

**RCW 71.24.595 Statewide treatment and operating standards for opioid treatment programs—Evaluation and report.** (1) To achieve more medication options, the authority must work with the department and the authority's medicaid managed care organizations, to eliminate barriers and promote access to effective medications known to address opioid use disorders at state-certified opioid treatment programs. Medications include, but are not limited to: Methadone, buprenorphine, and naltrexone. The authority must encourage the distribution of naloxone to patients who are at risk of an opioid overdose.

(2) The department, in consultation with opioid treatment program service providers and counties and cities, shall establish statewide treatment standards for licensed or certified opioid treatment programs. The department shall enforce these treatment standards. (3) The department, in consultation with opioid treatment programs and counties, shall establish statewide operating standards for certified opioid treatment programs. The department shall enforce these operating standards.
