Background:

The Liquor and Cannabis Board (LCB) issues a variety of liquor licenses and permits authorizing activities related to the manufacture, distribution, sale, service, use, or consumption of beer, wine, spirits, and other liquor. There are unique privileges and restrictions associated with each liquor license or permit.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not part of the legislation nor does it constitute a statement of legislative intent.

Permits issued by the LCB include, but are not limited to, a banquet permit and a permit to consume liquor on the premises of a business without a liquor license who, pursuant to LCB rules, may serve alcohol free of charge to employees and invited guests of the business.

Among liquor licenses issued by the LCB authorizing the sale of liquor are: (1) a beer and wine private club license; (2) a spirits, beer, and wine private club license; and (3) a license equivalent to the spirits, beer, and wine restaurant license except for a business that does not serve the general public but, through membership qualification, selectively restricts admission to the business.
