

Chapter 80.60 RCW
NET METERING OF ELECTRICITY

Sections

- 80.60.005 Findings.
- 80.60.010 Definitions.
- 80.60.020 Available on first-come, first-served basis—
Interconnected metering systems allowed—Charges to customer-generator—Consumer-owned utility may develop standard rate or tariff schedule.
- 80.60.030 Net energy measurement, charges for kilowatt-hour consumption, and credits for excess kilowatt-hour generation—Required calculation—Unused credit—Net metering system—Customer-generator meter aggregation.
- 80.60.040 Safety, power quality, and interconnection requirements—Customer-generator's expense—Commission may adopt additional requirements.
