  
14 commitment for future legislatures, but it is the legislature's  
15 intent that future legislatures will work to approve biennial  
16 appropriations until the full \$7,337,000 cost of this project is  
17 reimbursed.

18 (5) (a) \$716,000 of the essential rail assistance account—state

27 legislature. The advancement of the project may not hinder the  
28 delivery of the projects for which the reappropriations are necessary  
29 for the 2021-2023 fiscal biennium.
