

RCW 70A.245.020 Postconsumer recycled content. (1) (a) Beginning January 1, 2023, producers that offer for sale, sell, or distribute in or into Washington:

(i) Beverages other than wine in 187 milliliter plastic beverage containers and dairy milk in plastic beverage containers must meet minimum postconsumer recycled content requirements established under subsection (4) of this section; and

(ii) Plastic trash bags must meet minimum postconsumer recycled content requirements established under subsection (6) of this section.

(b) Beginning January 1, 2025, producers that offer for sale, sell, or distribute in or into Washington household cleaning and personal care products in plastic household cleaning and personal care product containers must meet minimum postconsumer recycled content as required under subsection (5) of this section.

(c) Beginning January 1, 2028, producers that offer for sale, sell, or distribute in or into Washington wine in 187 milliliter plastic beverage containers or dairy milk in plastic beverage containers must meet minimum postconsumer recycled content as required under subsection (4) of this section.

(2) (a) On or before April 1, 2022, and annually thereafter, a producer that offers for sale, sells, or distributes in or into Washington covered products must register with the department individually or through a third-party representative registering on behalf of a group of producers.

(b) The registration information submitted to the department under this section must include a list of the producers of covered products and the brand names of the covered products represented in the registration submittal. Beginning April 1, 2024, for plastic trash bags and plastic beverage containers other than wine in 187 milliliter plastic beverage containers and dairy milk in plastic beverage containers, April 1, 2026, for plastic household and personal care product containers, and April 1, 2029, for wine in 187 milliliter plastic beverage containers and dairy milk, a producer may submit registration information at the same time as the information submitted through the annual reporting required under RCW 70A.245.030.

(3) (a) By January 31, 2022, and every January 31st thereafter, the department must:

(i) Prepare an annual workload analysis for public comment that identifies the annual costs it expects to incur to implement, administer, and enforce this section and RCW 70A.245.030 through 70A.245.060 and 70A.245.090 (1), (2), and (4), including rule making, in the next fiscal year for each category of covered products;

(ii) Determine a total annual fee payment by producers or their third-party representatives for each category of covered products that is adequate to cover, but not exceed, the workload identified in (a) (i) of this subsection;

(iii) Until rules are adopted under (a) (iv) of this subsection, issue a general order to all entities falling within the definition of producer. The department must equitably determine fee amounts for an individual producer or third-party representatives within each category of covered product;

(iv) By 2024, adopt rules to equitably determine annual fee payments by producers or their third-party representatives within each category of covered product. Once such rules are adopted, the general order issued under (a) (iii) of this subsection is no longer effective; and

(v) Send notice to producers or their third-party representatives of fee amounts due consistent with either the general order issued under (a)(iii) of this subsection or rules adopted under (a)(iv) of this subsection.

(b) The department must:

(i) Apply any remaining annual payment funds from the current year to the annual payment for the coming year, if the collected annual payment exceeds the department's costs for a given year; and

(ii) Increase annual payments for the coming year to cover the department's costs, if the collected annual payment was less than the department's costs for a given year.

(c) By April 1, 2022, and every April 1st thereafter, producers or their third-party representative must submit a fee payment as determined by the department under (a) of this subsection.

(4) A producer of a beverage in a plastic beverage container must meet the following annual minimum postconsumer recycled content percentage on average for the total quantity of plastic beverage containers, by weight, that are sold, offered for sale, or distributed in or into Washington by the producer effective:

(a) For beverages except wine in 187 milliliter plastic beverage containers and dairy milk:

(i) January 1, 2023, through December 31, 2025: No less than 15 percent postconsumer recycled content plastic by weight;

(ii) January 1, 2026, through December 31, 2030: No less than 25 percent postconsumer recycled content plastic by weight; and

(iii) On and after January 1, 2031: No less than 50 percent postconsumer recycled content plastic by weight.

(b) For wine in 187 milliliter plastic beverage containers and dairy milk:

(i) January 1, 2028, through December 31, 2030: No less than 15 percent postconsumer recycled content plastic by weight;

(ii) January 1, 2031, through December 31, 2035: No less than 25 percent postconsumer recycled content plastic by weight; and

(iii) On and after January 1, 2036: No less than 50 percent postconsumer recycled content plastic by weight.

(5) A producer of household cleaning and personal care products in plastic containers must meet the following annual minimum postconsumer recycled content percentage on average for the total quantity of plastic containers, by weight, that are sold, offered for sale, or distributed in or into Washington by the producer effective:

(a) January 1, 2025, through December 31, 2027: No less than 15 percent postconsumer recycled content plastic by weight;

(b) January 1, 2028, through December 31, 2030: No less than 25 percent postconsumer recycled content plastic by weight; and

(c) On and after January 1, 2031: No less than 50 percent postconsumer recycled content plastic by weight.

(6) A producer of plastic trash bags must meet the following annual minimum postconsumer recycled content percentage on average for the total quantity of plastic trash bags, by weight, that are sold, offered for sale, or distributed in or into Washington by the producer effective:

(a) January 1, 2023, through December 31, 2024: No less than 10 percent postconsumer recycled content plastic by weight;

(b) January 1, 2025, through December 31, 2026: No less than 15 percent postconsumer recycled content plastic by weight; and

(c) On and after January 1, 2027: No less than 20 percent postconsumer recycled content plastic by weight.

(7) (a) Beginning January 1, 2024, or when rule making is complete, whichever is sooner, the department may, on an annual basis on January 1st, review and determine for the following year whether to adjust the minimum postconsumer recycled content percentage required for a type of container or product or category of covered products pursuant to subsection (4), (5), or (6) of this section. The department's review may be initiated by the department or at the petition of a producer or a covered product manufacturing industry not more than once annually. When submitting a petition, producers or a producer manufacturing industry must provide necessary information that will allow the department to make a determination under (b) of this subsection.

(b) In making a determination pursuant to this subsection, the department must consider, at a minimum, all of the following factors:

(i) Changes in market conditions, including supply and demand for postconsumer recycled content plastics, collection rates, and bale availability both domestically and globally;

(ii) Recycling rates;

(iii) The availability of recycled plastic suitable to meet the minimum postconsumer recycled content requirements pursuant to subsection (4), (5), or (6) of this section, including the availability of high quality recycled plastic, and food-grade recycled plastic from recycling programs;

(iv) The capacity of recycling or processing infrastructure;

(v) The technical feasibility of achieving the minimum postconsumer recycled content requirements in covered products that are regulated under 21 C.F.R., chapter I, subchapter G, 7 U.S.C. Sec. 136, 15 U.S.C. Sec. 1471-1477, 49 C.F.R. Sec. 178.33b, 49 C.F.R. Sec. 173, 40 C.F.R. Sec. 152.10, 15 U.S.C. Sec. 1261-1278, 49 U.S.C. 5101 et seq., 49 C.F.R. Sec. 178.509, 49 C.F.R. Sec. 179.522, 49 C.F.R. Sec. 178.600-609, and other federal laws; and

(vi) The progress made by producers in achieving the goals of this section.

(c) Under (a) of this subsection:

(i) The department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages for the year under review required pursuant to subsection (4), (5), or (6) of this section.

(ii) For plastic household cleaning and personal care product containers, the department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages for the year under review required pursuant to subsection (5) of this section or below a minimum of 10 percent.

(iii) For plastic trash bags, the department may not adjust the minimum postconsumer recycled content requirements above the minimum postconsumer recycled content percentages for the year under review required pursuant to subsection (6) of this section or below the minimum percentage required in subsection (6)(a) of this section.

(d) A producer or the manufacturing industry for a covered product may appeal a decision by the department to adjust postconsumer recycled content percentages under (a) of this subsection or to temporarily exclude covered products from minimum postconsumer recycled content requirements under subsection (8) of this section to the pollution control hearings board within 30 days of the department's determination.

(8) The department must temporarily exclude from minimum postconsumer recycled content requirements for the upcoming year any

types of covered products in plastic containers for which a producer annually demonstrates to the department by December 31st of a given year that the achievement of postconsumer recycled content requirements in the container material is not technically feasible in order to comply with health or safety requirements of federal law, including the federal laws specified in subsection (7)(b)(v) of this section. A producer must continue to register and report consistent with the requirements of this chapter for covered products temporarily excluded from minimum postconsumer recycled content requirements under this subsection.

(9) A producer that does not achieve the postconsumer recycled content requirements established under this section is subject to penalties established in RCW 70A.245.040.

(10)(a) A city, town, county, or municipal corporation may not implement local recycled content requirements for a covered product that is subject to minimum postconsumer recycled content requirements established in this section.

(b) A city, town, county, or municipal corporation may establish local purchasing requirements that include recycled content standards that exceed the minimum recycled content requirements established by this chapter for plastic household cleaning and personal care product containers or plastic trash bags purchased by a city, town, or municipal corporation, or its contractor.

(11) The department may enter into contracts for the services required to implement this chapter and related duties of the department.

(12) In-state distributors, wholesalers, and retailers in possession of covered products manufactured before the date that postconsumer recycled content requirements become effective may exhaust their existing stock through sales to the public. [2021 c 313 § 3.]

Finding—Intent—2021 c 313: See note following RCW 70A.245.010.
