
HOUSE BILL 2314

State of Washington

68th Legislature

2024 Regular Session

By Representatives Thai, Farivar, Reed, Ortiz-Self, Davis, Simmons, and Pollet

Read first time 01/11/24. Referred to Committee on Health Care & Wellness.

1 AN ACT Relating to statewide health care coordination and
2 communication regarding individuals housed in confinement settings;
3 and adding a new chapter to Title 70 RCW.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 NEW SECTION. **Sec. 1.** The legislature finds that the growing
6 number of projects and programs between and within government
7 agencies related to the health of individuals housed in confinement
8 settings create challenges in coordination and communication. These
9 health issues include mental health, traumatic brain injury,
10 substance use, communicable disease and infection prevention, health
11 preventive services, and excess mortality.

12 The legislature further finds that health in correctional
13 institutions and other confinement settings is vital to public health
14 and reentry because many individuals in these settings interact with
15 and return to their communities. Statewide coordination and
16 communication efforts for treating individuals in correctional and
17 other confinement facilities will positively influence the community
18 and reentry of such individuals.

19 The legislature intends to address the lack of coordination and
20 communication caused by the numerous projects and programs relating
21 to individuals housed in confinement settings by creating a new

1 council within the department of health that will be supported by
2 representation from state agencies, local governments, federally
3 recognized tribes, and other relevant parties.

4 NEW SECTION. **Sec. 2.** The definitions in this section apply
5 throughout this chapter unless the context clearly requires
6 otherwise.

11 court administrators, and federal, local, and community
12 organizations; and

13 (d) Improve communication and information sharing between the
14 state and its federal partners to proactively address public health
15 issues.
